INNOVATING FOR TOMORROW: SUSTAINING EXCELLENCE BEYOND BOUNDARIES

COVER RATIONALE

Innovating for Tomorrow: Sustaining Excellence Beyond Boundaries embodies our commitment to pioneering the future of facilities management through the integration of cutting-edge technologies. Our dedication to excellence is reflected in our relentless pursuit of sustainable practices and the delivery of top-tier services, ensuring that we lead the way in efficiency, customer satisfaction, and environmental stewardship. By transcending geographical and sectoral boundaries, we embrace a global vision, driving innovation and excellence across all facets of our operations, shaping the future of our industry and the world at large.

BASIS OF THIS REPORT

REPORTING THAT IS BUILT ON BENCHMARKED PRINCIPLES, FRAMEWORKS AND GUIDELINES

In today’s fast-paced and highly competitive business world, UEM Edgenta acknowledges the importance of technology, innovation and digitalisation with a strong focus on sustainability as key drivers of our success.

By leveraging advanced technology, we can create new opportunities, streamline processes, increase efficiency, optimise cost and enhance our client experience. This will inevitably lead to higher revenue and growth for our company.

As we navigate the ever-evolving business landscape, it is crucial to embrace technology and innovation to gain insights into our client preferences and needs as well as market trends. This enables us to identify areas where our products and services could be improved, offering us opportunities to develop new offerings and enhance our asset management and infrastructure solutions for our clients. While we promote the best interests of our shareholders, we will uphold our commitments to Environmental, Social, and Governance (“ESG”) to ensure our company acts responsibly and ethically towards the community and its surroundings.

SCOPE AND BOUNDARIES

The Annual Report 2023 (“report”) covers the activities of UEM Edgenta including our subsidiaries, joint operations, joint ventures and associates from 1 January 2023 to 31 December 2023 (“FY2023”) unless otherwise stated.

Meanwhile, the Sustainability Statement 2023 (“statement”) presented within this report is the seventh that we have published on our continuing sustainability reporting journey. The statement showcases our key sustainability initiatives, commitments and performance in relation to sustainability material matters that we have prioritised for FY2023.

The statement encompasses our operations in Malaysia and other geographical locations we operate in, namely Singapore, Taiwan, Indonesia, the United Arab Emirates (“UAE”) and the Kingdom of Saudi Arabia (“KSA”).

The reporting period of the statement aligns with that of the report.

OUR TARGETED READERS

This report goes beyond financials to showcase the value we deliver to all our stakeholders. We aim to achieve this by highlighting initiatives that positively impact our clients, employees, regulators and the communities we collaborate with.

REPORTING GUIDELINES AND FRAMEWORKS

We are confident that this report will provide a comprehensive and balanced picture of our FY2023 performance. We leveraged internationally recognised integrated reporting frameworks, as detailed below to ensure this report addresses all significant issues. This transparency allows us to accurately reflect our short, medium and long-term strategic commitments.

Corporate Section

- ▶ Companies Act 2016
- ▶ Bursa Malaysia Securities Berhad’s Main Market Listing Requirements
- ▶ Malaysian Code on Corporate Governance
- ▶ Bursa Malaysia’s Corporate Governance Guide (4th edition)
- ▶ Bursa Malaysia’s MD&A Disclosure Guide
- ▶ Bursa Malaysia’s Sustainability Reporting Guide (3rd edition)
- ▶ International Integrated Reporting Framework (“International <IR> Framework”)
- ▶ The Global Reporting Initiative (“GRI”) Standards
- ▶ The United Nations’ Sustainable Development Goals (“UN SDGs”)

Financial Section

- ▶ Bursa Malaysia Securities Berhad’s Main Market Listing Requirements
- ▶ Malaysian Financial Reporting Standards (“MFRS”)
- ▶ International Financial Reporting Standards (“IFRS”)
- ▶ Requirements of the Companies Act 2016 in Malaysia

This report’s credibility is bolstered by our strong governance practices and independent verification by Ernst & Young PLT, our auditors for financial information.

FORWARD-LOOKING STATEMENTS

This report includes statements about the Group’s forecast future performance. These predictions are based on our current understanding and circumstances, which could change. As a result, many factors could cause actual results to be significantly different from what is predicted here.

FEEDBACK

We welcome your feedback on this report. For enquiries, please contact:

we are guided by integrity to build trust

WHAT WE DO

UEM Edgenta stands at the forefront as a premier Asset Management and Infrastructure Solutions provider in the region, driven by a mission to Enhance Assets and Enrich Lives. Our company is publicly traded on Bursa Malaysia (KLSE: EDGENTA).

We are committed to the Edgenta Way, which ensures the delivery of superior service to our clients by exceeding expectations and leveraging technology-driven solutions for greater efficiency, all while prioritising safety across our operations for the wellbeing of all stakeholders.

Our areas of expertise include Healthcare Support and Property & Facility Solutions within our Asset Management domain, and Infrastructure Services along with Asset Consultancy in our Infrastructure Solutions division. We utilise the latest technology to forge innovative and avant-garde solutions, with a strong commitment to advancing Environmental, Social and Governance ("ESG") principles through our sustainability initiatives.

We provide our clients with a comprehensive range of services across the entire asset lifecycle, encompassing consultancy, procurement, construction planning, operations and maintenance, and including optimisation, rehabilitation and upgrades. Our operations span across Malaysia, Singapore, Taiwan, Indonesia, the United Arab Emirates ("UAE") and the Kingdom of Saudi Arabia ("KSA").

OVERVIEW OF UEM EDGENTA

2023 KEY SIGNIFICANT EVENTS

PROMOTING EXCELLENCE AND IMPROVEMENT IN CORPORATE REPORTING

Clinched Silver In The Excellence Awards (Companies With Less Than RM2 Billion In Market Capitalisation) in the National Annual Corporate Reporting Awards ("NACRA") 2023

EXPANDING OUR GLOBAL FOOTPRINT

Acquired a 60% stake in KAIZEN Group, a distinguished tech-enabled property management services company based in the UAE, to enhance the delivery of integrated services and to craft bespoke lifestyle experiences, all underpinned by cutting-edge technology and sustainable solutions

Signed three Memorandums of Business Exploration ("MOBEs") with partners; DISRUPT-X DMCC ("Disrupt-X"), ZAIN TECHNOLOGIES LLC ("ZainTech") and Tadoom to focus on the development of smart cities and sustainability in the built environment

Entered into three MOBE partnerships with WAS, First Ambulance Services and Optima Technic, to strengthen our position in the international healthcare business

AMPLIFYING GROWTH AND INNOVATION

Edgenta NXT partnered with Disrupt-X to present the 'Cracking IoT Conference Chapter 2' that brought together various global industry leaders to discuss and deliberate on the key benefits of Internet of Things ("IoT"), 5G and Digitalisation towards shaping a digitally empowered nation

Won the award for "Fastest Construction of FHyICU Building During COVID-19 Pandemic" by the Malaysia Book of Records ("MBOR"), reflecting UEM Edgenta's steady commitment to innovation and exceptional project execution in the face of challenging circumstances

UEM Edgenta hosted the "Innovation Showcase" that coincided with our Innovation Month and 2023's Investor Day to show our cutting-edge innovations to our investors

UEM Edgenta's collaboration with Amanah Malaysia Bhd to launch Asia's first Syariah compliant Supplier Financing Programme ("SFP"), earned recognition at The Asset's "Triple A" Islamic Finance Awards 2023

ACCELERATING OUR COMMITMENT TO DRIVING A SUSTAINABLE FUTURE

- Repositioned Opus Consultants to be the leading provider of energy and sustainability solutions to capitalise on the emerging green business opportunities stemming from the National Energy Transition Roadmap and the broader infrastructure and healthcare sectors
- Pledged RM200 million to the Zero-Capex Programme in Sarawak and Peninsular Malaysia to provide end-to-end energy and sustainability solutions

UEM Edgenta was honoured with the "World Sustainability Icon Leadership Lifetime Achievement Award" and the prestigious "Outstanding World ESG Impact Award" at the 2023 World Green & Sustainability Summit ("WGSS")

The launch of UEM Edgenta's Net Zero Targets demonstrates our commitment to environmental responsibility, with goals set to reduce operational greenhouse gasses ("GHG") emissions by 26% by 2030 and achieve Net Zero Emissions by 2050

Signed three Memorandums of Business Exploration ("MOBE") with partners Earth Finance Inc., Honeywell International Sdn. Bhd and Yinson Green Technologies, to strengthen strategic partnerships for sustainable solutions and green financing

Spent over RM308,000 and contributed 1,800 volunteering hours to community programmes, benefitting 8,805 community members in Malaysia

WHAT WE DO

HEALTHCARE SUPPORT

The Healthcare Support division is dedicated to providing hospital support services to over 250 healthcare facilities across Malaysia, Singapore and Taiwan.

We integrate ESG principles into our operations to champion sustainability and foster social responsibility. As a pioneer in sustainability initiatives, our accomplishments span a range of effective conservation strategies, including energy performance contracting, retrofitting initiatives, the installation of solar photovoltaic systems and the adoption of energy management standards. We have also improved indoor air quality systems and established comprehensive waste management programmes that have markedly reduced waste.

Our approach is defined by an innovative mindset and a relentless pursuit of adopting cutting-edge technologies, including robotics, the Internet of Things ("IoT") and data analytics. These technologies provide timely, accurate and dependable data that is essential for the efficiency and effectiveness of our services. Our commitment to innovation and technology underpins our efforts to improve patient outcomes, ensuring our competitiveness and leadership in the market.

Manage and maintain approximately

PROPERTY & FACILITY SOLUTIONS

PFS has evolved from a traditional building maintenance provider into a comprehensive facility solutions partner. We go beyond the traditional operations and maintenance, offering expertise that encompasses the entire building lifecycle. From retrofits and refurbishments to renovations and upgrades, we transform buildings into energy-efficient, green-certified smart spaces.

At PFS, we're on a mission to usher your building into the future. We guide clients along a sustainability and technology journey, ensuring compliance with ESG standards. We create modern, cloud-connected intelligent buildings with autonomous capabilities. Our diverse solutions cater to every aspect of your building's needs.

Our comprehensive, end-to-end approach leverages years of experience and data-driven insights. This empowers us to deliver best-in-class, value-for-money solutions to help you make informed decisions, optimise operations, reduce costs and achieve peak performance.

We embrace the "building-as-a-service" concept, prioritising the wellbeing and comfort of the people who inhabit these spaces. Our meticulously designed services cater to their needs while creating a thriving-built environment.

Facility management services at more than
Malaysia - 300 Buildings
UAE - 200 Buildings

Reduction of
10% to 52%
of annual electrical energy savings for the systems and assets we replace and optimise

Energy Efficiency Solutions implemented in
19 GBI and LEED CERTIFIED
buildings across Malaysia

Energy savings per year of more than
38.4 million kWh,
equivalent to
RM16.6 million
in cost savings

WHAT WE DO

INFRASTRUCTURE SERVICES

Boasting a track record that includes 9,000 km of highways and state roads, along with over three decades of expertise, our Infrastructure Services division stands as the leading authority in infrastructure maintenance within the nation.

By harnessing advanced technologies and methods for process improvement, we are dedicated to preserving the integrity and boosting the functionality of our clients' assets over their lifecycle. This commitment has propelled our growth from a focus on highway upkeep to offering our expertise across various sectors, including rail, airports, ports, and the oil and gas industry, as well as plantation roads and diverse commercial and industrial areas.

Our relentless pursuit of excellence is supported by a team of seasoned experts, positioning us as pivotal contributors to the infrastructural and economic growth in Malaysia and Indonesia.

Manage infrastructure assets worth **>RM10 billion**

Road Asset Management System has enabled **1,500 km** of expressway and state road assets to be brought online

Maintain around **9,000 km** of expressways and state roads in Malaysia and Indonesia

ASSET CONSULTANCY

Our Asset Consultancy division, Opus Consultants continues to stand at the forefront of engineering, project management, asset consultancy, energy efficiency and sustainability solutions in Malaysia. With excellence track records spanning over three decades, we have established ourselves as leaders in the delivery of large-scale infrastructure projects across diverse sectors.

In line with the global sustainability agenda and energy transition, in 2023, we have pivoted and expanded our services by offering a comprehensive range of sustainability solutions to our clients, encompassing energy efficiency, green building initiatives, and renewable energy.

Our energy efficiency and sustainability solutions cover the end-to-end project and asset lifecycle, including net zero strategy and baselining, engineering solutions, project implementation, sustainable asset management and the execution of innovative contracting models such as Energy Performance Contracting ("EPC") and Green Performance Contracting ("GPC") via the Zero-Capex Programme for clients across various industries, ensuring seamless execution and optimal outcomes.

Opus Consultants consistently raises the standards for engineering excellence and sustainable development, leaving a lasting impact on Malaysia's infrastructure and sustainability landscape.

CLOSING THE DIVIDE BETWEEN TODAY'S AND TOMORROW'S SERVICE DELIVERY

The asset and facilities management sector is rapidly transitioning from the traditional ‘maintain-repair-restore’ model to a strategy emphasising preserving the quality of assets and enhancing the ongoing operational efficiency of buildings, communities and cities. This strategic shift is designed to reduce environmental impacts and improve operational efficiency by adopting innovative, technology-driven solutions. Our digital business entity, Edgenta NXT, is at the forefront of this evolution, integrating cutting-edge technologies to maintain and enhance asset quality and operational excellence. This approach ensures that UEM Edgenta is a sustainable urban development leader and an operational innovation champion.

Founded in July 2021, Edgenta NXT is our digital enterprise designed to bring technologies and technology-based intellectual property to market, aiming to accelerate the digital transformation across UEM Edgenta and support swift global growth. We have created two unique technology offerings - Asseto and Asseto for Health - each designed to digitalise traditional manual operations and harness data for insightful strategic planning, thus enhancing efficiency, supporting superior decision-making and improving financial outcomes. Our commitment to innovation extends through collaborations with ecosystem partners and leading technology innovators worldwide. Edgenta NXT is instrumental in distinguishing our offerings, enriching our solution portfolio and achieving cost efficiencies, thereby not only creating a new source of income for the Group but also acting as the driving force for our Edgenta of The Future 2025 (“EoTF2025”) objectives. This initiative positions us well on our path to becoming a Technology-Enabled Solutions Company.

INNOVATION IN TODAY'S EVOLVING HEALTHCARE ENVIRONMENT

As we navigate the future of healthcare, we quickly realised the importance of evolution and applied our insights to create Asseto for Health, building upon the foundational capabilities of our original offering, Asseto. This will enable us to address and fulfil the emerging needs within the dynamic and ever-evolving healthcare industry.

▶

ASSETO FOR HEALTH

As a significant step forward in our technology-driven healthcare solutions, Asseto for Health provides non-clinical functionalities into a versatile, pay-per-use platform designed to support the everyday operational requirements of hospitals and various healthcare facilities.

WHAT DIFFERENTIATES US: OUR STRENGTHS

Asseto stands as a dynamic digital platform engineered to elevate efficiency, intelligence and sustainability across sectors for business entities, governmental bodies and asset proprietors. With a keen emphasis on interoperability, Asseto flawlessly melds essential technologies like automation, sensory networks, robotics and comprehensive data compilation, enabling informed decision-making that advantages all stakeholders. Central to Asseto's offering is a holistic ecosystem that leverages artificial intelligence and the Internet of Things (“IoT”) to fine-tune energy use, streamline waste handling and enhance overall user interactions. This strategic approach not only promotes the cultivation of smarter, more environmentally friendly assets but also guides the selection of assets that bolster long-term sustainability.

Asseto further places a high value on predictive maintenance, advocating for anticipatory asset care that boosts operational efficiency, slashes running costs and prolongs the life of assets. Additionally, the platform simplifies the exchange of information and teamwork, refines decision-making mechanisms and better end-user experiences. Asseto, by nurturing an integrated and compatible ecosystem, ensures outstanding benefits, facilitating impartial, data-led decision-making in steering towards a greener future.

SCALABLE
Offers competitive pricing with a flexible pay-as-you-grow approach.

CONFIGURABLE
Features intuitive drag-and-drop functionality that demands minimal customisation.

Ensures smooth integration with external applications, broadening its utility and value.

GROWING ECOSYSTEM
Actively enhances its capabilities via alliances with leading tech innovators such as Alibaba, ITMax, Disrupt-X, Softbank and Sumitomo, ensuring continuous growth and development.

In 2023, Edgenta NXT successfully implemented Asseto in 15 Property Facility Solutions (“PFS”) clients, including three sites within KLCC and over 200 CIMB branches across Malaysia. We also secured new sites and more than 3,000 assets of a higher education facility. We achieved significant progress in 2023 by deploying Asseto to 35,000 assets.

Over **35,000** assets under management

Across **20** buildings and facilities

Over **95,000** work orders generated per year

Over **150,000** digital permit-to-work generated per year

Over **1,000** active platform users

CHAIRMAN'S STATEMENT

DEAR VALUED STAKEHOLDERS,

Amidst a rapidly evolving business landscape, UEM Edgenta stands at the forefront of transformation, championing innovation and sustainability as the cornerstones of our future. This year, we have continued to pursue our ambition to be a global Asset Management and Infrastructure Solutions company, underpinned by our Edgenta of the Future 2025 ("EoTF2025") strategy.

Our journey of transformation has seen us expand our horizons beyond traditional business segments and strengthened our ambitions in the Middle East. In doing so, we are harnessing our renowned expertise and innovative spirit to create more value for our stakeholders through our commitment to sustainability and technology. This not only sets new industry standards but also reflects our ambition to create a lasting impact, enabling us to meet the challenges of today and redefining the possibilities of tomorrow.

Independent Non-Executive Chairman

DELIVERING VALUE

In the face of a challenging business landscape, UEM Edgenta demonstrated resilience in 2023, marking its best revenue growth in six years despite global economic uncertainties and competitive pressures. Our performance this year was bolstered by increased infrastructure projects and healthcare contracts, particularly benefiting from strong performance in Singapore, Taiwan and commencement of revenue recognition from our operations in the Kingdom of Saudi Arabia ("KSA"). Our proactive stance on delivery model optimisation, alongside a dedication to smart, sustainable solutions and technological innovations, also positioned us to effectively address the demands of a rapidly evolving market.

On the back of the 14.2% revenue growth in 2023, profits were impacted by the ongoing cost-push inflation that was influenced by persistent increases in the costs associated with operating our business. Despite the lower profits, we remain committed to rewarding our shareholders and declared a single-tier interim dividend of 2 sen per share for the financial year ended 31 December 2023.

ADDRESSING OUR CHALLENGES WITH EoTF2025

The main challenge in our industry, in addition to stiff competition, has been the rising costs in terms of labour, raw materials and consumables due to persistently high inflation. Appropriately, one of the key pillars of the EoTF2025 strategy is focused on extracting value from core businesses through cost optimisation and over the past three years, initiatives under this pillar has seen UEM Edgenta obtain RM81.8 million in savings, or 82% of the RM100 million target.

Most of the savings were generated through effective procurement and finance processes, digitalisation and automation, as well as rationalising non-core businesses.

CHAIRMAN'S STATEMENT

Besides that, we also focus on strategic levers that look at optimising our non-core businesses through diversification to help the company maximise profitability and attain sustainable success. By de-risking our portfolio profile and re-evaluating our business, we can seize greater opportunities to monetise our non-core businesses to generate additional revenue streams.

Coupled with our strategic levers, the EoTF2025 strategy is set to address the challenging business environment and to drive long-term resilience. The EoTF2025 plan has not only mitigated some of our cost challenges but is also unrelenting in finding ways to maintain a stable revenue base, generate more and diversify our revenue base, targeting higher margin services and ensuring that we continue to have the relevant skills, capabilities and technologies to continue winning new jobs while retaining our clients. I believe in no uncertain terms that UEM Edgenta's perseverance and diligent execution of the EoTF2025 strategy over the years is why we have produced a healthy revenue performance this year while setting the stage for a promising outlook going forward.

In reviewing what was accomplished in 2023, it has turned out reasonably well for UEM Edgenta on multiple fronts. Firstly, our revenue base remains solid on the back of healthy orderbook replenishment supported by strong contract renewal rates. In addition, UEM Edgenta has successfully diversified our business overseas, expanding market share in hospitality and manufacturing in Singapore and Taiwan, while operations in the United Arab Emirates ("UAE") successfully penetrated new markets in Abu Dhabi. The consolidation and integration of our businesses in the KSA through strategic acquisition is also predicated on capturing new revenue opportunities in this high growth market and seeks to ride on the KSA's ambitious Saudi Vision 2030 economic transformation plan. With the recent acquisition of Kaizen Owner Association Management Services LLC and Kaizen AMS Property Supervision LLC ("KAIZEN Group"), UEM Edgenta is poised to capitalise on the growth opportunities within the real estate sector in the UAE. This property management-facility management integration reinforces the value proposition of UEM Edgenta in the Middle East, aligning seamlessly with our EoTF2025 vision and supports our business portfolio de-risking strategy through diversification of products, services and markets.

We also continue to see contract wins that were tech-enabled, demonstrating that we are on the right path in the development of our technological capabilities such as UETrack™ and Asseto. In addition, our foray into fusing our own approach and brand of innovation in facilities management with the tenets of sustainability has also helped us penetrate new sectors and markets. Our quest to further promote our end-to-end sustainability capabilities has also been enhanced by the repositioning of Opus Consultants, through which we have pledged a sum of RM200 million to aid our clients in accelerating their transition to more energy and resource efficient buildings.

In all our operating markets, we are an attractive proposition for any customer looking for a reliable, tech-enabled and sustainability focused Integrated Facilities Management ("IFM") solutions partner. I believe that our strong track record, culture and commitment to operational excellence will hold us in good stead and help us navigate the challenges of the industry.

Sustainability

As a beacon of corporate responsibility, UEM Edgenta embraces Environmental, Social and Governance ("ESG") principles, recognising sustainability as the cornerstone of our resilient growth and value creation for our own operations, our clients' businesses and the communities we serve. In 2023, we continued to uphold our commitment to sustainability by embedding sustainable practices throughout our business while taking steps to align ourselves with national ambitions to achieve Net Zero Targets and implement energy transition plans.

At the forefront of our efforts is Opus Consultants which launched its suite of Energy and Sustainability Solutions this year, spearheaded by the Sustainable Zero-Capex programme to help our clients in Malaysia jumpstart their sustainability journeys. In addition, in a move to align with global standards and to champion decarbonisation, we signed Memorandums of Business Exploration ("MOBE") with Earth Finance Inc., Honeywell International Sdn. Bhd. and Yinson Green Technologies for collaboration in the areas of sustainable solutions and green financing. Meanwhile, under the Group's Net Zero Targets, we have set a goal to reduce our Scope 1 and Scope 2 greenhouse gas ("GHG") emissions to Net Zero with an interim target to reduce these operational emissions by 26% by 2030. We are enacting a structured process to monitor the progress of our Net Zero Target. Our efforts align with the International Energy Agency's ("IEA") Net Zero Emissions by 2050 Global Pathway and will support the National Energy Transition Roadmap's ambition for Malaysia to achieve Net Zero by 2050.

This year, we also initiated a vendor segmentation exercise to understand our suppliers' ESG practices. Results from this initiative will be used in our effort to compute our Scope 3 emission so we can make similar Net Zero pledge to reduce emission in our value chain. Additionally, we automated the process of calculating our carbon emission and have also developed processes around allocating carbon budgets to all our businesses for carbon management and reduction.

As a result of our sustained efforts in the ESG space, we have been recognised with several awards and accolades. These include the Gold award in the Energy Efficiency category at The Star ESG Positive Impact Awards 2023, along with three Silver awards in the Renewable Energy, Talent Management, and Good Health and Well-being categories.

CHAIRMAN'S STATEMENT

Supporting Our Communities

UEM Edgenta's commitment to ESG principles extends beyond traditional corporate responsibilities, incorporating Education and Community Enrichment and Well-Being as foundational pillars. This comprehensive approach is exemplified through various corporate social responsibility ("CSR") initiatives designed to foster long-term value and societal impact:

- Edgenta Jalanan Kasih – Festive CSR Programme**
Celebrations of major festivals like Chinese New Year, Ramadan, Hari Raya Aidilfitri, Deepavali and Christmas were shared with local communities, embodying the spirit of unity and cultural appreciation. In 2023, the programme has benefitted 1,330 beneficiaries including 430 asnaf recipients, 600 highway users and 300 UEM Edgenta employees.
- The Lost Food Project – Pet Food Project**
This initiative rescued and distributed 7,225kg of surplus pet food, which in turn prevented 20,230kg of carbon dioxide ("CO₂") emissions. It supported over 50 animal shelters and feeders in Klang Valley and Malacca, demonstrating a commitment to environmental sustainability and animal welfare.
- Zoo Negara Collaboration Programme**
By sponsoring Aldabra Giant Tortoises and a giraffe, UEM Edgenta underscored our dedication to wildlife conservation. The transformation of Zoo Negara, facilitated by 60 volunteers and the organisation of an educational visit for students from SK Jenderam, Dengkil, enhanced both animal living conditions and the visitor experience.
- #EDGENTAAGREENCAMPAIN Tree Planting CSR Programme**
The planting of 1,000 trees at Sabai Forest Reserve in Sarawak supported green initiatives and local economies. This effort aligns with Sarawak's Greening Sarawak Programme and Malaysia's five-year Greening Malaysia Programme, emphasising the importance of ecological preservation and sustainability.
- EDGENTA Back-To-School Riang Ria's CSR Programme**
This programme assisted underprivileged students from SK Bangsar, SK Jenderam and SMK Jenjarom by providing essential school supplies. Additionally, a donation was made to each school to further educational development, highlighting our investment in the future of education and community well-being.

CHAIRMAN'S STATEMENT

EMBODYING GOOD GOVERNANCE

At UEM Edgenta, we are guided by the principles of integrity and excellence, principles that shape our operations and define our corporate ethos. Our journey in 2023 has been marked by significant achievements, underscoring our dedication to setting the benchmark in corporate governance and ethical conduct.

In a momentous milestone for UEM Edgenta, we were honoured with the bronze award at the Integrity, Governance, and Anti-Corruption Awards ("AIGA") 2023. This prestigious event, organised by the Malaysian Institute of Integrity ("INTEGRITI"), recognised our commitment to upholding the highest standards of integrity and good governance practices. Our success at AIGA, particularly as first-time participants, serves as a powerful testament to our dedication to fostering an environment where ethical practices are not just encouraged but celebrated.

The criteria for AIGA's evaluation are rigorous, incorporating the ISO37001 Anti-Bribery Management System ("ABMS"), the Malaysian Code on Corporate Governance and critical legal frameworks such as the Malaysian Anti-Corruption Commission Act 2009, Whistleblower Protection Act 2010 and the Bursa Listing Requirements. This accolade arrives on the back of our achievement in May 2023, when we were awarded the ISO37001 ABMS certification by the Standard and Industrial Research Institute of Malaysia ("SIRIM").

Further amplifying our commitment to eradicating corruption, we have forged a strategic partnership with Rasuah Busters, a leading anti-corruption non-governmental organisation ("NGO"). This alliance creates a united front against corruption, enhancing our anti-bribery and anti-corruption efforts. By joining forces, we aim to elevate our internal practices and extend our reach, benefiting not only UEM Edgenta employees but also the broader community. Through targeted activities and awareness campaigns, we are dedicated to cultivating a culture of integrity and accountability.

OUTLOOK

Looking ahead to 2024, UEM Edgenta is cautiously optimistic, guided by Bank Negara Malaysia's forecast of 4-5% Gross Domestic Product ("GDP") growth which is expected to be fuelled by strong domestic consumption, a stable labour market and the hopeful resurgence of global trade. This economic backdrop presents a supportive environment for our ongoing endeavours and future plans.

Our commitment to providing innovative, technology-driven sustainability solutions remains central to our strategy. We aim to continue responding to the needs of our clients with precision and foresight, ensuring our services are not just relevant but ahead of the curve. The projected economic upturn offers us a valuable opportunity to expand into emerging markets and tailor our offerings to better serve our customers' evolving needs.

In navigating the year ahead, we will maintain a focus on charting the path to sustainable profitability involving mitigating structural challenges in the short-term and building transformational growth in the medium to long-term. Our focus remains on cost optimisation across all levels including corporate and business units, cost of sales and operational expenditure to manage costs effectively and mitigate the challenging market conditions while maximising productivity and profitability.

We have initiated strategic pivots to establish a strong starting point by strengthening our digital assets, building ESG capabilities and entering new high growth markets such as the KSA and the UAE. These key areas are essential for our continued growth and for realising the ambitions set forth in our EoTF2025 strategy. By fostering the growth of our team, advancing our technological capabilities and ensuring our business model is adaptable, we are preparing to meet both the challenges and opportunities that 2024 may bring.

With our global presence as a key asset, we are ready to tackle the challenges ahead, seize new opportunities and create sustainable value for our stakeholders and shareholders. Our goal is to be a leader in providing technological and sustainable solutions, contributing to our company's growth and the betterment of society.

CHAIRMAN'S STATEMENT

ACKNOWLEDGEMENTS

As we navigate through the ever-evolving landscape of our industry, it is with a sense of profound gratitude that I extend our collective thanks to all our key stakeholders for your unwavering support and commitment to our organisation. A special note of appreciation goes out to the management team and our Edgenta Stars for their dedication and unrelenting efforts in delivering value time and again.

It is also with a warm and respectful acknowledgment that we bid farewell to some of our esteemed board members. We extend our deepest gratitude to Dato' Noorazman Abdul Aziz for his five years of exemplary service upon his retirement. Additionally, we recognise Shirley Goh, who has resigned after two years of dedicated service. In light of these departures, it is with great pleasure that I welcome our new directors, Nurul Iman Mohd Zaman, Dato' Dr. Omar Abd Hamid and Simon Kua Choo Kai. Each brings a wealth of experience and insight that will undoubtedly propel our company forward.

As we move ahead, I am confident that the collective efforts of the Board, management and employees will steer us towards new horizons of success and innovation, overcome challenges and ultimately set us down a path of long-term and sustainable growth.

TAN SRI DR. AZMIL KHALID
Independent Non-Executive Chairman

MD/CEO'S STATEMENT

OVERVIEW

As we reflect on 2023, I am pleased to share that UEM Edgenta has persevered in strengthening our business and delivering value to our stakeholders, guided by our Edgenta of the Future 2025 ("EoTF2025") strategy. Our resilience within a challenging operating environment is testament to our strategic foresight, commitment to innovation and prudent cost management.

KEEPING THE MOMENTUM GOING STRONG

EoTF2025: OUR STRATEGIC PILLARS

Pillar 1

EXPAND
Footprint And
Deepen Solutions

Pillar 2

EXTRACT
Value From Core
Businesses

Pillar 3

ENHANCE
Product And
Technology
Proposition

Revenue (RM million)

SYAHRUNIZAM SAMSUDIN

Managing Director/Chief Executive Officer

MD/CEO'S STATEMENT

This year, we continued delivering on our strategy to obtain significant milestones such as higher revenues and the expansion of our international presence, largely driven by tech-enabled contract wins and our commitment to operational excellence. This aligns with our strategic focus under EoTF2025 to drive our growth through innovation and has brought us closer to our ambition of becoming a Malaysian company with a global presence.

In terms of our contract wins this year, our Infrastructure Services division secured several long-term state and rural contracts in Malaysia, while our core Healthcare Support division continues to expand its presence in the region, intensifying efforts into adjacent sectors such as the manufacturing and hospitality sectors. Our Property & Facility Solutions division also secured tech-enabled and sustainability solutions contracts in Malaysia as well as successful renewals and captured new business beyond existing clients in the United Arab Emirates ("UAE"). With the completion of the MEEM acquisition in the Kingdom of Saudi Arabia ("KSA"), we added approximately RM100 million to our orderbook.

We also continue to see a high contract renewal rate especially in our Healthcare Support businesses in Singapore and Taiwan. The accomplishment clearly indicates the confidence that customers have in us, predicated on our work ethic, culture, technology and sustainability-related offerings as well as the partners we have that enable us to provide greater value add. In essence, our achievements this year reflect our strategic priorities under EoTF2025 coming to fruition.

Overall, much of our revenue performance this year was driven by high contract renewals and realised workorders across Malaysia, Singapore and Taiwan. In addition, there was also revenue contribution from the KSA coming online following our recent acquisition there.

MD/CEO'S STATEMENT

We are innovating beyond traditional FM spaces, exemplified by our commitment of RM200 million to the Zero-Capex programme to help our clients be more resource-efficient and the strategic repositioning of entities like Opus Consultants to focus on resource efficiency.

In 2023, we strengthened our commitment to responsible practices by refining and solidifying our Sustainability Policy. It was also a significant year for us as we launched our Net Zero Targets for Scope 1 and Scope 2 emissions, reflecting our commitment to reducing our carbon footprint. Launching these targets is crucial as we take proactive steps towards sustainable practices to stay ahead of the competition and to address climate change.

Despite the significant progress achieved in 2023, we recognise that there have been challenges we faced which impacted our profits this year. While the macroeconomic environment and highly competitive industry created one set of headwinds, we also had to navigate another set of challenges, especially in the context of the cost/margin environment in the different countries we operate in. This required a unique approach to cost management in each operating country and we are committed to managing this more effectively as we expand our business further.

KEEPING THE MOMENTUM GOING STRONG

In the quest to fortify UEM Edgenta's market leadership and ensure enduring growth, our approach can be best described in three parts. The first is our ambition to develop a sustainable facilities management ("FM") business that embraces technology and sustainability across all markets, not just Malaysia. Our preference going forward will be towards embracing more opportunities in Integrated Facilities Management ("IFM"), where the value that we bring is the combination of technology and sustainability. This will be the main growth engine moving forward under EoTF2025.

- 1 This effort is not only about expanding our product and solution offerings but also about innovating beyond traditional FM spaces, exemplified by our commitment of RM200 million to the Zero-Capex programme to help our clients be more resource-efficient and the strategic repositioning of entities like Opus Consultants to focus on resource efficiency. This innovation represents a fundamental shift, propelling us beyond the conventional boundaries of FM.

2

Secondly, I believe that we need to anchor our growth in markets conducive to building a long-term sustainable asset management business. This includes mature markets like Malaysia, Singapore and further into the Middle East, such as the UAE and the KSA. These regions offer UEM Edgenta the opportunity for long-term engagement in infrastructure asset management and technological capability development.

Through our strategic presence in key markets and harnessing our extensive talent pool, UEM Edgenta is not just pursuing global aspirations but setting the pace in IFM and propelling the transformation of expansive infrastructure initiatives beyond traditional boundaries. This expansion not only underscores our leadership but also generates employment opportunities both

in Malaysia and internationally. It embodies a deeply held ambition to integrate Malaysians into the global workforce, showcasing their expertise as project managers, engineers and facility managers on a worldwide stage. This global exposure not only enhances their professional growth but also allows them to contribute significantly to our organisation's development, enriching it with a wealth of international experience and insights.

3

Thirdly, we will continue focusing on continuous improvement in cost optimisation and process re-engineering across UEM Edgenta's operations. This approach is not solely about managing budget constraints but also about enhancing efficiency in the face of economic pressures, including exchange rates and rising costs. We are relentlessly reducing manual processes through digitalisation, allowing for swifter operations and more effective cost management within our asset management business. This strategic emphasis on cost efficiency and digitalisation ensures the company remains well-positioned in terms of having more headroom to invest in technological and sustainability initiatives, thus giving us a competitive edge as we pursue our global ambitions.

In summary, as we sit at the intersection of technology, sustainability and facilities management, I believe UEM Edgenta is uniquely positioned to be the service provider for everything a building needs. The most exciting part is that we do have the capabilities and the expertise. We can provide the entire array of services and infrastructure a building requires – the technology, energy efficiency, the cleaning, the equipment management, IT services and more. Therefore, an ongoing imperative for us is to infuse this concept of UEM Edgenta being the heart and soul of a building into our DNA to ensure we can continue to effectively serve our clients.

MD/CEO’S STATEMENT

EoTF2025 – Our Strategic Progress

UEM Edgenta’s EoTF2025 strategy has played a pivotal role in shaping our strong performance in 2023. Throughout the year, we have made substantial progress in this strategy, focusing on a transformative approach that is deeply rooted in technological advancements. Our strategy is built around three fundamental pillars, each a cornerstone in guiding our path towards achieving our objectives.

PILLAR 1

EXPAND FOOTPRINT AND DEEPEN SOLUTIONS

GOAL

12% Revenue Growth per Annum

Achievement to date:

12% Compounded Annual Growth Rate (“CAGR”) since 2020

Several initiatives under this pillar have been key to our success in maintaining this growth, including our resilience and ability to capture market opportunities effectively. In 2023, these efforts have seen us secure new contract wins worth RM2 billion, the highest in the post-COVID era.

A key strategy in our international expansion strategy has been the expansion and integration of our businesses in high-growth markets. A key initiative was the purchase of a 60% stake in MEEM, one of the KSA’s leading facilities management companies, by Edgenta Arabia Limited (“EAL”). MEEM started to contribute to the Group’s topline during the year and we foresee long-term sustainable growth in the region especially in supporting developments driven by the Saudi Vision 2030. We have also broadened our presence in the UAE through Edgenta International Investments LLC (“EII”)'s 60% acquisition of KAIZEN Group – a pioneer in technology-driven end-to-end property management services.

In addition, we strive to enhance our global franchise through strategic partnerships. These partnerships work by complementing our capabilities and extending our market reach. In the Internet of Things (“IoT”) space, we established partnerships with Tadoom, ZainTech and Disrupt-X to expand our technological capabilities to better serve our clients in the Middle East. In Healthcare Support, we entered into partnerships with WAS, First Ambulance and Optima Technic, with the aim to strengthen our position in the healthcare sector and enhance our service delivery. Additionally, to accelerate our involvement in Smart City solutions, partnerships with Watad, ITMax, Sumitomo, and Softbank were established to help us in our efforts to penetrate the urban infrastructure development segment.

MD/CEO’S STATEMENT

PILLAR 2

EXTRACT VALUE FROM CORE BUSINESSES

GOAL

Realise **RM100 million** in cost savings over a five-year period.

Achievement to date:

RM81.8 million in total cost savings since 2021

The success we have achieved has shown the extent of our strategic and prudent management, as well as our ability to optimise operations while maintaining high-quality service delivery. These efforts in extracting value through cost savings are vital in our pursuit of scaling and enhancing the profitability of our core businesses. This includes organisational simplification, which aims to streamline our operations for greater efficiency and effectiveness.

Besides continuing to identify cost efficiency opportunities across our operations through our LEAN programme, we also focused on optimising procurement processes and reducing Selling, General and Administrative (“SGA”) expenses. These initiatives are crucial in trimming unnecessary costs and enhancing our financial health. Furthermore, our digitalisation and automation initiatives have seen us generate greater cost savings. These technological initiatives serve as enablers, allowing us to refine our operational processes. By embracing digital tools and automating where possible, we have improved our resource allocation and service delivery.

In 2022, we collaborated with HSBC Amanah Malaysia Bhd to launch Asia’s first Syariah-compliant Supplier Financing Programme (“SFP”), offering collateral-free financing to suppliers for better cash flow and reduced business costs. This initiative earned recognition at The Asset’s “Triple A” Islamic Finance Awards 2023. The company also supports small and medium enterprises (“SMEs”) and micro, small and medium enterprises (“MSMEs”) through the Strategic Vendor Management Programme, enhancing vendor relationships, improving pricing, delivery schedules and product or service quality. These efforts contributed to decreased costs without compromising the quality of our products and services.

Additionally, we established a centralised treasury function that will pool excess funds to ensure efficient capital deployment at optimal cost. This effort helps ensure effective cash management across our operations to reduce external funding costs.

MD/CEO'S STATEMENT

PILLAR 3

ENHANCE PRODUCT AND TECHNOLOGY PROPOSITION

GOAL

Drive **differentiation** through technology-based solutions

Achievement to date:

RM2 billion in tech-enabled wins since 2021

Our recent successes are driven by Edgenta NXT, our technology venture, which remains at the forefront of driving digital transformation in the built environment through its Asseto Platform. In 2023, Edgenta NXT successfully completed the Asseto rollout to 15 Property Facility Solutions (“PFS”) clients, including prestigious locations such as three sites within the iconic KLCC and over 200 CIMB branches across Malaysia. During the same period, Edgenta NXT secured four new sites and over 3,000 assets of a higher education facility. The total number of assets managed within the Asseto Platform in 2023 is 35,000, showcasing its stable growth trajectory as UEM Edgenta’s tech commercialisation venture.

The Asseto Platform stands as the bedrock of our operations, fostering seamless collaboration across all Edgenta entities. With its dynamic features, including real-time data analytics and bespoke dashboards, we empower our clients with invaluable insights into their facilities, driving efficiency, sustainability and customer excellence. The Asseto Platform will propel UEM Edgenta forward, allowing us to adapt and evolve our solutions in tandem with industry trends and the evolving needs of our clients. This encapsulates the core value of UEM Edgenta: a commitment to continuous innovation that drives us to continually set new standards of excellence in facilities management.

The essence of managing a vast and diverse organisation numbering more than 17,000 employees is grounded in UEM Edgenta’s FIRST Principles and the Edgenta Way that aligns with the management’s direction and defines every employee’s role.

Additionally, Opus Consultants have been repositioned as a provider of Energy and Sustainability Solutions. This strategic move aligns with the growing global focus on sustainability. Opus Consultants now offers readily deployable energy efficiency capabilities and solutions, along with the necessary capital via the Sustainable Zero-Capex Programme. A total of RM200 million was pledged towards this programme in 2023, equally split between Peninsular Malaysia and East Malaysia.

CULTIVATING A UNIFIED CULTURE IN A DIVERSE WORKFORCE

At UEM Edgenta, the essence of managing a vast and diverse organisation numbering more than 17,000 employees is grounded in core principles and a culture that aligns with the management’s direction and defines every employee’s role. Central to our ethos are universal values that foster understanding and application across our global team. Implementing these values—Future Focused, Innovative Thinking, Solution-Oriented Mindset, Stewardship and Respect For Others—has been transformative.

Our approach, characterised by an inverted pyramid model where I start with meeting people at the working level, ensures that these principles resonate at every level, confirming alignment with our strategic goals. This has cultivated a tight-knit and committed team across various markets, transcending cultural and geographical boundaries who want to achieve exceptional performance. Our success underscores that performance, propelled not just by key performance indicators (“KPIs”) but by a culture that inspires action and unity, proving that it is people, not just plans, that turn vision into reality.

This year, we continued to support our employees with ongoing development and empowerment initiatives to assist with their career growth in addition to providing support through various wellness programmes. We also published our commitment to the recent amendments to Employment Act 1955 that has increased and expanded the protection and welfare of all private sector employees.

OUTLOOK

As we step into 2024, UEM Edgenta is poised for an exciting phase of growth, driven by a robust orderbook from 2023’s strong contract executions and new wins.

Our focus will be on leveraging technology, environmental, social and governance (“ESG”) principles and enhancing customer experience to meet evolving needs. The diverse pace of digital adoption presents an opportunity to elevate our business model towards higher margins and sustainability.

With our Asseto Platform spearheading UEM Edgenta’s digital innovation, we are reshaping tech-enabled services for the built environment. We empower facility managers and building owners with real-time insights, enabling proactive decision-making and efficient operations. Through the integration of Internet of Things (“IoT”) sensors and artificial intelligence (“AI”) analytics, we actively minimise downtime and maximise asset performance, yielding tangible results.

At the core of our solution is a commitment to sustainability. Our Asseto Platform actively unlocks actionable insights that drive continuous improvement and optimisation, helping clients reduce energy consumption, lower carbon footprints and achieve their environmental goals. We offer a comprehensive strategy and a full spectrum of services including consultancy, advisory and tailored sustainability solutions and a Zero-Capex model.

We are consistently innovating our technology offerings to stay ahead of the curve, meeting evolving client needs. Our tech-enabled approach ensures seamless integration with existing systems and third-party applications, thus maximising return on investment (“ROI”) for our clients.

Besides that, our Recycled Asphalt Pavement (“RAP”) plant which is expected to be launched in the second quarter of 2024 is set to reduce up to 800 tonnes in carbon dioxide (“CO₂”) emissions annually. This reflects our commitment to integrating business and sustainability to create synergies to ensure operational efficiency and long-term success while meeting global standards.

As we navigate through the challenges presented by both the macroeconomic landscape and the unique dynamics of our industry, our foremost objective remains the attainment of sustainable profitability. Our strategic approach will revolve around the meticulous optimisation and rationalisation of costs across all levels, streamlining our operating model, and mitigating risks associated with our business portfolio through strategic diversification. Central to our strategy is the prioritisation of endeavours where we hold a distinct advantage, maximising our potential for success. Concurrently, we will diligently evaluate the monetisation prospects of non-core businesses, while opportunistically exploring select opportunities to ensure the continuous expansion of our revenue streams, while maintaining our commitment to sustainable profitability.

We are confident that our strategies will help us mitigate structural challenges in the short-term and chart transformational growth in the medium to long-term. We look forward to seeing the results that they will bring as we pursue opportunities that lie ahead to drive our business forward.

MD/CEO'S STATEMENT

ACKNOWLEDGEMENTS

In closing, my heartfelt thanks go out to all our stakeholders, loyal customers and the committed management team for their steadfast support and dedication. Special recognition is deserved by our Edgenta Stars, whose extraordinary efforts constantly motivate us, and our gratitude extends to our suppliers and vendors for their invaluable partnership. The trust placed in us by our shareholders propels our ambition forward, and we deeply appreciate the communities where we operate, whose welcoming support allows us to expand and flourish. As we move forward, our collective commitment is to not only sustain but enhance our trajectory towards a more sustainable and prosperous future. Our efforts in strategic markets and the global workforce are underpinned by a strong commitment to sustainability, ensuring that as we grow, we remain dedicated to responsible practices that benefit both our planet and its people. Together, we are poised to make significant strides in shaping a future that values sustainability as much as success, ensuring a lasting impact for generations to come.

SYAHRUNIZAM SAMSUDIN
Managing Director/
Chief Executive Officer

FINANCIAL REVIEW

FINANCIAL REVIEW

OVERVIEW

In the midst of global supply chain disruptions, inflationary pressures and legislative changes, UEM Edgenta has demonstrated resilience in a challenging economic environment. The Group achieved notable revenue growth of 14.2%, reaching RM2.9 billion, driven by successful contract renewals and fulfilment of work orders from healthy contract wins across our operations in Malaysia, Singapore, Taiwan and the United Arab Emirates (“UAE”). Furthermore, the completion of the MEEM for Facilities Management Company (“MEEM”) acquisition allowed us to realise our first-year revenue from the Kingdom of Saudi Arabia (“KSA”).

Nevertheless, we encountered persistent escalations in costs, particularly in labour, raw materials, and consumables, which have exerted pressure on our margin and overall financial performance. The on-going challenges in the labour market, marked by increased wage demands and compliance with evolving labour regulations, have led to higher manpower costs. Similarly, volatility in commodity prices, supply chain disruptions and fluctuations in currency exchange rates have contributed to rising costs across various operational facets.

Our financial performance has also been affected by the initial costs associated with operationalising in new markets and investing in the development of tech-enabled products. While these initiatives are currently in their early stages and are not yet making a significant contribution to our bottom line, we anticipate their contribution to grow in the future.

These challenges, coupled with the broader macroeconomic landscape and intense industry competition, have necessitated a strategic focus on our cost and margin management. In response, we have initiated a comprehensive set of strategic cost optimisation and operational efficiency measures. These targeted initiatives are designed to mitigate the impacts of escalating costs and intensifying competition, reinforcing our operational resilience and financial health.

As we steadfastly progress towards the realisation of our EoTF2025 plan, our commitment to value extraction through cost optimisation and operational efficiency remains pivotal in our journey to scale and enhance the profitability of our business.

ADAPTING WITH RESILIENCE, NAVIGATING CHALLENGES

GROUP FINANCIAL PERFORMANCE

In the year under review, the Group delivered revenue growth of 14.2% Y-o-Y, an increase from RM2.5 billion in 2022 to RM2.9 billion, driven by realised work orders from new project wins and renewed contracts. However, Profit After Tax and Zakat (“PAT”) was 34.1% lower at RM30.1 million despite higher revenue, primarily due to inflationary pressures and rising operational costs.

Total Assets RM2.95 billion ▲ 3.0%	Net Assets per Share RM1.95 ▲ 2.6%	Gross Gearing Ratio 0.30x ▲ 0.01x	Earning per Share 3.7 sen ▼ -1.8 sen	Dividend per Share 2.0 sen ▼ -2.0 sen
---	---	--	---	--

FINANCIAL REVIEW

FINANCIAL PERFORMANCE BY SEGMENT

The **Healthcare Support** division witnessed an increase in revenue of RM40.2 million (2.7% Y-o-Y) to RM1,529.2 million, contributed mainly by new and renewed projects in Singapore and Taiwan, coupled with the strengthening of the Singapore Dollar against the Malaysian Ringgit. However, this division's growth faced challenges from increased operating costs, including minimum wage hikes, one-off machinery repair expenses and higher manpower costs across Malaysia, Singapore and Taiwan. Furthermore, the discontinuation of COVID-19 related business, such as Field Hybrid ICUs and RFID e-Bracelets, led to a decrease of RM25.8 million (-29.2% Y-o-Y) in Normalised Profit Before Tax and Zakat ("Normalised PBT") to RM62.8 million.

The **Infrastructure Services** division of UEM Edgenta saw significant revenue growth, with revenue increasing by RM226.7 million (29.4% Y-o-Y) to RM998.2 million. This surge was primarily fuelled by increased work volumes for our core client, PLUS Malaysia Berhad and new contracts for state and rural roads in Selangor, Johor and Sarawak. Accordingly, normalised PBT also rose by RM2.7 million (4.2% Y-o-Y) to RM68.0 million. However, this positive performance was partially offset by rising costs for materials and sub-contractors.

The **Property & Facility Solutions** division experienced a growth in revenue by RM71.4 million (43.0% Y-o-Y) to RM237.3 million, attributed to the successful renewal and new contracts beyond existing clients in the UAE, along with additional variation order works in Malaysia. However, despite the revenue increase, there was a decrease in PBT by RM1.3 million (-17.8% Y-o-Y) to RM6.4 million. This decline can be primarily attributed to increased costs associated with clearing backlog work orders, higher operating costs and the impact of escalating labour and subcontractor costs.

In contrast, the **Asset Consultancy** division faced a decline in revenue of RM10.4 million (-10.4% Y-o-Y) to RM89.4 million primarily due to reduced project contributions, particularly in Sarawak. Despite this revenue dip, the division achieved a notable 29.2% Y-o-Y increase in normalised PBT to RM2.3 million. This growth was propelled by effective cost optimisation measures and cost savings initiatives.

Healthcare Support and Infrastructure Services segments continue to be the primary contributors to the Group's revenue and profit. Both divisions recorded growth in revenue, but profitability was adversely affected by the escalating operating costs.

ENHANCING OUR OPERATIONAL RESILIENCE THROUGH COST OPTIMISATION

In the pursuit of financial excellence and operational resilience, the past fiscal years witnessed our organisation taking significant strides towards cost optimisation, underlining our commitment to sustainable growth amidst prevailing market challenges. The collective efforts across the Group yielded impressive results, with an additional RM29.9 million in savings for 2023 alone. This brings our total savings over the past three years to RM81.8 million (2021 to 2023), showcasing our commitment to efficiency and cost optimisation. This achievement marks an 82% progression towards our EoTF2025 goal of RM100 million in cost savings over five years, a testament to our strategic and diligent approach to financial stewardship.

FINANCIAL REVIEW

STRATEGIC COST OPTIMISATION INITIATIVES

Our cost optimisation journey has continued at an unrelenting pace, underpinned by several key initiatives:

- Procurement Excellence:** Our procurement initiatives stand as a cornerstone of our cost-saving strategies. Under the "Spend Refresh" programme, we have developed comprehensive spend reports and analysis, offering profound insights and identifying significant improvement opportunities in procurement spend. A notable example includes consolidating the purchasing of paper products across all business units, leveraging our collective demand to enhance purchasing power and achieve substantial cost reductions. Furthermore, the continuation of our Supplier Financing Programme in collaboration with HSBC Amanah Malaysia Berhad, alongside the Strategic Vendors Management Programme, which commemorated during our inaugural Vendor's Day on 5 October 2023, has been pivotal in nurturing long-term vendor relationships, ensuring service excellence, enhancing delivery schedules and achieving cost efficiencies through rate reductions and sourcing efficiencies.
- Innovative Treasury Management:** The establishment of the Treasury Management Centre ("TMC") signifies a major leap towards optimising our financial resources. Serving as an in-house bank, the TMC facilitates the consolidation of surplus funds to provide working capital support to subsidiaries that require it, thereby enhancing cash management efficiency across the Group and minimising external financing costs. The phased implementation of the Treasury Management System ("TMS"), with Phase 1 successfully going live on 8 November 2023 and Phase 2 scheduled for roll out in the second quarter of 2024, is poised to further automate and refine treasury operations. The completion of this initiative in 2024 is expected to streamline processes, facilitating the adoption of Treasury Pooling and establishing an in-house bank at UEM Edgenta.
- Organisational and Operational Efficiency:** A key focus has been on refining our organisational structure to ensure it meets our current needs. This involves streamlining work processes and right-sizing manpower to align with our strategic objectives and operational requirements, resulting in costs reductions without compromising efficiency or service quality. In addition to ongoing efforts to identify cost efficiency opportunities across our operations through our LEAN programme, we have maintained our initiatives in digitalisation, mechanisation, and automation. These efforts have led to more efficient processes and enabled us to achieve greater cost savings. Through the adoption of digital tools and automation, we continued to optimise our operational processes, enhanced resource allocation and improved service delivery.

FINANCIAL REVIEW

Non-controlling interests	5.0	3.1	1.9	61.3%

Our financial position continued to remain robust in 2023. At the end of the year, the Group's total assets grew by 3.0%, increasing from RM2.87 billion as at 31 December 2022 (“FY2022”) to RM2.95 billion as at 31 December 2023 (“FY2023”). Similarly, net assets per share also increased from RM1.90 per share to RM1.95 per share when comparing FY2022 to FY2023. These increments in both total assets and net assets align with the growth in revenue, as well as higher valuation of international investments, particularly from Singapore and Taiwan, due to the strengthening of the Singapore Dollar against the Malaysian Ringgit.

Our efforts to enhance our collection process have yielded positive outcomes, as evidenced by a RM269.1 million (10.0% Y-o-Y) increase in collection from customers, totalling to RM2.96 billion in 2023. However, our net cash position declined from RM247.9 million in FY2022 to RM152.6 million in FY2023, primarily attributed to higher working capital requirements and the need to support investment for growth. Looking ahead, strategic initiatives like the Treasury Management Centre are set to enhance cash management, indicating a forward-looking approach to financial stewardship and growth.

Our cash and bank balances, inclusive of fixed deposits and funds in money market unit trusts, remained healthy at RM642.4 million at the end of the financial year, compared to RM706.7 million in 2022. We also maintained a low gearing ratio of 0.30x in FY2023 (FY2022: 0.29x), demonstrating our effective debt management capabilities. The combination of our strong financial position, solid financial foundation and low gearing ratio provides us with ample flexibility to navigate short-term volatility and allows us to maintain the capacity to leverage for future strategic growth and development.

Notwithstanding the operational cost challenges that affected our bottom line, we were able to maintain our dividend distribution trend post-COVID by issuing a dividend of 2 sen per share, reflecting our strong commitment to delivering value to our shareholders. The dividend payout adheres to our dividend payout policy of 50%-80% of PATANCI, aimed at providing sustainable long-term returns to our shareholders.

OUTLOOK

In the upcoming financial year, Malaysia’s economy is poised for continued resilience, buoyed by robust domestic demand, which is expected to mitigate the challenges posed by moderate global growth, ensuring a stable economic landscape. There are also new opportunities, especially with the implementation of the National Energy Transition Roadmap (“NETR”) and the New Industrial Master Plan 2030 (“NIMP 2030”). These initiatives are set to drive significant developments across various sectors, promising an optimistic outlook for the nation.

UEM Edgenta, a key player in this evolving economic landscape, is steadfast in our commitment to executing our long-term strategy, encapsulated within the EoTF2025 framework and our Net Zero Targets. This strategy emphasises a focus on technology and sustainability solutions, aiming to meet the evolving demands of customers for integrated services.

Cost optimisation and operational efficiency remain at the forefront of UEM Edgenta’s operational strategy. This includes the development and execution of a cost reduction roadmap, emphasising resource efficiency and cost-conscious spending. The introduction of Zero-Based Budgeting (“ZBB”) for selected cost elements ensures that only essential spending is approved, supported by stringent budgetary controls and monitoring mechanisms to curb unnecessary and unbudgeted expenditure. Operational efficiency will be further enhanced through streamlining the operating structure, identifying and eliminating redundant processes, automating routine tasks, and implementing measures to streamline financial operations.

Each division within UEM Edgenta is pursuing targeted strategies to maximise its impact and contribution to the Group’s overall goals. The Healthcare Support division continues to strengthen its relationships with the Ministry of Health in Malaysia and expand its private healthcare clientele, while also continuing to pursue diversification beyond healthcare support services strategy in Singapore and Taiwan. The Infrastructure Services division aims to maintain market dominance

and focus on delivering exceptional services, with a keen eye on sustainable pavement products to support environmental, social and governance (“ESG”) agendas. The Property & Facility Solutions division champions technology and sustainability, integrating Smart City Solutions to enhance the in-house tech ecosystem, and continuing in operational efficiency initiatives to ensure a comprehensive approach that meet evolving clients and market needs. The Asset Consultancy division is pivoting towards end-to-end Energy and Sustainable Solutions (“EES”), leveraging on our commitment of RM200 million Sustainable Zero-Capex Programme to assist our clients in becoming more resource-efficient. In the growth market of the Middle East, we have further solidified our presence through strategic acquisitions in the KSA and the UAE. Through the integration and consolidation of the Group’s existing operation in the markets, we will leverage our technology and sustainability capabilities as well as strategic partnership to deliver IFM services and smart cities solution.

In conclusion, UEM Edgenta’s transformative journey and strategies firmly aligned with national development plans, emphasising sustainability and technological innovation. The core of our strategic vision is anchored in our unwavering commitment to excellence and innovation, which drives our ongoing efforts to advances, fostering sustainable growth and delivering long-term value for our esteemed shareholders. Concurrently, we are steadfast in our mission to make substantial contributions to Malaysia’s economic resilience, thus securing our own sustained success in the long run.

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

Amidst a challenging year marked by uneven economic growth worldwide, inflationary pressures and geopolitical tensions – UEM Edgenta has continued to navigated the headwinds by leveraging our diversified portfolio of businesses. This year, we made significant headway in our regional expansion with the full operationalisation of our Kingdom of Saudi Arabia (“KSA”) facilities management (“FM”) business. We also repositioned our asset consultancy to take advantage of the burgeoning sustainability solutions market.

The FM market, in mature markets like Malaysia, Singapore, and Taiwan are growing at 5-7% while the emerging markets like the United Arab Emirates (“UAE”) and the Gulf Cooperation Council (“GCC”) are growing at 13-15%. Transformative and technology-driven trends continue to reshape the FM landscape which UEM Edgenta has aligned with, positioning our business for growth opportunities and continued success. These include the integration of digital technology, environmental, social and governance (“ESG”) considerations, and integrated service delivery, all aimed at enhancing the customer experience. Nevertheless, challenges exist in the form of inflationary pressures impacting profitability as a result of rising manpower and material costs. Competition has also intensified considerably with a mix of traditional and new players in the FM market competing for a share of the pie, in addition to the demand for high-quality services requiring investments in further upskilling and training.

MALAYSIA

The base of our operations, Malaysia is home to our four primary divisions: Healthcare Support, Property & Facility Solutions, Infrastructure Services and Asset Consultancy. A key part in our ability to deliver value lies in Edgenta NXT as the provider of end-to-end facility management solutions and smart built-environment master integrator.

Trends

- Inflationary forces and minimum wage increase escalated operating costs
- Competitive pressure by smaller/localised operators
- Growing demand for high-quality services at lower costs
- Increased demand for technology and sustainability solutions

Response

- Continued our cost optimisation exercise by implementing automation and mechanisation, streamlining finance and procurement processes and rationalising our business structure
- Enhanced operational efficiency through asset and facility digitalisation via Asseto roll-out and implementing smart building technologies for asset owners
- Delivered sustainable solutions to support our clients' sustainability agenda
- Allocated RM200 million for our Sustainable Zero-Capex Programme in Peninsular Malaysia and Sarawak to promote energy efficiency and sustainable asset management

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

SINGAPORE

We have a growing footprint in Singapore, offering a range of services to both public and private hospitals. This includes healthcare support solutions, IFM, hospitality sector services and digital solutions.

Trends

- Escalation of operating costs, including both non-manpower and manpower related expenses (due to the new progressive wage model, increase in the qualifying salary and foreign worker levy of S-Pass holders, increase in supply chain costs and overall inflationary pressures in the post-pandemic environment)
- Intense competition from rivals
- Increased demand from client for service and quality at lower costs

Response

- Stringent optimisation of revenue and costs to minimise margin erosion, focusing on optimising non-manpower expenses through bulk purchasing, negotiations with suppliers on the best pricing and efficient inventory management
- Strong negotiation with clients on contract sum adjustment to reimburse and co-share the cost increase in regulatory driven measures e.g. Progressive Wage Model
- Optimised manpower by enhancing productivity through workforce training, redesign of job scope and staffing levels and implementing automation solutions to streamline processes
- Expanded digital solution offerings to the market by strengthening UETrack™ product profile
- Expanded hospitality market with the provision of room attendants and laundry attendant services to new clients
- Regular interaction with long-term clients fosters an environment where constructive feedback can be received and acted upon, leading to continuous improvement

TAIWAN

In Taiwan, we focus on hospital support services, including services such as portering, housekeeping and cleaning. Our housekeeping services is gradually growing its reach into other commercial sectors.

Trends

- Escalation of operating costs, including both non-manpower and manpower related expenses (due to the increase in minimum wage, National Health & Labour Insurances and Pension in Taiwan)
- Higher demand from client for service and quality at lower costs

Response

- Provided high-quality service (well-trained staff and standard operating procedure (“SOP”), good customer relationship, improved technology system-UETrack™ and continuously introduced innovative mechanisation

INDONESIA

Our initial venture into Indonesia involved maintenance services for toll roads. We have since broadened our scope in this region, taking on highway construction projects focusing on pavement works.

Trends

- Rising operating costs due to inflation and manpower scarcity
- Increasingly stringent service standard demands

Response

- Strengthened local supply chain
- Partnered with local entities to improve market access
- Participated mainly as Tier 2 or 3 contractor

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

UNITED ARAB EMIRATES

Operon Middle East, our subsidiary in Dubai, specialises in end-to-end facility management solutions. We focus on commercial and residential real-estate as well as hospitality assets like golf courses and equestrian facilities.

Trends <ul style="list-style-type: none">• Increase in client expectations to fulfil contractual obligations• Inflation in materials, transportation, communications and regulatory services• Competitive market	Response <ul style="list-style-type: none">• We maintain strong client relationships to foster trust and loyalty as well as to secure repeat business and earn positive recommendations• Secured various strategic and operating partnerships to:<ul style="list-style-type: none">- Deepen our growth-enabling capabilities such as in tech and our Internet of Things (“IoT”) platform partners, Disrupt-X and ZainTech, to collaborate on smart city opportunities- Integration in value chain – KAIZEN Group acquisition presents synergistic opportunities to integrate with UEM Edgenta’s existing presence in the United Arab Emirates (“UAE”) facility management segment through Operon Middle East• Broadened our presence in Abu Dhabi with new contracts and diversified clientele and market beyond Dubai
---	--

KINGDOM OF SAUDI ARABIA

In the Kingdom of Saudi Arabia (“KSA”), we operate through Edgenta Arabia Limited (“EAL”), a fully-owned subsidiary in Riyadh and MEEM for Facilities Management Company, part of UEM Edgenta’s international business division. We are committed to delivering both technology and sustainability-driven solutions, whilst also offering traditional IFM services.

Trends <ul style="list-style-type: none">• Saudi Vision 2030 continues to drive the growth of new sectors, companies and jobs• Increasing demand for residential community and hospitality segment• Healthcare services is driving the new growth	Response <ul style="list-style-type: none">• Market Expansion:<ul style="list-style-type: none">- Set up foundations for residential community and hospitality market segments and exploring opportunities in healthcare support services market- Service Portfolio Expansion: New service offerings that align with market trends and customer demands such as IoT, robotics and energy management in providing comprehensive facility solutions• Develop Robust Short, Medium and Long terms Pipelines by actively seeking out and engaging with potential and existing clients leveraging on our expertise to position ourselves as the trusted service provider• Technology innovation partnerships: Collaborated with technology companies to leverage innovative solutions that enhance facility management processes, improve operational efficiency and provide competitive edge
--	--

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

Our operating environment presents us with a variety of challenges and avenues for growth. With acceleration of our tech offerings and increasing importance placed on sustainability, we have the growing sustainability solutions demands from clients to position ourselves as a progressive and future-oriented company. At the same time, we continue to optimise costs while remaining attuned to the evolving expectations of our employees so we can deliver a high level of quality to our clients in the services and products we offer. Our stakeholders also require us to pay attention to sustainability matters in our operating environment and in the way we do business. In response to this, we have committed to reducing our carbon footprint, foster sustainability practices in our operations, promote diversity as well as equity in our value chain, emphasise health and safety considerations and do business transparently against the backdrop of a strong governance framework.

Key market trends and our response to them are outlined below:

Macroeconomic Challenges

After a year of ongoing geopolitical tensions and inflationary pressures, the global economy’s growth trajectory remains subdued but with optimism for a soft landing for markets across the world in the coming years. Following the expected growth rate of 3.0% in 2023, the projected growth for 2024 is constrained by several factors, such as shifts in monetary policies in the world’s largest economies, including the USA, the Eurozone and China, and supply chain disruptions.

IMPACTS

- Risks:**
- Continued inflationary pressure led to increasing cost of doing business, thus affecting profit margins
 - Increasing competition - from traditional and non-traditional FM players, affected margins and ability to secure contracts

- Opportunities:**
- Technology and sustainability seen as opportunities - differentiating ourselves through technology and sustainability-based asset management solutions that drive cost savings and efficiency
 - Utilising our cost advantage, agility and proven track record to renew existing contracts and secure new contracts in both local and international markets

RESPONSE

- A pivotal shift from the traditional repair, restore and maintain facility management services model to:
 - i) A transformation encompassing a dedicated focus on sustainability challenges
 - ii) Embracing cutting-edge technology, such as IoT, artificial intelligence (“AI”) and machine learning, ensuring best-in-class asset performance and delivering an enhanced customer experience
- Continued our cost optimisation exercise by implementing automation and mechanisation, streamlining finance and procurement processes and rationalising our business structure
- Diversified into high growth and adjacent markets sectors that offer good earnings quality, such as hospitality and commercial sectors
- Secured various strategic and operating partnerships to:
 - Deepen our growth-enabling capabilities such as in tech and our IoT platform partners, Disrupt-X and ZainTech, to collaborate on smart city opportunities
 - Create integrated real estate services platform – KAIZEN Group acquisition presents opportunity to integrate property management and facilities management capabilities, focusing on customer experience, technology and sustainability

OUTLOOK

UEM Edgenta’s approach for 2024 reflects a strategic commitment to driving the digital transformation of FM, underpinned by our international growth strategy.

UEM Edgenta is on the right footing to integrate property management and facilities management into a real estate services platform provider in the Middle East, addressing the emerging lifestyle needs with a focus on hospitality, wellbeing, sustainability and technology. UEM Edgenta is well positioned to unlock value by combining our smart buildings and sustainability solutions.

We will continue to harness cost efficiency across our business divisions in alignment with our Edgenta of the Future (“EoTF2025”), while pursuing a comprehensive approach to digital transformation that encompasses international expansion, strategic acquisitions, technological innovation, upskilling of our workforce and diversifying into emerging sectors.

This forward-looking strategy positions UEM Edgenta as a leader in shaping the future of FM - mitigating against the potential impact of global economic headwinds.

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

Transition to Low-Carbon Economy

As we progress into 2024, the urgency to address climate change continues to intensify. The emphasis on sustainability and the environmental impact of businesses remains a pivotal concern for clients, governments, and investors. Following the announcement of the National Energy Transition Roadmap (“NETR”) by the government in 2023, Malaysian companies are now geared towards more ambitious projects to achieve the net zero emission target by 2050.

IMPACTS

Risks:

Non-compliance with environmental regulations or failure to meet globally-accepted environmental standards could lead to:

- Loss of access to international markets
- Difficulty in securing renewal of existing contracts and winning new projects
- Diminished reputation amongst clients, investors and governments, leading to significant financial impact
- Climate risk resulting in damages to assets we maintain or premises we occupy

Opportunities:

- Accelerating our growth by establishing ourselves as an industry leader in sustainability
- Introducing technology and sustainability-based solutions that drive improvement in our clients’ sustainability performance

RESPONSE

- Implementation of various ESG initiatives as per our Sustainability Roadmap
- Announced our Net Zero Targets for Scope 1 and Scope 2 emissions in September 2023, aligning with the International Energy Agency’s (“IEA”) Net Zero Emissions by 2050 Global Pathway (published in 2022)
- Integrating sustainability in our businesses - repositioning Opus to be an end-to-end sustainability engineering consultancy company
- Enhanced our sustainability policy to align seamlessly with our corporate values and business objectives
- In Singapore, we have initiated a supplier evaluation process that prioritises environmentally conscious practices and includes criteria related to green products and services
- Data automation for our carbon accounting exercise
- Initiated the implementation of a carbon budgeting process as part of our effort to implement our decarbonisation strategy

OUTLOOK

As part of our Sustainability Roadmap, we intend to solidify our sustainability pillars to future proof our business. By strategically integrating ESG principles into our operations, we aim to enhance our environmental stewardship and to foster positive social impact and uphold strong governance standards.

As a response to climate-related risks, we have curated a workplan and will start the assessment of our physical and transition risks as per the Task Force on Climate-related Financial Disclosures (“TCFD”) requirements.

To develop a more comprehensive map of our carbon footprint, we will also be calculating Scope 3 emissions to enable us to decarbonise our value chain.

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

Evolving Workforce Challenges

The landscape of the workplace continues to evolve, with hybrid, remote and work-from-home arrangements now established norms in workplaces across the globe. Employees today value companies that not only offer flexible working conditions but also support their holistic wellbeing. Training in digital technology, sustainability, and other critical areas have also become paramount, particularly considering our global footprint and the increasingly digital-centric nature of our business.

IMPACTS

Risks:

- Ability to retain and attract new talent
- Ability to remain competitive as an employer of choice
- Prioritising adherence to evolving human rights standards, labour laws and practices

Opportunities:

- Building a leading employer reputation by fostering a sense of purpose through engaging initiatives
- Expand our reach to attract the best talent and retain top performers by boosting employee satisfaction through hybrid and flexible work structures, incentives, and rewards and recognition for employees’ performance, achievements and contributions

RESPONSE

- Normalisation of flexible working arrangements and continuing to support our employee wellbeing through various wellness programmes
- Future-proofing employees through ongoing development and empowerment in career growth:
 - a. Individual Development Plan (“IDP”) – Self-charted learning through formal and informal interventions e.g. training, mentoring, job rotation, sharing sessions, reading, etc. Through this plan, 87% of Edgenta Stars completed planned development interventions in 2023 which exceeded our target of 60% for first year implementation. This marks a significant milestone in our commitment to fostering professional growth and development among employees. (Note: Implementation excludes UEMS, KSA, OME)
 - b. Kept employees informed of available job openings at UEM Edgenta via “Opportunity Marketplace” which is hosted on our internal Human Resource platform
- Published commitment on diversity, equity and inclusion (“DEI”) and adherence to Employment Act changes

OUTLOOK

In response to evolving business needs, we are intensifying our efforts to enhance the capabilities of our workforce. This includes prioritising employee development through structured individual development plans, introducing new learning programs and tools, and placing a greater emphasis on nurturing young Technical and Vocational Education and Training (“TVET”) talent.

We are steadfast in our commitment to cultivating a high-performing work culture at UEM Edgenta. This involves refining our performance framework, recognising exceptional achievements through incentives, rewards, and informal acknowledgments to boost motivation and productivity.

Furthermore, our dedication to upholding “Human Rights and Labour Practices” remains unwavering. We are embedding principles of non-discrimination, equality, diversity and inclusivity into our HR procedures, ensuring that every individual within our workforce is treated with fairness and respect. Additionally, we actively participate in Human Rights Impact Assessments to further reinforce our commitment to these principles.

OUR OPERATING ENVIRONMENT AND MARKET TRENDS

The Digitalisation of Everything

The digitalisation of everything we do continues to redefine the business landscape. Technologies such as IoT, AI, cloud computing and automation are no longer just emerging trends but fundamental aspects of modern business operations. Our competitive edge in the global market is increasingly dependent on how effectively we harness these digital technologies to create value, and in tandem strengthening our cybersecurity and data privacy technologies to safeguard our operations and maintaining trust.

IMPACTS

Risks:

- Advancements in IoT and AI continued to have a profound impact on the current business landscape
- Companies, including our competitors, now have the capability to access data in real-time and derive insightful analytics from it, fundamentally changing how businesses operate and make decisions

Opportunities:

- This shift underscores the critical importance of adapting to and leveraging technological advancements to stay at the forefront of our industry
- By adopting these technologies, we gain the ability to access and analyse data instantaneously, leading to better informed decision-making
- Furthermore, predictive maintenance becomes achievable, allowing for more efficient and proactive management of assets
- Equally important is the creation of a digital ecosystem where various players can collaborate seamlessly to foster greater innovation and efficiency

RESPONSE

- Bolstered our cybersecurity to ensure a resilient digital infrastructure which is essential for supporting the advanced technologies that are central to our digital transformation
- Adopted and integrated cutting-edge technologies like low-code and no-code platforms, robotic process automation (“RPA”) and generative AI, enabling us to be more agile, responsive and aligned with both market and business needs
- Leveraging technology and strategic partnerships to unlock new opportunities, such as with our first SaaS technology platform - Asseto

OUTLOOK

Our strategic outlook acknowledges the varied pace of digital adoption across different markets. There is a clear trend emerging across all markets - companies that lag in embracing digital innovations are likely to find themselves at a competitive disadvantage in the long run.

For UEM Edgenta, this landscape presents a unique opportunity to transform our business model towards higher margins and enhanced sustainability. Fortunately, our foresight in embracing digital technologies has given us a competitive edge.

To build on this, we must accelerate our efforts, focusing on partnerships and pursuing both organic and inorganic growth within the technological sphere.

OUR MATERIAL MATTERS

In our pursuit of a sustainable value creation journey, we prioritise the identification and review of sustainability issues critical to both our business and stakeholders. This entails conducting a comprehensive materiality assessment as required by regulators and industry best practices and monitoring it regularly, ensuring alignment with prevailing sustainability trends and industry benchmarks. Feedback from internal and external stakeholders, collected through surveys, provides invaluable insights into the ESG impacts of our operations and our position in the sustainability landscape. To maintain the relevance of our material issues, we conduct an annual review, responding promptly to stakeholder concerns, mitigating risks and seizing opportunities.

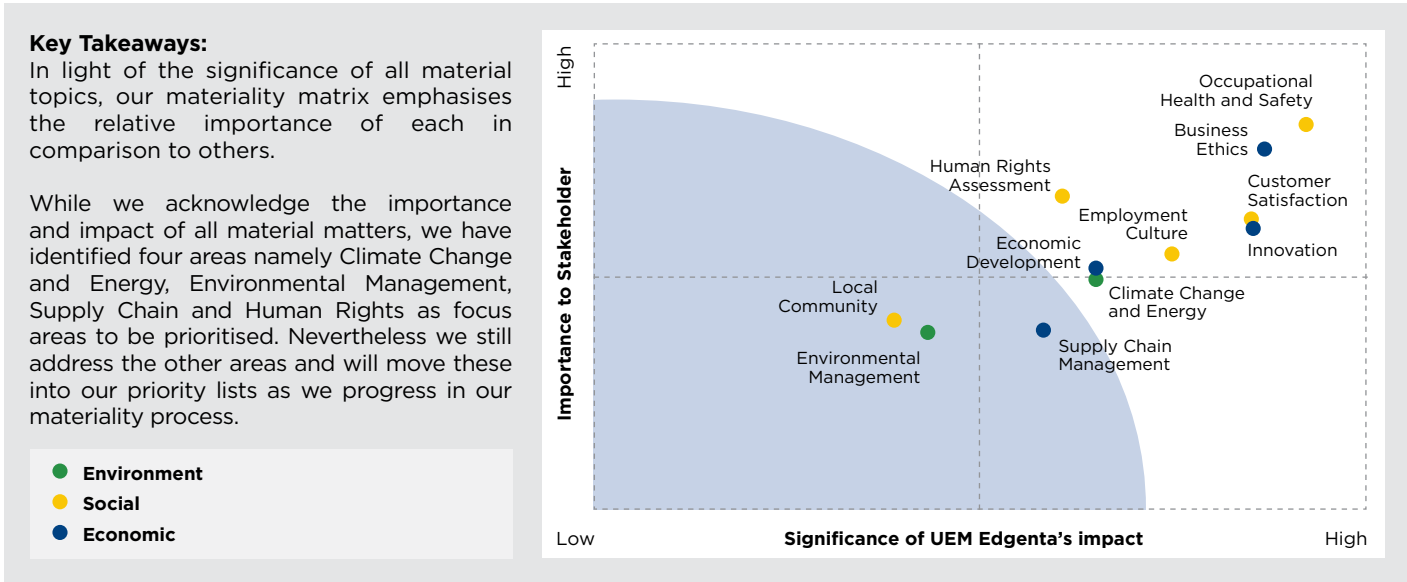

In January 2023, we further enriched our understanding by engaging external stakeholders through interviews and additional online surveys, focusing on the existing list of 11 material matters. This collaborative effort allowed us to gather nuanced insights into evolving stakeholder expectations and refine our understanding of the material issues facing our industry. Our findings revealed a significant alignment between the material issues identified and the practices adopted within our industry, indicating close adherence to local regulations and sector-specific risks. Looking ahead, we remain committed to continuously enhancing the depth and scope of our materiality assessments to address stakeholder concerns and priorities, thereby ensuring the long-term sustainability of our organisation. The finalised list of material matters, detailed in this section, serves as the focal point for our reporting, communications and disclosures, both within this report and in our dedicated Sustainability Statement. We also recognise the importance of embracing the concept of double materiality in our operations. We will therefore be looking at embedding double materiality assessments into our decision making process moving forward.

MATERIALITY ASSESSMENT PROCESS

MATERIALITY MATRIX

Through an analysis of stakeholder feedback, we constructed a detailed materiality matrix, illustrating the average ratings assigned to each concern throughout FY2023. These fluctuations in the relative positions of material matters allow us to synchronise our key ESG matters with our business strategy for 2023. The matrix serves as a guidepost, ensuring the comparative significance of each issue in relation to one another, all of which are integral components of our overarching strategic and ESG agendas within the Group.

OUR MATERIAL MATTERS

Sustainability Pillar	Material Matter	Definitions
Sustainable Economic Growth	M2	Using technology to transform our processes for enhanced efficiency and reduced costs, and to provide our customers with more effective and technologically-advanced solutions.
	M3	Generating economic value from our business activities and sharing this value with local communities through remuneration and local hiring while driving continued market expansion.
	M4	Maintaining fair practices across our supply chain while developing local suppliers through purpose-fit programmes such as the Malaysian government's Bumiputera Vendor Development Programme.
Minimising Environmental Impact	M5	Taking concerted climate action by reducing our direct and indirect greenhouse gas ("GHG") emissions and reducing energy consumption across our operations.
	M6	Adopting responsible environmental management strategies across waste management, material use and water consumption.
Social Value Creation	M9	Meeting our customers' quality standards while ensuring their health, safety and data privacy are safeguarded at all times.
	M7	Actively anticipating, recognising, evaluating and controlling hazards arising in or from our workplaces that could impair the health and wellbeing of our employees, including their mental health.
	M8	Ensuring a non-discriminatory and merit-based approach to employment while supporting talent growth and carrying out succession planning.
	M10	Actively monitoring and managing human rights matters across our value chain.
	M11	Devising and delivering community engagement initiatives and development programmes that create positive, long-term social impact.
Governance	M1	Conducting business ethically by preventing abuse of entrusted power for private gain, remaining compliant with laws and regulations and protecting the Group's and our stakeholders' data from cybersecurity breaches, while incorporating business ethics into our business practices and governance structure.

We create opportunities for clients and assets that positively influence society

EDGENTA OF THE FUTURE 2025 (EoTF2025)

(2020-2025)

EDGENTA OF THE FUTURE 2025 (EoTF2025) (2020-2025)

Our “Edgenta of the Future 2025” (EoTF2025) strategy outlines the key pillars of our transformation into a Technology-Enabled Solutions Company by 2025. It sets clear objectives for us to be competitive on a global scale, emphasising the uniqueness of our solutions, cost efficiency, and expansion into new markets and sectors. Our commitment to integrating technology and sustainability into our strategic fabric remains unwavering, yet we aim to remain agile in navigating the shifting sands of market landscape and challenges. As we crossed the halfway point of our EoTF2025 journey, whilst we are in good position to meet our objectives, we will continue to assess the changing market dynamics and adapt our strategy to ensure that we remain on a sustainable footing to deliver long-term value creation.

OUR EDGENTA OF THE FUTURE 2025 TRANSFORMATION PILLARS

EXPAND footprint and deepen solutions base

GOAL

12% revenue growth per annum over five years

STATUS

Achieved 12% CAGR since 2021

NEW WINS FOR FY2023

- Record new wins of RM2 billion
- 52% international new wins

NEW PRODUCTS AND SERVICES

- Integrated Healthcare Support:**
 - Expanded our reach by diversifying into the hospitality sector and strengthening our commercial housekeeping business after securing eight new contracts in Singapore
 - Entered into partnerships with WAS, First Ambulance Services and Optima Technic to strengthen its position in the international healthcare business

- Integrated Property Management/FM**
 - Capability acquired through KAIZEN Group acquisition in the UAE
 - New market expansion into the KSA aims to further expand our footprint in the Middle East region
- Sustainability Solutions:**
 - Property & Facility Solutions division offered value-add ESG and Sustainability Services to existing FM contracts in Malaysia
 - 20 Green Building Certifications completed in 2023
 - National Energy Award 2023 - Hospital Sultanah Maliha-Merit: Retrofitted Building

BUSINESS GROWTH STRATEGY

- Operationalised Sarawak Regional Office to intensify business development and local capacity building, leveraging partnership with a subsidiary of Sarawak Economic Development Corporation (“SEDC”)

- Opus Consultants secured its first project through partnership in Sarawak - Independent Consulting Engineer (“ICE”) services for Jalan Sultan Tengah (Damai Masterplan)
- Infrastructure Services division strengthened its presence in Peninsular Malaysia through the continuation of the Selangor State Road (Zone 2) concession and securing contracts in new state

INTERNATIONAL GROWTH

- Acquired KAIZEN Group to integrate with UEM Edgenta's existing presence in the UAE facility management segment
- Acquisition of MEEM, one of the KSA's leading facilities management companies, began to contribute to the Group's topline in 2023
- Attained major healthcare contracts such as the Woodlands Health Campus contract in Singapore and six new ones in Taiwan
- Secured high-profile IFM contracts including INSEAD in Singapore and penetrated the Facility Engineering Services (“FES”) sector in Taiwan

GENERATING SAVINGS

- Continuous procurement initiatives to leverage on bulk purchasing to achieve substantial cost reductions. “Spend Refresh” programme to identify significant improvement opportunities in procurement spend
- LEAN programme continues to identify cost saving opportunities through digitalisation, mechanisation and automation initiatives
- The Strategic Vendor Management Programme supports SMEs and MSMEs while ensuring service excellence, enhancing delivery schedules and achieving cost efficiencies through rate reductions and sourcing efficiencies
- The establishment of the Treasury Management Centre (“TMC”) serves as an in-house bank to pool funds to ensure efficient capital deployment at optimal cost

CREATING VALUE THROUGH DIVERSIFICATION

- Investment into advanced pavement machinery by Infrastructure division allowing for more complex projects to be completed with greater precision and efficiency
- The Hot Premix Plant with Recycling Facility recycles milling waste into Recycled Asphalt Pavement (“RAP”) to reduce consumption of raw materials
- Opus is the sole Asset Management Consultant in Southeast Asia that is able to utilise dTIMS to optimise performance and cost effectiveness through comprehensive asset whole-life cycle analytics, planning and management

ENHANCING CAPABILITIES AND TECHNOLOGY SOLUTIONS

- Healthcare Support (Singapore):**
 - Enhanced UETrack™ capabilities through partnerships with technology companies: Taitung System Technologies, Digile, SustainEdge and Evercomm
 - Integrated six new cleaning robots in hospitals in Singapore to increase efficiency
- Healthcare Support (Malaysia):**
 - Began using AI and robotics to improve cleaning services and efficiency as well as reducing environmental impact at three government hospitals in the northern region of Peninsular Malaysia

- Infrastructure Services:**
 - Boost our capabilities to create long-term growth especially in tech solutions by partnering with Tadoom, ZainTech and Disrupt-X, enabling us to venture into smart city opportunities in the Middle East

EXPANDING INTO NEW BUSINESS

- UEM Edgenta launched Opus End-to-End Sustainability Solutions, marking Opus Consultants foray into energy efficiency and sustainable asset management
- Launched RM200 million Sustainable Zero-Capex Programme for Sarawak and Peninsular Malaysia
- UEM Edgenta signed three MOBEs with partners, Earth Finance Inc., Honeywell International Sdn. Bhd. and Yinson Green Technologies to provide greater sustainable solutions and green financing

EXTRACT value from core businesses

GOAL

RM100 million in cost savings over five years

STATUS

Delivered RM81.8 million cost savings since 2021 - 82% progression, ahead of target

Commercialisation of digital platforms:

- Edgenta NXT deployed Asseto in 15 Property Facility Solutions (“PFS”) clients, including three sites within KLCC and over 200 CIMB branches nationwide
- We also attained new sites and more than 3,000 assets of a higher education facility
- In 2023, Edgenta NXT successfully implemented Asseto to 35,000 assets

ENHANCE product and technology proposition

GOAL

Drive differentiation through technology-based solutions

STATUS

RM2 billion in tech-enabled wins since 2021

The building of a global IFM franchise through technology and sustainability solutions is a key component of our EoTF2025 vision. To achieve this, we are focusing on:

Productising tech solutions

Transforming service delivery through technology, our strategy elevates UEM Edgenta into a frontrunner in delivering cutting-edge, productised tech solutions that redefine asset and facilities management

Driving sustainability solutions

Our relentless pursuit of sustainability solutions anchors our vision, setting new standards in eco-efficient practices across industries and reinforcing our commitment to a greener future

Driving operational efficiency

By revolutionising client operations with digitalisation, data analytics and IoT integration, we unlock unparalleled operational efficiency, showcasing our capability in steering industries toward intelligent, sustainable growth

Enhancing our IFM franchise in international markets

Expanding our IFM franchise globally reflects our strategic expertise, showcasing our prowess in melding technology and sustainability to reshape facilities management across international markets

RISKS AND MITIGATION

The Group remains steadfast in its commitment to effectively manage risks, recognising their presence in our business decisions and operations. Thus, effective risk management is crucial in balancing our risk exposure while successfully pursuing our strategic and business objectives.

We acknowledge both inherent and external risks in our business, which are addressed through a robust risk management framework. In addition to meeting compliance requirements, we actively embrace policies, principles and practices geared towards minimising risk exposure, optimising performance and fostering steady confidence among stakeholders.

We view risks as opportunities to enhance our internal controls, compliance protocols and management strategies. Each identified risk is evaluated based on its likelihood of occurrence and potential impact on our business.

The following highlights the main risks we have recognised which may substantially affect our operations. This list is not exhaustive and is not presented in any particular order of importance. While the Board regularly assesses these risks, it also acknowledges the possibility that unforeseen, non-existent or seemingly insignificant risks may emerge as significant in the future.

► Details of our risk management framework and control processes can be found on pages 238 – 246 under the Statement on Risk Management and Internal Control of this Annual Report.

STRATEGIC RISK

Strategic risks refer to the fundamental decisions made by the Board and Management of UEM Edgenta relating to the Company’s objectives and exposure to a dynamic market environment and industry demands. These risks have the potential to influence the Company’s business strategy and growth trajectory, posing a threat to achieving its objectives if not mitigated.

They stem from the evolving market landscape, including industry uncertainties and emerging issues that could impact various aspects such as strategy execution, performance metrics (e.g., market share and growth), shareholder value and reputation.

Strategic risks often require UEM Edgenta to make calculated decisions to expand its business and ensure long-term viability. They represent the inherent challenges and uncertainties associated with pursuing growth while remaining competitive in the marketplace.

Context <ul style="list-style-type: none">Our engagement in various countries exposes UEM Edgenta to a range of economic, regulatory, political and social factors that can significantly influence our strategic decisions and day-to-day operations.Within our operating landscape, competition remains intense. Our clientele, both established and prospective customers, are increasingly shifting their demands from traditional services to those that offer added value, including technological integration, performance-driven models and sustainability initiatives.Clients, especially those in industries prioritising cost-effectiveness, may occasionally undervalue the importance of our services, despite their necessity. This trend of service commoditisation ultimately results in increased competition primarily driven by pricing.Market dynamics continue to exert pressure on our profit margins, making it challenging to both expand our revenue streams and sustain a robust order book.	Mitigation <ul style="list-style-type: none">Our primary goal is to expand and diversify our market reach through the implementation of the Pan-Malaysia Strategy. This involves penetrating new regions and exploring adjacent sectors to broaden our revenue streams.We are committed to developing and implementing cutting-edge technology solutions to revolutionise service delivery in both the healthcare and infrastructure domains. Our aim is to establish new standards and benchmarks within these sectors.We are focused on productising our existing technological solutions and enhancing their scalability to cater to the needs of our current and prospective clients. This will enable us to efficiently meet the evolving demands of the market.We are dedicated to the ongoing cost rationalisation efforts aimed at driving organisational efficiency. By optimising our product and technology offerings, we aim to enhance our competitiveness in the market.Our strategy includes expanding our client base through cross-selling initiatives and the adoption of performance-based contracting models. Additionally, we remain committed to sustaining our existing concession businesses while pursuing growth opportunities.
--	--

RISKS AND MITIGATION

OPERATIONAL RISK

Operational risk involves the potential for financial loss arising from deficiencies in internal controls, malfunctioning internal processes, human error, system failures or other external factors. These elements introduce uncertainties and hazards that a Company encounters while conducting its routine operational activities within its industry.

Context <ul style="list-style-type: none">Manual and labour-demanding aspects of our operations.Our focus lies on vigilant cost management and enhancing service efficiency to safeguard our margins and optimise cash flow.Instilling a culture of prioritising safety and maintaining constant vigilance over our work environment to uphold compliance with Health, Safety, Security and Environment (“HSSE”) standards is paramount.We recognise the inevitability of unanticipated circumstances impacting UEM Edgenta’s operations, stemming from external factors such as inflationary pressures, fluctuations in minimum wages, geopolitical tensions, disruptions in the supply chain, and fluctuations in interest rates. These challenges necessitate agility and resilience in our operational strategies.	Mitigation <ul style="list-style-type: none">We are dedicated to continuously refining our operational procedures, leveraging technology and digitisation to enhance efficiency and productivity across the board.We have established proactive measures to manage costs effectively, ensuring the maintenance of robust fundamentals and safeguarding margins amidst the dynamic shifts in market conditions.Our commitment extends to the implementation of comprehensive HSSE programs aimed at fostering a safety-centric culture within UEM Edgenta, promoting the well-being of our employees and the environment.We closely monitor unforeseen developments and their potential impacts, continuously evaluating and adjusting our business strategies to maintain operational resilience and adaptability in an ever-evolving landscape.In anticipation of potential disruptions, we have meticulously developed Business Continuity Plans to ensure a swift and effective response, enabling us to sustain operations and deliver critical services without interruption.
--	---

FINANCIAL RISK

Financial risks are dangers that directly impact our Group’s financial performance and the stability of our cash flow, potentially affecting its overall fiscal well-being and liquidity status.

Context <ul style="list-style-type: none">Profitability is dwindling as competition intensifies and operating expenses soar.The delay in receiving payments from customers for trade and other receivables is impeding efficient cash flow management and liquidity.Increasing interest rates, a response by central banks to tackle various economic challenges, are putting pressure on finances.The Company faces foreign exchange risks, with potential fluctuations in exchange rates against local currencies affecting liabilities and expenses denominated in foreign currencies as well as the value and future cash flows of financial instruments.	Mitigation <ul style="list-style-type: none">We prioritise the optimisation of costs and the preservation of margins by implementing robust cost management strategies, harnessing technology and promoting operational excellence to drive improved work efficiencies and cost-effectiveness.We implement Enterprise Resource Planning (“ERP”) systems to seamlessly integrate financial processes across our organisation, facilitating enhanced analysis of spending, strategic sourcing and cost controls, while also increasing transparency into expenditure.We rigorously mitigate credit risk by conducting thorough credit evaluations and maintaining vigilant oversight of customer recovery processes and accounts receivable.We maintain proactive management of interest rates, employing a strategic blend of fixed and floating rate debts to effectively control costs and minimise financial risk.We utilise a natural hedge approach by securing borrowing in the same currency as anticipated revenue streams from international operations, mitigating currency exchange risks.
---	---

RISKS AND MITIGATION

COMPLIANCE RISK

Compliance risks entail the possibility of breaching laws or neglecting regulatory obligations. Failing to comply can profoundly disrupt the Group's business activities, resulting in legal and regulatory sanctions, financial losses and harm to its reputation. This could compromise the Group's position and trustworthiness within the industry and with stakeholders.

Context

- A substantial segment of our business operations revolves around concessions, notably within Healthcare Support and Infrastructure Services, which are subject to rigorous regulatory scrutiny and compliance measures.
- The geographical diversity of our business and customer base exposes us to potential non-compliance issues and litigation risks.
- Upholding integrity across our business operations and endeavours necessitates strict adherence to good corporate governance practices, regulatory frameworks and listing requirements.
- Any setbacks could lead to the suspension of vital authorisations, licenses and/or rights. The absence of regulatory clarity adversely affects our operations, reputation and investment choices.

Mitigation

- The Group meticulously manages contractual agreements with its customers, contractors and vendors through service-level agreements and contracts.
- We conduct regular assessments to ensure ongoing compliance, accompanied by continuous updates to policies and procedures to maintain their adequacy, effectiveness and relevance.
- We continue to foster and prioritise a culture of integrity and compliance within the organisation with internal processes rigorously enforced throughout operations.
- We maintain close collaboration with regulatory bodies and stay abreast of emerging legal and regulatory requirements, as well as industry standards and practices.
- Our robust Whistleblowing channels are established to provide employees, stakeholders and the public with a means to report any instances of actual or suspected malpractice, misconduct or violations of the Group's policies and procedures.

PEOPLE RISK

Securing and nurturing a committed and skilled team, equipped with the necessary knowledge, training, expertise and experience to accomplish our strategic goals, stands as a cornerstone of our success at UEM Edgenta. Challenges in attracting, assimilating and retaining the talents and proficiencies essential for our sustainable growth and performance could significantly impede our progress.

Context

- Our personnel represent one of our most valuable assets and fundamental pillars of success for the Group. Their role is paramount as they form the foundation of our capability to execute the Group's strategies and provide the necessary services and deliverables to our customers and stakeholders.

Mitigation

- We are crafting an Employee Value Proposition aimed at providing our employees with an unparalleled experience in exchange for their productivity and top-tier performance. This initiative goes beyond recruiting the right talent; we are committed to retaining the finest by consistently benchmarking against industry standards.
- Our robust succession planning framework and strategy are being implemented to identify and cultivate the right talents for pivotal roles within our organisation.
- Through Edgenta Academy, we are rolling out continuous training and development programmes designed to enhance and diversify the skill sets of our workforce, ensuring they are equipped with the latest talents and knowledge.

RISKS AND MITIGATION

CYBERSECURITY RISK

Cybersecurity risks represent the looming danger of the confidentiality, integrity or availability of UEM Edgenta's information, data or control systems being compromised, thereby potentially tarnishing the Company's operational efficiency, reputation and overall standing.

These risks are intricately intertwined with the Group's expansion initiatives and its increasingly presence in the realm of IT and digitalisation. With a mounting reliance on the internet and a surge in remote or offsite network access, vulnerabilities to cyber threats increase significantly.

The occurrence of any significant infrastructure failure, cyberattack or breach could severely disrupt UEM Edgenta's operational continuity, underscoring the urgent need for robust cybersecurity measures to safeguard its assets and interests.

Context

- At UEM Edgenta, we recognise technology as a force that empowers our organisation. It serves as a major catalyst for transforming our operations, enabling us to refine existing technological solutions, innovate digital healthcare offerings, streamline resource allocation, cut costs, boost productivity and enhance overall customer satisfaction and operational efficiency.
- With the expanding interconnectivity of our systems, we are increasingly susceptible to various cybersecurity risks. These include potential cyber threats, malicious attacks on our corporate cloud networks, information security threats, compromised data integrity and privacy and the potential for prolonged disruptions to UEM Edgenta's IT infrastructure.

Mitigation

- Our consistent vigilance and enhancement of IT security protocols are ensured through the implementation of cyber security solutions, which encompass network, application, information, end-user and data security. This involves bolstering cloud security, continuously monitoring critical data and implementing security controls such as firewall protection, endpoint detection and response systems, vulnerability assessments and penetration tests.
- Additionally, regular awareness initiatives are conducted to educate all employees about cyber threats, emphasising the significance of cybersecurity and keeping them updated on the latest developments in this field.

ESG RISK

Investors in today's investment landscape are increasingly prioritising Environmental, Social and Governance ("ESG") factors when evaluating companies' sustainability and risk profiles. The integration of ESG considerations can significantly impact a company's financial performance and shareholder value. Studies have revealed a positive correlation between strong corporate ESG, practices and financial success.

ESG risks encompass the diverse uncertainties and potential threats that challenge the ongoing enhancement of our business strategies and operational effectiveness. These risks are critical factors in sustaining our growth trajectory and ensuring the long-term availability of resources within our value chain, all within the context of ESG considerations.

Any form of non-compliance at UEM Edgenta may precipitate various adverse consequences. These encompass potential revenue and market share losses due to evolving customer preferences, an erosion of trust from investors and rating agencies, financial penalties imposed by regulatory bodies and a negative impact on our brand perception and public image.

Context

The growing importance of ESG programmes and disclosure is evident as stakeholders increasingly demand transparency regarding environmental stewardship, fair labour practices, occupational health and safety, diversity, responsible sourcing of materials, protection of communities a business serves and corporate governance. In response, our group has heightened its focus on ESG matters, reaffirming our commitment to these values and actively promoting them as integral to our identity as a responsible corporate citizen.

Mitigation

- The Group has established a robust sustainability framework across the Economic, Environmental, Social, and Governance pillars. This framework underpins a 2-year Sustainability Roadmap developed in 2022, guiding material matters relevant to our business. It also led to an effective Sustainability Governance structure involving the Board of Directors through our senior leadership team. A Sustainability Policy reinforces these efforts, integrating ESG principles and sustainability ethos within UEM Edgenta's operations and services.
- We are steadfast in maintaining compliance with prevailing ESG requirements, vigilantly monitoring changes in these standards and policies to ensure ongoing adherence.
- Regular assessments are conducted to evaluate our ESG compliance, with a commitment to updating our policies and procedures to ensure their adequacy, effectiveness and alignment with evolving standards.
- Engagement with stakeholders across our value chain is the foundation of our approach, enabling us to discern material matters, risks and threats. Through this dialogue, we devise and implement initiatives to mitigate these concerns effectively.
- Fostering conscientious and responsible ESG behaviour among employees, clients and vendors is a continuous effort, achieved through consistent communication and awareness-building at all organisational levels.

BUSINESS REVIEW

BUSINESS REVIEW

Serving over 250 hospitals since its inception across Malaysia, Singapore and Taiwan, Edgenta Healthcare Support is an internationally renowned market leader in non-clinical healthcare support services. In Malaysia, we serve more than 60 public and private hospitals, as well as various healthcare institutions.

As part of UEM Edgenta, our diverse knowledge and experience from multiple industries is an advantage which enables us to deliver optimal solutions in improving the non-clinical support services demanded by today's healthcare providers and other commercial industries.

From asset consultancy and management, facilities and biomedical engineering maintenance, waste management, linen and laundry, to housekeeping and portering services, we deliver quality services and fulfil the needs of the healthcare industry.

In our role as a strategic partner to healthcare institutions, we are highly dedicated and committed, ensuring our clients' hospital assets and facilities are operating at optimum levels of efficiency.

Overview

UEM Edgenta has continued to strengthen its position as the leading hospital support services provider with over 250 healthcare institutions across Malaysia, Singapore and Taiwan. In the past year, UEM Edgenta demonstrated resilient financial and business achievements, maintaining operational excellence in the face of various challenges and a complex operating environment. These accomplishments are set against the backdrop of transitioning healthcare industries in countries that we operate moving towards more environmentally sustainable, efficient and patient-centric models, driven by an increasing focus on technology and innovation in healthcare delivery.

Operating in these diverse and challenging markets has compelled UEM Edgenta to navigate demographic shifts and intensified health awareness post-pandemic, as well as the rising demand for quality healthcare services. Concurrently, we have continued to focus on embedding Environmental, Social and Governance ("ESG") considerations into our business model to ensure we are delivering our healthcare services and solutions in a responsible manner.

Business Review 2023

In 2023, UEM Edgenta's strategic initiatives across Malaysia, Singapore and Taiwan showcased a commitment to expanding service footprints, extracting value from core businesses and enhancing product and technology propositions in line with our EoTF2025 pillars. These initiatives across the region, aligned with the company's strategic pillars, highlight our resilience and adaptability in a challenging and dynamic healthcare support landscape.

FINANCIAL PERFORMANCE

BUSINESS REVIEW

Our Initiatives and Outcomes

Initiative	Outcome	Alignment to EoTF2025 Pillar
MALAYSIA	Healthcare Support Services (“HSS”) Concession	Top quartile Company Performance Assessment (“CPA”) and Customer Feedback Survey (“CFS”) results in 2023.
	Kamunting Incinerator Plant	Initiated essential improvement and upgrading works to maximize its performance capacity through business opportunities in the private healthcare waste management.
	Concession Revolution	Advanced through comprehensive stakeholder discussions and strategic planning, setting a strong foundation for business beyond the current concession. Focusing on providing best-in-class integrated facilities management services and the ESG elements comparable to global standards aligned with Ministry of Health (“MOH”)’s aspirations.
	Robotisation in Hospitals	Enhanced cleaning services performance using AI and robotics cleaning in these hospitals: <ul style="list-style-type: none">• Hospital Raja Permaisuri Bainun, Ipoh, Perak• Hospital Sultanah Bahiyah, Alor Setar, Kedah• Hospital Pulau Pinang, Pulau Pinang Implementation of robotic floor scrubber to optimise labour usage, improve cleaning operations efficiency, and reduce the environmental impact by using less water and energy.
		Deployment of an electric waste bin tugger to enhance porter safety and efficiency by reducing manual handling and minimising risks associated with moving heavy bins and loads, especially in challenging weather conditions. This implementation improves productivity through increased workflow efficiency and staff morale.
SINGAPORE	Major Healthcare Contract Win	Strengthened market leadership in healthcare portering through the acquisition of the Woodlands Health Campus contract, significantly enhancing service coverage.
	Expansion into Hospitality	Successfully diversified into the hospitality sector, introduced new service such as offerings and broadened market reach.
	Integrated Facilities Management Contracts	Gained high-profile contracts including INSEAD and expanded the Integrated Facilities Management (“IFM”) business with four new integrated contracts.
	Commercial Housekeeping Contracts	Expanded the commercial housekeeping business with the acquisition of eight new contracts, enhancing service diversity and reach.
	Kitchen Stewarding Contracts	Developed a business niche in kitchen stewarding with three new contracts.

BUSINESS REVIEW

Initiative	Outcome	Alignment to EoTF2025 Pillar
SINGAPORE	Renewals and New Contracts	Successfully renewed eight contracts and won nine new ones in healthcare and hospitality.
	UETrack™ Product Enhancements	Reinforced capabilities through partnerships with four technology companies: <ul style="list-style-type: none">• Taitung System Technologies• Digile• SustainEdge• Evercomm
	Automation Solutions	Integrated six new cleaning robots in hospitals, significantly improving efficiency and service standards in healthcare cleaning.
TAIWAN	Healthcare and Commercial Business Expansion	Renewed 51 contracts and won six new ones in Healthcare Business. Renewed 22 contracts and won five Commercial Business contracts.
	IFM/FES Venture	Successfully entered the IFM/Facility Engineering Services (“FES”) sector with a new contract, marking a strategic expansion in service offerings.

Key Certifications/Awards

In 2023, the Healthcare Support division achieved significant milestones across Malaysia, Singapore and Taiwan. These accomplishments highlight the company’s commitment to excellence, sustainability and ethical practices in the healthcare sector.

Malaysia

Certifications:

- Successfully attained the re-certifications for ISO 9001:2015 (Quality Management Systems), ISO 13485:2016 (Medical Devices - Quality Management Systems), ISO 14001:2015 (Environmental Management Systems), and ISO 45001:2018 (Occupational Health and Safety Management Systems)
- Successfully implemented and achieved 41st MSOSH Awards - OSH Gold Class 2 for Hospital Sultan Abdul Halim, Hospital Bukit Mertajam and Hospital Batu Gajah, and SoHELP Award for Hospital Sultanah Bahiyah
- Successfully led the design, implementation and achievement of the Green Building Certification and Sustainability Award for Ministry of Health in 2023:
 - Leadership in Energy and Environmental Design (“LEED”) for two hospitals:
 - LEED Platinum for Hospital Kepala Batas, Pulau Pinang
 - LEED Gold for Hospital Raja Permaisuri Bainun, Ipoh, Perak
 - Malaysian Carbon Reduction and Environmental Sustainability Tool (“MyCREST”) for three hospitals:
 - MyCREST 4-star rating for Hospital Seberang Jaya
 - MyCREST 3-star rating for Hospital Tapah and Hospital Kulim
- National Energy Award 2023
 - Hospital Sultanah Maliha - Merit in the Category 2: Energy-Efficient Buildings (Retrofitted Buildings)

Awards:

- Malaysia Book of Records Award for the “Fastest Construction of the Field Hybrid Intensive Care Unit (“FHyICU”) Building During Covid-19 Pandemic”. The FHyICU is a modular ICU unit equipped with its own self-sustaining power, oxygen, and water supply and was built at 14 selected government hospitals in Malaysia.
- The BrandLaureate Sustainable Business & Brands Inspirational Achievement Awards 2022 – 2023 in the category of Healthcare – Hospital Support Solutions

BUSINESS REVIEW

Singapore

- Successfully attained the ISO 37001:2016 Certification for our Anti-Bribery Management System
- Successfully renewed our ISO Certification 41001:2018 for our Facility Management System
- Achieved the Clean Mark Gold Accreditation for the ninth consecutive year
- Two of our Healthcare staff were honoured with the National Awards (COVID-19) for their exceptional contributions to Singapore’s efforts during the pandemic

Taiwan

- Received Certificate of Appreciation for actively employing disabled workers from these organisations:
 - Taipei City Foreign and Disabled Labour Office
 - The Body Disabled Association in Kaohsiung
 - Vocational Rehabilitation Resource Center
 - Kaohsiung Palette Association
- Attained re-certifications of ISO 9001 and Surveillance audit for ISO 14001, ISO 27001 and ISO 45001

ESG Initiatives

The ESG initiatives implemented by UEM Edgenta’s Healthcare Support division are part of a broader strategy aimed at environmental stewardship and aligns with the company’s focus on expanding our solutions base and enhancing our technology proposition under the EoTF2025 strategy.

BUSINESS REVIEW

OVERCOMING CHALLENGES

In 2023, the Healthcare Support sector across Malaysia, Singapore and Taiwan grappled with a series of challenges. In all three countries, the industry faced margin compression due to escalating operating costs, affected by factors like aging assets, supply chain issues and increased regulatory compliance, such as the gazettement of minimum and progressive wage which has also added to our costs. Additionally, the industries in these regions were strained by clients budgetary constraints, persistent manpower scarcity exacerbated by high staff attrition and competition for talent.

To mitigate these challenges, UEM Edgenta employed a range of strategies as outlined below:

MALAYSIA

Key Challenges

Margin compression due to higher operating costs contributed by cost inflation from maintenance of aging assets and infrastructure, supply chain challenges, regulatory compliance requirements such as the minimum wage, labour shortages and higher attrition rate

Mitigation Strategies

Diligent improvement in delivering quality services through enhanced operating model and business efficiency to retain clients’ trust
Cost optimisation through austerity measures such as stringent monitoring of overtime claim, centralised purchase of consumables or spare parts and revision of services or maintenance contracts

Key Challenges

Talent retention, rewards and recognition

Mitigation Strategies

Review of organisational structure, manpower upskilling and redistribution

Key Challenges

Limited growth in new revenue and businesses due to prudent spending by clients

Mitigation Strategies

Leveraged on strategic technology partnership and digitalisation adoption or mechanisation to improve productivity and generate better margin and branding

BUSINESS REVIEW

SINGAPORE

Key Challenges

Significant escalation in operating costs driven by inflationary pressures and government regulations that has drastically impacted manpower cost as well as the cost of supplies, consumables and equipment

Mitigation Strategies

Stringent optimisation of revenue and costs to minimise margin erosion, focusing on optimising non-manpower expenses through bulk purchasing, negotiations with suppliers on the best pricing and efficient inventory management

Key Challenges

Heightened demands and expectations by clients in terms of service levels

Mitigation Strategies

Engaged in open communication to understand their evolving needs and explore mutually beneficial solutions

Key Challenges

Persistent manpower scarcity aggravated by high staff attrition, foreign worker quota constraints and continuous difficulty in attracting and retaining operatives to work in the housekeeping sector and healthcare environment, especially in the competitive market with growing demand for lower waged workers

Mitigation Strategies

Strategic collaboration with a wider panel of partners for manpower resources, leveraged various social media recruitment platforms and regular employee engagement and surveys

TAIWAN

Key Challenges

When Hospital Accreditation (“JCT”) commenced in 2023, manpower costs increased tremendously as a consequence of the extra support hospitals needed to attain the accreditation

Mitigation Strategies

To mitigate the margin compression arising from the double impact of revenue and cost pressures, we are continuously taking up with our clients on a collaborative basis on resolving these challenges

Key Challenges

Operating in a demanding environment where client’s expectations of our services have increased

Mitigation Strategies

Continue to maintain high service quality and implementation of innovative equipment and systems to excite customers and create service differentiation

Key Challenges

Increase in minimum wage and concurrent intense escalation in all costs, particularly manpower expenditure

Mitigation Strategies

Implemented stringent cost reduction, control and avoidance strategies

BUSINESS REVIEW

Looking Forward to 2024

UEM Edgenta’s Healthcare Support division is preparing for a proactive and strategic year in 2024 across Malaysia, Singapore and Taiwan, focusing on several key areas to enhance our services and expand our market presence.

Malaysia

The strategy in Malaysia is built around three core pillars:

Preserve: Continue the strong execution of contractual requirements with a focus on providing service levels that exceed expectations while fully complying with safety and regulatory requirements

Pivot: Implement digitalisation, Smart Facilities Management (“FM”) and ESG-based initiatives to grow project margins

Progress: Expand the business domestically and internationally with a focus on new healthcare business projects and third-party healthcare waste businesses

In 2024, we will focus on:

- Intensifying operational quick win initiatives to ensure the delivery of high-quality services and prioritising engagements with stakeholders
- Optimising cost through prioritisation, rationalisation and meticulous deliberation on intended operational expenses

- Delivering exceptional healthcare support services (“HSS”) for the newly secured Hospital Cyberjaya, transitioning its readiness towards a Smart Healthcare institution
- Rigorous pursuit of targeted investment in non-HSS businesses and identified growth pillars by diligently refining the pipeline of new opportunities

Singapore

In Singapore, the division is focusing on the expansion and diversification of our services. Key strategies include:

- Expanding existing services in current markets such as securing existing and winning new Housekeeping and Porterage contracts under major groups including National University Health System (“NUHS”) and National Healthcare Group (“NHG”) and growing the Hospitality and Commercial Housekeeping business
- Developing new services like Inpatient Meal Services in the Healthcare sector

- Diversifying and growing existing services in new markets such as developing Concierge Specialist services in the Commercial sector, particularly for Grade ‘A’ Buildings
- Emphasising operational excellence, especially in response to intensifying manpower constraints, client demands and a changing market landscape. This involves being agile, resourceful and creative in operating contracts at competitive pricing while managing clients’ increasing expectations and escalating costs

Taiwan

In Taiwan, the division is adapting to challenges in the healthcare and commercial sectors with a focus on strategic responses to market conditions. Key strategies include:

- Addressing price sensitivity and budget constraints in the healthcare and commercial sectors by navigating competitive pressures from local low-cost service providers
- Managing the transition to headcount-based contracts in the healthcare sector, which now include regular roll calls and penalties, post-COVID-19
- Preparing for the resistance from clients concerning the impending increase in the minimum wage in 2024, which adds to the reluctance of clients to bear higher costs

- Coping with additional staffing needs driven by the requirements of the Joint Commission of Taiwan accreditation body, and managing unforeseen events like typhoons that escalate manpower expenses
- Advocating for the lifting of restrictions on importing foreign workers for hotel housekeeping to address severe staff shortages

BUSINESS REVIEW

Our Edgenta Property & Facility Solutions offers technology-driven Green Building Solutions and Asset Optimisation, with a focus on enhancement and energy solutions.

Property & Facility Solutions has evolved from a traditional building maintenance provider into a comprehensive facility solutions partner. We go beyond the traditional operations and maintenance, offering expertise that encompasses the entire building lifecycle. From retrofits and refurbishments to renovations and upgrades, we transform buildings into energy-efficient, green-certified smart spaces.

Overview

The Property & Facility Solutions division leverages on advanced technology to offer building owners a comprehensive view of their assets, operations and workforce. The division also applies Environmental, Social and Governance (“ESG”) principles at all levels in our operations, while also assisting our clients and partners in their sustainability journeys. Our approach enables our clients to make informed decisions that improve liveability and embraces sustainability, resulting in significant cost savings.

In 2023, we achieved significant milestones in maintaining operational excellence, despite facing a challenging operating environment and recorded growth of RM131.41 million in our order book on the back of sustainability-led and tech-enabled contract wins.

At PFS, we are on a mission to usher your building into the future. We guide clients along a sustainability and technology journey, ensuring compliance with ESG standards. We create modern, cloud-connected intelligent buildings with autonomous capabilities. Our diverse solutions cater to every aspect of your building’s needs.

Our comprehensive, end-to-end approach leverages years of experience and data-driven insights. This empowers us to deliver best-in-class, value-for-money solutions to help you make informed decisions, optimise operations, reduce costs, and achieve peak performance.

We embrace the “building-as-a-service” concept, prioritising the well-being and comfort of the people who inhabit these spaces. Our meticulously designed services cater to their needs while creating a thriving-built environment

Following the launch of UEM Edgenta’s Sustainable Zero-Capex Programme, led by the Group’s Asset Consultancy division, the Property & Facility Solutions division has implemented Energy Performance Contracting (“EPC”) and Green Performance Contracting solutions for our clients. These solutions enable clients to purchase energy efficient equipment or renewable energy supply with no upfront capital required. Our clients can therefore deploy capital otherwise meant for capital expenditure towards other critical business operations, in addition to enjoying energy and ultimately financial savings. The division also made commendable strides in delivering energy and resource savings and green building certifications for our clients.

Business Review 2023

To date, we have successfully managed Total Energy Performance Contracting (“EPC”) Projects amounting to a contract value of RM115 million with tenures extending from 2017 to 2033. The targeted annual carbon emission reduction from these EPC projects is estimated at 31,200 tonnes of carbon dioxide (“CO2”). Additionally, to date, we have achieved certifications for 20 buildings under the Green Building Index (“GBI”) and Leadership in Energy and Environmental Design (“LEED”).

These efforts have resulted in targeted annual electrical savings of 38.4 million kWh for our clients, equating to RM16.6 million per year in 2023, resulting in an impressive total accumulated electrical savings of RM70.4 million up until September 2023. This has led to a significant reduction in electrical energy usage, ranging from 10% to 52%, based on the baseline condition for systems that were replaced or optimised. Meanwhile, we have also accomplished a reduction in water consumption by more than 29.6% for our clients as a result of these efforts in 2023.

FINANCIAL PERFORMANCE

BUSINESS REVIEW

BUSINESS REVIEW

Key Certifications/Awards

Last year, we were recognised for our ESG initiatives with the ESG Positive Impact Awards. The division was awarded with both gold and silver awards in the Energy Efficiency and Renewable Energy categories specifically. These accolades highlight our dedication to implementing environmentally responsible practices and underscore our success in integrating energy-efficient and renewable energy solutions into our projects.

Initiatives and Outcomes

In 2023, the Property & Facility Solutions division of UEM Edgenta made remarkable strides in enhancing our service offerings, embedding sustainability at the core of our operations and leveraging technology to deliver superior solutions.

Initiative	Outcome	Alignment to EoTF2025 Pillar
ESG Consultancy Work for Mercu UEM	Supported alignment with overall Group's ESG implementation and Net Zero roadmap development.	↔↔↔↔
ESG and Sustainability Solution Workshop for Government-linked companies ("GLC") Fund	Focused on educating the management team and key personnel about ESG and sustainability solutions.	↔↔↔↔
Zero Capital Expenditure Programme	Assisted clients in deploying capital towards business, optimising and generating energy savings, translating into savings as part of the Energy Performance Contracting programme.	↔↔↔↔
ESG and Sustainability Services for Financial Institution	Provided value-add services to the existing Facilities Management Contract, enhancing client's ESG compliance to enable our clients to reduce their carbon footprint.	↔↔↔↔
Consultation and Building Upgrade for Green Building Certification	Achieved Green Building Certification status and enhanced building efficiency. Supported energy efficiency through the replacement of old chillers and renewable energy generation via PV installation.	⚙️+
Energy and Green Performance Contracting	These efforts have resulted in targeted annual electrical savings of 38.4 million kWh for our clients, equating to RM16.6 million in 2023.	⚙️+
Installation of Sensors for Water Efficiency	Reduced water usage through leak detection and prevention, improving water management.	⚙️+
Retrofitting Mechanical Systems for Tech Integration	Enhanced building systems for future integration with smart technologies through the retrofitting of Building Management Systems.	⚙️+
Performance-Based Contracting	Improved facility management efficiency and performance through data-driven insights via cloud-based maintenance for selected sites.	⚙️+

OVERCOMING CHALLENGES

The division faced and adeptly navigated a range of challenges. From managing the complexities of short-notice project awards to ensuring the delivery of high-quality services amidst manpower shortages, we employed a series of strategic actions to mitigate these challenges. Through these targeted strategies, we overcame operational hurdles and strengthened our market position as a provider of smart, sustainable facility solutions. These strategies are outlined below:

BUSINESS REVIEW

Key Challenges

Achieving key milestones despite Start-Up challenges

Mitigation Strategies

- Assigned specialised personnel to monitor progress and address issues
- Conducted thorough evaluations to identify and mitigate risks early
- Implemented methodologies with clear milestones for accountability and excellence

Key Challenges

Manpower Shortage/Attracting Talent and Enhancing Expertise

Mitigation Strategies

- Analysed skills gaps and aligning internal talent with project needs, including upskilling programmes
- Hired qualified external candidates to ensure adequate staffing and maintain project quality
- Prioritised training programmes and knowledge-sharing to equip staff with necessary skills

Key Challenges

UEM Solution Price Tag - Intense Market Competition

Mitigation Strategies

- Highlighted unique value propositions, including comprehensive solutions and technology integration
- Utilised expertise and robust support services to differentiate from competitors
- Cost optimisation

Key Challenges

Limited Stakeholder Awareness and Buy-In for Energy Efficiency Contracts

Mitigation Strategies

- Implemented communication strategies to educate stakeholders about the benefits of energy efficiency
- Showcased successful projects to build confidence and encourage adoption

Key Challenges

Difficulty in securing large contracts/accounts

Mitigation Strategies

- Introduced options like Energy Performance Contracting for cost-effective investments
- Demonstrated long-term financial benefits over traditional methods, including operational savings

BUSINESS REVIEW

Looking Forward to 2024

The year 2024 presents an exciting and transformative period for the Property & Facility Solutions division, as Malaysia's facility management sector embarks on a green revolution. This shift is primarily driven by national policies, such as the 12th Malaysia Plan, the National Energy Policy 2022-2040 and the National Energy Transition Roadmap (“NETR”), all of which aim to foster sustainable growth in line with the government’s focus on environmental stewardship.

We find our services and expertise supported by our continuous cost optimisation strategy ideally positioned in this changing landscape. Our array of smart and green building solutions, encompassing asset optimisation and building efficiency programmes, aligns seamlessly with Malaysia’s ambitious Net Zero goals. Our comprehensive approach, which includes real-time client dashboards and the Edgenta Smart Connect platform, provides clients with data-driven control to optimise asset lifecycle costs effectively.

Furthermore, the anticipated RM4 billion investments in implementing green and smart technology in government buildings by 2030 as outlined in the NETR open new avenues of potential for the division given our proficiency in energy and smart building integration. With our strong capabilities in this space, we are poised to be a major contributor in this transformation in the government sector. As the facility management landscape evolves to embrace green growth, we are well-prepared to take the lead to help pave the way for a greener, more sustainable Malaysia.

BUSINESS REVIEW

BUSINESS REVIEW

As Malaysia’s foremost infrastructure maintenance specialist, Edgenta Infrastructure Services offers industry leading expertise on Highway Network Maintenance and Asset Management, including innovative Pavement Works and Solutions services.

With over 35 years of experience in highway maintenance, we provide strategic advisory services, design, development, maintenance and management of major transport projects and infrastructure assets. To further strengthen our forte in linear asset maintenance, we strive for continuous performance improvement through the implementation of technology systems and process improvement concept for quality project delivery in an effective and efficient manner.

With a team of experienced and talented personnel, we carry out extensive study in understanding our clients’ pain points to provide smart, tailored optimal solutions that make us the ideal partner to the client and embark together in smart delivery model addressing our client’s needs.

Today, we have expanded our capabilities beyond roads, servicing multiple industries including rail, airports, ports, oil & gas, plantation roads and other commercial and industrial sectors.

Overview

In 2023, the Infrastructure Services division of UEM Edgenta achieved substantial progress in a challenging operating environment. The division maintained operational excellence including initiatives to enhance road infrastructure maintenance and operational standards with Projek Lebuhraya Utara Selatan Berhad (“PLUS”). We have also seen higher adoption of our Road Asset Management System (“RAMS”) which aims to enhance operational efficiency for our clients and ourselves.

In addition, we continue to embed Environmental, Social and Governance (“ESG”) practices in our operations. The highlight of this year was the

completion of the Hot Premix Plant (“Plant”) with Recycling Facility which enables us to produce Recycled Asphalt Pavement (“RAP”). RAP is a sustainable product that is derived from recycled milling waste and will help to decrease reliance on virgin materials and promote circularity within our business operations.

Furthermore, the division continued to uphold socially responsible principles in our operations by advocating the safety of road users and contributing back to society through various community-related initiatives.

Business Review 2023

In 2023, the Infrastructure Services division has grown our order book significantly and has successfully broadened our client base. Additionally, the division marked a key milestone with the completion of the Hot Premix Plant in the third quarter of 2023, setting the stage for future growth and expansion.

We saw higher growth in revenue in 2023 due to the higher amount of works on PLUS, Selangor State Road and Lebuhraya Pantai Timur 2 as well as revenue realisation from new projects secured in the fourth quarter of 2022, such as the Sarawak Coastal Road.

BUSINESS REVIEW

Initiatives and Outcomes

Throughout the year, the Infrastructure Services division undertook a series of transformative initiatives to drive operational excellence and strategic growth. These initiatives are detailed in the table below:

Initiative	Outcome	Alignment to EoTF2025 Pillar
Continuation of Growth Strategy for Existing Business	<p>Strengthened our presence in Peninsular Malaysia through the continuation of the Selangor State Road (Zone 2) concession and securing contracts in new state.</p> <p>We remain committed to expanding our business throughout East Malaysia and Indonesia.</p>	
Acquisition of Advanced Pavement Machinery	<p>The acquisition has enhanced our project execution capabilities, allowing for more complex infrastructure projects to be completed with greater precision and efficiency. This has also contributed to extending the longevity of road surfaces, ensuring long-term value for stakeholders.</p>	
Collaboration with PLUS (MyRSA) in 45 Locations	<p>The collaboration is aimed to foster a sense of ownership from the Management and Operations Teams. This includes monthly and planned visits by appointed leaders to Rest and Service Areas (“RSA”) and Mainline Layby. This initiative enhanced our capability to maintain desired service levels for customers comfort and safety.</p>	
Development of Hot Premix Plant with a Recycling Facility	<p>The introduction of the Hot Premix Plant has markedly reduced the carbon footprint associated with road construction and maintenance. By recycling milling waste into RAP, the division has lowered its consumption of raw materials, demonstrating leadership in environmental stewardship.</p>	
Implementation of Road Asset Management System (“RAMS”)	<p>RAMS has dramatically increased the lifespan of road assets through optimised maintenance schedules and reduced repair times. This system has enabled better resource allocation and cost savings, contributing to a sustainable and fiscally responsible approach to asset management.</p> <p>RAMS has also played a pivotal role in enhancing real-time monitoring and management of road conditions, leading to improved response times to incidents and maintenance needs. This has translated into a more reliable and efficient transportation network.</p>	

BUSINESS REVIEW

ESG Initiatives

The Infrastructure Services division has remained steadfast in its commitment to ESG principles throughout 2023. The table below provides an overview of the ESG-focused initiatives that have been integral to our operations, reflecting our dedication to sustainability and social responsibility.

Initiative	Outcome
Programme Kitar Semula EIS	This programme was undertaken to help reduce waste diverted to landfill. It has fostered a sense of community and responsibility among employees, reinforcing our commitment to sustainable practices.
3R Awareness Campaign for PLUS Highway Users	The campaign has led to a user sustainability awareness and increased recycling habits along the highway. It has also enhanced public perception of UEM Edgenta as a socially responsible organisation.
Sharing Ramadan’s Blessing with RSA’s Users	By distributing food during Ramadan to RSA users at Sungai Buloh, the initiative has strengthened community ties and showcased UEM Edgenta’s dedication to supporting cultural practices and providing for those in need.
Headquarters (“HQ”) and Central Region’s Iftar Celebration with Baitul Mahabbah Muallim	The celebration has bolstered our image as a caring and community-focused entity, reinforcing our commitment to giving back and supporting social welfare initiatives.
Local Projects Division and HQ Unite to Deliver Comfort to Masjid Al Falah, Klang	The initiative has not only improved the physical environment of a local place of worship but also served as a catalyst for increased community engagement and cohesion.
Protect Our Strays at Zero Strays Miri, Sarawak	This programme has contributed to the wellbeing of stray animals and has raised awareness about animal welfare in the community, aligning with our broader commitment to societal issues.

Key Certifications/Awards

The Infrastructure Services division achieved remarkable recognition for its commitment to workplace safety, obtaining both the Gold and Silver Award Winners for Occupational Safety and Health at the Malaysian Society for Occupational Safety and Health (“MSOSH”) 41st Awards in 2023.

BUSINESS REVIEW

OVERCOMING CHALLENGES

In addressing the challenges of safety, quality preservation and portfolio diversification, the Infrastructure Services division has carried out several strategies and initiatives throughout the year. The safety initiatives, including the Traffic Safety Campaign, have been particularly impactful. Leveraging social media influencers and engaging content, the campaign has significantly raised public awareness about traffic safety, resulting in a comprehensive understanding of the Safety Vehicle (“SV”) functions among highway users. The introduction of the SV has been a safety measure lauded by the Malaysian Highway Authority (“MHA”), aimed at reducing risk for both maintenance workers and road users.

In terms of quality preservation, we have placed a strong emphasis on effective data management systems, which have enabled more efficient and precise tracking and analysis of operational data. The continuous improvement and enhancement of Standard Operating Procedures (“SOPs”) have also ensured that all processes not only meet but exceed the required standards.

When it comes to diversifying our portfolio, we have strategically positioned our value proposition by integrating new materials and technologies that meet evolving market needs. One of the most significant innovations has been the setting-up of the Hot Premix Plant with Recycling Facility which exemplifies our commitment to sustainability and innovation. This initiative not only opens new revenue streams but also positions us as a leader in sustainable infrastructure solutions, aligning with global environmental trends and customer expectations.

BUSINESS REVIEW

Looking Forward to 2024

Looking forward to 2024, the Infrastructure Services division is poised to solidify our standing as a leading force within the domestic market. Our operational initiatives are laser-focused on maintaining market dominance by capitalising on newly secured businesses, ensuring exceptional service delivery and intensifying our customer-centric approach.

Strategically, we are setting our sights on broadening our service portfolio and pursuing avenues for global expansion, while focusing on commercialising our premix products. Complementing these growth initiatives, we intend to enhance our technological infrastructure by executing the Infrastructure Services technology roadmap, thereby staying at the forefront of the tech and digital solutions revolution. This technological advancement will run parallel to the enhancement of existing ESG initiatives, ensuring that our growth is both innovative and responsible.

BUSINESS REVIEW

Opus leading the charge of sustainability solutions of UEM Edgenta Group to reinforce Edgenta’s position as a leader in sustainability business, aligning with the group’s long-term strategic goals.

In September 2023, the consolidation of UEM Edgenta sustainability business to Opus Consultants, marks a significant milestone for Opus. The strategic moves enable the group to leverage on Opus’s renowned engineering and assets management consultancy expertise, while propelling growth trajectory and capitalising on emerging opportunities in the dynamic sustainability market.

Leveraging over three decades of engineering expertise, Opus Consultants has seamlessly transitioned into a premier provider of energy efficiency and sustainability solutions.

The diversification will solidify our leadership in engineering and asset management consultancy while venturing into the burgeoning sustainability sector. Despite this evolution, engineering and asset management consultancy remain the core of our operations.

Through innovative initiatives like our comprehensive end-to-end sustainability solutions and pioneering Zero-Capex Programme supported by innovative contracting models such as Energy Performance Contracting (“EPC”) and Green Performance Contracting (“GPC”), our aim is to surpass evolving market demands and provide unmatched value to our clients.

Aligned with our unwavering sustainability commitment, Opus has allocated RM200 million under the Zero-Capex Programme to support our clients’ decarbonisation and ESG initiatives, making sustainable practices accessible with minimal upfront costs.

Furthermore, the optimisation of our operational excellence agenda, facilitated by the restructuring of the UEM Edgenta sustainability business into Opus Consultants, ensures streamlined operations and underscores our commitment to excellence.

Overview

In 2023, amidst challenging business conditions with delays in various infrastructure projects, Opus has maintained resilience and stability. We fortified our core business and strategically diversified our market presence and offerings to capitalise on emerging opportunities.

The introduction of various Net Zero policies and initiatives by the Malaysian government including the National Energy Transition Roadmap (“NETR”), and the Energy Efficiency and Conservation Act (“EECA”).

In response, Opus has successfully pivoted beyond our traditional engineering and assets management consultancy services, positioning itself at the forefront of the nation’s decarbonisation agenda.

ASSET
CONSULTANCY

Throughout the year, Opus secured major project wins and added six new contracts, further strengthens our core business and our commitment to delivering value-driven outcomes for our clients.

Our strategic entry into the energy efficiency and sustainability sectors underscores our commitment to long-term growth and sustainability. We remain steadfast in our dedication to excellence and innovation, positioning Opus not only as a leader in engineering and asset management consultancy but also in energy efficiency and sustainability solutions.

Business Review 2023

In 2023, the infrastructure sector faced continued challenges due to uncertain global economic conditions, resulting in revisions and delays in many planned projects. Despite these challenges, our dedicated and resilient workforce have worked hard to overcome the challenges and seized the opportunities to deliver a strong performance.

For the financial year ended 31 December 2023, Opus revenue of RM89.4 million, was 10.4% lower than the financial year ended 31 December 2022 revenue of RM99.8 million. This was largely due to unmaterialised projects arising from revisions or delays in unsecured infrastructure projects.

Despite the lower revenue, Opus reported a higher profit before tax and Zakat of RM2.3 million, an increase of 27.8% from RM1.8 million mainly due to our focus on various strategic initiatives, including cost optimisations and enhancing operational excellence to improve the bottom line for long-term sustainable and resilient business growth.

BUSINESS REVIEW

Initiatives and Outcomes

In 2023, the Asset Consultancy division undertook a series of business initiatives, driving operational excellence and strategic growth. These initiatives are detailed in the table below:

Initiative	Outcome	Alignment to EoTF2025 Pillar
Geographical Expansion into East Malaysia	<p>Strengthening market positions in East Malaysia with our Sarawak Regional Office.</p> <p>Secured a contract for the Jalan Sultan Tengah project through our partnership with PPES Consults Sdn Bhd.</p> <p>Continue to nurture and develop local talents. We have successfully maintained 60% manpower ratios for Sarawak project.</p>	
Adopted Structured Approach and Intensify Business Development Activity	<p>We have organised our business development into West and East Malaysia.</p> <p>Acquired diverse new projects as follows:</p> <p>i. West Malaysia</p> <ul style="list-style-type: none">• Technical Advisory for Hospital Tunku Antah• Project Management Consultant for Mayang Mall• Independent Consulting Engineer for the upgrade works of PLUS RSA Seremban <p>ii. East Malaysia:</p> <ul style="list-style-type: none">• Project Management Assistant for Kuching Urban Transport System• Independent Consulting Engineer for the Jalan Sultan Tengah (Damai Masterplan)• Extension of Time for Sarawak Coastal Road Network and Second Trunk Road Phase 2	
Pivoting into New Business – Energy Efficiency and Sustainability	<p>Launched the End-to-End Sustainability Solutions and allocated RM200 million for Zero-Capex Programme, targeting energy-efficient retrofitting green building certified structures to reduce operating expenses and environmental impact.</p> <p>i. End-to-end Sustainability Solutions:</p> <ul style="list-style-type: none">• Net Zero Strategy Solutions• Engineering Solutions• Project Implementation• Sustainable Asset Management• Sustainable Finance Solutions <p>ii. Zero-Capex Programme:</p> <ul style="list-style-type: none">• EPC• GPC• Power Purchase Agreement (“PPA”) <p>Entered a Memorandum of Business Exploration (“MOBE”) with Honeywell and Earth Finance, Inc.</p>	
Engineering Excellence – Leveraging advanced assets management technology solutions	<p>As the sole provider in Southeast Asia, we utilise the Deighton Total Infrastructure Management System (“dTIMS”), a business analytics tools for comprehensive asset lifecycle analytics, planning, and management, optimising performance and cost-effectiveness across the asset’s lifespan.</p>	
Innovative Solutions – Building Condition Assessment (“BCA”) and Slope Management	<p>Embarking on BCA solutions for buildings and slopes management represents a strategic diversification initiative aimed at expanding our service offerings and appealing to a broader spectrum of clients through innovative solutions.</p>	

BUSINESS REVIEW

ESG Initiatives

In 2023, our Asset Consultancy division advanced initiatives integrating Environmental, Social, and Governance (“ESG”) principles, notably launching the Sustainable Zero-Capex Programme in Peninsular Malaysia and Sarawak with a RM200 million allocation. This programme accelerates resource and energy reduction for building owners across various sectors without upfront costs, aiming for green certification.

Partnerships with Honeywell and Earth Finance under MOBE agreements further our commitment to carbon emission reductions in line with the Paris Agreement. Internally, we prioritise ESG, with initiatives including awareness training, a sustainability policy framework, and a fabric recycling programme.

Key Certifications/Awards

At OPUS, safety is our top priority. In 2023, we continued our commitment to workplace safety, environmental preservation, and regulatory compliance through various initiatives.

We are proud to have received The Occupational Safety and Health Award (Gold Class 1) from the Malaysia Society for Industry Safety (“MSOSH”) for two consecutive years, recognising our ongoing dedication to maintaining high safety standards and ensuring the well-being of our employees.

OVERCOMING CHALLENGES

During the year under review, OPUS faced and conquered significant challenges, demonstrating resilience and adaptability.

We strategically shifted our focus to East Malaysia, recognising its burgeoning infrastructure opportunities amid limited prospects in Peninsular Malaysia. Despite intense competition, we persevered, navigating obstacles with determination. Our market redirection intensified our presence in East Malaysia, with the establishment of a full-fledged Sarawak Regional Office and expanded service offerings.

We diversified our portfolio by targeting mid-size projects and introducing innovative solutions like modular engineering and project management consultancy. These initiatives not only broadened our client base but also strengthened our competitive edge.

Our ability to overcome challenges and seize opportunities underscores our commitment to sustained growth and excellence. Moving forward, we remain dedicated to delivering value and driving innovation while integrating ESG elements into our business practices.

Looking Forward to 2024

Looking forward, Opus is positioned to lead the industry by embracing resilience, innovation, and a strong focus on talent development as we transition towards the energy efficiency and sustainability segment while maintaining and reinforcing our core business.

Leveraging our established expertise in engineering and asset management consultancy, we are strategically pivoting to seize emerging opportunities and deliver comprehensive, value-driven solutions that cater to the evolving needs of our clients and the dynamic industry landscape.

Our commitment to excellence, sustainability, and innovation will continue to shape our approach as we integrate technology into our sustainable practices and ESG considerations into our core business strategies.

We will continue to grow and strengthen our energy efficiency and sustainability business through innovative solutions, monetising our RM200 million Zero-Capex Programme to facilitate asset owners’ adoption of energy efficiency and green structures in line with our nation’s decarbonisation agendas, such as NETR and EECA.

We will proactively focus on talent development initiatives, including comprehensive training programmes and upskilling opportunities. Furthermore, we recognise the importance of investing in new capabilities to support our strategic goals in energy efficiency and sustainability.

By combining these elements, we are confident in our ability to build a resilient and forward-thinking organisation.

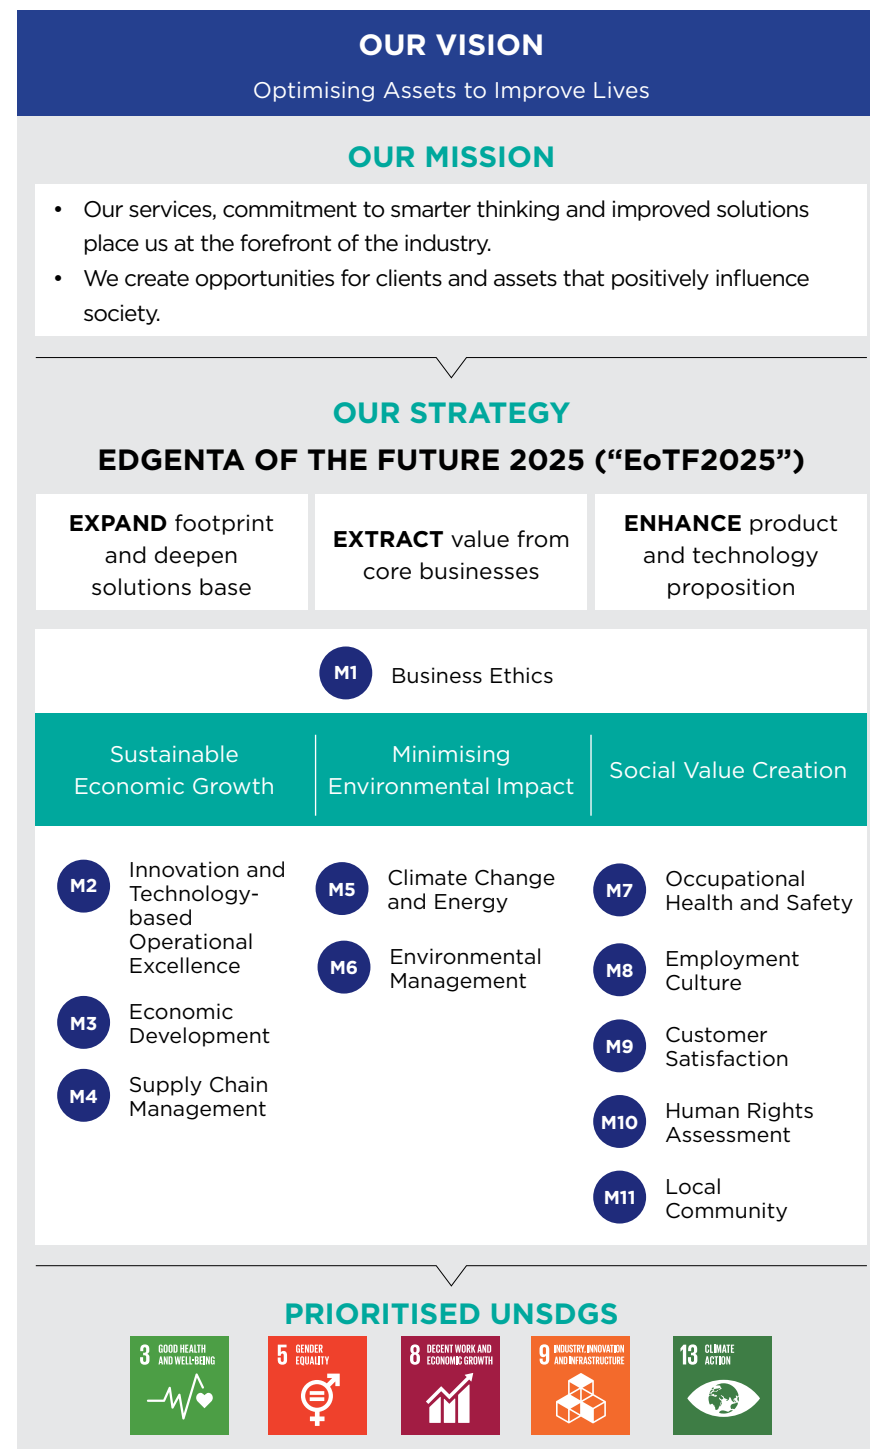

SUSTAINABILITY AT UEM EDGENTA

At UEM Edgenta, we align ourselves with principles that matter to our stakeholders, actively managing and operating a responsible business while securing profits and driving long-term value creation. In this regard, we strive to create innovative solutions to tackle the most pressing challenges facing our planet and society.

Our dedication to sustainability is about driving long-term economic growth while making positive impacts on the world we all share. We envision the Edgenta of The Future 2025 ("EoTF2025") as a means to deliver top-notch services to our customers fuelled by precision, cutting-edge technology, and unwavering safety standards.

Our sustainability goals are guided by our Sustainability Framework which underpins three core pillars – Sustainable Economic Growth, Minimising Environmental Impact and Social Value Creation. They serve as a roadmap guiding us towards making a meaningful difference that contribute to a brighter future for all.

UEM EDGENTA's Sustainability Framework

► For more information on Sustainable Economic Growth, see page 116
 For more information on Minimising Environmental Impact, see page 130
 For more information on Social Value Creation, see page 144
 For more information on our Sustainability Performance Data, see page 415

LEADERSHIP COMMITMENTS TO SUSTAINABILITY

DEAR STAKEHOLDERS

Reflecting on the past year, I am proud to share the strides UEM Edgenta has taken in advancing our sustainability agenda. Our journey towards sustainability is driven by the necessity to prioritise stakeholder expectations through our two-year Sustainability Roadmap (FY2022 – FY2024), which provides an overarching steer, outlining strategic initiatives and milestones, and shaping the trajectory of UEM Edgenta's sustainability journey.

SUSTAINABILITY AT UEM EDGENTA

In 2023, UEM Edgenta continued to address its material matters driven by our commitment to do business responsibly. During the year, we undertook several strategic initiatives as part of enhancing our sustainability commitments.

Firstly, we enhanced our Sustainability Policy for better alignment with Bursa Malaysia's Sustainability Disclosure guidelines, FTSE4Good and industry best practices. Through this enhancement, we expressed a greater commitment to adhere to evolving sustainability standards and practices across the Economic, Environment, Social and Governance ("EESG") spectrum and drive positive impact in our operations, value chain and services we offer.

In addition to promoting further transparency on sustainability performance, we continuously strive to enhance the quality of data disclosed in our sustainability statement. This has been achieved through aligning our disclosures with regulatory requirements and best practices, in compliance with Bursa Malaysia's sustainability reporting guidelines. For 2023, our sustainability statement includes a limited assurance statement based on a limited assurance exercise conducted by our internal audit team.

Through our Sustainability Roadmap, we have laid a solid foundation for an effective sustainability governance framework that prioritises ethics and transparency. The Board at UEM Edgenta plays a crucial role in setting the tone and overseeing the sustainability strategy of the Group. The Board Governance and Risk Committee ("BGRC") recommends and monitors sustainability programmes, while together with the Nomination and Remuneration Committee ("NRC"), it reviews performance against agreed KPIs. In this regard, the Board also oversees the monitoring of ESG targets and performance through the Company's corporate scorecard, which embeds relevant ESG metrics.

Net Zero Targets in 2023

With an interim target of **26%** reduction by 2030

SUSTAINABILITY AT UEM EDGENTA

The ESG Steering Committee, led by the Managing Director/CEO, deliberates and provides steer on sustainability matters across the Company. The Managing Director/CEO also ensures that policies and practices are disseminated throughout the organisation. During the year under review, an ESG Department was formalised to execute sustainability initiatives, providing strategic guidance and operational support in implementing and monitoring ESG-related activities across the organisation.

The Board also takes continuous steps to enhance its knowledge on sustainability-related matters. In 2023, the Board underwent more than 130 hours of ESG-related training, covering important topics such as setting climate targets and ESG governance processes to facilitate deliberations and discussions of ESG matters.

UEM Edgenta continuously ensures compliance with local and international laws through a structured approach, with oversight from the Responsibility, Integrity, Compliance, and Diversity ("RICD") department.

UEM Edgenta's risk management policies and practices are guided by its Risk Management Framework ("RMF") and aligned with ISO 31000 guidelines. Other policies and frameworks, such as the Sustainability Policy, Anti-Bribery Management System, and Whistleblowing Policy, reflect UEM Edgenta's commitment to governance and ethics. The company continuously engages with external stakeholders, NGOs, and authorities to enhance anti-corruption efforts. Throughout the reporting year, more than 15 engagement activities, such as Vendor Day and Integrity Awareness Sessions were held in 2023 to educate our stakeholders on key risk matters.

Key milestones achieved in 2023 include obtaining the ISO 37001 Anti-Bribery Management Systems ("ABMS") certification, enhancing the e-declaration portal to include more integrity declarations, and developing the Organisational Anti-Corruption Plan ("OACP").

Moving forward, the Company will enhance its risk management framework to capture sustainability-related risks, such as the impact of climate change and other material matters to the business. In the interim, UEM Edgenta has already taken steps to identify and assess environmental, social, and governance-related risks, which are reported to the BGRC quarterly. The Company has also begun preparations to address the recommendations of the Task Force for Climate-Related Disclosure ("TCFD") and International Sustainability Standards Board ("ISSB") by undergoing TCFD awareness training in 2023 and developing a roadmap for the compliance process.

OUR COMMITMENT TO THE CLIMATE AND ENVIRONMENT

During the year, UEM Edgenta completed several key sustainability initiatives, making further progress in two key material matters, namely Climate Change and Energy, and Environmental Management.

In response to climate change concerns and expectations from our stakeholders to address this material matter, we initiated the work to establish our Scope 1 and Scope 2 emissions inventory, which amounted to 17,577 tonnes of CO2-equivalent (tCO₂e), comprising 10,356 tCO₂e of Scope 1 emissions and 7,221 tCO₂e of Scope 2 emissions. The exercise to establish our emissions inventory provided many learnings to the company – including data verification for completeness as well as the accuracy of calculating emission figures based on global standards – all of which provided further understanding of the nature of our emissions footprint and the correlation of our business activities to GHG emissions.

A notable achievement in 2023 was the launch of UEM Edgenta's groupwide Net Zero Targets and our commitment to achieve net zero GHG emission by 2050. Additionally, we established an interim reduction target of 26% by 2030 for Scope 1 and Scope 2 emissions, towards achieving Net Zero by 2050. These commitments align with the International Energy Agency's ("IEA") Net Zero Emissions by 2050 Global Pathway.

Our commitment to reducing emissions is predicated on our decarbonisation strategy which anchors on optimising energy consumption through energy efficiency solutions, leveraging on clean and renewable energy sources and electrification of our fleet of vehicles. Immediate initiatives undertaken during the year included the capacity optimisation of our Kamunting incinerator plant to generate optimum levels of heat and to reduce the reliance on natural gas. In addition, we piloted the use of Green Energy Tariffs from TNB as a means to offset our hard-to-abate sources of emissions. These initiatives had provided the initial momentum required to kick-start our decarbonisation journey. In 2023, we recorded a reduction of 777 tCO₂e in our Scope 1 and Scope 2 emissions, translating into a 4.04% emission reduction from our 2022 baseline.

Moving forward, we are focused on establishing GHG reduction monitoring process to measure the performance of our net zero strategy and also to allow us to refine our climate targets as we progress. We are also embarking on an exercise to establish our Scope 3 emissions inventory and make a similar pledge to Net Zero by 2050.

SUSTAINABILITY AT UEM EDGENTA

To manage our Environmental Management material matter, we remain committed to proactively reducing waste by implementing comprehensive waste-handling strategies. In 2023, we completed the construction of our Recycled Asphalt Pavement ("RAP") Premix plant in Tapah, Malaysia. The plant will help our clients in reducing milling waste from our pavement-related services and optimise raw material consumption by utilising up to 30% of recycled asphalt. Moving forward, UEM Edgenta remains dedicated to implementing environmental conservation practices in both its operations and its solutions. The company plans to compute its waste footprint to develop a comprehensive waste management programme while promoting recycling efforts.

BUILDING OUR SUSTAINABILITY CULTURE

At UEM Edgenta, we understand that ESG factors are not just components of our operations but fundamental to our core values and overarching objectives. Cultivating the right culture, skills, and mindset is crucial to propelling our sustainability agenda forward and achieving our goals.

WE ARE PROUD RECIPIENT OF THE STAR ESG AWARD

GOLD for Energy Efficiency and

SILVER for Renewable Energy, Talent Management and Good Health and Wellbeing Practices

Sustainability culture is deeply embedded in our people in various aspects. Our employees undergo future-ready training to adapt to evolving challenges, ensuring they play an active role in enhancing operational efficiency and sustainability goals. During the year, we initiated a focused capability development programme for all our employees, called the Individual Development Programme ("IDP"), enabling the assessment of individual competencies and identification of areas for improvement. This initiative has empowered staff to pursue tailored training to address both their core and job-specific competency requirements. These learning initiatives resulted in staff recording a total of 295,702 learning hours during the year.

Fostering an inclusive and diverse workplace is integral to who we are. In 2023, we took steps to advance this cause by introducing a Diversity, Equity, and Inclusivity ("DEI") Statement, advocating for these values in all our workplace practices. Ensuring equal opportunities is a priority in our HR processes, and the company adheres to Employment Acts in the markets it operates and aligns with international labour standards. Furthermore, we reaffirmed our commitment to recognising the rights of our employees by acknowledging the National Union of Hospital Support, Allied Services, and Government Agencies. This action underscores our dedication to upholding the right to freedom of association and collective bargaining. Efforts are currently underway to reach a first set of collective agreements on areas of mutual interest for both parties.

Moving forward, UEM Edgenta will continue to engage with employees through various initiatives tailored to fortifying leadership development, championing inclusivity and diversity, and optimising recognition and rewards frameworks. By nurturing a workplace culture that celebrates diversity, we aim to foster a thriving and empowered workforce.

Employee health, safety, and well-being are core aspects of our corporate culture, as demonstrated by our FIRST principles. To this end, UEM Edgenta is dedicated to ensuring the health, safety, and security of its workforce. The overarching goal is to achieve zero incidents, occupational illnesses, environmental events, non-compliance with legal requirements, and prioritising the physical and emotional well-being of employees. This commitment is embedded in our comprehensive Quality, Health, Safety, Security, and Environment ("QHSSE") Policy, which focuses on compliance with statutory and regulatory requirements and promotes a culture of continuous improvement in Health, Safety, Security, and Environment ("HSSE").

SUSTAINABILITY AT UEM EDGENTA

During the year under review, Edgenta recorded several milestones in advancing its HSSE practices. The company successfully obtained the ISO 9001:2015, ISO 45001:2018 & ISO 14001:2015 (Quality, Occupational Health & Safety and Environmental Management Systems) Certifications, a demonstration of Edgenta's sound quality management system to ensure that the services and products offered meet international standards. In addition, the Company also operationalised its HSSE manuals, ensuring better adherence to health, safety and environmental practices. Assurance processes were carried out and intervention plans were identified for further improvements. As a result of these well-executed measures, we became the proud recipient of the Star ESG Award – Silver for our outstanding Health and Well-being practices, highlighting our dedication to creating a sustainable and thriving workplace for our employees.

Looking ahead, UEM Edgenta is committed to continually improving its HSSE management system, nurturing a robust safety culture, and striving for zero incidents, occupational illnesses, and environmental events through ongoing training, awareness sessions and monitoring processes. The organisation aims to instil a workplace ethos where safety is deeply ingrained in the culture, spanning from top management to every employee, ensuring the highest standards of well-being and environmental stewardship.

In our dedication to maintaining a strong supply chain, fostering ethical procurement practices, and supporting local vendors, UEM Edgenta maintains a rigorous set of procurement standards outlined in our Strategic Vendor Management Framework ("SVMF"). Through this framework, we actively collaborate with our suppliers via our signature Vendor Development Programme ("VDP") to ensure their alignment with our sourcing criteria, ultimately improving our supply chain performance.

Our assistance includes providing training programmes covering health and safety regulations, ethical sourcing principles and procurement practices. During the year, we expanded these training initiatives to include sustainability-related discussions, aimed at boosting our vendors' understanding of ESG principles. In addition, we onboarded 9 new suppliers into our VDP. Other initiatives like the Supplier Financing Programme ("SFP"), in partnership with HSBC Amanah Malaysia Berhad, provides vital support to SME suppliers, helping them manage their cash flows while conducting business with us.

We consistently monitor our vendors' performance through our Vendor Performance Review and HSSE Performance Rating processes. During the year, we evaluated 93 vendors from our Infrastructure business and offered training and support for those who do not meet our minimum rating requirements to assist them in meeting our established standards.

Going forward, we aim to enhance our SVMF by integrating more sustainability-related considerations in our procurement practices. This includes supplier environmental and social assessments, incorporating green material sourcing principles, implementing stricter health and safety requirements, as well as human rights screening procedures for supplier evaluation. To better prepare our vendors for these changes, we plan to conduct a risk profiling exercise to assess our suppliers and subsequently, develop a supply chain engagement plan to assist our vendors in complying with our enhanced supply chain framework.

At UEM Edgenta, community contributions and development with a focus on education, community enrichment and well-being is very much aligned with our vision.

Through the "Saving Animals, Serving Community" CSR programme, the Company allocated approximately RM30,000 to support animal welfare and conservation efforts of the endangered Aldabra Giant Tortoises and a giraffe. Additionally, UEM Edgenta practiced circularity by rescuing 7,225 kg of surplus pet food, benefitting over 50 shelters, preventing the release of 20,230 kg of carbon dioxide into landfills.

In its community empowerment CSR endeavours, UEM Edgenta launched several initiatives such as 'Back-to-School Riang Ria' to aid underprivileged school children and provided flood relief assistance in Segamat, Johor and the "Jalinan Kasih Edgenta" programme which facilitated inclusive festive celebrations, enhancing community engagement and social cohesion during key cultural events such as Chinese New Year, Ramadan, Deepavali, and Christmas.

The establishment of the Arboretum Education Center in partnership with Universiti Putra Malaysia in December 2023 highlights the company's commitment to further extend educational and awareness platforms in the area of environmental sustainability.

These efforts led to UEM Edgenta receiving the prestigious "Company of the Year (Asset Management & Infrastructure Solutions)" award at the esteemed Sustainability and CSR Malaysia Awards 2023. Looking ahead, the organisation is poised to further solidify its role in sustainable development by continuing to work with communities in the markets it serves to promote education and community enrichment programmes.

UEM Edgenta practiced circularity by rescuing 7,225 kg of surplus pet food, benefitting over 50 shelters, preventing the release of 20,230 kg of carbon dioxide into landfills.

EXPANDING OUR ECOSYSTEM

Sustainability is a collective effort that spans our entire value chain. At UEM Edgenta, we are committed to supporting our partners and clients to achieve their ambition towards reducing their climate footprint. To this end, related sustainability services that the company undertakes as part of its comprehensive facilities management includes conducting ESG site audits, facilitating Green Building Index certification, and developing sustainability roadmaps in line with global standards.

To-date, our services have proven impactful, with energy management initiatives resulting in annual savings of approximately 81.4 million kWh recorded in assets that we manage. This translates to savings of approximately RM55 million in energy bills since 2017. In addition, we helped one of our key clients, the Ministry of Health Malaysia, in obtaining the Leadership in Energy and Environment Design ("LEED") certification recognised by the U.S. Green Building Council for 8 healthcare facilities, showcasing our clients' dedication to environmentally sustainable practices. Our efforts in promoting sustainability practices in assets we managed in turn saw us receive two 4-star ratings and four 3-star ratings under the Malaysian Carbon Reduction and Environmental Sustainable Tool ("MyCrest") rating system for the healthcare facilities we manage.

To fortify our market standing, we launched Opus Sustainability, serving as the one-stop solutions provider to help asset owners decarbonise their assets towards achieving a sustainable build environment. This strategic consolidation, complemented by our established success in energy performance contracting, led to us securing nine sustainability mandates from clients in Malaysia in 2023, bringing our total ongoing sustainability mandates to 21 contracts. Additionally, we have earmarked RM200 million to help finance sustainability projects on a zero-capex model, aiding our clients' transition to a low-carbon economy. With this commitment, we aim to boost closer collaboration with our clients, promoting the use of renewable energy sources, expanding green infrastructure like EV charging points, and upgrading existing infrastructure to high-performance green buildings. Through strategic partnerships with organisations like Earth Finance, Honeywell, and Yinson Greentech, we are working together to pursue sustainability and decarbonisation goals.

Earmarked RM200 million through Opus Sustainability to finance sustainability projects, supporting our clients' transition to a low-carbon economy.

SUSTAINABILITY AT UEM EDGENTA

UEM Edgenta's approach to technology and operational innovation revolves around a threefold strategy focused on strengthening the core, transforming tech delivery, and redefining business models. This approach is delivered through the Digital, Technology and Innovation ("DTI") department and Edgenta NXT, the technology commercialisation arm of UEM Edgenta. Together, they implement various technology solutions to enhance cybersecurity measures, modernise cloud infrastructure, and optimise tech delivery processes via computer-aided facility management systems, sustainability solutions, IoT device deployment and smart city solutions.

During the year, Edgenta NXT rolled out Asseto, a cloud-based computer-aided facility management platform deployed across 15 sites of UEM Edgenta's portfolio. Asseto facilitates predictive maintenance, remote monitoring, data analytics works, and provides customised dashboards that include carbon emission tracking and energy usage optimisation, offered in collaboration with third-party platforms such as Alibaba.

Additionally, UEMS Singapore rolled out a Community App to facilitate our employees in Singapore to track their emission footprint. The app serves as a platform to encourage sustainability-driven behaviours, including waste reduction, adoption of environmentally friendly transportation modes, and the sharing of sustainability-related information among employees. UEM Singapore also deployed its *UETrack*™ application in an additional 27 sites in Singapore in 2023 to allow better asset tracking and improved efficiencies in scheduling cleansing work orders.

Our initiatives serve as a roadmap towards a more sustainable, inclusive, and prosperous world. By leveraging cutting edge technology and data analytics we optimise urban infrastructure and enhance the sustainability, efficiency, and liveability of cities, driving forward the vision of smarter, more connected urban environments for the future.

LOOKING AHEAD

While we have made significant strides in our sustainability journey, it is important to recognise that there is still much work ahead of us. As we look to the future, our focus is on further shaping our ESG journey.

To drive our efforts forward, we aim to entrench ESG into our operational culture, strengthen our policies, and invest in markets that value ESG principles. Our ultimate goal is to build a resilient, sustainable company that not only generates profits, but also benefits all stakeholders involved.

SYAHRUNIZAM SAMSUDIN
Managing Director/Chief Executive Officer

SUSTAINABILITY AT UEM EDGENTA

PRIORITISED UN SDGS

UEM Edgenta is committed to contributing to the United Nations Sustainable Development Goals (“UN SDGs”) through our various initiatives and practices. We recognise the importance of addressing global challenges such as health, inequality, climate change, and environmental degradation, and we are dedicated to playing our part in achieving a sustainable and prosperous future for all.

SUSTAINABILITY AT UEM EDGENTA

DRIVING SUSTAINABILITY THROUGH PARTNERSHIPS

SUSTAINABILITY AT UEM EDGENTA

Driving Sustainability Through Partnerships and Networks

Government, Regulators, Industry and Business Associations

Kementerian Pembangunan Usahawan dan Koperasi ("KUSKOP")

Through collaborative endeavours aimed at upskilling Small and Medium Enterprises ("SMEs") and Social Entrepreneurs, we have fortified the business ecosystem, promoting inclusive economic growth. In 2023, we successfully onboarded nine additional vendors into the three-year Vendor Development Programme, further enhancing our commitment to fostering sustainable business partnerships.

CEO Action Network ("CAN")

Engaged in partnerships with over 60 companies to develop capacity building programmes that have positively impacted over 1,000 employees spanning 20 diverse sectors. Additionally, we participated in CAN Nature Retreat that was held in July. The event brought together leaders from 60 companies to deliberate on environment and climate related matters and reinforce their commitments towards climate action.

Asia Pacific Real Assets Association ("APREA")

Actively engaged with Asia Pacific real estate companies to acquire valuable insights and market intelligence within the real estate industry, while simultaneously leveraging the Sustainability guide materials provided by the association. This collaborative effort not only enhances our understanding of market trends but also serves as a platform to foster collaboration and identify growth opportunities within the sector.

Malaysian Asset and Project Management Association ("MAPMA")

We organised an engagement session for members to collaborate on enhancing standards in asset and project management across various industries in Malaysia.

Climate Governance Malaysia ("CGM")

Continued to become a member of Climate Governance Malaysia, which is the Malaysian chapter of the World Economic Forum's Climate Governance initiative. We also attended the National Climate Governance Summit to gather insights from corporate leaders on climate ambition and best practices.

Clients and Partners

Ministry of Health ("MoH")

Closely collaborated with the Ministry of Health Malaysia to provide vital non-clinical hospital services to 32 Government hospitals. This partnership aims to advance their sustainability objectives and support the attainment of Green Building Index ("GBI") status for these healthcare facilities.

PLUS Malaysia Berhad

Partnered with PLUS to produce sustainable pavement material using milling waste and implemented water conservation initiatives across PLUS facilities.

Honeywell Engineering Sdn. Bhd.

Exploration of development and provision of end-to-end solutions for renewable energy and comprehensive sustainable building asset management solutions for Net Zero in Malaysia, including energy and waste management solutions, and capability development of smart city technologies.

Earth Finance Inc.

Provided capacity building in Scope 3 emissions, offering training, technical assistance, knowledge sharing, resources, and strategic guidance to enhance Edgenta's ability to measure, manage, and reduce its Scope 3 emissions effectively.

Initiated business collaboration with Opus Consulting through Memorandum of Business Exploration (MOBE), to provide Energy Efficiency and Sustainable Solutions to clients

Yinson GreenTech

Exploration of Sustainability Services and potential to develop go-to market end-to-end Sustainable vehicles solutions to respective clients whilst ensuring a greener supply chain.

SUSTAINABILITY AT UEM EDGENTA

SUSTAINABILITY ROADMAP

Our two-year roadmap, spanning from FY2022 to FY2024, serves as a strategic blueprint for integrating sustainability into the fabric of our organisation. Developed through a comprehensive and holistic approach, this roadmap was informed by insights gathered from stakeholders through various workshops, and it takes into account material matters significant to both our business operations and stakeholders. The roadmap is structured around six sustainability pillars: Approach, Materiality, Performance Measurement, Governance and Culture, Initiatives and Action, and Reporting and Communication, guiding our journey towards a more sustainable future.

Progress in 2023

2022

Strengthening Our Fundamentals

We launched our sustainability journey:

- Approach:** Initiated a strategic 2-Year Sustainability Roadmap to guide our efforts.
- Materiality:** Conducted a detailed materiality assessment to identify key sustainability issues.
- Performance Measurement:** Developed Scope 1 and Scope 2 Emissions Inventory and embedded ESG into corporate scorecard.
- Governance and Culture:** Strengthened our ESG governance with an enhanced Terms of Reference. Launched ESG Awareness Month and self-paced ESG training.
- Initiatives and Action:** Prioritised material matters, set up focus groups and identified champions to drive action. Execute survey suppliers for ESG suppliers profiling.
- Reporting and Communication:** Enhanced Sustainability Statement reporting according to Bursa Guidelines, GRI and FTSE4Good.

2023

Building Momentum

We intensified our sustainability efforts across all of our roadmap's sustainability pillars:

- Approach:** Enhanced and communicated Sustainability Policy to align internal and external stakeholders with our goals.
- Materiality:** Conducted an annual review of the Material Matrix to incorporate external stakeholders view.
- Performance Measurement:** Developed Net Zero Targets and initiated selected categories for Scope 3 emission inventory, demonstrating our commitment to comprehensive sustainability tracking.
- Governance and Culture:** 2nd year of ESG Awareness month and ESG self-paced training, formalised ESG department.
- Initiatives and Action:** Segmentised supplier to prepare for scope 3 emission inventorisation.
- Reporting and Communication:** Digitised emission calculation and continued to report according to Bursa's requirements. Developed a TCFD roadmap for reporting.

2024

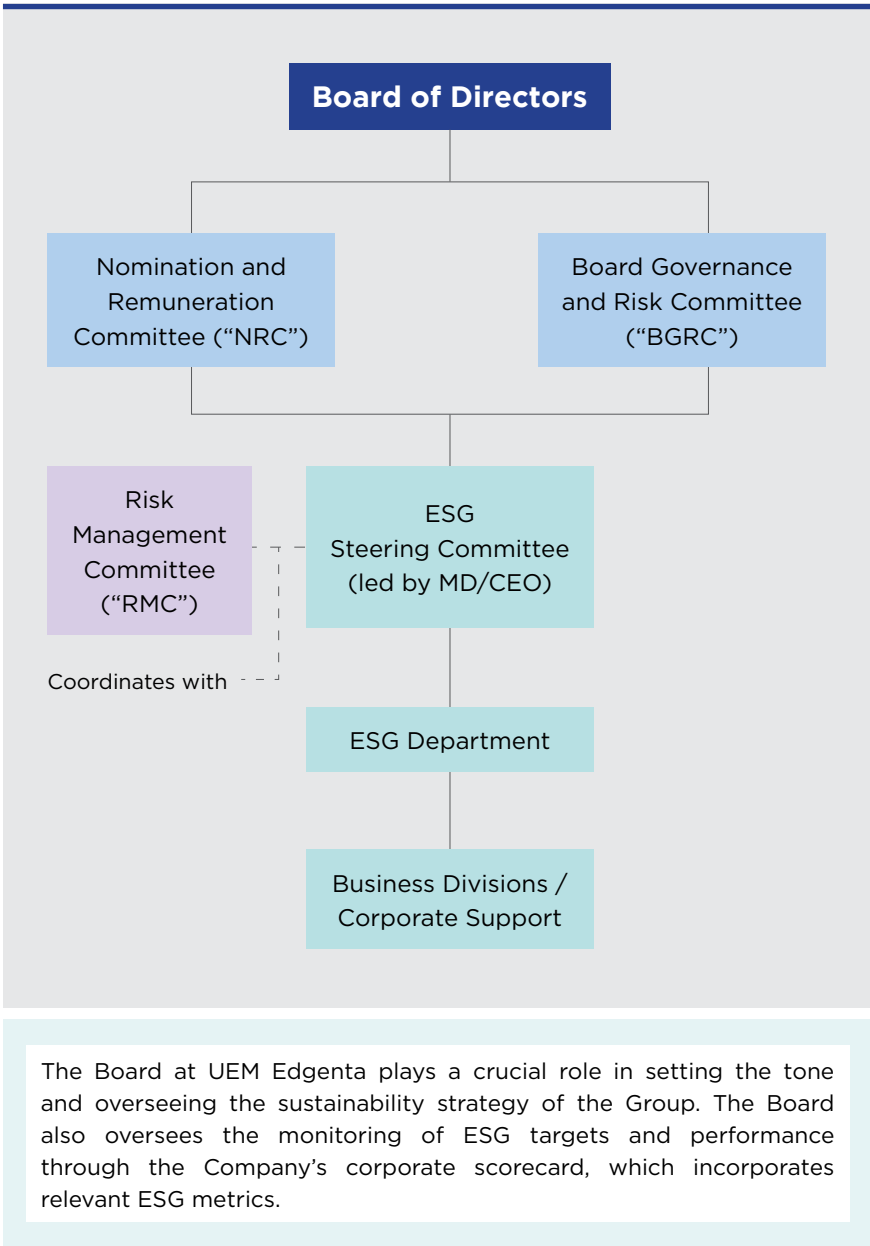

Towards Integration

- Approach:** Develop ESG strategy for integration into corporate vision and mission.
- Materiality:** Continue to refine our approach to materiality, ensuring it informs our strategy and engagement. Preparing for double materiality.
- Performance Measurement:** Monitoring of sustainability policy and Net Zero Targets progress. Continue to embed ESG KPI into corporate scorecard.
- Governance and Culture:** Further embed sustainability into our corporate culture and governance practices.
- Initiatives and Action:** Advance our commitment to responsible supply chains and human rights.
- Reporting and Communication:** Enhance our reporting framework to better adhere to reporting requirements and demonstrate our sustainability achievements and ambitions comprehensively. Enhance our risk management framework to incorporate climate risk.

SUSTAINABILITY AT UEM EDGENTA

SUSTAINABILITY GOVERNANCE

We are dedicated to upholding robust sustainability governance, which ensures accountability, transparency, and ethical conduct across all our operations. This commitment is ingrained in our business ethos, involving all stakeholders and fostering trust through the demonstration of our dedication to sustainable practices. By adhering to these standards, we not only secure our immediate success but also strengthen the long-term sustainability and resilience of our business. Furthermore, we emphasise the importance of business ethics in this section, acknowledging it as the way we do business.

Roles and Responsibilities:

The Board Governance and Risk Committee ("BGRC")

Oversees the sustainability efforts and reviews the material sustainability risks and opportunities as well as sustainability issues in the overall planning, performance and long-term strategy of the Company.

The Nomination and Remuneration Committee ("NRC")

Review performance against established corporate scorecard including ESG performance.

The Risk Management Committee ("RMC")

Collaborate closely with the senior management team in integrating a Risk Management Framework ("RMF") throughout the Group.

The ESG Steering Committee

A committee led by the MD/CEO comprising C-suites and select senior management team that periodically reviews and provide steers on sustainability initiatives, performance and action plans to be recommended to the BGRC and Board.

The ESG Department

Leads the execution of sustainability initiatives according to the 2-Year Roadmap and in alignment with the Bursa Sustainability Framework and GRI standards.

Business Divisions ("BUs") & Corporate Support

Works in collaboration with the Group ESG Team to implement sustainability initiatives and activities.

SUSTAINABILITY AT UEM EDGENTA

The following section describes how we embed sustainability metrics into our decision making and performance evaluation processes.

Establish Clear Goals and Strategies

ESG is integrated into the target setting, resource allocation, and performance measurement. It is also a key criterion in the Board Evaluation Assessment, evaluating Board roles, responsibilities, and performance.

Education and Awareness

We prioritise instilling a strong sustainability mindset throughout our Board. The Board actively engages in workshops, seminars, and invites external experts to stay updated on ESG matters and best practices.

All directors have attended at least one training related to ESG in year 2023. We have provided 2 Board Awareness Session in 2023.

Education and Awareness

Total Training Hours for Board of Directors

ESG: 37.25 hours

Business Sustainability: 199.5 hours

Integrate Sustainability into Decision-Making Process

The board is increasingly looking at ways to integrate sustainability matters into our decision-making process. It considers the Group’s material matters, regulatory requirements, rating standards and best practices when evaluating policies, processes and investment opportunities.

Incentivise Sustainable Practices

ESG KPIs are integrated into the corporate and business unit scorecards and performance evaluations take into consideration achievement of ESG targets.

Review and Adapt

Policies and practices undergo regular review and assessment for sustainability initiative effectiveness.

Transparency and Reporting

ESG matters are a regular agenda discussion in our quarterly board meetings. We ensure timely updates, frequent discussions, and engagement on sustainability progress, performance, and areas for improvement.

For more information on our Corporate Governance responsibilities, see page 212 to 234 of our Integrated Report.

SUSTAINABILITY AT UEM EDGENTA

ENHANCED SUSTAINABILITY POLICY

At UEM Edgenta, our sustainability mission is supported by our Group Sustainability Policy. This policy outlines our focus, commitment, and approach to sustainability, integrating principles of sustainable development into our activities. It aims to establish and promote sound environmental practices, minimise harm, and foster sustainable development across our operations.

In 2023, we enhanced our Sustainability Policy, which reflects our approach to Sustainability which is based on the Economic, Environment, Social and Governance (“EESG”) pillars. The policy now better aligns with Bursa Malaysia’s Sustainability Disclosure Guidelines, industry best practices and international benchmarks such as FTSE4Good. It also supports UEM Edgenta’s Net Zero 2050 commitments which were recently announced.

Some key commitments now stated in the Enhanced Sustainability Policy, under each of the EESG pillars are as follows:

Economic

We aspire to create a positive economic impact through our processes and business activities to contribute to the local economies in which we operate.

We commit to supporting our vendors in such that they remain sustainable and relevant.

Environment

We will be taking steps to reduce emissions to support the global initiatives to limit global warming to well below 2.0°C, including tracking our emissions & our clients’ emissions.

We commit to decarbonising our operations and reducing emissions brought by growth to meet Net Zero Targets (Scope 1 and Scope 2) by 2050.

We recognise the importance of protecting the environment and will look at ways to integrate responsible use of energy and resources, reduce waste, and increase recycling efforts.

Explore technologies that reduce emissions such as renewable energy solutions, explore the use of green materials and environmentally clean processes for use in our own businesses and in our service offerings to our clients.

Acknowledge suppliers who prioritise the use of products and services that are environmentally friendly.

Social

We commit to complying with all applicable labour, employment, and human rights legislation, including, but not limited to the minimum wage and minimum age for employment.

To create long-term positive impacts in the community we commit to focus on education, community enrichment and well-being, and the environment.

Governance

Ensure timely reporting on our sustainability data and performance.

GOVERNANCE

GOVERNANCE

BUSINESS ETHICS

WHY IT MATTERS?

Business ethics and integrity are foundational to our sustainability efforts and are essential in creating long-term value for our stakeholders. By committing to ethical conduct and robust governance, we ensure that the interests of all our stakeholders including employees, customers, investors, and the communities we serve, are respected and prioritised. This commitment not only fosters trust and strengthens our relationships but also positions us as a leader in sustainable practices. This commitment fosters trust and strengthens our relationships with our stakeholders.

WHAT IS OUR APPROACH?

We enforce a zero tolerance approach against all forms of corruption, advocating for the highest standards of ethical conduct and integrity. This approach ensures compliance among employees and business partners, reinforcing our commitment to our vision, mission, and values. Our approach to integrity is governed by a comprehensive list of policies.

The list of policies are on page 248, under Corporate Integrity And Ethical Business Conduct.

Our key focus areas include:

Anti-Bribery and Anti-Corruption (“ABAC”)

- In ensuring that UEM Edgenta adopts International Standards, UEM Edgenta pursued and obtained the ISO 37001:2016 Anti-Bribery Management System in 2023.

► For more information on Anti-Bribery and Anti-Corruption Policy please refer to the Corporate Integrity and Ethical Business Conduct in page 249 of this annual report

Whistleblowing

UEM Edgenta has implemented a Whistleblowing Policy Statement, outlining the protection measures afforded to whistleblowers who submit disclosures under this policy.

The Whistleblowing Procedure stipulates the channels for submitting Protected Disclosures.

Whistleblowers’ identities are kept confidential to the extent permitted by law, except when required for legal purposes or proceedings involving UEM Edgenta Berhad.

The Whistleblowing Committee evaluates all Protected Disclosures and determines the subsequent course of action.

WHAT VALUE WAS CREATED IN 2023?

ADVANCEMENTS IN INTEGRITY & COMPLIANCE

We have made significant progress in advancing integrity and compliance through a multi-faceted approach. This includes tightening internal controls, enhancing compliance training programmes, and conducting regular audits to ensure compliance with regulations and ethical standards. Additionally, our collaborations with stakeholders have been instrumental in continuously improving our practices and services. Furthermore, we have obtained certifications that demonstrate our commitment to integrity and compliance, further solidifying our dedication to conducting business with the utmost integrity and in full compliance with regulations.

COLLABORATION WITH STAKEHOLDERS

We collaborate with stakeholders to tackle integrity and anti-corruption issues head-on. This involves engaging in workshops, forums, and direct discussions to promote transparency and ethical behaviour. Together, we develop and implement strong policies, procedures, and training programmes to prevent corruption. Our goal is to foster a culture of integrity and accountability, ensuring that we operate ethically and sustainably.

UEM Edgenta is proactive in conducting programmes to reach out to our Edgenta Stars.

5 Meet and greet activities with employees to create risk awareness and understand on the ground challenges

5 Compliance site visits and engagements to evaluate operations for risk identification and verification

5 Integrity awareness sessions

1 Vendor and business partners engagement to assess adherence to UEM Edgenta’s risk policies and practices and receive feedback

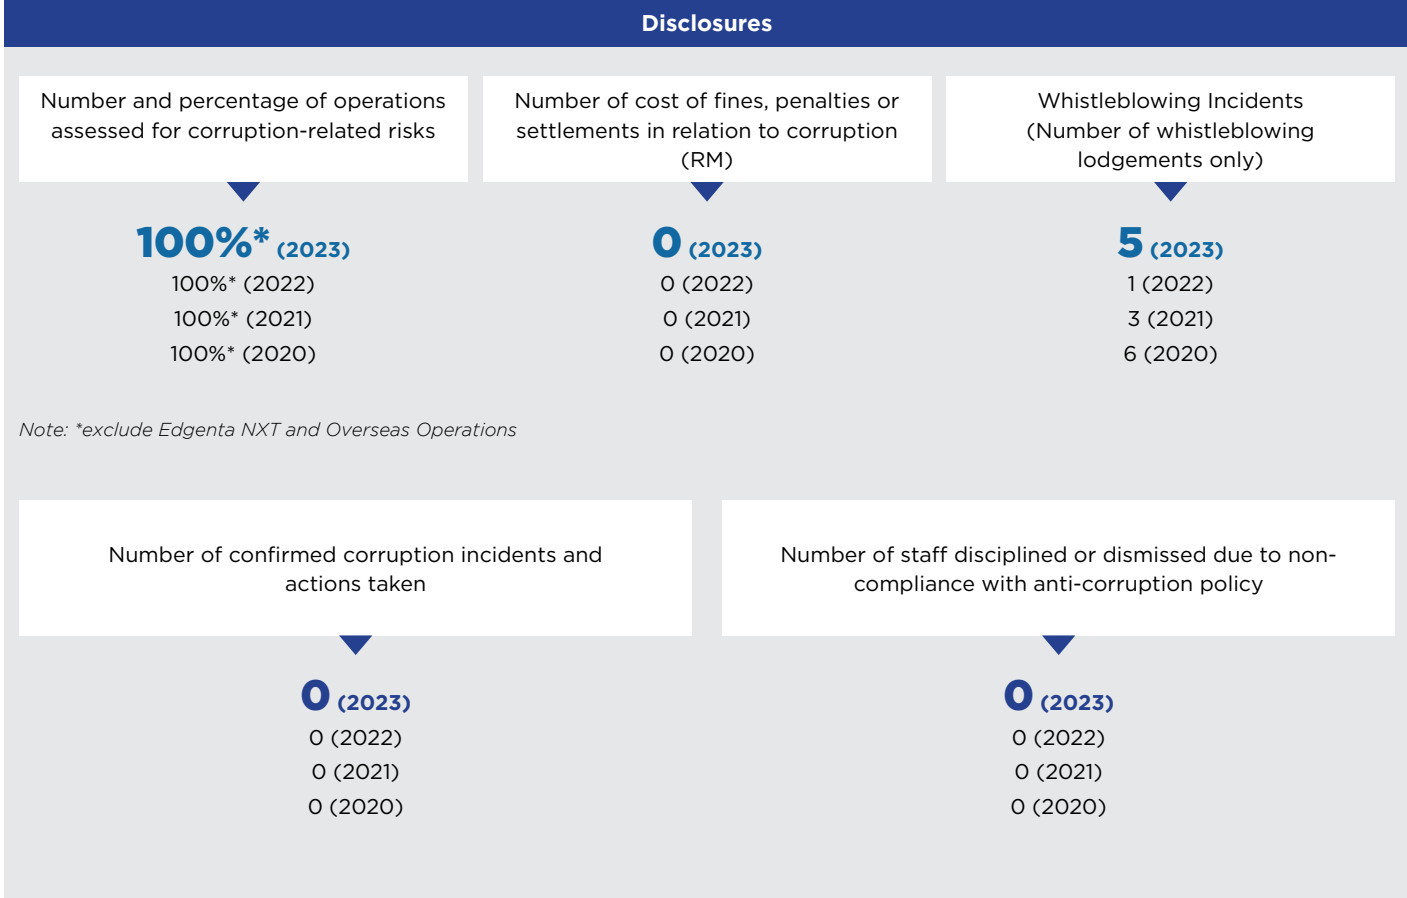

3 External stakeholder engagement activities to understand risk matters in our operations and service offerings

► For more information on the engagement please refer to Corporate Integrity and Ethical Business Conduct Section on page 251 of this annual report

GOVERNANCE

GOVERNANCE

OVERALL PERFORMANCE

INTEGRITY TRAINING

We have developed an integrity training module and made it mandatory for all our employees to undergo this training, with a refresher training required every 2 years. We have developed Risk, Integrity and Compliance e-learning module that consist of lessons on:

- 1Code of Conduct
- 2Anti-Bribery and Anti-Corruption (“ABAC”)
- 3Code of Conduct for Business Partner
- 4Fundamental of Risk Management

The modules are offered in both Bahasa Malaysia and English, and are made interactive to ensure engaging and dynamic learning experience. It also incorporates real-life business cases to ensure relevance to UEM Edgenta.

Moving forward, we will continue to offer this training and take steps to track as well as disclose the number and percentage of employees who have received training on anti-corruption by employee category.

SUSTAINABILITY RISK MANAGEMENT

Our dedication to comprehensive risk management runs deep within our corporate culture, extending well beyond mere compliance. We utilise globally recognised methodologies to identify and assess risks across financial, environmental, and social domains. Our response strategies cover a wide range of measures, from mitigation to transfer mechanisms, are all supported by continuous monitoring and communication. This approach seamlessly integrates into our strategic planning and decision-making processes, highlighting the critical link between effective risk management and our overarching performance objectives.

► Further details to our Risk Management practices please refer to our Statement on Risk Management and Internal Control disclosure in page 238 - 246 of this annual report.

Throughout 2023, we conducted numerous initiatives aimed at raising awareness and educating stakeholders on key risk matters and made significant strides in advancing our sustainability risk management practices.

In 2023, we took the first step towards understanding Task Force for Climate-Related Disclosure (“TCFD”) disclosure requirements by undergoing TCFD training to create awareness of its scope and reporting parameters. We then developed a TCFD Roadmap to guide us in our compliance journey. Through our Net Zero exercise, we conducted scenario analysis, incorporating various climate-related assumptions, including differing levels of greenhouse gas emissions, potential changes in regulatory policies, and technological advancements in our proposed decarbonisation pathways. These projections served as a starting point for including climate risk in our enterprise risk framework.

OUTLOOK

Moving forward, the Company will enhance its risk management framework to capture sustainability-related risks such as the impact of climate change and other material matters to the business. Plans are underway to incorporate sustainability risk management practices more effectively into the existing RMF and align risk management practices with broader sustainability goals and regulatory reporting requirements. In the interim, UEM Edgenta has already taken steps to identify and assess environmental, social, and governance-related risks, which are reported to the BGRC quarterly. The Company has also begun preparations to address the recommendations of TCFD and International Sustainability Standards Board (“ISSB”) by undergoing TCFD awareness training in 2023 and developing a roadmap for the compliance process.

SUSTAINABLE ECONOMIC GROWTH

INNOVATION AND TECHNOLOGY- BASED OPERATIONAL EXCELLENCE

WHY IT MATTERS?

Improved operational practices through innovation helps us optimise the use of resources. It also allows us to prioritise public safety and community well-being through smart solutions. Innovation also helps us drive cost efficiency and improve our market competitiveness, enabling sustainable growth and economic resilience.

WHAT IS OUR APPROACH?

UEM Edgenta's approach to technology and operational innovation revolves around a three-fold strategy focused on strengthening the core, transforming tech delivery, and redefining business models. This approach is delivered through the Digital, Technology and Innovation ("DTI") department and Edgenta NXT, the technology commercialisation arm of UEM Edgenta. Together, they implement various technology solutions to enhance cybersecurity measures, modernise cloud infrastructure, and optimise tech delivery processes via computer-aided facility management systems, sustainability solutions, IoT device deployment and smart city solutions.

Central to our digital infrastructure is our Command and Contact Centre, serving as the nucleus for integrated facility management. This centralised hub revolutionises operational efficiency and response capabilities by streamlining monitoring, control, and analytics. It empowers us to maintain optimal performance and swiftly adapt to evolving circumstances or requirements, ensuring seamless operations and customer satisfaction.

During the year, Edgenta NXT rolled out Asseto, a cloud-based computer-aided facility management platform deployed across 15 sites within UEM Edgenta's portfolio, and also external clients. Asseto facilitates predictive maintenance, remote monitoring, data analytics, and offers customised dashboards inclusive of carbon emission tracking and energy usage optimisation. This comprehensive solution is provided in collaboration with leading third-party platforms such as Alibaba, ensuring enhanced functionality and seamless integration.

SUSTAINABLE ECONOMIC GROWTH

STRATEGIC APPROACH

Bolstering the Core

- Invest in cybersecurity and modern cloud infrastructure to ensure robust and resilient digital foundations.
- Streamline IT procurement to enhance efficiency, ensuring scalable and compliant operations.

Reimagining Tech Delivery

- Drive innovation and efficiency through automation and advanced tech deployment, focusing on user-centric design to enhance experiences.
- Adopt agile and responsive strategies in tech development, fostering a culture of continuous improvement.

Reinventing Business Model

- Explore data and AI to lead business model transformations, adopting performance-based approaches to align success with value delivery.
- Leverage Edgenta NXT for tech commercialisation, establishing UEM Edgenta as a pioneer in the technological domain.

INDUSTRY STANDARDS AND BEST PRACTICES

We adhere to industry-leading practices and standards to ensure the highest level of quality and security in our technology operations. This includes embracing DevSecOps principles for secure development processes, Agile methodologies for agile project management, and Information Technology Infrastructure Library ("ITIL") for efficient IT service management. Additionally, we uphold the Zero Trust Framework and adhere to National Institute of Standards and Technology ("NIST") guidelines to bolster our cybersecurity measures.

GLOBAL EXPANSION AND COLLABORATIVE PARTNERSHIPS

UEM Edgenta's technological arm, Edgenta NXT, is proactively extending its reach into new markets such as United Arab Emirates and Singapore. Through strategic partnerships, we are elevating our service offerings by incorporating predictive maintenance, data analytics, and tailored software solutions. These collaborations are geared towards expanding our global influence and strengthening our operational capacities, positioning UEM Edgenta as a leader in cutting-edge technology solutions worldwide.

SUSTAINABLE ECONOMIC GROWTH

WHAT VALUE WAS CREATED IN 2023

TECH-ENABLED FUTURE TRANSFORMATION

Asseto, an integratable and adaptable facility management platform designed to enhance operational efficiency and sustainability across diverse sectors. It provides a comprehensive suite of solutions that cater to the nuanced needs of clients, employees, and communities.

Throughout 2023, UEM Edgenta made significant strides, including the introduction of Asseto, a cloud-based computer-aided facility management platform deployed across 15 sites including KLCC Urusharta for Tower 1, 2, 3, CIMB as well as B. Braun Malaysia.

How does it create value?

- **Client Value:** Asseto empowers clients by streamlining maintenance and breakdown tasks, improving inventory management, and offering detailed operational and managerial reports. This digitised approach aids clients in achieving higher operational efficiency and reducing environmental footprints through better resource management.
- **Employee Empowerment:** The platform facilitates employees in executing their responsibilities more effectively, fostering a culture of productivity and accountability. By providing real-time data and insights, it enables employees to make informed decisions and contribute to sustainable practices.
- **Community and ESG Impact:** Asseto addresses various environmental, social, and governance (“ESG”) challenges by promoting efficient asset use, reducing waste, and enhancing energy management.
- **Other Tech-Enabled Improvements:** UEM Edgenta has embraced multiple technology-driven initiatives to bolster its sustainability agenda and operational efficiency:

AI and Generative AI Innovations such as CEO avatars and AI-driven analytics enhance decision-making and operational processes, demonstrating UEM Edgenta's commitment to technological leadership and operational excellence.	Community App (UEMS Singapore) Facilitates our employees in Singapore to track their emission footprint. The app serves as a platform to encourage sustainability-driven behaviours, including waste reduction, adoption of environmental friendly transportation modes, and the sharing of sustainability-related information among employees.	Data Lakehouse and Dashboards Establishing a significant data management infrastructure, this technology provides deep analytics and real-time insights, facilitating informed decision-making and strategic planning.
UETrack™ In 2023, our Singapore office expanded the deployment of its UETrack™ suite to 27 additional sites across Singapore & Taiwan. This furthers UEMS digitalisation strategy to optimise manpower utilisation while streamlining work processes.	Cleaning Robots These robots enhance cleaning efficiency and operational sustainability, reducing human labour and promoting environmentally friendly practices across facilities.	Electric Scooters Encouraged as an eco-friendly transport option, they illustrate UEM Edgenta's commitment to reducing carbon emissions and fostering sustainable mobility.

SUSTAINABLE ECONOMIC GROWTH

EDGENTA APPS

In 2023, we created 10 custom-developed apps to streamline business processes and 12 low-code, no-code apps for business operations.

Edgenta Tech Marketplace was internally developed by DTI in 2023 to serve as a unified platform for Edgenta Stars, allowing them to browse through all available dashboards, applications, and IT services. Its purpose is to simplify the request and access process.

Business License Management System ("BLMS") The BLMS has streamlined the registration process for 260 licenses to date, spanning both local and international business entities. Key features include effortless registration of new licences and automated reminders for renewals. Furthermore, licences can be conveniently accessed and viewed via mobile phones.	CSP Business Monthly Report App Our centralised reporting dashboard offers visual representations and real-time updates for all business units to manage their business funnels effectively. This application enhances efficiency in reporting and meetings when compared to traditional methods.
e-PR Forms App Enables digitalisation and optimisation of the purchase request business process	e-Declaration Application Enable Edgenta Stars to declare conflict of interest which is crucial for compliance tracking
HSSE Portal Enables HSSE team to perform HSSE Performance Review, HSSE Capability Assessment, HSSE Consequence Management and manage Permit to Work	Edgenta Travel Centralised Edgenta travel platform for booking process of hotel, flight and vehicle in which facilitate the user with digitalise booking system and for admin to handle the booking request.

AWARENESS CAMPAIGNS

We safeguard our digital assets by having continuous training and awareness sessions, including the development of incident response protocols.

Edgenta NXT created awareness for the need for ESG initiatives through a one-hour webinar titled “Getting to Net Zero” on 30th March 2023 and at the PIKOM CIO Conference on 18th May 2023 for both internal and external audiences. Edgenta NXT also introduced emission tracking tools both to the UEM Edgenta group and as a product for commercialisation which enabled automated emission calculations and insightful dashboards in Scope 1, 2 and 3 emissions.

Knowledge sharing through awareness training and workshops. Most programme lead by Department Head and an expert from various subjects (Mechanical& Electrical, Geological, Highway, Project Management, QHSE and Finance).

ADDRESSING TECH CHALLENGES

In the past year, we have navigated various challenges in our quest for technological advancement and innovation. Through strategic interventions and adaptive solutions, we demonstrated resilience and a proactive approach to overcoming these hurdles.

Cybersecurity Threats UEM Edgenta implemented comprehensive cybersecurity measures, fostering a security-aware culture through awareness programmes, continuous training, and collaborative partnerships. These efforts aimed to safeguard digital assets and establish a robust security posture.	Rapid Technological Evolution The company addressed the swift pace of tech evolution by forming specialised task forces, engaging in ongoing training and certifications, and forging strategic partnerships. This approach helped in adapting to new technologies and maintaining a competitive edge.	Escalating Tech Costs Facing the need for increased investment in cutting-edge technology, UEM Edgenta employed cost-benefit analyses, efficient resource allocation, and vendor negotiations to optimise investments, ensuring that technology expenditures drive value and support sustainable growth.
--	--	--

SUSTAINABLE ECONOMIC GROWTH

OUTLOOK

We recognise significant potential in catalysing organic smart city environments, through cohesive management of smart building clusters. With the recent deployment of 5G technology and predictive analysis tools, we are poised to integrate smart solutions seamlessly into future cities. This advancement promises ongoing enhancements, enabling us to better support clients in achieving excellence in their asset and facility management requirements.

Key Areas of Focus Moving Forward

Pioneering Innovation	Technology Integration
By nurturing a culture of innovation, we empower our workforce to drive transformative change, exploring and adopting novel technologies and methodologies that propel industry leadership.	Our strategic commitment to integrating state-of-the-art technologies enhances our operational efficiency, enabling advanced data analytics, automation, and AI to streamline workflows and improve decision-making.
Collaborative Learning and Development	Agile and Adaptive Operations
Investing in our team’s continuous growth, we emphasise skill enhancement and knowledge sharing, fostering a learning environment that supports adaptation and innovation.	Embracing agility allows us to swiftly navigate the dynamic business landscape, adjusting our strategies and operations to meet changing demands and capitalise on emerging opportunities.

Metrics-Driven Performance

Utilising a metrics-based approach, we monitor and evaluate our initiatives and outcomes, ensuring that our pursuit of innovation and operational excellence are grounded in measurable results and continuous improvement.

SUSTAINABLE ECONOMIC GROWTH

ECONOMIC DEVELOPMENT

WHY IT MATTERS?

At UEM Edgenta, we are dedicated to driving economic value through our existing business activities and expanding into new markets to foster economic and social growth. We place importance in sustainable economic development, balancing growth with environmental and social responsibility. Our commitment extends to fostering shared prosperity and contributing to societal advancement. By supporting the growth of our customers, we strengthen partnerships and promote mutual success, while also contributing to broader economic growth initiatives.

WHAT IS OUR APPROACH?

Local Hiring and Remuneration

We understand the significance of local employment in improving the economic prosperity of the communities where we operate. By primarily recruiting from local talent pools, we actively engage with the community and help develop local skill sets. This ensures that the economic advantages of our operations directly benefit the communities we serve. Additionally, this approach aligns with governmental commitments regarding minimum and/or progressive wage requirements.

Market Expansion

Through strategic market expansion, we grow our business footprint and fuel economic dynamism in both new and existing markets. This expansion creates job opportunities, stimulates local economies, and facilitates the exchange of expertise and innovation, contributing to overall economic growth and development.

Value Distribution

Our economic contribution extends beyond our immediate operations. Through the development of innovative products and services, we drive growth across industries, enriching the economic landscape. Additionally, our financial contributions, including taxes and Corporate Social Responsibility (“CSR”) initiatives, play a crucial role in distributing economic benefits, supporting essential public services, infrastructure development, and community programmes, thereby enhancing the overall socio-economic fabric of the regions we operate in.

WHAT VALUE WAS CREATED IN 2023

VALUE DISTRIBUTION

In 2023, UEM Edgenta focused on economic value creation through strategic enhancements in facilities management, demonstrating commitment to the community and market growth.

Key Initiatives for Value Creation and Distribution

- Targeted Business Development and Product Diversification**
We collaborate closely with our partners to address emerging demands and challenges by harnessing our wide array of solutions and services as well as expanding our service offerings
- Market Diversification and Expansion into International Market**
Continues to expand our presence in the region, intensifying efforts into adjacent sectors such as the manufacturing and hospitality sectors

Revenue generated from international markets (%)

2023	38%
2022	38%
2021	40%
2020	39%

GROWING PRESENCE

Throughout the year, we strengthened our footprint in the hospitality, commercial housekeeping, and industrial sectors, particularly in markets like Singapore and Taiwan. These endeavours positioned us to effectively support both governments and private enterprises in meeting the increased demand for healthcare services and supply chain logistics in the aftermath of the COVID-19 pandemic.

Income earned in other markets contributes to the realisation of economic benefits when consolidated, allowing such values to accrue to the economic performance of Malaysia.

SUSTAINABLE ECONOMIC GROWTH

ADAPTATION TO ECONOMIC CHALLENGES

UEM Edgenta navigates several overarching economic challenges affecting its global operations, with implications for its value creation and economic impact:

- Elevated Costs:** The group contends with rising costs across the board, from manpower expenses linked to wages and benefits to operational costs associated with materials, technology, and infrastructure.
- Market Competition:** The intensity of competition in the markets UEM Edgenta operates within exerts downward pressure on pricing, compelling the company to find innovative ways to deliver value without compromising on profitability.
- Labour Market Dynamics:** Issues such as workforce shortages, heightened turnover, and increased absenteeism place additional strain on the company's ability to deliver services efficiently and cost-effectively.

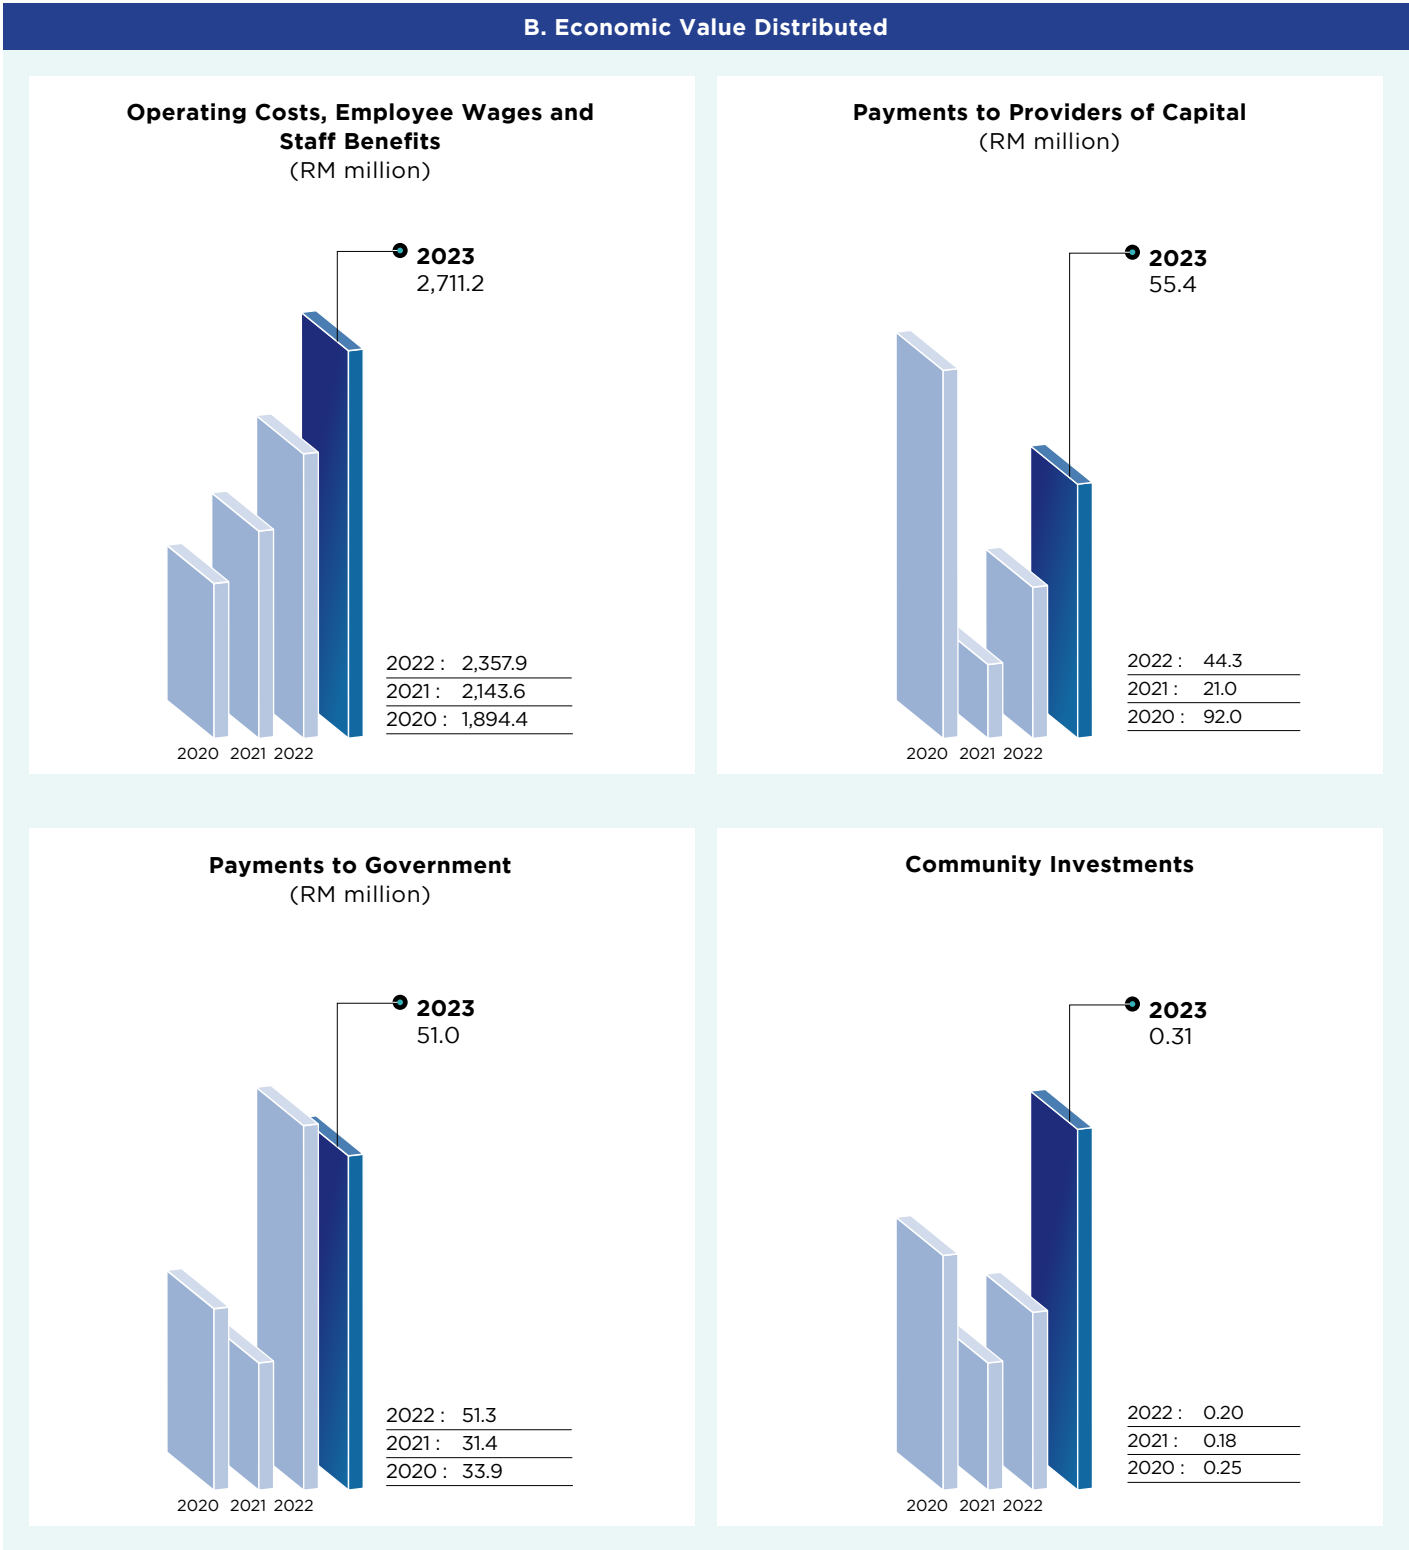

Responses:

- Revenue Protection Measures:** Actively defend our revenue streams against liquidated damages, clawbacks, and billing discrepancies to optimise earnings and mitigate financial pressures.
- Cost Optimisation Initiatives:** Adopted stringent cost reduction, control, and avoidance strategies, demonstrating a dedicated approach to curbing unnecessary expenditures.
- Contractual Terms:** Proactive engagement with clients to manage the effects of regulatory changes and macroeconomic shifts such as inflationary cost pressures to safeguard contract sums.
- Sector-Specific Growth Focus:** Amidst economic challenges, we capitalised on growth opportunities within the existing sectors, as well as adjacent sectors (example: hospitality and manufacturing sectors, aiming to expand its revenue base through new and existing contracts).

OVERALL PERFORMANCE

SUSTAINABLE ECONOMIC GROWTH

SUSTAINABLE ECONOMIC GROWTH

A way to return value to our employees is by contributing towards their retirement plans. We maintain the following two schemes:

i. **Defined Contribution Plan**

Post-employment benefit plans under which the Group pays fixed contributions into separate entities or funds, as required by respective countries' employment acts. The Group will have no legal or constructive obligation to pay further contributions if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. Pension liabilities are calculated based on a contractual rate against employees' salaries as stipulated in the employment contract.

This is a mandatory plan to be observed by the Company.

ii. **Defined Benefit Plan**

Voluntary contributions that are not mandated by the countries' employment acts are made entirely by the employer when the employees become eligible for the pension scheme. The pension assets and liabilities are valued on annual basis by independent actuary.

Pension liabilities are calculated based on the actuarial present value of the benefits payable to the employees when certain conditions are met, (example: reached retirement age, pre-determined number of years of services or death). The present value of the liabilities takes into accounts on estimated salary increase, discount/inflation rate and mortality rate.

This is a voluntary scheme and is currently exercised in some of the companies within UEM Edgenta, namely Edgenta Mediserve Sdn. Bhd., Edgenta UEMS Ltd. ("UEMS Taiwan"), Edgenta Arabia Ltd. and MEEM for Facilities Management Company ("MEEM").

OUTLOOK

Looking ahead, we are committed to expanding our market presence and fostering socio-economic growth in both new and existing regions. This involves harnessing technology-driven infrastructure and facilities management solutions to drive strategic growth initiatives. Additionally, we will continue to contribute to local economies and enhance community welfare through the creation of jobs and sustainable economic development, with a particular focus on high-growth sectors such as healthcare and public infrastructure to deliver impactful and sustainable solutions. Our focus on innovation and sustainability will remain steadfast, aligning with evolving global trends and meeting market demands effectively. Through strategic investments and the adoption of sustainable practices, we aim to support development initiatives and deliver long-term value to all stakeholders.

SUSTAINABLE ECONOMIC GROWTH

SUPPLY CHAIN MANAGEMENT

WHY IT MATTERS?

Suppliers are integral to UEM Edgenta's operational excellence. Their practices significantly influence our product quality, cost-effectiveness, and sustainability aspirations. Understanding and addressing ESG risks within our supply chain is essential to ensuring operational resilience and minimising potential disruptions. A robust supply chain enhances our adaptability to unforeseen circumstances, guaranteeing uninterrupted service delivery to our clients. Moreover, our impact extends beyond our immediate operations to our suppliers. By aligning them with our sustainability objectives, we can amplify our positive environmental and social footprint, driving industry-wide progress and promoting sustainable practices across the supply chain.

WHAT IS OUR APPROACH?

In our dedication to maintaining a strong supply chain, fostering ethical procurement practices, and supporting local vendors, UEM Edgenta maintains a rigorous set of procurement standards outlined in our Strategic Vendor Management ("SVM") framework.

SUSTAINABLE ECONOMIC GROWTH

WHAT VALUE WAS CREATED IN 2023

SUPPLIER FINANCING PROGRAMME

We have collaborated with HSBC Amanah Malaysia Berhad (“HSBC Amanah”) to establish a Shariah-compliant Supplier Financing Programme (“SFP”). This initiative provides financing to support our suppliers in managing their cashflows effectively.

VENDOR DAY 2023

Vendor Day 2023, held on 5 October 2023, focused on sustainability within UEM Edgenta’s supply chain. The event showcased Business Opportunity Sessions covering diverse service domains, along with discussions on the SVP and SVM. A significant aspect was the ESG Sustainable Supplier segment, featuring ESG awareness training as a key highlight.

The event witnessed approximately **600 participants** (310 companies) attending the ESG awareness training

VENDOR DEVELOPMENT PROGRAMME (“VDP”)

UEM Edgenta’s Vendor Development Programme (“VDP”) forms an integral part of our SVM Framework. This initiative is pivotal in enhancing the quality, efficiency, and reliability of our supply chain through comprehensive evaluation and enhancement of our vendors’ capabilities.

Through the VDP, we provide extensive assistance, including training programmes covering health and safety regulations, ethical sourcing principles, and procurement practices. During the year, we expanded our flagship VDP by onboarding nine new suppliers. These efforts are geared towards enhancing our vendors’ understanding of ESG principles.

Our support through these programmes plays a crucial role in improving the operational performance of our suppliers. We maintain rigorous monitoring of our vendors’ performance through our Vendor Performance Review and HSSE Performance Rating processes.

Furthermore, we are committed to supporting the Malaysian government’s efforts to stimulate the growth of Bumiputera vendors through the VDP. Aligned with the government’s Bumiputera Empowerment Agenda, the Bumiputera Vendor Development Programme (“BVDP”) aims to empower local entrepreneurial communities through in-house-designed training modules. This initiative enables Bumiputera businesses that meet our governance and policy requirements to competitively participate in both local and global markets.

SUSTAINABLE ECONOMIC GROWTH

STRENGTHENING SUPPLY CHAIN SUSTAINABILITY

Supply chain resilience is crucial for ensuring organisational readiness in the face of unforeseen challenges, enabling seamless continuity of business operations. It also provides an opportunity for the organisation to gain a competitive edge by enhancing customer satisfaction, reducing operational costs, and improving overall efficiency. Moreover, a strengthened supply chain fosters transparency among customers, stakeholders, and suppliers, nurturing stronger relationships through demonstrated commitment to risk management, quality, and reliability.

Groupwide Initiatives	<ul style="list-style-type: none">Awarded contracts to explicitly choosing Green Certified vendors for waste bins and FSC/ PEFC certified paper on specific dates in December 2023, underlining a firm commitment to sustainable sourcing.Developed and applied an ESG Management Framework alongside specific ESG questionnaires aimed at assessing and enhancing supplier engagement with sustainability principles.
Singapore Initiatives	<ul style="list-style-type: none">In Singapore, the focus was on collaborating with 12 suppliers accredited by the Singapore Green Labelling Scheme (“SGLS”), actively promoting the adoption of green products to minimise environmental impact.The emphasis was also on utilising environmentally friendly products, including green-certified waste bins and FSC/PEFC certified paper, supporting Singapore’s commitment to environmental sustainability within its procurement practices.
Operon Middle East Initiatives	<ul style="list-style-type: none">Increased green detergent usage and mandated that all vendors adhere to Dubai Municipality’s environmental standards, ensuring the use of approved chemicals only.We have actively pursued initiatives such as reviewing procurement policies, sourcing green chemicals, and conducting thorough vendor assessments, which include method statements and risk assessments. Additionally, we consistently review the performance of our vendors to ensure adherence to our standards and expectations.
Taiwan Initiatives	<ul style="list-style-type: none">We began engaging our suppliers through ESG surveys in 2022 to evaluate their awareness of ESG principles.The survey was extended into 2023 to expand our outreach with suppliers and gain a deeper understanding of sustainability within our value chain.

SUSTAINABLE ECONOMIC GROWTH

EMPOWERING LOCAL SUPPLIERS

We recognise the impact that supporting local suppliers has on regional economies and communities. By prioritising local sourcing, we are committed to fostering economic growth within the locales we operate, ensuring that our business practices contribute positively to local business development and sustainability.

LOCAL SUPPLIERS (%)

2020	2021	2022	2023
99.54	99.73	99.20	98.47

TOTAL NUMBER OF SUPPLIERS

2020	2021	2022	2023
1,742	1,116	1,751	1,900

The number disclosed in the AR 2022 only covered Bumiputra suppliers. The correct number of total suppliers for 2022 should read 1,751.

CONTRACTS OUTSOURCED TO BUMIPUTERA VENDORS OVER TOTAL PROCUREMENT (%)

2020	2021	2022	2023
41.80	65.00	47.30	46.70

PROCUREMENT BUDGET USED FOR LOCAL SUPPLIERS (%)

2020	2021	2022	2023
99.67	99.95	99.40	98.88

The percentages indicate the proportion of the procurement budget allocated to products and services purchased from local suppliers within Malaysia.

SUSTAINABLE ECONOMIC GROWTH

OUTLOOK

Moving forward, our objective is to enrich our SVM Framework by infusing sustainability considerations into our procurement practices. This will involve a comprehensive approach, including environmental and social assessments of suppliers, adoption of green material sourcing principles and reinforcement of health and safety standards. Notably, in Singapore, we have already initiated preliminary screenings, emphasising the engagement of sustainable and environmentally friendly vendors to align with the Green Labelling Scheme.

As we progress, our commitment to enhancing supplier segmentation processes and conducting thorough due diligence assessments of suppliers’ ESG compliance levels remains unwavering. Through a meticulously planned supplier engagement strategy, we will effectively communicate our sustainability objectives, fostering alignment with our overarching strategic vision. Additionally, plans are underway to introduce environmental screening measures to further fortify our supply chain sustainability efforts.

In the short term (2024), our focus lies in laying the groundwork for progress by launching ESG vendor management initiatives as outlined in our sustainability roadmap. This includes the deployment of an ESG questionnaire to gauge supplier maturity levels and conducting comprehensive supply chain ESG risk assessments. We will continuously refine our evaluation criteria to diversify our supplier panel and collectively achieve our sustainability objectives.

Transitioning into the medium term (2025 - 2026), our efforts will be directed towards addressing key gaps to achieve structured maturity levels in line with our sustainability roadmap. This encompasses amending the code of conduct, embedding ESG principles into procurement policies and contracts, conducting detailed ESG risk assessments on strategic vendors, and establishing a robust ESG management framework for vendor risk profiling and methodology.

To facilitate this transition for our vendors, we plan to conduct a comprehensive risk profiling exercise, followed by the development of a tailored supply chain engagement plan to assist them in meeting our enhanced framework requirements. This engagement plan will also facilitate our understanding and mapping of Scope 3 emissions within our supply chain.

Looking ahead, our strategic focus will center on implementing value-driven enhancements to elevate our ESG vendor management practices to industry-leading maturity levels. This entails governance improvements, stakeholder engagement initiatives, and enhanced transparency in monitoring practices.

MINIMISING ENVIRONMENTAL IMPACT

MINIMISING ENVIRONMENTAL IMPACT

CLIMATE CHANGE AND ENERGY

WHY IT MATTERS?

Tackling climate change is crucial for reducing significant risks, including those posed by natural disasters and extreme weather events, which can greatly affect our operations and the health and safety of our employees. Furthermore, extreme climate conditions have the potential to disrupt our supply chain.

WHAT IS OUR APPROACH?

We understand the urgent need to address climate change and its impact on our planet. Our approach begins with a thorough inventory of our greenhouse gas emissions. By cataloging our emissions, we gain insight into our environmental footprint and can pinpoint areas for improvement.

In 2023, we introduced UEM Edgenta's groupwide Net Zero Targets and our pledge to achieve Net Zero greenhouse gas ("GHG") emissions by 2050. Additionally, we set an interim reduction target of 26% by 2030 for Scope 1 and Scope 2 emissions, as part of our journey towards achieving Net Zero by 2050. These commitments align with the International Energy Agency's ("IEA") Net Zero Emissions by 2050 Global Pathway (published in 2022).

UEM EDGENTA'S NET ZERO (SCOPE 1 & SCOPE 2) DECARBONISATION PATHWAY

Our climate targets are set against the company's 2022 groupwide global baseline GHG carbon footprint of 17,577 tonnes of CO₂-equivalent (tCO₂e), comprising 10,356 tCO₂e of Scope 1 emissions and 7,221 tCO₂e of Scope 2 emissions. The exercise to establish our emissions inventory provided many learnings to the company - including data verification for completeness as well as the accuracy of calculating emission figures based on global standards - all of which provided further understanding of the nature of our emissions footprint and the correlation of our business activities to GHG emissions.

2023 INITIATIVES

Throughout the year, we embarked on several immediate initiatives to enhance our environmental sustainability efforts. At our Kamunting incinerator plant, we conducted an exercise to optimise heat generation, thereby reducing our reliance on natural gas. Additionally, we piloted the use of Green Energy Tariffs from TNB to offset emissions from our hard-to-abate sources.

Furthering our commitment to sustainability, we initiated a pilot programme to lease electric vehicles for our fleet replacement. We also implemented better energy management techniques at our workplace and reduced idle time in our vehicles to minimise petrol and diesel consumption. These proactive measures align with our goal of reducing our carbon footprint and promoting eco-friendly practices across our operations.

Carbon Budgeting

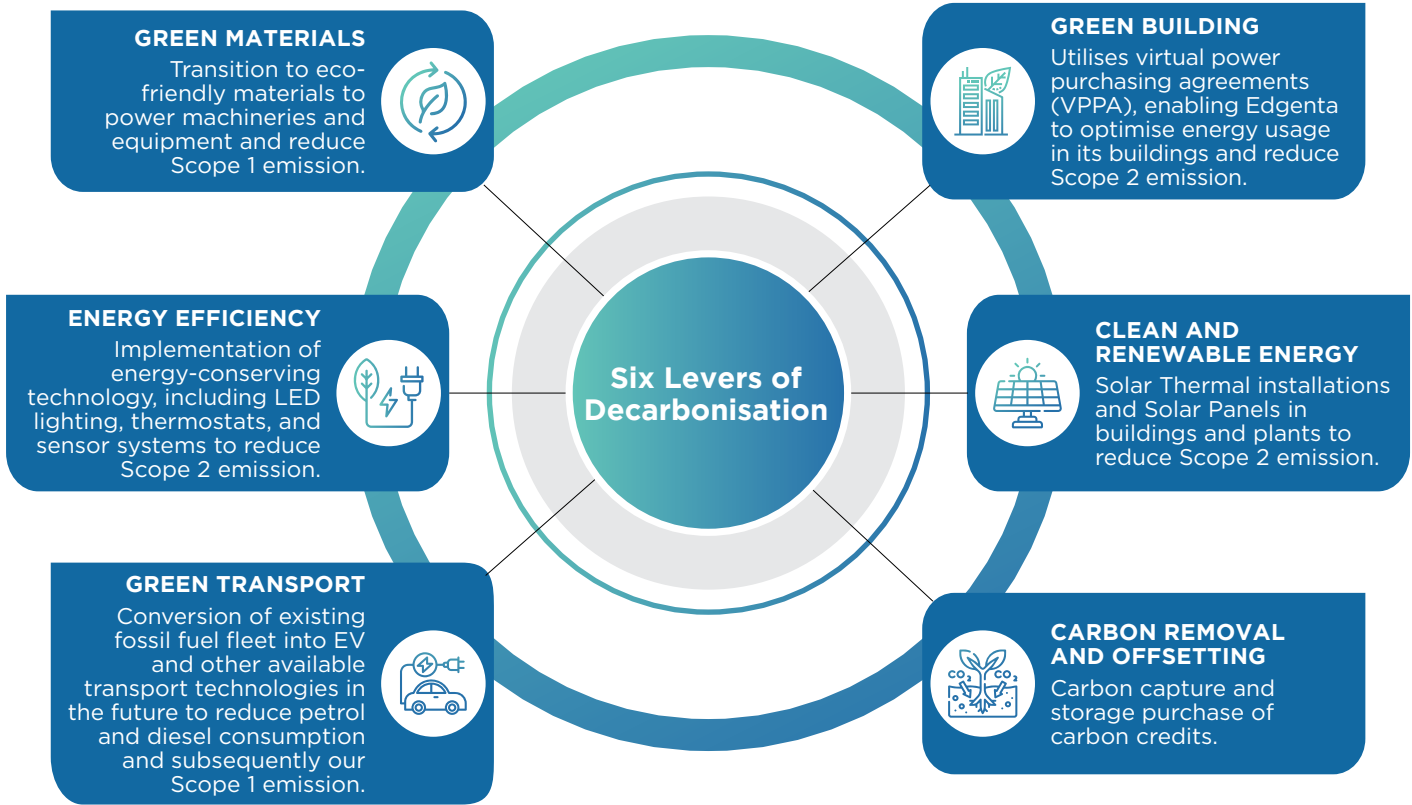

In delivering our commitment towards our Net Zero Targets, we initiated a carbon budgeting exercise during the year, to allocate carbon share to all businesses for preparation of planned reduction programmes in the coming years. Once fully developed, these reduction targets will be introduced as one of the key performance indicators for the businesses which enables tracking and monitoring of the achievement of reduction targets that have been established.

MINIMISING ENVIRONMENTAL IMPACT

In 2023, we recorded a reduction of 710 tCO₂e in our Scope 1 and Scope 2 emissions, translating into a 4.04% emission reduction from our 2022 baseline, in line with our year-on-year carbon emission reduction target of 3.69%

Our commitment to reducing emissions is predicated on our decarbonisation strategy which anchors on optimising energy consumption through energy efficiency solutions, leveraging clean and renewable energy sources and electrification of its fleet of vehicles.

MINIMISING ENVIRONMENTAL IMPACT

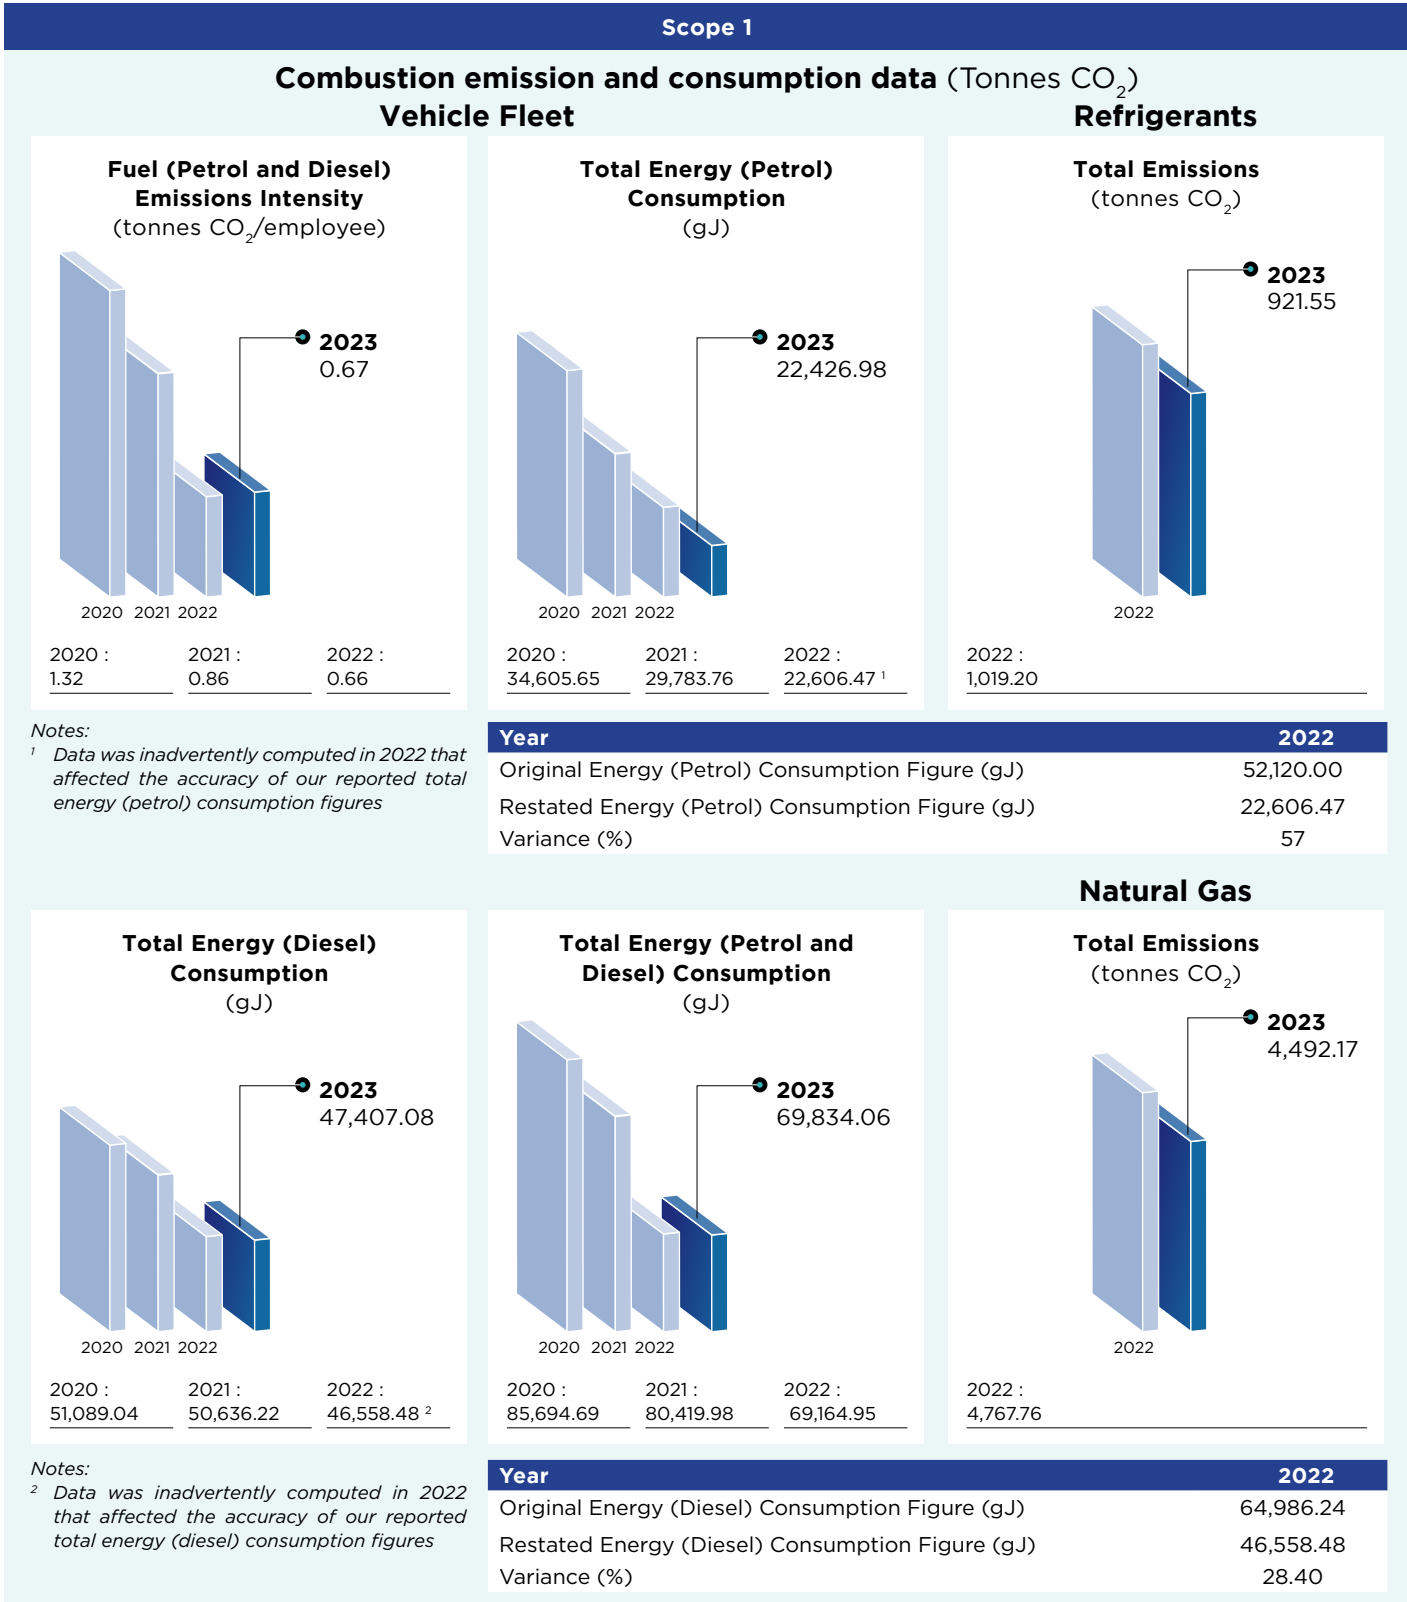

WHAT VALUE WAS CREATED IN 2023

MINIMISING ENVIRONMENTAL IMPACT

MINIMISING ENVIRONMENTAL IMPACT

OVERALL PERFORMANCE

Our Performance

Given that the emissions data from MEEM represent a negligible proportion of our overall emissions baseline, constituting less than 1% of our total emissions, we have determined that a restatement of the baseline is not warranted. Our original baseline remains representative of our environmental performance.

As a result of our processes, we were given two awards:

“World Sustainability Icon Leadership Lifetime Achievement Award”-organised by the World Green Organisation (WGO), the United Nations Global Compact (UNGC), and KSI Strategic Institute for Asia Pacific (KSI), the WGSS, co-hosted by the Sarawak Government.

THE STAR ESG IMPACT AWARD

Gold: Energy Efficiency

Silver: Renewable Energy

Talent Management

Good Health & Wellbeing

Our Value Proposition to Clients

As a leading player in the asset management and infrastructure solutions industry, UEM Edgenta is dedicated to assisting our partners and clients in their efforts to reduce their climate impact. As part of our comprehensive facilities management services, we offer various sustainability initiatives, including ESG site audits, Green Building Index certification facilitation, and the development of sustainability roadmaps aligned with global standards.

Our services have already made a significant impact, with energy management initiatives resulting in annual savings of approximately 38.4 million kWh in assets under our management. This translates to savings of around RM16.6 million in energy bills.

To further solidify our position in the market, we launched Opus Sustainability, providing comprehensive solutions to help asset owners decarbonise their assets and create a sustainable built environment. This strategic move, combined with our proven success in energy performance contracting, enabled us to secure nine sustainability mandates from Malaysian clients in 2023, bringing our total sustainability mandates to 22 contracts. Additionally, we have allocated RM200 million to finance sustainability projects on a zero-capex model, assisting our clients in transitioning to a low-carbon economy.

With this commitment, we aim to strengthen collaboration with our clients by promoting the adoption of renewable energy sources, expanding green infrastructure such as EV charging points, and upgrading existing infrastructure to high-performance green buildings.

OUTLOOK

As we progress in our commitment to environmental, social, and governance (“ESG”) responsibilities, we are fully aligned with group ESG Initiatives. Moving forward we are focused on establishing GHG reduction monitoring process to measure the performance of our net zero strategy and also to allow us to refine our climate targets as we progress. We are also embarking on an exercise to establish our Scope 3 emissions inventory and make a similar pledge to Net Zero by 2050. This initiative is in line with our goal of achieving a 26% reduction in our carbon footprint by 2030, using a baseline set in 2022, and ultimately reaching Net Zero emissions by 2050. To drive our decarbonisation pathway further, we aim to integrate emission reduction into our key performance indicators through our carbon budgeting process.

Continuing to provide ESG consultancy services remains a cornerstone of our strategy, seamlessly integrated into both short-term and long-term contracts. Collaborating with the Edgenta Academy ensures our teams are equipped with cutting-edge knowledge and expertise, particularly in climate change-related topics. This encompasses a diverse array of ESG-related training, covering areas such as TCFD, ESG Data Assurance, and Net Zero Workshops.

Central to our approach is active engagement with our supply chain partners, clients, and stakeholders within our ecosystem. By conducting awareness sessions, delivering comprehensive training programmes, and fostering strategic green collaborations, we aim to ignite collective action toward our shared mission of decarbonisation.

MINIMISING ENVIRONMENTAL IMPACT

ENVIRONMENTAL
MANAGEMENT

WHY IT MATTERS?

An effective environmental management system lies at the core of UEM Edgenta's commitment to corporate responsibility and long-term sustainability. As stakeholder expectations evolve and societal demands grow, there is an increasing emphasis on environmental factors in our decision-making processes. Acknowledging the intricate interplay between our operations and the wider ecosystem, our dedication extends beyond mere business concerns to encompass a profound acknowledgment of the global imperative for resource stewardship and community well-being.

WHAT IS OUR APPROACH?

Our enhanced Sustainability Policy reaffirms our commitment to fostering environmentally responsible practices throughout our business units. We uphold responsible environmental management by implementing various initiatives across material utilisation, waste management, and water consumption. Ensuring alignment between our ISO standards and environmental practices, we integrate ISO requirements into our environmental management systems. In 2023, UEM Edgenta Berhad achieved certification to ISO 9001:2015, ISO 45001:2018, and ISO 14001:2015 standards (Quality, Occupational Health & Safety, and Environmental Management Systems respectively) awarded by Bureau Veritas Certification (M) Sdn. Bhd.

WHAT VALUE WAS CREATED IN 2023

Throughout the course of 2023, UEM Edgenta remained resolute in its commitment to environmental stewardship and the reduction of waste, achieving notable advancements and yielding substantial benefits as a result. The company implemented a series of strategic initiatives aimed at minimising its ecological footprint and promoting sustainable practices across its operations.

One of the pivotal initiatives undertaken was the implementation of comprehensive waste reduction programmes across various business units. Through waste management practices and the adoption of innovative technologies, UEM Edgenta successfully minimised waste generation, optimised resource utilisation, and significantly reduced its environmental impact.

In addition to our waste reduction endeavours, we actively engaged in initiatives to conserve natural resources and optimise our usage. To achieve this goal, we have sustained our research and development efforts in recycled Asphalt Mixes at our Pavement Research Center. In 2023, we continued these efforts:

To support the production of large-scale Recycled Asphalt Pavement ("RAP"), UEM Edgenta has successfully completed its first RAP Plant. Sustainability is at the core of this facility, with features such as the utilisation of recycled oil, which not only aligns with our environmental goals but also proves to be more cost-efficient.

In 2023, we expanded our asphalt mix offerings to include 15 variations, up from 13 in 2022. These mixes are customised to meet the specific requirements of our customers. Notably, 8 of these variations are made from recycled materials, aligning with our commitment to sustainability. Furthermore, a total of 11 mixes have been deployed on the PLUS Expressways. These mixes are currently undergoing or have completed a 12-month test run. Initial results indicate promising performance, demonstrating the effectiveness of our products in real-world applications.

The approval for large-scale use of 30% Recycled Asphalt Pavement ("RAP") in hot applications and 100% RAP in cold applications marks a significant milestone. This initiative effectively reduces the amount of waste asphalt millings sent to landfills, while also conserving energy and natural resources.

At the corporate level, various initiatives have been undertaken to promote sustainability. These include the continued use of the KLEAN machine for collecting plastic waste, installation of an E-Waste bin, efforts to reduce paper usage, expansion of e-forms usage, and encouragement for staff to use recyclable utensils.

Furthermore, at the community level, UEM Edgenta has actively participated in beach clean-up projects, tree-planting initiatives, and established an Arboretum Education Center at Ayer Hitam Forest Reserve to promote environmental education. These efforts reflect our commitment to environmental stewardship and community engagement.

MINIMISING ENVIRONMENTAL IMPACT

Further details of our initiatives can be found below:

Efficient Material Utilisation

Across our diverse operations, we have implemented a series of initiatives on sustainable material utilisations.

Key Initiatives

- Recycling of engine oil in ambulance as part of the preventive maintenance plan
- Installation of Mcfill oil filter in our operations' fleet
- The usage of recycled oil in RAP operations as part of our commitment to reduce environmental impact
- Developed and applied 15 customised asphalt mixes while incorporating eight recycled varieties, across PLUS Expressways in Tapah
- Obtained approval for the extensive utilisation of 30% and 100% recycled asphalt
- UEM Edgenta collaborated with CIMA through a Proof of Concept to produce and install New Jersey Barriers in expressways. The collaboration leverages on CIMA's innovative technology in creating eco-friendly glass fiber for use in expressway barriers and UEM Edgenta's technical expertise in maintaining roads and highways.

Our Impact

Actively diverting harmful materials from landfills and contributing to energy and resource conservation

Enabled the recycling of road milling waste into environmentally friendly road pavement materials

Responsible utilisation of materials by leveraging innovation and technology to optimise concrete quality and ensure efficiency

PAPER

We recognise the environmental impact of increased paper consumption and hence we have continued empowering Edgenta Stars to leverage on digitalising our processes.

Some of our digitalisation efforts to reduce paper consumption include a Document Request Forms ("DRF") system to request for administrative documents, online application for staff claims, and the digitalisation of making Conflict of Interest declaration. In our Operon office we transitioned to digital process to deliver our FM services through Computer Aided Facility Management ("CAFM") System. This has enabled us to reduce paper consumption, ensuring operational efficiency to align with our overall sustainability objectives.

Paper Consumption
(No of A4 Reams)

2023	21,267
2022	16,491*
2021	21, 353

* The disclosed number of Paper Consumption in AR2022 should read 16,491 instead of 902

KLEAN Machine

We have continued to deepen corporate culture around recycling through the installation of KLEAN machine.

Number of Unique Recyclers	Number of Sessions	Total Number of Cans Recycled	Total Number of PET Recycled
1,808	4,700	4,730	19,168
23,898			

MINIMISING ENVIRONMENTAL IMPACT

Responsible Waste Management

Throughout 2023, UEM Edgenta demonstrated its commitment to responsible waste management through various programmes and activities.

- Organised Sweep the Shore Day 2023 in collaboration with Majlis Perbandaran Sg. Petani Kedah ("MPSPK") and Balai Polis Tanjung Dawai for a beach cleanup programme at Pantai Rhu.
- Launched the "Towards Zero Waste 2023" campaign for all sites' participation to boost awareness for recycling as part of a Sustainable Waste Management Programme ("SWMP") piloted at Sultanah Bahiyah Hospital.

Our Results

Successfully recycled hospital waste, such as food waste, into fertiliser, diverting approximately 10% of waste from landfills

Increase awareness on responsible waste management within our Healthcare sector

Disclosures	2022	2023
Waste generated from operations		
Waste generated (metric tonnes)	567.45	1,498.97
Hazardous waste generated (tonnes)	512.41	724.54
Waste diverted from disposal (million cubic metres per year)	10.60	604.93
Waste directed to disposal (million cubic metres per year)	556.85	894.042
Disclosure of three years of waste recycled (tonnes)	0.05	0.63
Waste managed for clients		
Total Waste Managed by Edgenta for clients (tonnes)	16,435.95	67,114.11
Directed to Disposal (tonnes)	15652.64	20,398.30
Hazardous (tonnes)	12,921.31	5,508.83
Non Hazardous (tonnes)	2,730.93	15,010.75
Diverted to Disposal	4,582.45	46,715.22

These are the total waste that Edgenta manage for clients, across Healthcare, Infrastructure Services and Property and Facilities Solutions. Data for 2023 include waste data from our middle east office.

Moving forward we will expand our data coverage and enhance our waste management capabilities to increase efforts of waste diversion from landfills.

MINIMISING ENVIRONMENTAL IMPACT

Water Resource Stewardship

As part of our ongoing initiative for water resource stewardship, we actively monitor and implement various water management initiatives to minimise our water consumption across all operations. Within our Property and Facility Solutions ("PFS") department, they strategically manage risks, opportunities, and impacts related to the consumption and disposal of water.

Water consumption (m³)

2023	508,737.00
2022	542,752.26
2021	400,764.00
2020	543,556.00

Water Conservation Project

In 2023, we sustained our water conservation efforts in collaboration with our client, PLUS, through various water management initiatives including rainwater harvesting and usage of tube wells. These efforts have proven impactful, allowing us to conserve and recycle water for our operations at clients' sites. In total, we conserved 10,582m³ of water in 2023, a significant increase from the previous year's conservation of 6,000m³.

Environmental Awareness Programmes

From the corporate level, we adopt many environmental work practices, from introducing digital e-forms, composting to Reduce, Reuse, Recycle ("3Rs") initiatives. Recognising the significance of our workforce, UEM Edgenta takes steps to actively contribute alongside our partners and community. Thus, we ensure our employees are involved in the environmental-related Corporate Social Responsibility ("CSR") programmes implemented by the Group.

Our 2023 CSR Programmes:

- The Environmental CSR Initiative in Rantau Abang, Terengganu, was conducted in collaboration with Opus Consultants. The campaign focused on protecting coral reefs and promoting a safe and clean recreational beach area. Over 50 volunteers, including professional divers, participated in a clean-up programme both underwater and on the beach. Contributions of RM5,000 to Majlis Perbandaran Dungun and RM1,000 to the Rantau Abang Turtle Conservation Information Centre were made to support their preservation efforts.

We have also empowered each business units to organise recycling initiatives:

1

Waste Segregation and Recycling Impact

Segregation of recyclable wastes and reduction of waste disposed in landfills

2

De-lamping and Disposal Impact

Proper disposal of hazardous material in fluorescent lamp

3

Installation of e-Waste Bin Impact

Recycling of e-waste and proper disposal of electronics waste

4

Recycling and Donation of Cloth & Fabric Impact

To reduce waste disposed in landfill

5

Wastes Recycling Competition - Impact

Build awareness and reduce waste disposed in landfills

140

141

MINIMISING ENVIRONMENTAL IMPACT

Environmental Awareness Programmes (Continued)

Our 2023 CSR Programmes:

#EdgentaActGreenCampaign Tree Planting CSR Programme in collaboration with the Forest Department of Sarawak ("FDS") and local communities. 80 Edgenta Stars from Opus Sarawak successfully completed the #EdgentaActGreenCampaign Tree Planting CSR Programme. Over 1,000 valuable native trees from various species were planted at Sabal Forest Reserve in Simunjan, Sarawak. The campaign aligned with Malaysia's "100 million Trees campaign by 2025" to raise awareness about the importance of conserving forest areas.

Established an Arboretum Education Center at the Ayer Hitam Forest Reserve in Puchong in partnership with University Putra Malaysia ("UPM"). This initiative specifically focuses on the conservation and development of the Dipterocarp genus, a family of hardwood tropical trees primarily found in Sarawak, Sabah, and Peninsular Malaysia. The dedicated section within the Ayer Hitam Forest Reserve will transform into an arboretum, serving as a knowledge hub for students, researchers, and the public to deepen their understanding of forests and the Dipterocarp genus.

Other Sustainability Initiatives

Implementation of Sustainable Waste Management Programme ("SWMP") including the utilisation of weighing scales for waste, food and kitchen waste bins, usage of composting machines, managing organic and landscape waste in various hospitals that we operate in.

Organised an Awareness Training Programme during the Green Building Forum-Journey Towards Green Building Hospitals in Pulau Pinang.

Participated in various environmental and social events that were funded by MoH including:

i. Lestari Fun Ride & Ekspo at Hospital Kuala Nerang

ii. Programme Penanaman Bakau Bersama Komuniti in Kedah

Our Healthcare Recognitions

OUTLOOK

In the upcoming year, our primary focus will be on enhancing the commercialisation of sustainable materials tailored to meet the evolving needs of our clients. This strategic initiative entails advancing responsible material utilisation by operationalising our Recycled Asphalt Premix ("RAP") Plant. Through close collaboration with our clients, we are committed to proactively reducing waste by implementing comprehensive waste handling strategies.

A key component of our sustainability efforts involves the tracking of our own waste through Scope 3 activities, ensuring transparency and accountability in our environmental impact. This initiative drives our commitment to responsible environmental stewardship and pushes us towards continuous improvement in our operations.

While the implementation of groupwide water management practices remains a work in progress within our current operational landscape, our dedication to fostering sustainability remains unwavering. As we chart our course for the forthcoming years, the integration of comprehensive water management strategies emerges as a pivotal objective, reaffirming our commitment to responsible corporate citizenship.

Furthermore, our short-term agenda includes a thorough assessment of our suppliers, collectively addressing environmental challenges. We prioritise suppliers who share our commitment to sustainability and encourage them to integrate environmental considerations into their business activities. Through these collaborative efforts, we aim to build a supply chain that aligns with our sustainability goals and promotes responsible environmental practices across all facets of our operations.

Moving forward, UEM Edgenta remains dedicated to implementing environmental conservation practices in both its operations and its solutions. The company plans to compute its waste footprint to develop a comprehensive waste management programme while promoting recycling efforts.

143

SOCIAL VALUE CREATION

OCCUPATIONAL HEALTH AND SAFETY

WHY IT MATTERS?

In our industry, where employees, vendors, and suppliers are vital to essential tasks and operations, ensuring a secure work environment is a core focus of our health and safety practices. A secure workplace directly impacts the well-being of our staff, contractors, suppliers, and clients. By fostering a safe workplace, we empower our employees to fulfill their responsibilities with focus and dedication. Amidst the diverse physical and challenges inherent in our industry, a healthy work environment acts as a shield, safeguarding the health and well-being of our workforce, clients, and the communities we serve.

WHAT IS OUR APPROACH?

At UEM Edgenta, we are deeply committed to safeguarding the health, safety, and security of our workforce while prioritising environmental protection. Our ultimate aim is to achieve zero incidents, occupational illnesses, environmental events, and non-compliance with legal requirements, all while placing a strong emphasis on the physical and emotional well-being of our employees. This dedication is ingrained in our robust Quality, Health, Safety, Security, and Environment (“QHSSSE”) Policy. This policy is designed to ensure compliance with statutory and regulatory requirements, while fostering a culture of continuous improvement in Health, Safety, Security, and Environment (“HSSE”) throughout our organisation.

OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT SYSTEM

Our comprehensive system is built on the standard requirements of ISO 14001 and ISO 45001, complemented by adherence to local regulations and other pertinent HSSE legal requirements and industrial codes of practice.

For our entities in Malaysia, our system aligns to the following regulations:

- Occupational Health and Safety Act 1994
- Factories and Machineries Act 1967
- Environmental Quality Act 1974
- Fire Services (BOMBA) Act 1988

With a Group-wide implementation, all of our business units are now certified under ISO 14001 and ISO 45001.

Additionally, in 2021, we obtained ISO 45005:2020, offering guidelines for safe working during the COVID-19 Pandemic.

Our occupational health and safety management system extends to cover all key stakeholders, including employees, contractors, and vendors, through the implementation of relevant policies and procedures.

** International operations in Taiwan, Singapore, and the UAE adhere to the rules and regulations of their respective countries.*

100% of our operating business units in Malaysia have obtained ISO 14001:2015 and ISO 9001:2015.

100% of our Business units have obtained ISO 45001:2018

Moving forward, we will expand our tracking of HSSE certifications and accreditation to our International Offices.

SOCIAL VALUE CREATION

Risk Assessment and Hazard Identification

As part of our approach to hazard identification, we currently adopt several methodologies and procedures including the bowtie methodology, Hazard Identification Risk Assessment and Risk Control (“HIRARC”) procedures, Job Hazard Analysis (“JHA”), Ergonomic Risk Assessment (“ERA”), Chemical Health Risk Assessment (“CHRA”), Noise Risk Assessment (“NRA”), document reviews, audits and incident reviews.

For each approach mentioned, we assign competent and qualified personnel to perform the relevant tasks. This may include our Safety and Health Officer (“SHO”), Site Safety Supervisor (“SSS”), certified Environmental Professionals In Scheduled Waste Management (“CEPSWAM”), Ergonomic Trained Persons or Occupational Health Doctors (“OHD”), according to the type of reviews being conducted.

The Group currently utilises a reporting platform (BenchmarkESG) to notify, report, monitor and review any incidences relating to unsafe acts or conditions, perform health and safety risk management, carry out audit reviews and other relevant activities. The results, analysis and recommendations from the reporting of such incidences are then presented through our HSSE structure on a bi-weekly basis as part of our HSSE reporting exercise. For on-the-job safety hazard avoidance and precautionary processes, we have implemented various procedures such as the Consequence Management, 12 Life Saving Rules and several “do’s and dont’s” guidelines for specific operational activities.

Our control measures are monitored closely by site HSE personnel through trainings and supervision as well as the use of tools such as the PPE Matrix. In addition, regular compliance audit and inspections are also carried out by HSE personnel to ensure the effectiveness of our control measures. In overall, our risk assessment on health and safety is performed to provide coverage on our defined focus areas as well as our existing operations or projects.

Safety Audit

In 2023, we continued to perform safety audits as part of ensuring compliance to workplace safety. In contrast to the previous year, the number of Gemba Walk participants

Gemba Walk participation		The amount of final audits for 6S	
66 2023	132 2022	33 2023	66 2022

The results and findings from the audits were recorded on the BenchmarkESG, which is an AI-driven Safety, Health and Environment incident reporting platform. It enables the Group to perform a root cause analysis which facilitate a faster implementation of any corrective and preventive actions (“CAPAs”).

HSSE Governance Structure

Health and Safety leadership is vested in the Board, which regularly oversees, assesses, and deliberates on relevant issues on a quarterly basis. Our MD/CEO serves as the designated person at the Board level, providing leadership and direction in managing HSSE.

The governance structure is further supported at the working level by our

1. HSSE Committees, which have been established at each operational site. The committee meets periodically through monthly meetings and weekly (ad-hoc) meetings when deemed necessary to deliberate and act upon any occupational health and safety issues.
2. Quarterly Perintis Council meetings are also held for contractors to discuss and bring forth any health and safety related issues to the committee. Besides, in order to lead the day-to-day monitoring of our HSSE performance.
3. Head of QE & HSSE has been tasked to:
 - Develop an annual HSSE plan which is aligned with objectives and targets of the Group at addressing HSSE;
 - Provide key and consistent communication on our HSSE related objectives, targets and plans;
 - Identify and assess key HSSE Critical Positions for Technical Authorities;
 - Compile, review and submit HSSE related performance data to each business division;
 - Implement and maintain an HSSE assurance plan for each business division;
 - Establish and ascertain the competency of independent leads on HSSE audit; and
 - Identify and form the members of the HSSE audit team

To mitigate health and safety risks across our varied business activities, UEM Edgenta implements a robust risk management system overseen by qualified HSSE personnel. This proactive approach identifies hazards such as needle pricks, exposure to live traffic, working at heights, and slip and fall incidents. We have developed HSSE Manual to guide our efforts in this area.

HSSE MANUAL STRUCTURE

The HSSE Manual serves as a minimum mandatory requirement document to ensure that all members of UEM Edgenta are adhere to the prescribed procedures, requirements, and precautions. This promotes a safer and more resilient working environment for everyone involved.

QHSSE POLICY

- Compliance with statutory and regulatory requirements.
- Incorporate HSSE performance into employees' Key Performance Indicators (“KPIs”).
- Mandates contractors adhere to HSSE standards in line with the organisation's policy.

For more information on our QHSSE Policy, see the link.

1 POLICY

Provides an overall guide to the Group's policies and procedures, while representing its commitment to health and safety

2 MANUAL

Provides key details on the structure, scope, procedures and policies of HSSE. Other manuals state the minimum mandatory requirements for application across UEM Edgenta.

3 PROCEDURES & WORK INSTRUCTIONS

Provide clear information to ensure that the Group's policies and procedures on HSSE are comprehended, adhered and executed.

4 SUPPORTING DOCUMENTS

Provide templates for forms, checklists and any other tools which aid the implementation of key processes or facilitate the compliance of requirement (This exist at all business levels.)

SOCIAL VALUE CREATION

WHAT VALUE WAS CREATED IN 2023

Health and Safety Accreditation

During the year under review, Edgenta recorded several milestones in advancing its HSSE practices. The company successfully obtained the ISO 9001:2015, ISO 45001:2018 & ISO 14001:2015 (Quality, Occupational Health & Safety and Environmental Management Systems) Certifications.

This is a demonstration of Edgenta’s sound quality management system to ensure that services and products offered meet international standards. In addition, the Company also operationalised its HSSE manuals, ensuring better adherence to health, safety and environmental practices. Assurance processes were carried out and intervention plans were identified for further improvements.

Prioritising Health and Personal Security

The company’s commitment to health and safety is further exemplified through various initiatives, including comprehensive mental and physical health programmes, safety training focused on the “12 Life Saving Rules,” and initiatives aimed at raising awareness of personal security. Through the Personal Security Brown Bag Talk Series, experts discuss topics such as cybercrime, data theft and other criminal threats, equipping employees with knowledge about inherent risks to enhance their sense of safety and security.

We have also curated health talks and awareness sessions on topics such as ergonomics, fatigue management, non communicable diseases (“NCD”), heatstroke prevention, audiometric health and occupational illness diseases.

Brown Bag Session: Personal Security

Launch Brown Bag Session for Personal Security to create awareness of crime prevention, educate on the methodology or modus operandi in a crime as well as general tip on how to avoid becoming a victim. We have also launched a handbook of Personal Security Guideline for Edgenta Stars that is made available in our e-library, e-Ilmu platform.

Leadership Exchange and Action Programme (“LEAP”)

As a platform for local leaders/staff to highlight the challenges/issues/action item at the site and the support required from Top Leaders. Engaged with frontline staff on progress in HSSE and recognised any good HSSE practice.

Physical Wellness Programmes

We curated a specialised Physical Wellness Programme that includes individual fitness assessments and monitoring as well as health workshops. These workshops are part of our BeFit Programme that we have started in 2021.

PARTICIPATION RATE

- 201 Edgenta Stars participated in 2023 individual fitness assessment.
- 49 participants gained the Befit award.

In 2023, we maintained our commitment to employee health by organising health screenings. A total of 170 employees participated in the Perkeso Health Screening Programme 3.0, with 103 employees attending the Integrated Health Screening Test at Menara and 122 participating in Postural Analysis Measurement. Additionally, we extended healthcare coverage through medical cards, ensuring access to medical assistance for employees, direct contract workers, and their dependents from both government and private healthcare providers.

SOCIAL VALUE CREATION

Inculcating A Culture Of Health And Safety

To prevent and reduce injuries and illnesses in our workforce, we prioritise the importance of health and safety standards for our employees and workers by:

Programmes	Key Highlights
Personal Security E-Learning	Personal security E-Learning entails understanding, owning responsibilities, and consistently applying best practices to safeguard oneself, emphasising individual accountability. 59 staffs fully enrolled in the learning module via our digital learning platform.
Brown Bag Session: Personal Security	Launch of Brown Bag Session for Personal Security to create awareness of crime prevention, educate on the methodology or modus operandi in a crime as well as general tip on how to avoid becoming a victim. Multiple sessions were conducted with total attendance more than 500 staffs through physical and online participation.
Personal Security Handbook	Launched of Personal Security Handbook with focus on comprehensive coverage of personal safety principles, individual responsibilities, and essential practices for effective security in everyday life, emphasising accountability and awareness.
Safety Day 2023 (theme “Safety Starts from Home”)	Focus on employee safety during their daily commutes across all UEM Edgenta entities, including international businesses and contractor partners.
Launched the HSSE Pocketbook	Outlined all the essential requirements to be complied with during the execution of risky tasks.
Hosted Defensive Driving Training (“DDT”)	Addressed the rising number of commuting incidents by conducting seven impactful sessions with a total of 134 staff. Also conducted a session for contractors with a total of 91 participants focusing on drivers in high-risk category.
HSSE Capability Assessment (“HCA”)	Conducted the pilot assessment in Central Region on selected mainline contractors where 64% (14 of 22 contractors) were rated 1-star. They attended small group coaching sessions conducted by our HSSE practitioners to help improve their HSSE capability. Average HCA score improved from 1-star to 2-star.
HSSE Performance Ranking	We conducted evaluations on 97 mainline contractors responsible for 288 contracts along the NSE. As of 5 January 2023, the overall average HPR 2023 result stands at 2 stars. There has been a notable improvement in HPR 2023, with a 3.9% increase to 69.36%, compared to 65.5% in HPR 2022. Despite the operational challenges faced by contractors, this rise in scores signifies a positive trend.
	However, for those who fail to adhere to the relevant HSSE rules and regulations, we are prepared to take action and impose penalties as outlined in our HSSE Consequence Management procedures. Our HSSE Consequence Management process is structured into a 3-tier system, as detailed below.
	<div><div>1 HSSE Violation based on the 12 Life Saving Rules and risk matrix</div><div>2 Completion of HSSE Consequence Management by HSSE practitioner</div><div>3 Deduction from next payment</div></div>

97 mainline contractors servicing 288 contracts along NSE were evaluated. As of 5 Jan 2023, overall average HPR 2023 result is 2-stars. An improvement of 3.9% in HPR 2023 (69.36%) compared to HPR 2022 (65.5%). The score’s improvement shows positive development despite operational challenges faced by contractors.

SOCIAL VALUE CREATION

Programmes	Key Highlights
Contractor Engagement Roadshow (“CER”)	A total of 231 contractors participated in the CER where the team shared pocket talks on HSSE Leadership, Traffic Management, HCM, Infra VDP and RAMS.
Walk the Talk Visits (“WTVs”) for contractor leadership	Conducted as a practical guide to Perintis contractors on how to effectively communicate HSSE with employees at multiple locations along NSE and managed to get full participation from all 26 Perintis contractors’ companies. Total of 238 pax including contractors, Edgenta Stars and clients participated in the visits.
Perintis Council Programme	Held two Perintis Council Meetings with a take-up rate of 85% (130 touchpoints) consisting of contractors’ owner & HSSE coordinators, Edgenta Stars (HSSE practitioners & operations) and client (PLUS). Organised pocket talks on Learning From Incident, HSSE Documentation, Traffic Management, PPE and PTW.

With the measures in place, we managed to achieve a 100% success rate in assessing health and safety impacts from the products and services we provide.

Advocating Health and Safety in our Supply Chain

Beyond the health and safety of our employees, we also recognise the need to promote good health and safety practices among our business partners and contractors/vendors. By adopting a cohesive approach towards this issue, we can achieve a more robust, safer ecosystem within our value chain.

OSH Training and Management System

We conduct thorough audit processes integrated within our OSH management systems. These internal audits serve as a proactive measure to evaluate and improve the effectiveness of our OSH protocols, ensuring that our workforce operates within a secure environment.

SOCIAL VALUE CREATION

OVERALL PERFORMANCE

Throughout the year, UEM Edgenta has consistently documented and reported its Health, Safety, Security, and Environment (“HSSE”) performance, offering a comprehensive overview in the corporate scorecard.

SOCIAL VALUE CREATION

SOCIAL VALUE CREATION

OUTLOOK

In the short term, our primary focus is to strengthen the implementation and monitoring of our Health, Safety, Security, and Environment ("HSSE") management system. This entails developing comprehensive policies, procedures, and guidelines, including risk assessments, emergency response plans, and employee training programmes. We will establish continuous monitoring and evaluation mechanisms to ensure the system's effectiveness and promptly identify areas for improvement.

Moving into the medium term, UEM Edgenta aims to cultivate a robust HSSE culture, with a particular emphasis on leadership. Our objective is to instill a proactive safety mindset throughout all levels of the organisation, starting with top management. Leaders will be encouraged to champion safety initiatives through open communication channels, conducting regular safety briefings, and actively participating in safety-related activities.

Looking towards the long term, UEM Edgenta remains committed to achieving the goal of zero incidents, illnesses, environmental events, and non-compliance with legal requirements. This necessitates a sustained dedication to continuous improvement, ongoing training, education, and the integration of advanced technologies to enhance safety measures. Proactive measures will be implemented to identify and address potential risks before they escalate, while regular audits and assessments will ensure compliance with relevant laws and regulations.

2023 Performance		2024 Target	
Rate of work-related Fatalities:	Work related Injury (TRIR):	Fatalities:	Work related Injury (TRIR):
0.03	1.2 (Target for 2023: 1.4)	Zero Fatality	1.0

SOCIAL VALUE CREATION

EMPLOYMENT CULTURE

WHY IT MATTERS?

Our workforce is central to our pursuit of excellence. When our employees feel valued and respected, they play a crucial role in our success. Placing emphasis on their mental, physical, and social well-being is essential, as it cultivates a culture of trust and equal opportunities where they can thrive and reach their full potential. This approach not only helps us attract and retain top talent but also increases motivation and productivity, benefiting everyone involved.

WHAT IS OUR APPROACH?

UEM Edgenta has incorporated the FIRST principles introduced in 2021, guiding our interactions with both internal and external clients to emphasise our organisation's character, commitment, and culture. To ensure its workforce remains well-informed and engaged, UEM Edgenta utilises a range of communication channels, including email, townhalls, roadshows, social media platforms, as well as its own website. Both formal and informal avenues are employed to gather feedback from employees, fostering a culture that values diverse perspectives and ideas. In promoting work-life balance, UEM Edgenta has introduced Flexible Working Arrangements, sports and recreational clubs, the Edgenta Care Society, and mental well-being support programmes.

We employ both structured and unstructured channels to gather feedback from employees, including Employee Engagement Surveys, Idea Bank, and Internal Customer Satisfaction Surveys. This fosters a culture that encourages the sharing of opinions and ideas. UEM Edgenta supports employee professional development through targeted development programmes, individual development plans, certification training, and self-paced e-learning initiatives.

In 2023, Edgenta Academy Designed an Individual Development Programme ("IDP"), which is a self-directed development tool for employees to chart their individual development plans based on skill gaps and immediate job role needs. The objectives of the IDP include understanding the linkages between competencies, development, and performance, empowering self-directed development and growth, increasing motivation and accountability, and enabling structured development discussions with People Managers.

In promoting work-life balance, we have introduced Flexible Working Arrangements, Sports and Recreational Club, the Edgenta Care Society, and Wellbeing support programmes via Naluri platform. Additionally, we foster an inclusive and diverse workplace, evident from our DEI statement published on September 12, 2023. We are committed to promoting equality, diversity, and inclusion among our workforce, ensuring equal opportunities through HR processes embedded with principles promoting non-discrimination, equality, diversity, and inclusivity.

WHAT VALUE WAS CREATED IN 2023?

Improving Employee Engagement Survey ("EES")

The EES helps gauge overall employee satisfaction and as a result we have consistently maintain a score above 70 on Employee Engagement Survey. The results and feedback from Employee Engagement Survey is analysed and task force is created to address matters arising from the Employee Engagement Survey.

Disclosures ³	2019	2022	2023
We have conducted Employee Engagement Survey in 2023 and we are 1 point higher than the Malaysia norm.			
Employee Engagement Surveys ("EES") Score	74%	71%	70%

Notes³:
1. The scores are 1 point higher than the Malaysia norm excluding EAL.
2. EES was not conducted in 2020 and 2021.

SOCIAL VALUE CREATION

Employee engagement at UEM Edgenta has fostered more open and honest communication, leading to enhanced team collaboration and decision-making processes. Our focus on employee engagement has significantly contributed to overall productivity and individual performance. We conduct company-wide engagement and communication sessions, including the Annual Management Dialogues ("AMD"), town halls, Leadership Exchange and Action Programme ("LEAP"), and site visits, to engage employees and facilitate communication. There was also active effort to engage with staff at the grassroots level through the "HR Turun Padang" initiative, launched in 2023. Feedback received highlighted the need for more active management involvement in operations and customisation in the recognition approach, prompting the introduction of rewards and acknowledgment to demonstrate appreciation for the contribution made by employees. The implementation of the Employee Engagement Survey ("EES") helps gauge overall employee satisfaction, with action planning and execution set to be a focus for 2024. There has been an increased demand for more engagement activities that can promote direct interaction for 2-way communication on various people-related matters. UEM Edgenta will continue to promote initiatives like the Mental Health Month, Edgenta Sihat, the Sports and Recreational Club ("SRC"), and the utilisation of Naluri.

Edgenta Care Society Event

- As of December 2023, we have disbursed RM16,912 in assistance for 10 of our Edgenta colleagues.

Employees Wellness and Wellbeing Programmes

- MD Walkabout Series
- Infra Mega Sports

Sustainability and Employees Engagement Programmes

- ESG Awareness Month 2023
- HR Turun Padang

UEMS Singapore Initiatives

- Launched UETrack™ ESG – a sustainability app for all UEMS staff in Sept 2023
- Corporate Social Responsibilities initiative partnering with Lions Befrienders Singapore to distribute 1,000 care packs
- Refurbished laptops were given to staff by Tech Services

SOCIAL VALUE CREATION

EMPLOYEE TRAINING AND AWARENESS

Building an ESG Culture

In 2023, UEM Edgenta focused on cultivating a culture of sustainability through its Environmental, Social, and Governance (“ESG”) initiatives. We organised ESG Awareness Month in September 2023 and conducted various ESG training programmes. Additionally, we hosted three workshops, three training sessions, and four webinars aimed at upskilling our Edgenta Stars. Some of the training and awareness areas that we focused on in 2023 are Net Zero Targets, Introduction to Task Force on Climate-related Financial Disclosures (“TCFD”) and Assurance of ESG Data.

We empowered all business units and operating sites to organise ESG Knowledge Sharing Sessions at their respective locations. These are some of the capacity-building initiatives held as prescribed in our Sustainability roadmap as we advance in our sustainability maturity, as well as in response to regulatory requirements. We partnered with our Internal Auditors who were upskilled through the Assurance of ESG Data training and our Risk, Integrity and Compliance department on TCFD and produced a TCFD workplan. During the year, we upskilled over 1,000 participants from various business units and departments on these broad areas of sustainability. We also collaborated with subject matter experts from other organisations on sustainability knowledge-sharing sessions. Our sustainability knowledge sharing programmes include a discussion on The Protection of Children and Youths, Welfare and Rights Act in our Taiwan office and awareness on UAE’s Labour Law in our UAE office.

ENHANCING EMPLOYEE CAPABILITIES

UEM Edgenta has enhanced its internal mobility programme with the introduction of the Opportunity Marketplace which serves as a platform for employees to explore new career growth and opportunity within UEM Edgenta. The platform aims to promote talent mobility, skills development and career progression.

In addition, Edgenta Academy has designed various programmes to enhance employee capabilities. These include Signature Programmes like the Facility Managers Development Programme (“FMDP”), which prepares existing facility managers to support future social trends and needs. We have implemented Executive Leadership Programme, targeted for senior management leaders, with an aim to foster cooperation, develop transformational leaders, strengthen leadership competency, boost creative leadership, and innovate, focusing on changing behaviours in participants to achieve the EoTF25 vision.

Additionally, there are Talent Programmes such as the 12-month programme designed to train high performers based on the Enhanced Talent and Succession Management framework. Furthermore, the Professional Qualification programme sponsors relevant professional qualification enrollments for employees.

SOCIAL VALUE CREATION

SOCIAL VALUE CREATION

Embedding DEI in Workplace

UEM Edgenta’s commitment to diversity and inclusion is captured in its DEI statement. Through this statement, it encourages equality, diversity, and inclusion among its workforce and the elimination of any forms of discrimination. Every characteristic of the company’s employee be it age, gender, marital status, disability, ethnicity, or marital status, is respected and acknowledged as factors that make our employees unique. The statement calls for a healthy working environment free of bullying, harassment or victimization. Respect and dignity must be always observed. Any form of discrimination or acts that depart from the values contained in the DEI statement is condemned and complaints arising therefrom are treated seriously. The DEI statement is not only applicable to how employees are treated but also extends to how UEM Edgenta deals with its vendors, suppliers, contractors, visitors, customers, and even job applicants. Initiatives outlined in the DEI statement contribute to fostering an inclusive workplace and healthy work environment. It will also provide the bedrock for the refinement of our human rights policy and form the foundation for the assessment of how we approach Human Rights issues.

OUTLOOK

In the upcoming phase, UEM Edgenta will continue to engage with employees through various initiatives tailored to fortifying leadership development, championing inclusivity and diversity, and optimising recognition and rewards frameworks. By nurturing a workplace culture that celebrates diversity, we aim to foster a thriving and empowered workforce.

UEM Edgenta aims to manage employee engagement by continually listening to their voices and developing action plans to enhance their engagement levels. This involves setting short, medium, and long-term goals and targets.

To adapt engagement strategies based on feedback, UEM Edgenta utilises focus groups and action plans, implementing both quick-win solutions and long-term initiatives. We plan to boost employee engagement by fostering leadership capabilities, including increased interaction with senior leadership through events like town halls and initiatives such as “Turun Padang.” In promoting inclusivity and diversity, UEM Edgenta has published a Diversity, Equity & Inclusion (“DEI”) statement on Edgenta website aimed at raising awareness among employees, stakeholders and the public on our dedication to creating a fair and inclusive workplace. Additionally, the company is conducting a Human Rights Impact Assessment to better understand its social impact.

To ensure the effectiveness and relevance of recognition and rewards programmes, UEM Edgenta envisions an individualised approach. This includes personalised development plans through IDPs and accommodating diverse preferences through flexible spending accounts. The company also emphasises non-monetary recognition, such as spot recognition, and implements various incentive schemes tied to productivity, profitability, and sales to acknowledge employee contributions.

SOCIAL VALUE CREATION

CUSTOMER SATISFACTION

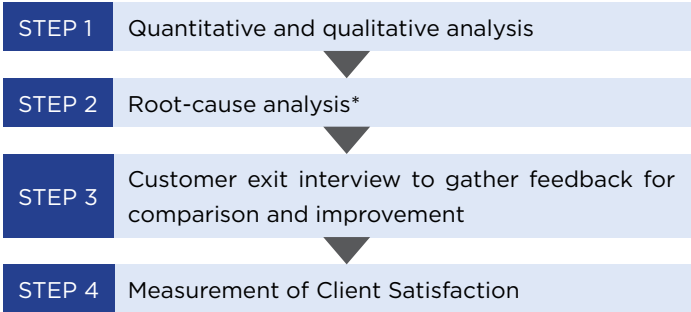

WHY IT MATTERS?

In our corporate culture, we understand the significance of satisfied customers in fostering enduring relationships. Their fundamental to building loyalty, extending beyond mere transactions to form lasting partnerships. By actively listening to our clients, promptly addressing concerns, and flexibly adapting our services to meet their evolving needs, we create an environment where trust and exceptional service flourish.

WHAT IS OUR APPROACH?

To continuously enhance our services, we employ proactive measures during meetings to gather insights and suggestions for refinement. Bi-annual Customer Satisfaction Surveys (“CSS”) is conducted systematically to gather feedback. Our on-site management team actively engages with end users, swiftly adapting and implementing improvements to address any service gaps. Additionally, we closely monitor customer retention rates and analyse the frequency of repeat engagements.

Regular surveys and reviews help us identify pain points and refine our core service offerings to meet evolving customer demands and expectations. To ensure a structured and prompt response to customer feedback, we develop a comprehensive corrective action plan after receiving the reports. This plan delineates detailed improvement initiatives, covering both soft and hard services, with a clear timeline for implementation. We leverage customer surveys and feedback to extract actionable insights through:

* Customer feedback is carefully examined across various service categories and compared against the Key Performance Indicators (KPIs) specified in contracts.

Our management approach revolves around ongoing training, career development opportunities, and clear goal-setting. We empower our employees to achieve shared objectives.

In response to negative feedback, we swiftly collaborate with clients to implement immediate improvements. When faced with challenges in meeting timelines or client expectations, we engage in transparent discussions, seeking mutually beneficial solutions.

We analyse customer surveys and feedback comprehensively. Following each survey, the team works together to devise solutions aimed at enhancing customer satisfaction, ensuring that clients are kept informed and involved throughout the improvement process.

SOCIAL VALUE CREATION

WHAT VALUE WAS CREATED IN 2023?

Fostering customer loyalty lays the groundwork for developing specialised and customisable services that effectively meet customer needs. We continuously adapt and refine our service offerings based on customer preferences and requirements. Our strong focus on customer satisfaction encompasses various aspects, including enhancing service quality, building exceptional customer relationships, ongoing system improvements, innovative mechanisation, and efficient problem-solving. This approach not only ensures client satisfaction but also encourages contract renewals.

Moreover, our commitment to staff welfare, adherence to ESG principles, and flexibility in adjusting services to match evolving market dynamics set us apart from competitors. When executed skillfully and tailored to individual customer needs, these strategies give us a competitive advantage in the marketplace.

OVERALL PERFORMANCE

Our approach in upholding a good customer satisfaction has been translated into both an overall good Customer Satisfaction Survey (“CSS”) in the year 2023 across our operating companies and have enabled us to retain our current customers.

Scored 89% on the Customer Satisfaction Survey (“CSS”) (2022:88%)

OUTLOOK

As we move forward, we are poised to harness the power of data, technology, and advanced analytics to gain deeper insights from customer surveys and feedback in a systematic manner. By leveraging data-driven tools, we aim to uncover patterns, trends, and specific pain points. These insights will serve as a compass for strategic decision-making, empowering UEM Edgenta to implement targeted enhancements in its services and customer interactions, thereby elevating overall satisfaction and fostering brand loyalty.

In response to the evolving landscape of customer needs and expectations, we are committed to adapting our strategies by instituting regular feedback mechanisms. In the immediate term, our focus will be on introducing and optimising channels for real-time customer feedback, spanning surveys, reviews, and direct communication. This will include ongoing customer feedback sessions, engagement initiatives, and swift resolution of immediate customer concerns. Investments in research and development, upskilling of our workforce, collaboration with external partners, and the utilisation of emerging technologies for continuous innovation and the development of new products or services will enhance our customer value. Furthermore, our emphasis will be on delivering exceptional customer experiences across all touch points, encompassing streamlined processes, greater customer support, and personalised interactions.

SOCIAL VALUE CREATION

HUMAN RIGHTS ASSESSMENT

WHY IT MATTERS?

At UEM Edgenta, we believe in the universal application of human rights, irrespective of personal characteristics. As a responsible business, we are dedicated to upholding human rights law and standards throughout our operations, supply chains, and business relationships. We aim to ensure that our external stakeholders align with our commitment to championing human rights, promoting fair labour practices, and treating communities with respect. This commitment is deeply rooted in our company values and forms an integral part of our identity.

WHAT IS OUR APPROACH?

At UEM Edgenta, we are deeply committed to upholding human rights principles and promoting responsible labour practices. To achieve this, we have implemented various initiatives to build capacity and address this important topic to our business. These include increasing awareness of human rights issues across the organisation through knowledge-sharing effort, adhering to basic international human rights laws namely those regarding Child Labour and Forced Labour and expressing commitment in our policies to better align ourselves to international standards on human rights. To understand the impact of this material matter on our business, we commissioned a Human Rights Impact Assessments (“HRIA”) engagement. This assessment involves three phases: due diligence gap assessments, potential impact assessments, and actual impact assessments, culminating in a score aligned with the United Nations Guiding Principles (“UNGPs”). Based on this score, we shall develop our human rights policy to ensure that human rights are consistently upheld across our organisation and supply chain, fostering a culture of respect and responsible practices, and treating communities with respect. This commitment is deeply rooted in our company values and forms an integral part of our identity.

Existing policies and frameworks reinforce UEM Edgenta's commitment to human rights and labour practices:

- Code of Conduct sets ethical standards for employees.
- Code of Conduct for Business Partners extends ethical expectations to supply chain partners.
- Diversity, Equity & Inclusion Statement affirms the commitment to diversity and inclusion.
- Notice on Sexual Harassment establishes a framework to prevent and address sexual harassment in the workplace.

WHAT VALUE WAS CREATED IN 2023?

Championing Human Rights

Human Rights Training across UEM Edgenta is comprehensive, reaching all staff, specific departments, and individuals. These training sessions are conducted by a Human Rights lawyer as part of our ESG initiatives, engaging management and leaders. Additionally, human rights talks during HR Edgenta Roadshows create awareness, complemented by the development of digital learning materials for broader accessibility.

HUMAN RIGHTS AWARENESS SESSIONS

What We Did: Conducted a series of sessions covering all regions in Malaysia to enhance awareness and understanding of human rights principles among employees.

Progress and Achievements: Throughout the year, the company has initiated steps to recognise the National Union of Hospital Support, Allied Services, and Government Agencies. This move demonstrates our commitment to respecting the right to freedom of association and collective bargaining among our staff. Currently, efforts are in progress to reach a first set of collective agreements addressing areas of mutual interest for both parties.

SOCIAL VALUE CREATION

Top Initiatives and Programmes in 2023:

Human Rights Awareness Sessions:

Conducted a series of sessions covering all regions in Malaysia to enhance awareness and understanding of human rights principles among employees.

Leadership-Specific Awareness Session:

Organised a dedicated human rights awareness session for UEM Edgenta's Senior Leadership Team, facilitated by a Human Rights lawyer to ensure leadership alignment.

Commissioning HRIA initiative:

Took a crucial step by embarking on a Human Rights Impact Assessment ("HRIA"), showcasing the commitment to conduct a thorough assessment aligned with UN Guiding Principles.

Roll-out of Sexual Harassment Notice:

Initiated the implementation of a notice on sexual harassment, reinforcing a zero-tolerance policy and establishing mechanisms for addressing such issues.

Diversity, Equity & Inclusion Statement:

Rolled out a comprehensive statement affirming the company's commitment to promoting diversity, equity, and inclusion.

SOCIAL VALUE CREATION

OVERALL PERFORMANCE

OUTLOOK

Looking ahead, our commitment remains firm in adhering to international best practices and bolstering compliance across all aspects of our operations. We are dedicated to refining our human rights policy to ensure it reflects our strong dedication to ethical conduct and respect for human rights.

Moreover, we will diligently assess the action points identified through our Human Rights Impact Assessments ("HRIA") and strive towards better alignment with international standards. As part of our growth strategy, we are exploring opportunities to expand into international offices and supply chains. In doing so, we aim to strengthen our global presence while upholding our values and principles.

Critical to this endeavour is the enhancement of our code of conduct for business partners. By fostering a shared commitment to ethical business practices, we aim to ensure that our partners uphold the same standards of integrity and accountability that we hold ourselves to.

SOCIAL VALUE CREATION

LOCAL COMMUNITY

WHY IT MATTERS?

At the core of our operations is a deep understanding of the communities and neighbourhoods we serve, acknowledging our duty to support them. We recognise the significant impact our business activities can have on these communities and value their pivotal role in shaping our initiatives. Through our community support programmes, we actively involve stakeholders such as investors and employees, building stronger bonds and trust within the company. Embracing this mutual relationship, we are committed to contributing to the overall development and well-being of these communities, thereby enhancing social capital and fostering a sense of belonging.

WHAT IS OUR APPROACH?

The focus on ‘Community Contributions and Development’ is directed towards three key areas: Education, Community Enrichment and Well-being, and Environment.

Education
Advocating and supporting a collaborative approach in all our efforts to empower and advance education, especially for the younger generation
Community Enrichment and Well-being
Delivering positive impact to the communities where our businesses are rooted, including by assisting underserved communities, supporting festive celebrations, national events, sports activities as well as providing essential aid during natural disasters
Environment
Contributing to biodiversity conservation, ecosystem protection and other important environmental issues

We are dedicated to making a positive impact on the local communities where our business operates, aiming to enhance overall socioeconomic development. Our policies prioritise the well-being of both society and the environment while delivering value to our shareholders. This commitment aligns with our “Edgenta of The Future 2025” (“EoTF2025”) vision, guiding us to understand and address society’s needs and concerns. Through this vision, we develop strategies to tackle future opportunities and challenges, ensuring sustainable growth and prosperity for our local communities.

We are aligned with the 12th Malaysia Plan (“12MP”) for 2021-2025, which emphasises sustainability across the economy, society, and the environment. As a responsible corporate citizen, we are committed to supporting Malaysia’s sustainable development goals.

SOCIAL VALUE CREATION

WHAT VALUE WAS CREATED IN 2023

Saving Animals, Serving Community

UEM Edgenta, through its visionary programme “Saving Animals, Serving Community,” actively promotes a compassionate society towards animal care.

From September to December 2023, the Corporate Communications Department achieved a significant milestone by rescuing 7,225kg of surplus pet food and preventing 20,230kg of carbon dioxide emissions through the Pet Food Project. In collaboration with The Lost Food Project, this project supported over 50 shelters, rescuers, and feeders in the Klang Valley, Seremban, and Malacca, delivering 120,424 cat and dog meals.

Additionally, UEM Edgenta provided sponsorship to the Faculty of Veterinary Medicine at Universiti Putra Malaysia and Universiti Malaysia Kelantan, contributing to the betterment and welfare of animals. These initiatives showcase the company’s dedication to animal welfare, conservation efforts, and sustainable practices.

Jul

Starting in July 2023, the company collaborated with the Society for the Prevention of Cruelty to Animals (“SPCA”) Selangor for a five-month ‘spay and neuter’ initiative, encouraging responsible pet ownership with subsidised rates.

Aug

Sept

Oct

In October 2023, a contribution of RM19,000 was made to the SPCA fund, supporting animal adoption, spay/neuter programmes, and overall animal welfare. In the same month, UEM Edgenta sponsored a pair of more than 100-year-old Aldabra Giant Tortoises named Do and Re, and renewed the adoption of a 5-year-old giraffe, Mas Kira, reflecting the company’s commitment to wildlife conservation through a one-year comprehensive sponsorship covering welfare, food supply, and veterinary care.

Nov

Dec

SOCIAL VALUE CREATION

Our commitment to community welfare extends throughout the year with the "Jalinan Kasih Edgenta" programme, bringing joy to underserved communities during various festive seasons:

CHINESE NEW YEAR CELEBRATION (16 JANUARY 2023)

UEM Edgenta engaged in a heartwarming Chinese New Year celebration with Rumah Orang Tua Ampang, Kuala Lumpur. Essential food items were distributed to the senior citizens. We also decorated the home with Chinese New Year theme decorations accompanied by an engaging "Yee Sang" tossing session, aiming to bring joy to the home residents.

RAMADAN COMMUNITY INITIATIVE (MONTH-LONG):

A month-long community initiative during Ramadan impacted the lives of over 2,000 individuals across various states nationwide. Essential food, grocery vouchers, and cash contributions were provided to over 475 asnaf families in locations where the company operates. The programme included raya shopping treats, beginning from Masjid Ar Rahah in Bangsar South and extending to mosques in Perak, Penang, Kedah, Terengganu, and Perlis. Orphans from Rumah Bakti Nur Ain in Bangi were treated to a shopping spree at AEON in IOI City Mall, Putrajaya, in preparation for Hari Raya Aidilfitri, concluding with an "iftar" session at Le Meridien Hotel in Putrajaya on 18 May 2023.

DEEPAVALI SHOPPING SPREE (31 OCTOBER 2023):

More than 20 Edgenta Stars and volunteers from Jabatan Kebajikan Masyarakat (JKM), Kuala Lumpur, accompanied 35 families from the needy group in Bangsar for a shopping spree at Mydin Hypermarket, Subang Jaya. Each family had the opportunity to purchase groceries of their preference for the upcoming Deepavali celebration.

CHRISTMAS CELEBRATION AT RUMAH KIDS (SUBANG JAYA):

UEM Edgenta spread festive cheer with an early Christmas celebration at Rumah KIDS in Subang Jaya. Edgenta Stars actively participated by singing Christmas songs, playing games with the children, and presenting gifts to create lasting memories. A monetary contribution was also presented to Rumah KIDS to support its financial needs, ensuring it continues to provide a safe and nurturing environment for the children.

SOCIAL VALUE CREATION

Empowering the Community

Mar

In March 2023, UEM Edgenta conducted the 'Back-to-School Riang Ria' programme, providing school uniforms, scholastic supplies, and gift vouchers to 200 underprivileged students from SK Bangsar, SK Jenderam, and SMK Jenjarom, ensuring their preparedness for the new school year.

Also in March 2023, UEM Edgenta aided flood-affected communities in Segamat, Johor, by providing 1,000 families with 1,000 boxes of food essentials valued at RM50,000, including rice, flour, sugar, biscuits, cooking oil, sardines, noodles, tea, and coffee. During the launch of Net Zero Targets, UEM Edgenta organised a charity recycled craft workshop for Edgenta Stars, donating proceeds to Rumah KIDS in Subang Jaya.

Jul

Furthermore, in July 2023, UEM Edgenta was honored with the prestigious "Company of the Year (Asset Management & Infrastructure Solutions) for Outstanding Community Engagement" award at the Sustainability and CSR Malaysia Awards 2023.

Dec

Additionally, on 1 December 2023, UEM Edgenta partnered with Universiti Putra Malaysia ("UPM") to establish an Arboretum Education Center at the Ayer Hitam Forest Reserve in Puchong, demonstrating its commitment to environmental sustainability and social responsibility. This initiative transformed the forest reserve into an arboretum, promoting learning about forest significance and Dipterocarp genus conservation.

SOCIAL VALUE CREATION

OVERALL PERFORMANCE

Disclosures	2022	2023
Operations with local community engagement, impact assessments, and development programmes	15	19
Investments in community initiatives (RM)		
Total investment / contributions for community initiatives (RM)	195,000	308,666.35

AS AT 31 MARCH 2024

ORGANISATION STRUCTURE

AS AT 31 MARCH 2024

CORPORATE GOVERNANCE OVERVIEW STATEMENT

This Statement is prepared in compliance with Bursa Securities Main Listing Requirements and is to be read together with the Corporate Governance Report (“CG Report”), which provides details on how the Company has applied each Practice as set out in the Malaysia Code on Corporate Governance 2021 (“MCCG”). The CG Report is available on the Company’s website at www.uemedgenta.com.

The Corporate Governance Overview Statement (“Statement”) provides an overview of the Company’s corporate governance practices, focusing on the Board’s activities and time allocation throughout the year.

The Board recognises the importance of the application of the MCCG, effective stewardship and strong corporate values contributes to the success of the Company. Therefore, the Board continues to uphold the principles of good governance that are demonstrably embedded throughout the organisation.

The Company is led by an effective Board, collectively responsible for its long-term success, ensuring its efficient operation, and remaining committed to maintaining strong momentum in pursuit of excellence in governance.

The preparation of this Statement was guided by the following three (3) key principles:-

ABoard Leadership and Effectiveness

BEffective Audit and Risk Management

CIntegrity in Corporate Reporting and Meaningful Relationship with Stakeholders

ABoard Leadership and Effectiveness

BEffective Audit and Risk Management

CIntegrity in Corporate Reporting and Meaningful Relationship with Stakeholders

BOARD RESPONSIBILITIES

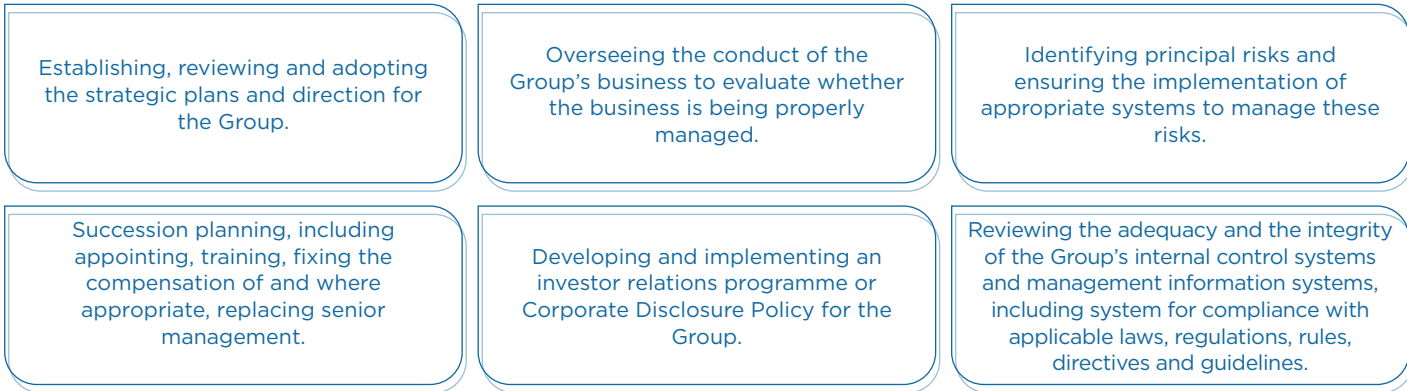

GOVERNANCE FRAMEWORK

The Board is committed to fulfilling its responsibilities and obligations to its shareholders and various stakeholders.

In carrying out its duties, the Board adheres to the Board Charter and the Discretionary Authority Limits which outlines the duties and responsibilities of the Board, as well as matters that the Board may delegate to the Board Committees, the Managing Director/Chief Executive Officer and Management.

The Board Charter, available on the Company’s website at www.uemedgenta.com ensures effective leadership through oversight of management and monitoring of activities, performance, internal controls, risk management, policies, governance and the group’s viability.

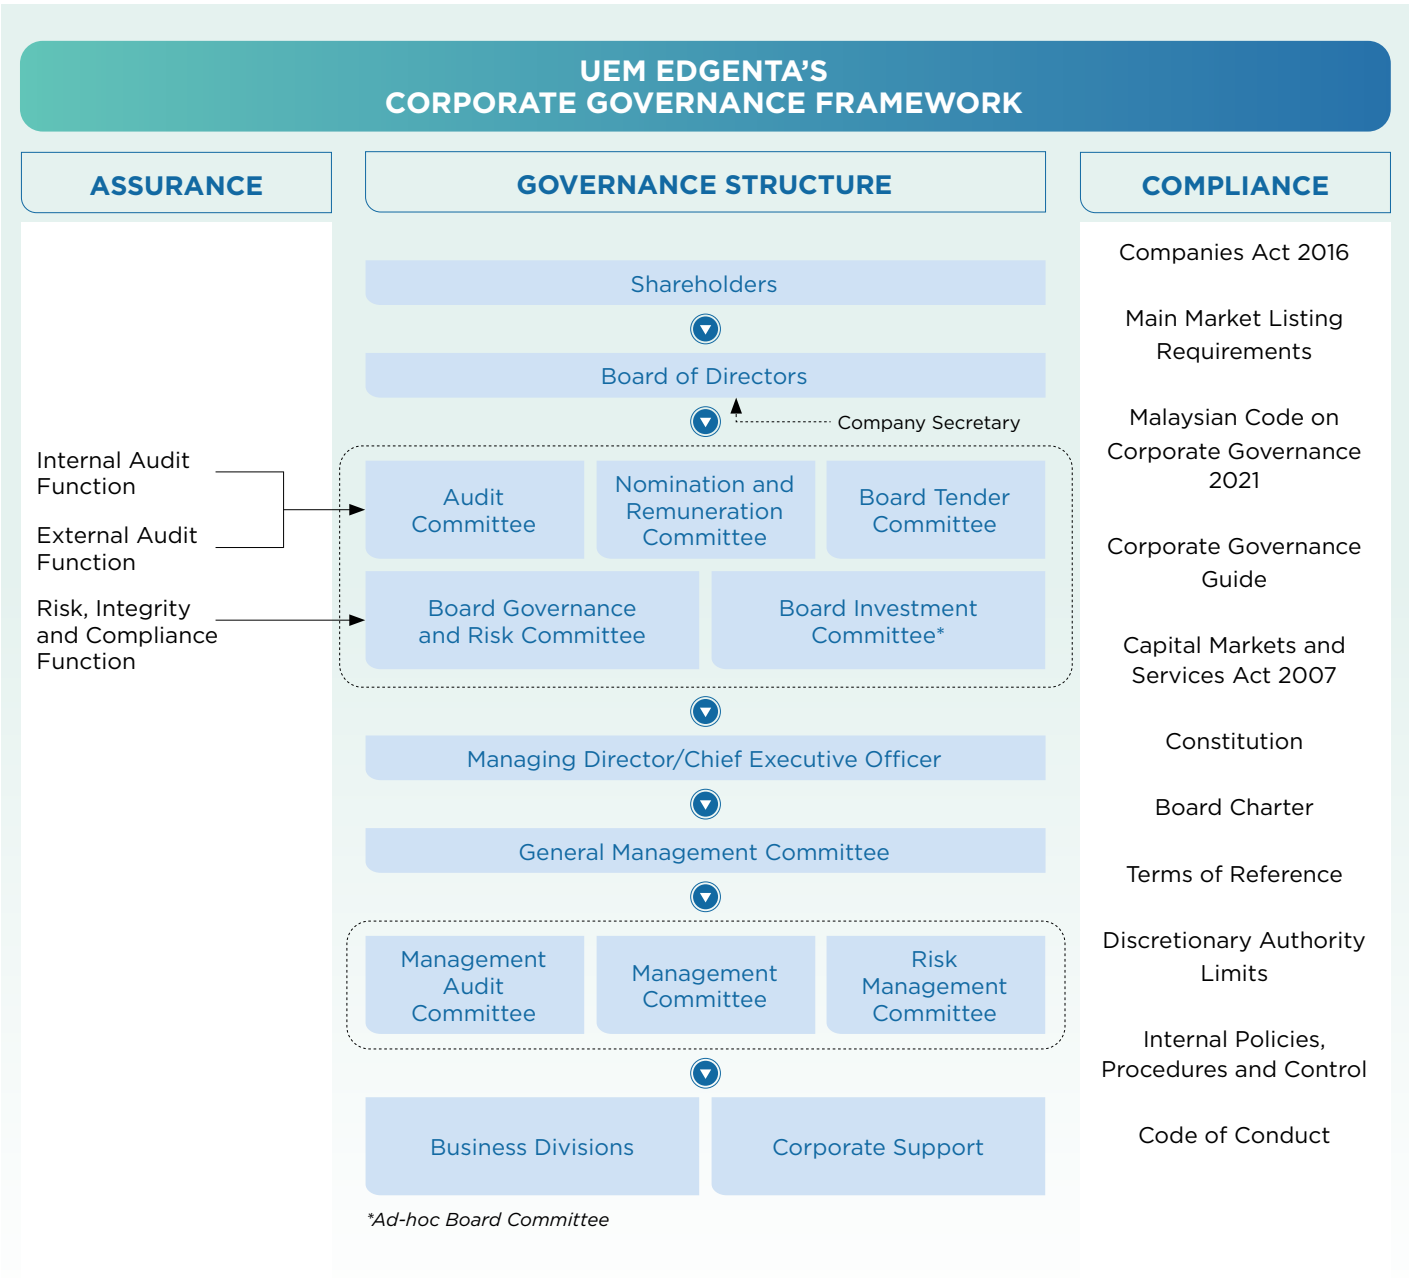

The Board’s main roles and responsibilities among others are as follows:-

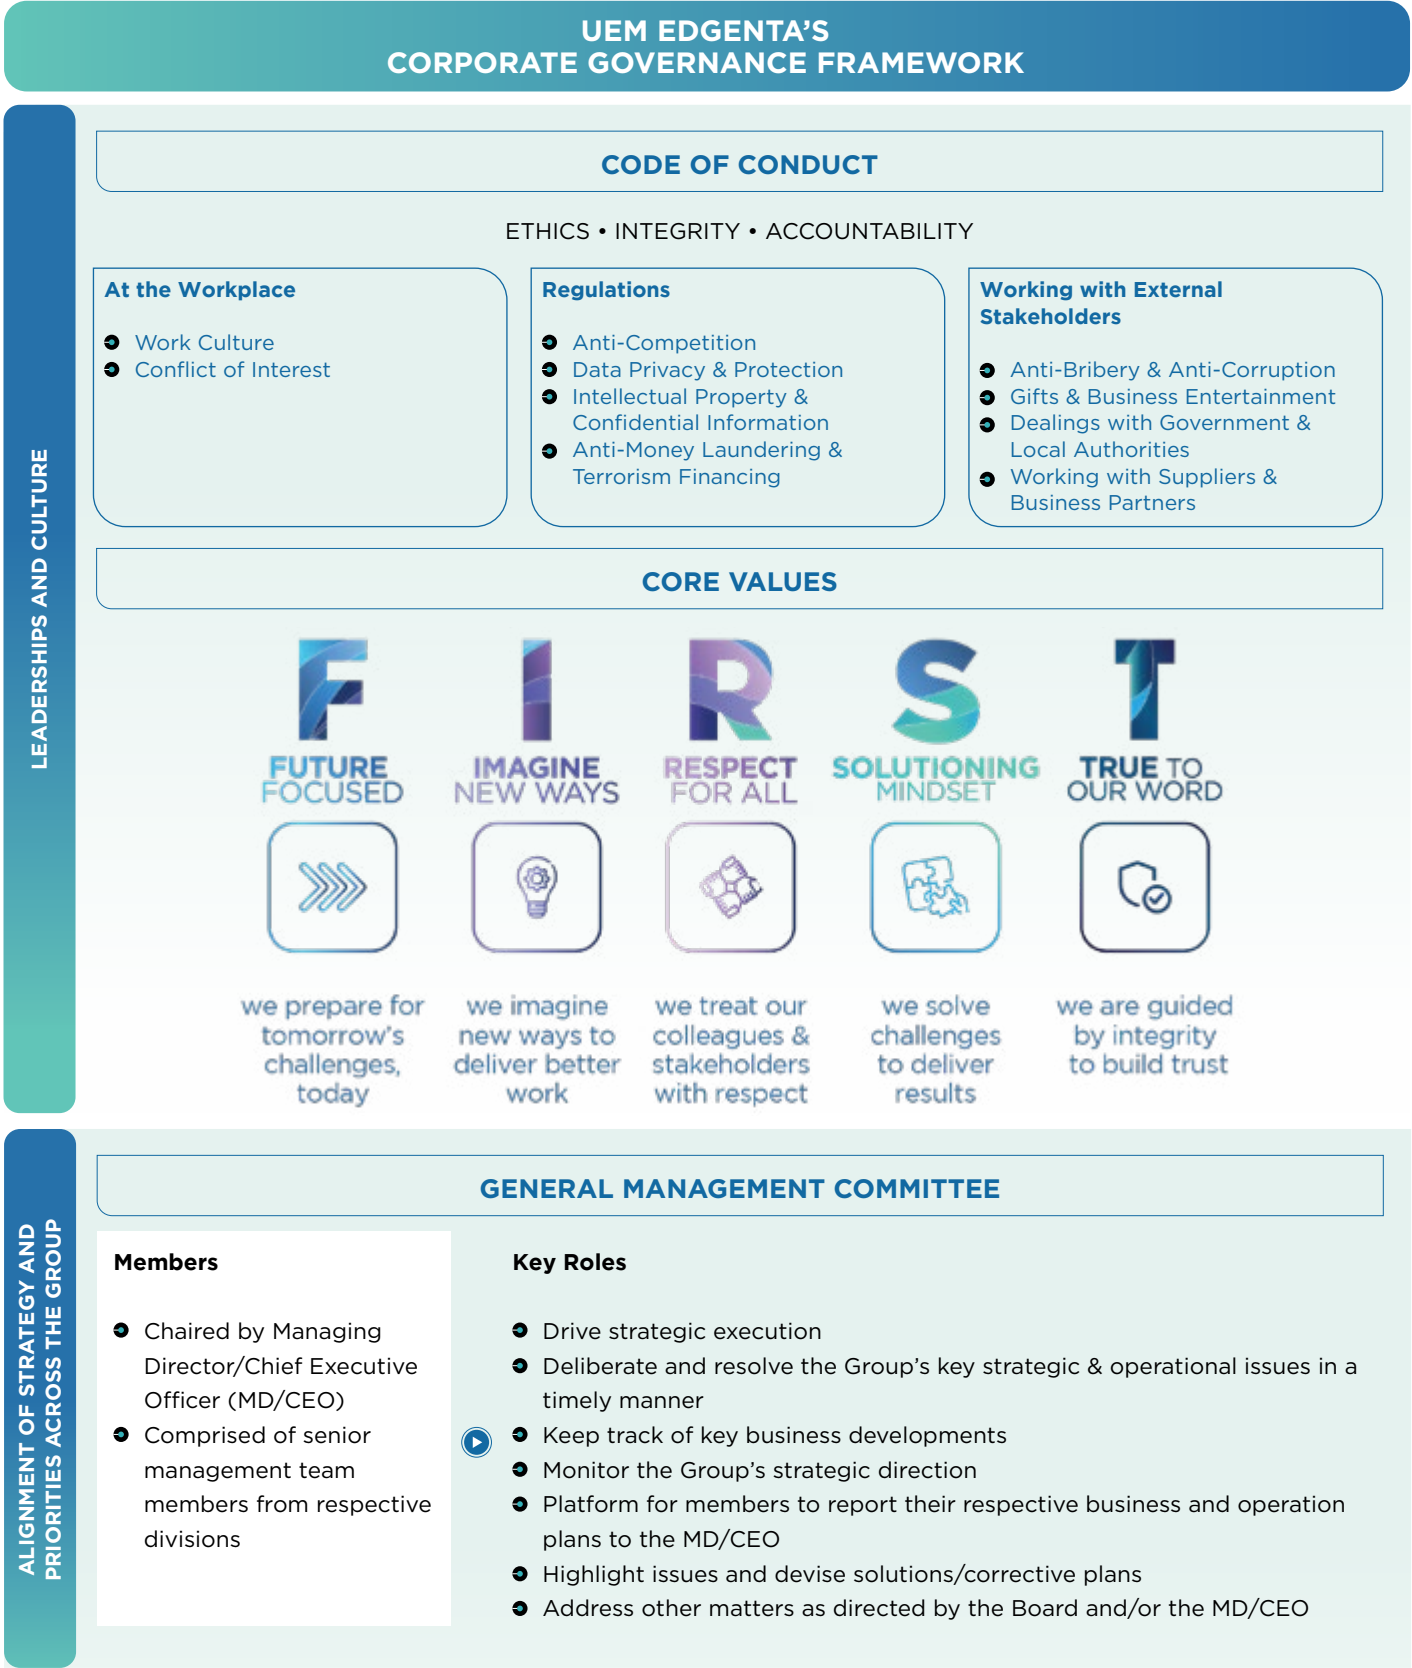

CORPORATE GOVERNANCE OVERVIEW STATEMENT

To ensure consistency in decision-making authority and to inform all staff of the Company’s governance practices and processes, the Board had formalised the Corporate Governance Framework. This framework incorporates the key elements of group-wide framework on Corporate Governance to guide the governance practices and decision-making authority across the Company and its subsidiaries.

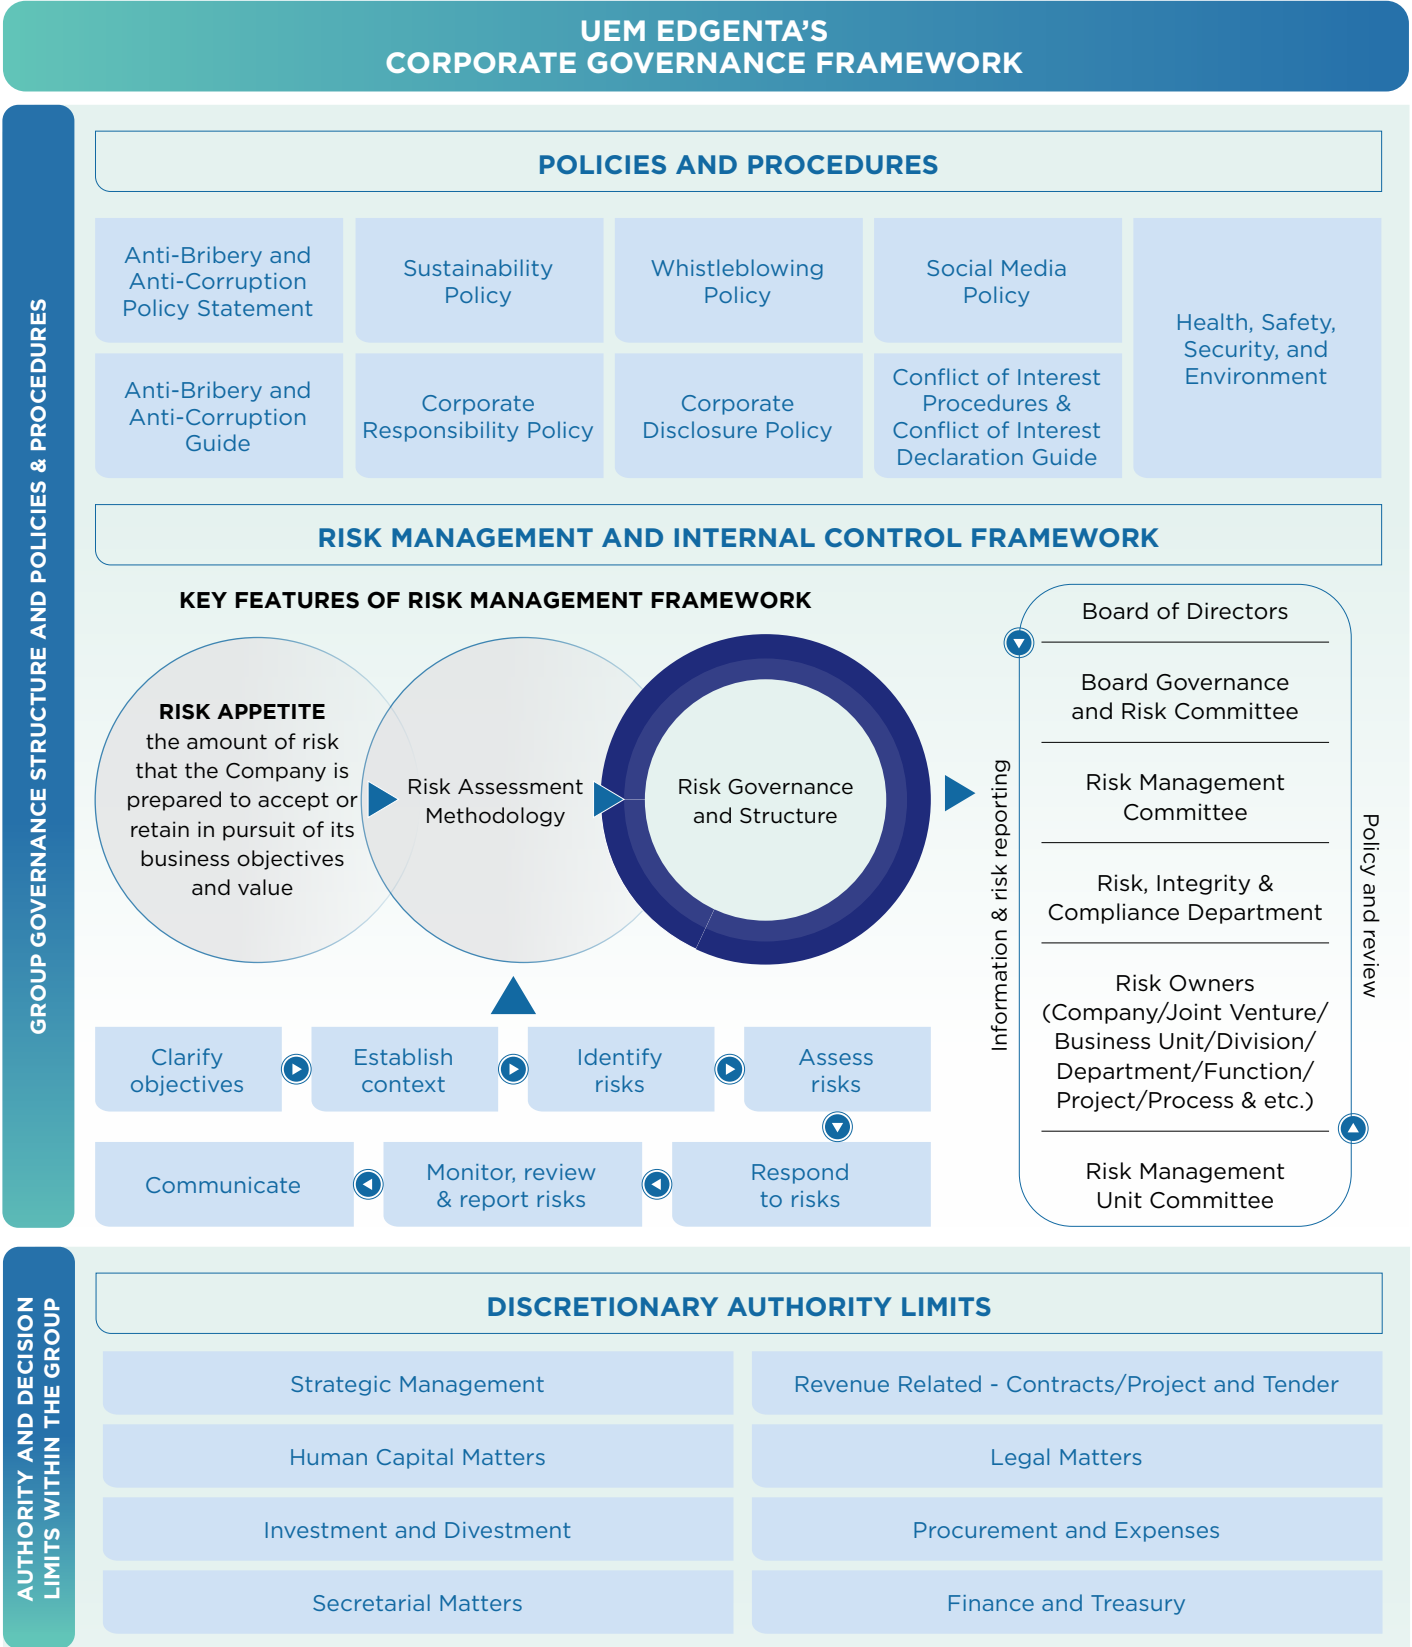

The Corporate Governance Framework can also be found at the Company’s website.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

CORPORATE GOVERNANCE OVERVIEW STATEMENT

Note: Corporate Governance Framework is applicable to UEM Edgenta Berhad and its subsidiaries only.

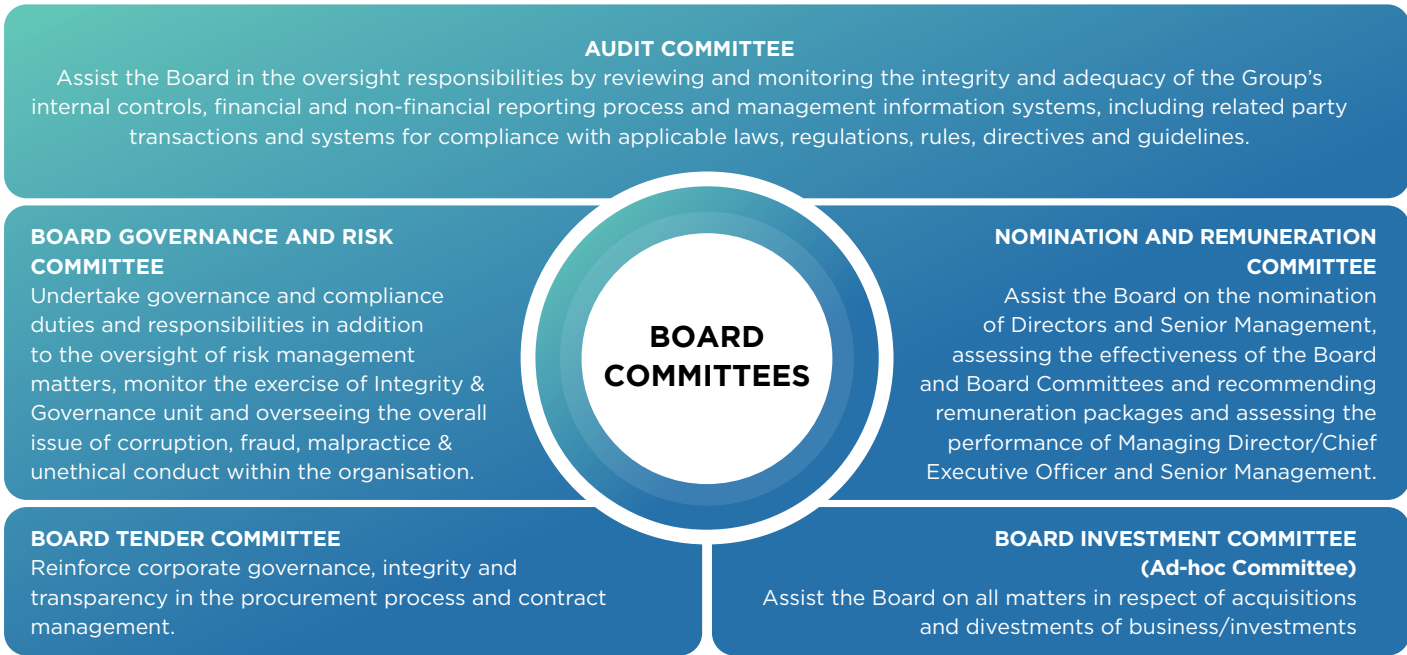

CORPORATE GOVERNANCE OVERVIEW STATEMENT

The Board is led by Tan Sri Azmil Khalid, an Independent Non-Executive Chairman responsible for instilling good corporate governance practices, leadership and effectiveness of the Board.

To ensure check and balance, the positions of Chairman and Managing Director/Chief Executive Officer are held by different individuals.

To maintain impartiality and avoid impairing objectivity, the Chairman is not a member of the Audit Committee or the Nomination and Remuneration Committee, nor has he participated in any committee meetings by invitation.

In ensuring that the Board discharged its responsibilities effectively and thoroughly, the Board is supported by five (5) Board Committees. These committees operate within clearly defined terms of references, which are available on our website at www.uedgenta.com/about-us/corporate-governance. Each committee chair reports to the Board on the committee’s activities following each committee meeting. However, the ultimate responsibility for making final decisions on all matters rest with the Board.

The Board is supported by Ms. Chiew Siew Yuen, a qualified company secretary under the Companies Act 2016. Ms. Chiew advises the Board on all governance matters and ensures adherence to Board procedures. This includes ensuring the distribution of complete and accurate meeting materials within a reasonable period prior to meetings, as well as circulating minutes of meetings in a timely manner.

Additionally, the Company Secretary ensures effective communication flows between the Board and its Committees, as well as between Senior Management and the Non-Executive Directors.

In promoting good business conduct, the Board has established a Code of Conduct and Ethics for Directors, employees and business partners. The Company maintains a zero tolerance policy against abuse of power, corruption, insider trading and money laundering. In line with this, the Company has implemented an Anti-Bribery and Anti-Corruption Policy, as well as a Whistleblowing Policy.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

BOARD FOCUS AREAS

The Board’s responsibilities include ensuring the Company’s appropriate management and achievement of its strategic objectives. To fulfil these responsibilities for the financial year end, the Board followed an annual meeting program planned in advance during the fourth quarter of 2022. The annual Board Meeting calendar was communicated to the Directors before the start of the new financial year. Special meetings were convened as needed.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

Nomination and Remuneration Committee (“NRC”)

The NRC comprises three (3) members, all of whom are exclusively Non-Executive Directors, with a majority being Independent Directors. Pn. Rowina Ghazali Seth, an Independent Non-Executive Director, chairs the NRC.

The main responsibilities of the NRC are to assist the Board in the nomination of Directors and Senior Management, assess the effectiveness of the Board and Board Committees, recommend remuneration packages and assess the performance of Managing Director/Chief Executive Officer and Senior Management.

A total of seven (7) meetings were held during the financial year. Among the key activities undertaken by the NRC during the financial year under review were as follows:-

Board Composition and Succession Planning <ul style="list-style-type: none">Reviewed the board size and structure, tenure of each Director, the mix of Directors in terms of gender diversity, skills and expertise of each Director to ensure high standard of Board performance and succession for both Executive and Non-Executive Directors in the event of any deficiency.Reviewed the composition of the Board and Board Committees of UEM Edgenta Berhad.Reviewed the Board Composition for the subsidiaries/ associate companies of UEM Edgenta Berhad.Recommended the re-election/re-appointment of Directors under the retirement by rotation provisions of the Constitution of the Company and the Companies Act, 2016.	Recruitment and Appointment of Directors <ul style="list-style-type: none">Assessed and recommended to the Board the candidacy of Director, appointment of Directors to Board Committees, and reviewed Board's succession plans and training programmes for the Board.Reviewed the required mix of skills and experience and other qualities, including core competencies which Non-Executive Directors should bring to the Board.
	Remuneration of Directors <ul style="list-style-type: none">Reviewed and recommended to the Board the remuneration of Non-Executive Directors in all its forms and to review the Group's remuneration policies and procedures which should be disclosed in the Annual Report.
Board Effectiveness Evaluation <ul style="list-style-type: none">Assessed the Directors annually, the effectiveness of the Board as a whole, the Committees of the Board and the contribution of each individual Director including his/her time commitment to effectively discharge his/her role as a Director, character, experience and integrity. All assessments and evaluations carried out by the NRC in the discharge of all its functions were properly documented.	
Recruitment/Appointment and Succession Planning of Senior Management <ul style="list-style-type: none">Reviewed the character, experience, integrity, competence and time commitment to effectively discharge the roles of Managing Director/Chief Executive Officer and Chief Financial Officer.Reviewed and recommended:-<ul style="list-style-type: none">The job evaluation of C-Suite positions.The proposed renewal/appointment of fixed-term employment contract of Senior Management of Grade UT2 and above.The proposed Individual Development Plan for Senior Management.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

Nomination and Appointment of Directors

The Board has established adequate and effective selection procedures for the search, recruitment and appointment of new Directors and members for Board Committees. A Fit and Proper Policy was adopted to ensure formal, rigorous and transparent process for the appointment, as well as for re-election of directors. This policy guides the NRC and Board in their review and assessment of potential candidates to be appointed onto the board, as well as Directors seeking for re-election.

For the year under review, three (3) new appointments were made, namely, Pn. Nurul Iman Mohd Zaman, Dato’ Dr. Omar Abd Hamid and Mr. Simon Kua Choo Kai.

In sourcing for new Board members, candidates are identified through recommendations from existing board members and major shareholder, desktop searches and independent executive searches.

In assessing and recommending candidates to the Board for Directorship and/or appointment to Board Committees, the NRC considers various factors including competencies, time commitment, contribution and performance, skills, knowledge, expertise and experience, professionalism, background, character and integrity and leadership qualities.

In addition to being guided by the MCGG and ensuring compliance with the Main Market Listing Requirements, the size and composition of the Board are also taken into consideration during the evaluation for the new appointments to ensure that the Board as a whole can perform optimally.

After due assessment and shortlisting, with the consent from identified candidate(s), a reputable third-party agency conducts a thorough background screening process to verify their credibility.

For the position of Independent Non-Executive Directors, the NRC also evaluates the candidates’ ability to discharge the responsibilities and functions as expected from an Independent Non-Executive Director.

The process of appointment of new Directors are as follows:-

Once appointed, new board members would undergo a Board Induction Programme where they would be briefed in detailed on the following, to ensure that the new Directors are onboarded promptly:-

Governance Structure and Governance of the Company	Financial highlights of the Company
Group Strategy	Human Resources matters of the Group
Businesses of the Group	Environmental, Social & Governance
Internal Audit Function	Risk, Integrity & Compliance
Operational Excellence & HSSE	Legal Updates of the Company

All new Directors of the Company are also required to attend at least one (1) external briefing on Section 17A, Malaysian Anti-Corruption Commission Act 2009 (“MACC Act 2009”) as part of Directors’ training and development.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

Directors' Continuing Education Programmes

Recognising that continuous education is vital for gaining insight into the state of economy, technological advances, regulatory updates and management strategies for Directors to discharge their responsibilities effectively, a specific budget has been allocated for Directors' training.

The Board's training needs are assessed and identified through the Board Effectiveness Assessment. In addition to individual Director's recommendations on appropriate trainings that will enhance their effectiveness, the Board is regularly updated on the availability of external training courses for their consideration by the Company Secretary and the Edgenta Academy team.

Additionally, since the corporate liability provision of the MACC Act 2009 came into effect, the NRC has recommended that all Directors of the Company attend at least one (1) external briefing on Section 17A, MACC Act 2009 as part of Directors' training and development. Therefore, the Company Secretary constantly monitors to ensure the recommendation of NRC is met when new directors are appointed to the Board.

During the year under review, the Directors attended various seminars and training programmes to gain insights into the latest regulatory and industry developments in relation to the Group's businesses.

As at 31 December 2023, all AC members have attended at least one (1) training course related to relevant developments in accounting and auditing standard, practices and rules.

In addition to formal training programmes, the Board was kept abreast on regulatory updates from the Bursa Malaysia Berhad, Securities Commission Malaysia and the Companies Commission of Malaysia by the Company Secretary.

In line with Management's strategy to focus on Environmental, Social and Governance ("ESG"), the Management organised a talk on Net Zero Target by Earth Finance. At the 2023 Pre-Board Convergence held on 16 October 2023, Boston Consulting Group (BCG) was invited to conduct Strategic Repositioning Workshop.

The Board training hours for the financial year 2023 were as follows:-

CORPORATE GOVERNANCE OVERVIEW STATEMENT

BOARD COMPOSITION

ENSURING THE RIGHT COMPOSITION

The Board believes that a diverse and inclusive Board will leverage the differences of its members to perform at its optimum level as a whole. Therefore, the NRC and Board review the composition of the board annually, considering the board size, tenure and expertise of each member, and gender diversity.

As at 31 December 2023, the Board consists of ten (10) members, including an Independent Non-Executive Chairman, one (1) Executive Director, three (3) Non-Independent Non-Executive Directors and five (5) Independent Non-Executive Directors.

In addition to complying with Paragraph 15.02(1) of the Main Market Listing Requirements, the Company has maintained at least 30% women directors on the Board.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

The profile of each Director is set out on pages 187 to 196 of this Annual Report.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

Board Effectiveness Assessment

The Board, through the NRC, conducts a yearly Board Effectiveness Assessment (“BEA”) of its performance and activities.

As the Company is not a Large Company, the BEA for FY2023 was facilitated by the Company Secretary via an online portal. The BEA is divided into 5 sections which covers key topics and include forward looking elements as follows:-

Board evaluation: Structure, Operations & Interactions, and Roles & Responsibilities	Directors' self and peer evaluation	Assessment of mix of skills and experience	Assessment on Board committees	Independent Director's self-assessment
1. Structure	Contribution to interaction	Leadership/ Stewardship	AC	Tan Sri Dr. Azmil Khalid
2. Operations & Interactions <ul style="list-style-type: none">- Meetings- Papers- Communications	Quality of Input	Regulatory Experience & Network	BGRC	Dato' George Stewart LaBrooy
3. Roles & Responsibilities <ul style="list-style-type: none">- General Responsibilities- Strategy Planning- Performance Management- Human Capital- Risk Management & Internal Control- ESG	Understanding of Role	General Management	NRC	Rowina Ghazali Seth
	Chairman's Role	Sector/Service Experience	BTC	Jenifer Thien Bit Leong
		Entrepreneurship		
		Others	BIC	Dato' Dr. Omar Abd Hamid

Note: A Director who is appointed with a tenure of less than 2 months is exempted from participating in the BEA 2023.

All responses/feedbacks are handled confidentially to ensure that Directors provide honest feedback. A summary of the key issues raised is then collated and presented in a report to the NRC and the Board.

Based on the results of the BEA, the Board Criteria Matrix was updated. The skills criteria in the matrix are constantly reviewed to ensure it covers the relevant knowledge/skills required for the businesses of the Company.

The Board Criteria Matrix is considered an important tool in ensuring the diversity of the Board in terms of experience and expertise. With this matrix, the Board identify any gaps in Board composition and use these gaps as criteria for selecting of new Board members.

The results of the FY2023 did not indicate any material weaknesses or shortcomings identified that warrant specific action plans. The results of BEA indicated that the performance of the Board, Board Committees and individual Directors had been effective in their overall discharge of functions, roles and duties. The level of independence demonstrated by the Independent Directors is satisfactory.

The results also revealed that the Board is satisfied that the Managing Director/Chief Executive Officer and Chief Financial Officer of the Company have the character, experience, integrity, competence and time to effectively discharge their roles.

The Board is also satisfied that each Board member is able to devote sufficient time to the Company.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

REMUNERATION

The Board, through the NRC, is tasked with establishing and periodically reviewing the remuneration policies and procedures to attract and retain Directors and Senior Management.

Remuneration for Directors

The Directors’ remuneration is reviewed periodically to ensure it is set at levels that enables UEM Edgenta Group to attract and retain Directors with the relevant experience and expertise needed to manage the Group effectively.

The Company has its own Remuneration Policy for Non-Executive Directors, aimed at strengthening the Company’s commitment to attracting and retaining talented and well qualified candidates while being financially cautious. For transparency purposes, the Remuneration Policy is published on the Company’s website at www.uemedgenta.com.

Non-Executive Directors are paid a fixed base fee on a quarterly basis. With the recommendation from the NRC, the Board as a whole determines the remuneration for Non-Executive Director, with Directors concerned abstaining from deliberation or voting on decision in respect of their remuneration. The aggregate amount of Directors’ fee to be paid to Non-Executive Directors is subject to the approval of the shareholders at general meeting.

The Directors Remuneration Framework is as below.

For the financial year 2023, the NRC and Board has benchmarked the current Non-Executive Directors’ fees and benefits against the Board and Senior Management Remuneration Practices in Malaysia issued by Bursa Malaysia on 6 December 2022 before recommendation for tabling at the annual general meeting held on 15 June 2023.

The remuneration breakdown of individual Directors which includes fees, salary, bonus, benefit in-kind and other emoluments are as set out in the CG Report under Practice 8.1.

Directors’ Fees	Proposed Directors’ Fee per annum (RM)	
	Chairman	Member
Board	210,000	108,000
Audit Committee	50,000	30,000
Other Board Committees	25,000	15,000

CORPORATE GOVERNANCE OVERVIEW STATEMENT

The current benefits payable and accorded to the Directors are:-

No.	Description	Directors’ benefits
(a)	Meeting allowance for ad-hoc or temporary Board Committees established for specific purposes	(i) Chairman of committee – RM2,000 per meeting (ii) Member of committee – RM1,000 per meeting
(b)	Car allowance for Chairman of UEM Edgenta	RM3,400 per month
(c)	Medical benefits for Board members <i>Where a Director sits on several boards within the UEM Group of Companies, he will be entitled to claim medical benefits from one (1) company only.</i>	(i) Medical coverage of RM7,000.00 per annum, inclusive of outpatient, clinical, specialist and dental; and (ii) Hospitalisation of RM100,000.00 per annum including room and board at RM500.00 per day
(d)	Training and Development of Directors	A training budget is allocated for Directors to attend relevant training programmes and seminars to enhance their knowledge and skills in discharging their duties.
(e)	Directors’ & Officers’ Liability Insurance	Directors are covered by Directors’ and Officers’ Liability Insurance maintained throughout the financial year to indemnify Directors and Officers against any liability incurred by them in the discharge of their duties while holding office as Directors and Officers of the Company.
(f)	Subsistence allowance for business travel	Peninsular & East Malaysia – RM150 per day Overseas – USD125 per day

The Company will be seeking shareholders’ approval at the forthcoming annual general meeting for the payment of Directors’ benefits for items (a) and (b) of the above table.

Remuneration for Senior Management

The Board established a Senior Management Remuneration Framework on 25 February 2021, benchmarked against market rates. This framework aims to ensure fair remuneration for Senior Management, attracting, retaining, and motivating individuals to serve the Company effectively.

The Management is enhancing the current Senior Management Remuneration Framework, with a focus on a Long-Term Incentive Plan. The revision is ongoing, considering the demands of the role, required competencies, Company performance, and individual employee performance. The Management will decide on publishing the framework on the Company’s website upon finalisation.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

ABoard Leadership and Effectiveness

BEffective Audit and Risk Management

CIntegrity in Corporate Reporting and Meaningful Relationship with Stakeholders

AUDIT COMMITTEE

As at 31 December 2023, the Audit Committee (“AC”) was chaired by Mr. Simon Kua Choo Kai, who assumed the chairmanship upon his appointment to the Board on 8 November 2023, replacing Ms. Shirley Goh who resigned on 31 August 2023.

The AC comprised three (3) Non-Executive Directors, with majority being Independent Directors, assisting the Board in overseeing the Company’s financial reporting and fulfilling its fiduciary responsibilities relating to internal controls. This includes risk management, maintenance of financial and accounting records and setting policies as well as financial reporting practices of the Group. The AC also reviews related party transactions, conflict of interest situations that may arise within the Group and the provision of non-audit services by the External Auditors.

Kindly refer to pages 235 to 237 for the AC’s membership and composition and the AC Report for a summary of work carried out during the financial year 2023.

The duties and responsibilities of the AC are set out in its Terms of Reference which is available at the Company’s website at www.uemedgenta.com.

As at 31 December 2023, the AC members have attended training courses related to development in accounting and auditing standards, practices and rules.

The Board, through the AC, maintained a transparent and professional relationship with the Internal and External Auditors. The AC has the authority to communicate directly with both the Internal and External Auditors.

During the year under review, the AC met up with the External Auditors twice in the absence of the Managing Director/Chief Executive Officer and Management. The External Auditors also attended the Board Meetings for the presentation of their reports.

Currently, Messrs Ernst & Young PLT provides independent and professional external auditing services to the Group. The AC conducts yearly assessment of the suitability and independence of the External Auditors.

For the year under review, the External Auditors confirmed their independence in providing their services.

The assessment on the External Auditors for financial year ended 31 December 2023 was facilitated by the Finance team. A set of questionnaires pertaining to the following were sent out to the AC members and Management for their feedback:-

- 1) Calibre of the firm
- 2) Quality of processes/services/performance
- 3) Audit team
- 4) Independence, objectivity and professional skepticism
- 5) Audit planning, execution and conclusion
- 6) Audit fees
- 7) Audit communications

The Board is satisfied with the outcome of the assessment of the External Auditors regarding their suitability and independence. The Board recommends their re-appointment at the forthcoming annual general meeting.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK

Effective Risk Management and Internal Control Framework

The Board has overall responsibility for the system of Risk Management and Internal Control which includes financial controls, operational and compliance controls to ensure the safeguarding of shareholders’ investments, customers’ interests and the Company’s assets.

The Board discharges its risk governance and oversight functions through the Board Governance & Risk Committee (“BGRC”), which undertakes governance and compliance duties and responsibilities in addition to the oversight of risk management matters. The BGRC reviews the effectiveness of risk management framework to manage the overall risk exposure to the Group. It also monitors the Integrity & Governance unit and oversee issues of corruption, fraud, malpractice & unethical conduct within the organisation.

While the BGRC is responsible for assessing and monitoring the efficacy of the risk management controls and measures taken, the AC is responsible for reviewing the adequacy and effectiveness of the internal controls through the work performed by the Internal Audit function.

For the year under review, the BGRC, chaired by Dato’ George Stewart LaBrooy, comprises a total of four (4) members, with a majority being Independent Non-Executive Directors. The BGRC operates within defined terms of references.

The Statement on Risk Management and Internal Control as set out on pages 238 to 246 of this Annual Report provides an overview of the state of internal controls within the Group.

ABoard Leadership and Effectiveness

BEffective Audit and Risk Management

CIntegrity in Corporate Reporting and Meaningful Relationship with Stakeholders

COMMUNICATION WITH STAKEHOLDERS

The Group recognises the importance of timely dissemination of quality information to shareholders and other stakeholders. Therefore, the Board is committed to ensure transparency and accountability to its shareholders and other stakeholders by dissemination of information via various platforms/channels as follows:-

- Annual Report.
- Various disclosures and announcements via Bursa LINK including quarterly results.
- Analyst briefings, press releases and announcements to the media.
- Dialogues and presentations at general meetings to provide overview and clear rationale with regard to the proposals tabled for approval by shareholders.
- Online investor relations on the Company’s website.
- All announcements made via Bursa LINK will also be posted on the Company’s website.

The Company’s website is a one-stop page that one could easily access to the above information. It has a dedicated section that provides investors with detailed information on the Group’s business, commitments and latest developments.

To keep up with the current trend, the Company also has an Instagram account, a social media channel that is regularly updated with the Company’s news and events. The message and email functions are also activated on Instagram, for the public’s convenience if they wish to reach out to the Company.

Shareholders may forward any concern/queries to Investor Relations at ir@edgenta.com and all relevant and appropriate issues raised will be addressed accordingly.

While the Company endeavours to provide as much information as possible to its shareholders and stakeholders, the Company is mindful of the legal and regulatory framework governing the release of material and price-sensitive information.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

The Company has in place, the Corporate Disclosure Policy which outlines the Company's approach towards the determination and dissemination of confidential information, the circumstances under which the confidentiality of information will be maintained and restrictions on insider trading. The Corporate Disclosure Policy also provides guidelines in order to achieve consistent disclosure practices across the Group.

INVESTOR RELATIONS

Investor engagement at UEM Edgenta focuses on building confidence and maintaining strong, transparent relationships with the investing community.

We have a comprehensive Investor Relations programme to enable existing and potential shareholders and investors to understand our activities, strategy, financial performance and sustainability initiatives through timely and accurate dissemination of information to the investing community for informed investment decisions about the Company.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

CONDUCT OF GENERAL MEETINGS

The Company's 60th Annual General Meeting ("AGM") was held virtually on 15 June 2023 at The Grounds of Menara UEM as the Broadcast Venue.

The Notice of AGM was given to shareholders on 28 April 2023 together with the relevant reports and circular.

Recognising that the AGM is a principal forum for dialogue with shareholders, the notice of AGM was given more than 28 days prior to the AGM to allow shareholders have sufficient time to consider the resolutions that would be discussed and decided at the AGM.

To encourage participation, clear guidance notes on the administrative matters were also provided to shareholders. Shareholders were also invited to send in questions before and during the AGM.

All the Board Members were present at the AGM. Besides the Directors, the Company Secretary, Senior Management and External Auditors were also in attendance.

The Chairman as well as the Managing Director/Chief Executive Officer, together with the Chairpersons of Board Committees and the External Auditors, if so required, will respond to questions from shareholders at the AGM. The questions submitted during the AGM that were not answered due to time constraint were later addressed to shareholders via email.

Meanwhile, questions submitted prior to the AGM were addressed during the AGM. The questions were also published on the Company's website together with its answers.

Boardroom Share Registrars Sdn Bhd was the Poll Administrator and Sky Corporate Services Sdn Bhd was the Scrutineers for the AGM. The Chairman declared that all resolutions were carried and the poll results were also announced via Bursa LINK on the same day.

On 27 July 2023, the summary of the AGM proceeding was uploaded on the website within 30 business days after the completion of the AGM.

Taking cognisance of shareholders' rights and with the Company's aim to provide a good meeting experience to shareholders, the Management would be exploring with the virtual service provider on the possibility to incorporate a two-way engagement and to explore effective ways to have questions received to be made visible to all meeting participants.

This Corporate Governance Overview Statement was approved by the Board on 26 March 2024.

AUDIT COMMITTEE REPORT

The Board is pleased to present the Audit Committee ("AC") Report, which provides insights into how the AC discharged its functions and duties for the financial year ended 31 December 2023.

The AC assists the Board in overseeing the Company's financial reporting and fulfilling its fiduciary responsibilities related to internal controls. This includes overseeing the proper maintenance of financial and accounting records, setting policies and financial reporting practices for the Group. The AC also reviews related party transactions and conflict of interest situations that may arise within the Group.

COMPOSITION AND MEETING ATTENDANCE

The composition of the AC and meeting attendance for financial year 31 December 2023 are available in pages 218 & 219 of the Corporate Governance Overview Statement.

SUMMARY OF ACTIVITIES OF THE AC

During the year, the Chairperson of AC met the Internal Audit team regularly and had pre-meeting discussions of their activities and reports.

In line with the terms of reference of the AC, the following works were carried out by the AC during the financial year ended 31 December 2023:-

A. FINANCIAL STATEMENTS AND CORPORATE GOVERNANCE

1. Reviewed the quarterly and annual financial statements of the Company and of the Group; and recommended them for Board's approval, focusing particularly on:-

a) appropriateness and relevance of accounting policies and practices adopted and their application in compliance with current accounting standards;
b) any significant non-recurrent or unusual transactions made or events occurred during the year;
c) any significant changes to the basis of preparation of the financial statements or new accounting standards adopted during the year which impacted the result or financial position of the Group;
d) the going concern assumption used in the preparation of the financial statements;

- e) significant accounting and auditing matters including financial reporting issues, estimates or judgements made by Management, unusual events or transactions, and how these matters are addressed; and
f) compliance with financial reporting standards and other regulatory requirements.
2. Reviewed and recommended the adoption of accounting policy on revaluation of investment properties, to the Board for its approval.
3. Reviewed non-recurrent and recurrent related party transactions of a revenue or trading nature which are necessary for the day-to-day operations in the ordinary course of business of the Company and its subsidiaries to ascertain as to whether they are undertaken on an arm's length basis on normal commercial terms not more favourable to the related parties than those generally available to the public or those extended to unrelated parties and are not detrimental to the minority shareholders.
4. Reviewed the Circular to Shareholders in respect of the proposed shareholders' mandate for recurrent related party transactions and proposed new mandate for additional recurrent related party transactions of a revenue or trading nature.
5. Reviewed and recommended the Corporate Governance Overview Statement, Corporate Governance Report, AC Report and Statement on Risk Management and Internal Control, to the Board for its approval.
6. Reviewed and recommended a comprehensive Conflict of Interest ("COI") Policy, which encompasses the process of COI declaration, responsibilities of various parties, management of COI to resolve, eliminate, or mitigate such conflicts, to the Board for its adoption.

AUDIT COMMITTEE REPORT

INTERNAL AUDIT FUNCTION

The Group has established its own IAD functions to provide independent and objective assurance to the AC and the Board that the established internal controls, risk management, and governance processes are adequate and operating effectively and efficiently as well as complied with the relevant internal rules and regulations.

The IAD activities and practices are closely guided by the International Professional Practice Framework (“IPPF”) on Internal Auditing issued by the Institute of Internal Auditors (“IIA”).

The information on the resources, objectivity, and independence of the internal auditors are provided in the Corporate Governance Report in accordance with Practice 11.2 of the Malaysian Code on Corporate Governance issued by the Securities Commission Malaysia in 2021.

The AC reviews and approves the IAD’s manpower requirements to ensure the function is adequately resourced with competent and proficient internal auditors. During the year, the Head of Risk, Integrity, and Compliance took on the additional role of Acting Head of Internal Audit as an interim measure. The new Head of Internal Audit officially joined the Group in September 2023.

The total cost incurred for the internal audit function for financial year ended 31 December 2023 is approximately RM1,420,000, comprising mainly salaries, training, and traveling expenses for audit assignments.

Summary of Activities

The IAD implements a risk-based audit methodology in establishing its annual audit plan. The audit plan 2023 which was approved by the AC semi-annually on 20 February 2023 and 20 May 2023, had considered the Group’s identified risks and focused on auditable areas where the risks would have the most impact on the business objectives of the Group. Among the focus areas are order-book risks, revenue concentration risks, business strategy execution risks, digital governance risks, project execution risks, overseas business expansion risks, and ESG risks.

The scope of the planned audit assignments for the financial year 2023 covered the following:-

1.

Operational audits in Healthcare Support Commercial (Malaysia), Infrastructure Services and Property & Facility Solutions;

2.

Governance audit for overseas business expansion;

3.

Oracle Fusion Cloud post implementation review; and

4.

Quarterly review on Related Party Transactions/Recurrent Related Party Transactions.

During the year, AC had reviewed and deliberated on a total of eight (8) internal audit reports in relation to the audits carried out, together with the audit recommendations made by IAD and the Management Responses to those recommendations. Representatives of IAD attended all the planned AC meetings during the year to brief the AC on audit results and significant matters raised in the detailed IAD reports. The Heads of Divisions, where required, were also invited to the AC Meeting to provide further explanations on the audit observations highlighted. Where appropriate, the AC directed Management to rectify and improve control and workflow procedures.

The AC, at all its quarterly meetings, also reviewed the implementation status of the corrective actions arising from the audit recommendations to ensure that the key risks and control lapses were addressed in a timely manner.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

In accordance with the practices set out in the revised Malaysian Code on Corporate Governance issued in April 2021, a listed company should establish an effective risk management and internal control framework and the Board of Directors (“Board”) should disclose the features of its risk management and internal control framework, and the adequacy and effectiveness of this framework.

Therefore, the Board is pleased to provide this Statement on Risk Management and Internal Control, prepared pursuant to Paragraph 15.26(b) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad and guided by The Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers.

RESPONSIBILITY AND ACCOUNTABILITY

Responsibility of the Board

The Board affirms its commitment and responsibility in maintaining a sound and effective system of risk management and internal control in safeguarding shareholders’ interests and the Group’s assets.

The Board is constantly and actively identifying the Group’s level of risk tolerance, assessing and monitoring the key business risks. The risk management and internal control system adopted by the Group are reviewed and updated periodically to align with the dynamic changes in the business operating environment as well as changes in regulatory requirements.

The Board acknowledges that the risk management and internal control system are designed to manage and reduce the risk of not achieving business objectives and can only provide reasonable and not absolute assurance of effectiveness against material misstatement of management and financial information and records, financial losses or fraud or any occurrences of unforeseeable circumstances.

Board and Board Committees

For the financial year under review, there are ten (10) Directors on the Board comprising one (1) Managing Director/Chief Executive Officer (“MD/CEO”), six (6) Independent Non-Executive Directors and three (3) Non-Independent Non-Executive Directors.

The Board is supported by five (5) established Committees, namely the Audit Committee (“AC”), Board Governance and Risk Committee (“BGRC”), Nomination and Remuneration Committee (“NRC”), Board Tender Committee (“BTC”) and Board Investment Committee (“BIC”) which examine all matters within its scope and responsibilities, and report to the Board with its recommendations for the Board’s decision.

The responsibilities and functions of the Board, each of its committees and the individual directors are specified in its respective Terms of Reference and Board Charter.

General Management Committee

The General Management Committee (“GMC”) is chaired by the Managing Director/Chief Executive Officer and comprises the Chief Financial Officer, Chief Strategy Officer, Chief People Officer, Chief Digital Officer and management team members from the respective business divisions and corporate support services.

The key roles of the GMC are to drive strategic execution, deliberate and resolve the Group’s key strategic and operational issues in a timely manner and keep track of key business developments.

The GMC also serves as a platform to monitor the Group’s strategic direction and for members to report on their respective business and operation plans to the Managing Director/Chief Executive Officer, highlight issues and devise solutions/corrective plans, as well as address other matters as directed by the Board and/or the Managing Director/Chief Executive Officer.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

Risk Management Committee

The Risk Management Committee (“RMC”) is responsible to implement the policies and procedures established by the Board and Board Governance and Risk Committee (“BGRC”) in ensuring a sound and robust Risk Management Framework (“RMF”) to achieve the Group’s strategic objectives, safeguard shareholders’ investments and its assets.

The RMC is chaired by the Group’s Managing Director/Chief Executive Officer and its members include the Group’s Executive Leadership Team, comprising Heads of Business Units and co-opted members from the management team of the Group.

The RMC undertakes the following responsibilities:

Review and recommend risk management policies and procedures for the approval or acknowledgement of the BGRC and Board and Managing Director/Chief Executive Officer respectively;

Review and deliberate on identified risks, controls and risk mitigating strategies to ensure that these are adequately managed;

Act as Primary Champion of risk management at strategic and operational levels;

Review the Group’s resilience in event of a crisis or disaster and ensure adequate insurance coverage against key risks and perils;

Review the ongoing adequacy and effectiveness of the risk management process;

Oversee the establishment and effectiveness of the Group’s practices in integrity and compliance management programmes to drive and embed a culture of ethical behaviour and integrity; and

Ensure that the BGRC and Board receive adequate and appropriate information for review and decision-making purposes.

The RMC is assisted by the Risk, Integrity & Compliance Department (“RICD”), which is primarily responsible for the implementation of the risk management, business resilience and compliance integrity processes and practices within the Group. A Charter, which defines RICD’s responsibilities, scope and authority, has been established and endorsed by the Board.

RISK MANAGEMENT

Managing risks is an integral part of the Group’s daily business activities and management decision making process. It involves the activity of identifying, assessing, monitoring and managing risks and uncertainties that could inhibit the Group’s ability to achieve its strategy and strategic objectives.

Risk Management Framework

The Group has in place a Risk Management Framework (“RMF”) that provides the foundation and organisational arrangement for managing risk across the Group.

Principally aligned with ISO:31000, the RMF sets out the context and objectives, emphasising on enterprise-wide risk assessment and management encompassing the identification, assessment and measurement, mitigation responses, as well as monitoring, communicating and reporting of risks.

The RMF serves as a tool in managing both existing and emerging risks with the objective to enhance and protect stakeholders’ interests and at the same time to safeguard the Group’s assets and reputation.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

Risk Management Approach

The Group’s risk management approach adopts a process which entails a consistent and systematic approach in the identification, assessment, monitoring and reporting of risk exposures.

The risk management process is applied throughout the whole of the Group (enterprise level) or to any part of a business (i.e., divisions, departments, functions, business units and projects).

The risk management approach comprises sequential steps of activities that are interrelated and iterative as follows:

- a. Set / clarify business objectives
Set and understand the objectives for the Group and/or its business.

- b. Establish the context
Define the context and boundaries within which the Group and/or the business operates.
- c. Risk Identification
Identify risks together with their respective causes and consequences which could affect / impact the achievement of the Group and/or business objectives.
- d. Risk Assessment
Identified risks are prioritised to determine the overall effect on the Group and/or business by evaluating the potential impact on business objectives should a risk materialise together with the likelihood of its occurrence.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

The Group adopts the following risk rating matrix to articulate the relationship between risk impact and likelihood:

Likelihood	Risk Rating				
	Risk Impact				
	Insignificant	Minor	Moderate	Major	Catastrophic
Certain	Medium	Significant	Significant	High	High
Likely	Medium	Medium	Significant	Significant	High
Possible	Low	Medium	Medium	Significant	High
Unlikely	Low	Medium	Medium	Significant	Significant
Remote	Low	Low	Medium	Medium	Significant

- e. Risk Response
Risk treatment involves developing a range of responses and options for mitigating the risks.
- The Group adopts the **4Ts** (*Take, Treat, Transfer & Terminate*) strategy in responding to the identified risks and qualifies these risks according to the acceptable levels by the relevant risk owners and stakeholders.

- f. Monitor, review and report risks
Risk events and trends to be continually reviewed, assessed and monitored. Similarly, risk responses and mitigation plans are monitored continuously to ensure their relevance and effectiveness and are operating as designed and expected.
- g. Communication
Communication is required for an effective risk management programme. The evolving business conditions continuously alters the risk profile of the Group and/or business, hence, frequent and explicit engagement and discussions about risk is vital to maintain continuous awareness and effective management of key risks.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

Summary of Risk Management Activities

Risk management activities undertaken for the financial year at the Group and subsidiaries to instil a proactive risk management culture and ownership are as follows:

Periodic risk awareness briefings and risk management workshops are conducted as part of continuous efforts to inculcate a proactive risk-aware culture within the Group.

Risk Management Status Reports are produced quarterly at the minimum and are presented to the RMC, BGRC and Board for deliberation and approval.

Quarterly review and monitoring implementation of risk action plans by RICD to ensure their appropriateness and effectiveness.

Identification and reporting of emerging, key business risks and mitigation plans to the RMC, BGRC and Board for deliberation and approval.

Provides risk management consultation and advisory services to projects, investment and potential business leads.

INTERNAL CONTROLS

The key elements of the internal control system established by the Board that provides effective governance and oversight of internal control include:

Policies and Procedures

Written policies are established to guide how a department or an individual within the Group works or behaves and provides guidance to employees as to what their obligations are. Some policies are supported by procedures which describe the steps the employees shall take to produce an output or to complete a process. The policies and procedures also form part of the various management systems which are reviewed and updated periodically as part of continual improvement to ensure that they remain relevant and reflective of the Group's operating and business environment.

The Group, via its subsidiaries, have in place several Internationally Accredited Management Systems (for e.g., ISO 9001:2015 – Quality Management System, ISO 45001:2018 – Occupational Quality Health & Safety Management System, ISO 14001:2015 – Environmental Management System, ISO 13485 – Medical Devices Quality Management System and ISO 39001:2012 – Road Traffic Safety Management System) to standardise its management and operational processes and to further improve its efficiency. These certifications reflect the Group's commitment to ensuring quality deliverables to customers, safeguard safety and health of employees and safeguard the environment.

The Group has also established a HSSE Management Systems, comprising HSSE Rules, standard operating procedures and processes, to inculcate a strong HSSE culture, behaviour and sustainable HSSE performance. This also includes introducing an enhanced UEM Edgenta HSSE Management System Manual which seeks to make the HSSE execution simpler and more aligned within the Group.

The Group has dedicated teams to carry out Quality Assurance/ Quality Control, and Health, Safety and Environment activities to ensure continuous improvement of processes and ongoing compliance with the established internal policies and procedures, International Management System Standards, contracts and relevant legal and other requirements.

Organisational Structure

The organisational structure of the Group is clear and detailed, defining the roles, responsibilities and reporting line of the various Committees of the Board; Management of the Corporate Office and subsidiaries; departments and individuals.

The Board appoints the Managing Director/Chief Executive Officer of the Group, Chief Financial Officer, Chief Strategy Officer, Chief People Officer, Chief Digital Officer, and Heads of Divisions / Business within the Group, as well as holders of mission-critical position.

The organisational structure is reviewed regularly to assess its effectiveness and to ensure that it is in line with any changes in business requirements.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

Operating Plans and Strategies

The Group undertakes a comprehensive annual budgeting and forecasting exercise during the development of business plans for each operating divisions are aligned with the 5-year Group Operating Plan, including the short-term and long-term strategic plans.

Each Business Division is responsible to carry out a detailed analysis on both current and prior years' performances and identify the strategic priorities for consideration and commitment in the Group Annual Operating Plan ("AOP"), 5-year Group Operating Plan and Strategic Plan. These form the basis for the development of Key Performance Indicators ("KPIs") to be included in the Group's Corporate Scorecard and Managing Director/Chief Executive Officer's Scorecard which are deliberated and reviewed by the Board for approval.

The approved AOP, 5-year Group Operating Plan and Strategic Plans are cascaded to the senior management team in each Business Division for planning, monitoring and execution.

The Group monitors the business performance of respective Business Divisions through its KPIs and measures them against the approved Group AOP, 5-year Group Operating Plan and Strategic Plan on a regular basis via its General Management Committee meetings and other ad hoc meetings to be carried out by the senior management as and when necessary. Reports and analysis on variances against the Group AOP are prepared and monitored, taking into consideration current and future macro/microeconomic situations and business landscapes. A report on the year-to-date quarterly Group results and performance is submitted and presented to the Board on a quarterly basis.

The management is responsible for identifying and executing any mitigation actions, where necessary.

Employee's Authority and Responsibility

UEM Edgenta's internal controls are embedded within the responsibility of each employee as specified in the Job Description.

The establishment of performance monitoring serves as a tool to monitor performance against the set KPIs and targets at various levels, covering key financials, customers, internal business processes and learning and growth indicators.

Discretionary Authority Limits

Clear delegation of authority is defined in the Discretionary Authority Limits ("DAL"), which sets the limit for strategic, operating and capital decisions and expenditures, as well as decision authority for each level of management within the Group, and also the Board's authority.

The DAL is reviewed from time-to-time to ensure effectiveness of strategic and operational executions.

Procurement

In parallel with the implementation of Oracle ERP, GPCM functions as a centralised and coordinated procurement function to control and manage procurement activities within each of the Group's key business division, encompassing eight (8) key areas, namely, Procurement Strategy & Performance, Category Management, Vendor Management, Sourcing, Purchasing Admin, Contract Management, Master Data Management, and Inventory Management.

The potential risks pertaining to these key areas are mitigated through procedural governance and compliance monitoring of the SOPs users. The SOPs will be reviewed periodically and updated as and when required to ensure continuous improvement of internal controls and taking into consideration any additional process improvement required.

The provisions for Integrity & Compliance (i.e., Code of Conduct for Business Partner, Business Partners Letter of Declaration), HSSE Management Requirements are incorporated accordingly in the procurement terms and conditions to create awareness on our anti-bribery, anti-corruption, safety and accountability policies amongst our suppliers and contractors at the early stage of engagement with these stakeholders.

Insurance on Assets

UEM Edgenta always maintains comprehensive insurance coverage such as general, motor, employee, cyber, asset, project and others to mitigate potential losses arising from unforeseen incident.

Regular reviews of insurance coverage are conducted to align with the dynamic business environment and changing operational profiles, ensuring that the level of coverage remains sufficient and responsive to evolving risk factors.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

Integrity & Compliance

Integrity
UEM Edgenta is committed to support the national anti-corruption efforts by adopting zero-tolerance approach against all forms of corruption and embedding the integrity within our F.I.R.S.T core values. Our initiatives in preventing bribery and corruption are in line with the requirements of subsection 17A(5) of the Malaysian Anti-Corruption Commission Act 2009 by adopting the T.R.U.S.T principle. The details disclosure on our Corporate Integrity and Ethical Business Conduct can be found on pages 247 - 251 of this Integrated Annual Report

Compliance
UEM Edgenta’s compliance management involves a comprehensive approach to maintaining an effective compliance policy and program consistent with the applicable laws and regulations to safeguard the reputation and integrity of UEM Edgenta.

UEM Edgenta’s Compliance Unit adopts the following Compliance Framework in undertaking its compliance commitment:

The Compliance Framework sets out the approach for UEM Edgenta in managing regulatory compliance obligations and mitigating compliance risk, in order to achieve its compliance objective.

The Compliance Unit is spearheading the compliance management process ensuring the effectiveness of the compliance process and establishing appropriate compliance monitoring to address and report on any compliance issues. The outcome of the monitoring activities is reported to the RMC, BGRC and Board.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

Business Continuity Management

UEM Edgenta maintains an unwavering commitment to fortifying organisational resilience through the implementation of a robust Business Continuity Management (“BCM”) program. This strategic initiative aligns with the organisation’s ongoing efforts to ensure the sustainability of operations and the seamless delivery of essential services, even in the event of crises or disasters. Key components of this commitment include the development and implementation of comprehensive plans such as Business Continuity Plan (“BCP”), Crisis Management Plan (“CMP”), Disaster Recovery Plan (“DRP”), Crisis Communication Plans (“CCP”), Emergency Response Plan (“ERP”), Pandemic Plan (“PP”), Cyber Incident Response Plan (“CIRP”) and other measures aimed at supporting the continuous functioning of business operation.

As part of the ongoing enhancement of the BCM program, UEM Edgenta has initiated the ISO 22301:2019 BCMS Certification exercise, reinforcing its dedication to ensuring business continuity and resilience.

To further solidify this initiative, UEM Edgenta has been selected under the 12th Malaysia Plan (Rancangan Malaysia Ke-12) by Cybersecurity Malaysia under the Ministry of Communication & Digital to obtain the Business Continuity Management System (“BCMS”) certification.

Human Resources Management

UEM Edgenta’s internal controls are realised and supported by a formal organisational structure. This official structure is made of defined lines of authority, responsibility and accountability. These lines of authority, responsibility and accountability are continuously and transparently updated and improved to demonstrate good governance.

Talent acquisition standard operating procedures and guidelines are established within UEM Edgenta and its subsidiaries. This is to ensure the selection of suitable candidates who meet the job requirements and core competencies for the role in UEM Edgenta. Potential candidates will go through a structured recruitment process which includes interviews by the hiring manager and relevant stakeholders; and for certain roles, additional assessments would be applicable. A thorough and complete pre-employment background screening which includes medical screening, checks on past employment records, education and qualification records, credit records, criminal records, directorship and reference check, would be performed before the job offers are issued. This is a control measure to minimise the risk to the Company.

To ensure that we are able to develop a capable, agile and competitive workforce, employees are provided with structured internal technical and soft skills training, mobility opportunities and external development programmes, as well as professional certification opportunities for identified employees. Technical skills training is also prioritised through the development of a technical competency framework and subsequent development interventions. These interventions are tied back to the Individual Development Plan of our employees.

Management Information System (“MIS”)

UEM Edgenta places a paramount emphasis on prioritising cyber security to safeguard its digital infrastructure and incorporates effective governance measures. This commitment is reflected in the implementation of robust access controls and the execution of security audits which form integral components of the governance framework. By adopting this proactive approach, the Group aims to not only meet industry best practices but also fortify its defence against evolving cyber threats.

The Group employs a discerning strategy that strikes a delicate balance between harnessing the advantages of cloud technology and ensuring the utmost confidentiality and integrity of its data assets. This entails a continuous cycle of assessments and updates, where the Group meticulously evaluates the evolving landscape of cyber risks and adjusts its security measures accordingly. The proactive stance towards cloud technology use underscores the Group’s commitment to staying ahead of potential vulnerabilities while leveraging the efficiencies and flexibility offered by cloud-based solutions.

In essence, the Group’s comprehensive approach to cyber security underscores its dedication to not only meeting compliance standards but also staying at the forefront of technological advancements, thereby fostering a resilient and secure digital environment.

Disaster Recovery Planning

The Business Continuity Management (“BCM”) process within the Group extends to encompass Disaster Recovery Planning (“DRP”), aimed at ensuring the utmost security for data, systems, and applications stored in the cloud.

UEM Edgenta places emphasis on the swift and efficient retrieval of company data, a pivotal aspect of its strategy for maintaining seamless business continuity. The emphasis on quick access to data is instrumental in minimising downtime

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

during unforeseen events or disasters, thereby preserving overall productivity levels. Through this comprehensive approach to BCM, the Group not only safeguards its digital assets but also fortifies its resilience against potential disruptions, demonstrating a commitment to maintaining operational continuity and safeguarding business interests.

Joint Ventures and Associates

The disclosures in this statement do not include the risk management and internal control practices of the Group’s joint venture and associate companies, as the Board does not have any direct control over their operations.

The Group’s interests in these entities are safeguarded through the representation on the Boards of the respective companies where management accounts and periodical reports are received and reviewed, as well as deliberation on proposals related to these companies. Such representation also provides the Board with information for decision-making on the continuity of the Group’s investments based on the performance of the Group’s joint venture and associate companies.

Internal Audit

The Group has established its own Internal Audit Department (“IAD”) to carry out the internal audit function of the Group. IAD reports functionally to the Audit Committee (“AC”) and administratively to the Managing Director/Chief Executive Officer. The IAD regularly reviews the Group’s systems of internal controls and evaluates the adequacy and effectiveness of the controls, risk management and governance processes implemented by the management. The reviews conducted are based on the risk-based Annual Audit Plan approved by the AC. The results of audit reviews, including status of management action plans to address gaps identified in the governance processes, risk management processes and controls during the engagements are reported regularly to the AC for deliberation.

The Group has also established a Management Audit Committee (“MAC”) to ensure effective actions are taken to address internal control weaknesses and proper closures of all audit issues and areas for improvement highlighted by the IAD. The MAC is chaired by the Managing Director/Chief Executive Officer and holds its meeting regularly.

Internal control weaknesses and areas for improvement regarding risk management and governance identified during the financial period under review have been or are being addressed by the management. None of the weaknesses

identified have resulted in any material loss that would require disclosure in the Group’s financial statements.

ASSURANCE FROM MANAGEMENT

The Board has received assurance from the Managing Director/Chief Executive Officer and Chief Financial Officer that a review on the adequacy and effectiveness of the risk management framework and internal control system has been undertaken and the Group’s risk management and internal control system are operating adequately and effectively, in all material aspects, based on the risk management and internal control system of the Group.

REVIEW OF THE STATEMENT BY EXTERNAL AUDITORS

The External Auditor has performed limited assurance procedures on this Statement on Risk Management and Internal Control in accordance with the Malaysian Approved Standard on Assurance Engagements, ISAE 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information and Audit and Assurance Practice Guide 3, Guidance for Auditors on Engagements to Report on the Statement on Risk Management and Internal Control included in the Annual Report issued by the Malaysian Institute of Accountants (“MIA”) for inclusion in the Annual Report of the Group for the year ended 31 December 2023, and reported to the Board that nothing has come to their attention that causes them to believe that the statement is not prepared, in all material respects, in accordance with the disclosure required by paragraphs 41 and 42 of the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers, nor is the Statement factually inaccurate.

This Statement on Risk Management and Internal Control was approved by the Board on 26 March 2024.

CONCLUSION

The Board is of the view that the risk management and internal control system are in place for the year under review, and up to the date of approval of the Statement on Risk Management and Internal Control, are sound and sufficient to safeguard shareholders’ interests and the Group’s assets.

CORPORATE INTEGRITY AND ETHICAL BUSINESS CONDUCT

At UEM Edgenta, we are dedicated to enhancing the integrity & ethical culture throughout the organisation. As we actively establish strong foundations across all business sectors and remain resolute in pursuing growth through geographical expansion, new products and services, cost optimisation, and tech-enabled solutions, upholding these values and conducting ourselves with integrity, ethics, and accountability are essential components that we must embody at both professional and personal level. As a publicly listed company, we are steadfast in ensuring that all our business endeavors and proceedings strictly adhere to good corporate governance practices.

Our Core Values

The FIRST core values inherent in our organisational DNA, guiding both businesses and operations, are deeply rooted in unwavering integrity and exceptional performance. Aligned with the integrity embedded in the core values, the Senior Management and all employees of UEM Edgenta collectively embody the cultivation of integrity as the foundational principle in all our dealings.

Our Framework, Policies & Procedures

The Board is dedicated to upholding the commitment towards Anti-Bribery & Anti-Corruption (“ABAC”) measures that support national anti-corruption efforts and adopt a zero-tolerance approach against all forms of corruption. As a benchmark for our ABAC, we adhere to the following legal and regulatory requirements that relate to the ABAC:

Our ABAC program was developed in accordance with the T.R.U.S.T principles outlined in the Guidelines on Adequate Procedures. This aligns with the requirements of subsection 17A (5) of the Malaysian Anti-Corruption Commission Act 2009, serving as a defense mechanism against corporate liability.

CORPORATE INTEGRITY AND ETHICAL BUSINESS CONDUCT

As we are committed to upholding the integrity and compliance value in carrying out our business operations we have obtained the international accreditation of MS ISO 37001:2016 Anti-Bribery Management System (“ABMS”) as a testament to our zero tolerance against corruption.

In line with the regulatory requirements and our commitment, we have adopted best practices and have the following framework, policy & procedures in place to curb bribery and corruption:

- Code of Conduct for Directors and Employees**
UEM Edgenta’s Code of Conduct for Directors and Employees articulates our commitment to instilling trust in our business ecosystem. It delineates standards for ethical behavior in our business activities, aligned with the ethics, integrity, and trust principles.

Code of Conduct for Business Partners (“COCBP”)
UEM Edgenta’s Code of Conduct for Business Partners sets the requirement for our suppliers, contractors, consultants, agents, and/or other business partners to embrace the spirit of our commitment to integrity and our sustainable business relationship is based on key principles of integrity, honesty, accountability and compliance with applicable laws and regulations. All our Business Partners are to adhere to the Code when conducting business with UEM Edgenta.

Compliance Framework
The compliance framework sets out our approach to managing regulatory compliance obligations and mitigating compliance risks or issues, to achieve UEM Edgenta Group’s compliance objective. The Framework further describes the governance, roles and responsibilities, policy, and methodology for the compliance management system at UEM Edgenta Group.

Conflict of Interest (“COI”) Policy
This Policy is intended to describe our policy in dealing with conflict of interest situations among the Directors and employees and to ensure that actual, potential, or perceived conflicts of interest are identified and managed effectively to protect the interest of UEM Edgenta and to promote honest and ethical conduct.

CORPORATE INTEGRITY AND ETHICAL BUSINESS CONDUCT

- Conflict of Interest (“COI”) Declaration Procedure**
This procedure serves as a guide for declaring actual, potential, or perceived conflicts of interest identified and disclosed in accordance with the Conflict of Interest (“COI”) policy and outlines the subsequent actions to be taken in managing conflicts of interest among employees.

Anti-Bribery & Anti-Corruption (“ABAC”) Policy Statement
At UEM Edgenta, we strive to uphold our core values and to present ourselves with integrity, ethics, and accountability which our employees must harness at both professional and personal levels. All UEM Edgenta stakeholders including directors, officers, controllers, and employees shall conduct our business dealings, relationships, and operations with a zero-tolerance approach towards bribery and corruption in compliance with statutory laws and regulatory requirements within jurisdictions in which UEM Edgenta operates.

Anti-Bribery & Anti-Corruption (“ABAC”) Guide
UEM Edgenta takes a zero-tolerance approach to bribery and corruption and is committed to adhering to the highest standards of ethical behavior in the conduct of all our business dealings and relationships. This document provides an essential guide to curb bribery and corruption and describes standards of ethical behavior in the conduct of all our business dealings and relationships, we and/or any third party acting on our behalf, must not act corruptly in our business dealings.

No Gift Policy
We at UEM Edgenta uphold the ‘No Gift Policy’ as an integral component of our commitment to maintaining the highest standards of integrity and ethical conduct. This policy is designed to prevent both actual and perceived conflicts of interest, aligning seamlessly with UEM Edgenta’s comprehensive Code of Conduct. By strictly prohibiting the acceptance of gifts, we ensure that our employees, stakeholders, and partners adhere to principles that promote fairness, transparency, and unbiased decision-making. This policy serves as a safeguard against undue influence and reinforces our dedication to fostering a corporate culture rooted in trust, accountability, and ethical business practices.

ABMS Manual
This Manual sets out requirements in relation to MS ISO 37001:2016 Anti-Bribery Management System and guides a management system designed to help UEM Edgenta prevent, detect, respond to, and address bribery and corruption.

Whistleblowing Policy
The policy encourages the reporting of wrongdoings in good faith, with the assurance that personnel or any parties making such reports shall be treated fairly, their identity remains confidential, and are protected from retaliation.

Whistleblowing Procedure
UEM Edgenta’s Whistleblowing Procedure provides an avenue for our employees, stakeholders, and members of the public to report any actual or suspected malpractice, misconduct, or violation of the Group’s policies and procedures through dedicated and confidential channels which is the “Speak-up Channel”.

Investigation Procedure
The investigation procedure is established to ensure a consistent process in assessing and investigating any allegation or violations of the UEM Edgenta Code of Conduct, policies and procedures, and applicable rules and regulations. This procedure ensures that investigation outcomes are recorded uniformly and in a timely manner and that any necessary corrective action and/or external reporting is executed appropriately.

Authorities’ Raid/Visit Procedures
This procedure delineates the critical and practical aspects to be considered to provide an effective response when confronted with an authority raid. It encompasses detailed guidelines and actions necessary for handling the situation, ensuring a comprehensive and well-coordinated approach to address the demands and challenges posed during such encounters. The objective is to facilitate a swift, organised, and compliant response that aligns with legal requirements and safeguards the interests of UEM Edgenta.

CORPORATE INTEGRITY AND ETHICAL BUSINESS CONDUCT

Our Core Functions

Our initiative to combat bribery and corruption within UEM Edgenta encompasses the following core functions aimed at fostering better governance and a culture of integrity, namely:

Complaint Management

Encompassing the establishment of a “Speak Up” channel in managing complaints related to corruption, abuse of power, malpractice, and breaches of the organisation’s code of conduct and ethics. Any internal or external parties can report on illicit activities using the following designated channels:

SPEAK UP!

WAYS TO REPORT

Email your concern to whistleblowing@edgenta.com

Write to UEM Edgenta Berhad’s Chairman or the Chairman of the Board Governance & Risk Committee using the prescribed Whistleblowing Lodgment Form

Call **+6019 209 9030 Monday to Friday** (Malaysian office hours) **8.30 am to 5.30 pm**

Whistleblowing

The Integrity & Compliance Unit (“I&C”) is entrusted to supervise, monitor, and hold the responsibility for ensuring the effectiveness of the Speak Up channel and appropriate action are taken in response to each reported instance where all disclosures will be verified and evaluated by the Whistleblowing Committee. The Chairman of the Whistleblowing Committee ensures the efficiency and integrity of the investigation process to guarantee a thorough and timely resolution for every reported case, contributing to the overall integrity and ethical standards of the UEM Edgenta.

CORPORATE INTEGRITY AND ETHICAL BUSINESS CONDUCT

Detection and Verification

The Detection and Verification function within the Integrity & Compliance Unit (“I&C”), as mandated by the Malaysian Anti-Corruption Commission (“MACC”), involves a systematic process to identify and authenticate reports or information related to potential criminal misconduct, ethical breaches, violations of conduct, and adherence to organisational policies and regulations. This crucial function is designed to ensure the accuracy and validity of each reported case, aligning with the highest standards of integrity and governance.

By adhering to the guidelines set forth by the MACC, I&C plays a pivotal role in upholding transparency, accountability, and ethical standards within the organisation. The I&C meticulously investigates and verifies the received complaints, ensuring a thorough and impartial assessment of the allegations. For that reason, we have:

- Established a dedicated team to investigate grievances related to the complaint channeled to the Speak Up channel.
- Subscribe to investigation intelligence tools and seek assistance to enhance the efficiency and effectiveness of our investigation processes, facilitating thorough analyses, data collation, and informed decision-making.
- Establishment of the e-declaration portal with the purpose to streamlining the declaration process, enhancing transparency, and ensuring compliance with regulations, ultimately contributing to an effective and technologically advanced approach to managing declarations related to Conflict of Interest, Political involvement, Bankruptcy declaration, and Corruption Free Pledge.

Integrity Strengthening

In line with our commitment to institutionalise the culture of integrity and supports the principles of training and communication as stipulated in the Adequate Procedures Guidelines under subsection (5) of Section 17A of the Malaysian Anti-Corruption Commission Act 2009, UEM Edgenta has continuously disseminated information regarding anti-bribery and anti-corruption through coordination, execution, provision of awareness programs, training, seminars, periodical communication materials. These efforts aim to enhance the practice of core values, ethics, and integrity among employees of UEM Edgenta.

Additionally, we have:

- Conducted periodic engagement with employees through Meet and Greet activities to instill and cultivate the adoption of Integrity & Compliance into the daily operation of Edgenta Stars.
- Conducted integrity awareness session for business partners during Vendor Day in collaboration with Group Procurement and Contract Management
- Conduct integrity awareness and training programs to enhance the understanding and commitment of employees, fostering a culture of ethical behavior, and promoting compliance with standards.
- Established collaboration with external stakeholders, NGOs, and relevant authorities such as Rasuah Busters, Bahagian Pendidikan Masyarakat (“PENMAS”) of MACC, Royal Malaysia Police (“PDRM”), and Transparency International (“TI”) Malaysia.
- Shared Integrity messages through poster communications to Edgenta Stars via Edgenta Connect message.

Governance

In accordance with the Malaysian Anti-Corruption Commission (“MACC”) mandate, we ensure that our governance function encompasses the establishment and fortification of robust governance practices. This involves the implementation of effective governance mechanisms to uphold integrity, prevent corruption, and ensure compliance with ethical standards. Through systematic governance oversight, UEM Edgenta instill a culture of transparency, accountability, and adherence to the highest standards of integrity where we have established comprehensive policies, procedures, and rigorous monitoring mechanisms. As such we have:

- Continuously reviewed and revised relevant Policies and Procedures to ensure alignment with relevant laws, regulations, and standards.
- Certified by MS ISO 37001:2016 Anti-Bribery Management System signifies our commitment to preventing bribery and promoting ethical business conduct.
- Enhancing our Corruption Risk Management and refining the corruption risk assessment process involves the systematic identification, analysis, and mitigation of potential corruption risks within our organisation.

ADDITIONAL COMPLIANCE INFORMATION

1. AUDIT AND NON-AUDIT FEES

During the financial year ended 31 December 2023, the total audit and non-audit fees paid or payable incurred for services rendered to the Group and the Company by the external auditors or a firm affiliated to the external auditors are as follows:

	Company RM'000	Group RM'000
Statutory audit services	234	1,617
Non-audit services	60	153
Total	294	1,770

The Group and the Company engaged the external auditors for the following non-audit works:

- Review of Statement on Risk Management and Internal Control
- Tax compliance and advisory services
- Review of purchase price allocation in relation to the acquisition of a subsidiary

2. UTILISATION OF PROCEEDS RAISED FROM CORPORATE PROPOSALS

In 2017, the Company had established the Islamic Commercial Papers (“ICPs”) and Islamic Medium Term Notes (“IMTNs”) under an ICP Programme and IMTN Programme respectively, which have a combined aggregate limit up to RM1,000.0 million in nominal value and sub-limit of RM300.0 million in nominal value for ICP Programme under Shariah Principle of Murabahah via a Tawarruq Arrangement.

On 26 April 2017, the Company has completed the issuance of RM250.0 million in nominal value of IMTNs with a tenure of 5 years.

On 26 April 2022, the Company redeemed its outstanding IMTNs amounting to RM250.0 million in nominal value upon its maturity. On the same date, the Company has reissued the IMTNs with the same nominal value with a tenor of four years. The IMTNs will mature on 24 April 2026.

The proceeds raised from the IMTNs have been utilised by the Company for its Shariah-compliant general corporate purposes.

3. REVALUATION POLICY ON LANDED PROPERTIES

During the financial year ended 31 December 2023, the Group has adopted MFRS 140: Investment Properties and MFRS 13: Fair Value Measurement (for non-financial instruments) due to the transfer of land held for development to investment properties in 2022.

Accordingly, the Group has adopted revaluation policy on the land classified under investment properties. Please refer to the accounting policy and revaluation of the investment properties in Note 2.4(k) and Note 14 in the Audited Financial Statements which are set out in the pages 268 to 393 of this Annual Report.

4. MATERIAL CONTRACTS

Other than those disclosed in the financial statements and the recurrent related party transaction section in this Annual Report, there were no material contracts including contracts to any loans entered into by the Company and its subsidiaries involving directors’ and major shareholders’ interests.

5. RECURRENT RELATED PARTY TRANSACTIONS

The Company proposes to seek approval of its shareholders for the renewal of mandate for recurrent related party transactions and the proposed new shareholders’ mandate for additional recurrent related party transactions of a revenue and trading nature which is in the ordinary course of business at the forthcoming Annual General Meeting of the Company to be held in 2024.

DIRECTORS' RESPONSIBILITY STATEMENT

FOR THE AUDITED FINANCIAL STATEMENTS

The directors are required by the Companies Act 2016 to prepare the financial statements for each financial year which have been made out in accordance with applicable Malaysian Financial Reporting Standards (“MFRS”), the International Financial Reporting Standards (“IFRS”) and the requirements of the Companies Act 2016 in Malaysia.

The directors are responsible to ensure that the financial statements give a true and fair view of the state of affairs of the Group and of the Company at the end of the financial year, and of the financial performance and cash flows of the Group and of the Company for the financial year then ended.

The directors consider that, in preparing the financial statements for the financial year ended 31 December 2023, the Group and the Company have:

- Adopted appropriate accounting policies and applied them consistently;
- Made judgements and estimates that are reasonable and prudent; and
- Prepared the financial statements on a going concern basis.

The directors are responsible to ensure that the Group and the Company keep accounting records which disclose the financial position of the Group and of the Company with reasonable accuracy, enabling them to ensure that the financial statements comply with the applicable MFRS, IFRS and the requirements of the Companies Act 2016 in Malaysia.

The directors are satisfied that they have met their obligations to present a balanced and fair assessment of the Group's and of the Company's position and prospects in the Directors' Report on pages 255 to 260 and the Audited Financial Statements from pages 268 to 393 of this Annual Report.

DIRECTORS' REPORT

The directors have pleasure in presenting their report together with the audited financial statements of the Group and of the Company for the financial year ended 31 December 2023.

PRINCIPAL ACTIVITIES

The principal activities of the Company is investment holding and provision of management services to its subsidiaries.

The principal activities and other information of the subsidiaries, joint ventures and associates are described in Note 47 to the financial statements.

RESULTS

	Group RM'000	Company RM'000
Profit after tax and zakat	30,094	23,820
Attributable to:		
Owners of the parent	31,112	23,820
Non-controlling interests	(1,018)	-
	30,094	23,820

There were no material transfers to or from reserves or provisions during the financial year.

In the opinion of the directors, the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature other than as disclosed in the financial statements.

DIVIDENDS

The amounts of dividends paid by the Company since 31 December 2022 were as follows:

	RM'000
In respect of the financial year ended 31 December 2022 as reported in Directors' report of that year:	
Single tier interim dividend of 4.00 sen on 831,624,030 ordinary shares declared on 28 February 2023 and paid on 18 May 2023	33,265

On 28 February 2024, the Board of Directors has declared a single tier interim dividend of 2.00 sen per ordinary share on 831,624,030 ordinary shares, amounting to RM16,632,481 to be paid on 17 May 2024. The entitlement date is 25 April 2024. The financial statements for the current financial year do not reflect this dividend. This dividend will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 December 2024.

DIRECTORS' BENEFITS

Neither at the end of the financial year, nor at any time during that year, did there subsist any arrangement to which the Company was a party, whereby the directors might acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

Since the end of the previous financial year, no director has received or become entitled to receive a benefit (other than benefits included in the aggregate amount of emoluments received or due and receivable by the directors or the fixed salary of a full time employee of the Company as shown below) by reason of a contract made by the Company or a related corporation with any director or with a firm of which the director is a member, or with a company in which the director has a substantial financial interest.

DIRECTORS' REPORT

DIRECTORS' REPORT

DIRECTORS' BENEFITS (CONTD.)

The directors' benefits are as follows:

	Group RM'000	Company RM'000
Executive:		
Salaries and other emoluments	1,122	-
Bonus	680	-
Contributions to defined contribution plans	265	-
Allowances	50	-
Benefits-in-kind	26	-
	2,143	-
Non-Executive:		
Fees	1,052	1,052
Allowance	50	50
	1,102	1,102
Total	3,245	1,102

During the financial year, the directors and officers of the Company are covered under the Directors and Officers Liability Insurance (“D&O Insurance”) in respect of liabilities arising from acts committed in their respective capacity as, inter alia, the directors and officers of the Company subject to the terms of the D&O Insurance policy. The insurance premium incurred by the Company was RM116,510.

DIRECTORS' INTEREST

None of the directors in office at the end of the financial year had any interest in shares in the Company or its related corporations during the financial year.

HOLDING COMPANIES

The Company regards UEM Group Berhad (“UEM Group”) and Khazanah Nasional Berhad, both incorporated in Malaysia, as its immediate and ultimate holding companies respectively.

OTHER STATUTORY INFORMATION

- (a) Before the statements of comprehensive income and statements of financial position of the Group and of the Company were made out, the directors took reasonable steps:
- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate provision had been made for doubtful debts; and

(ii) to ensure that any current assets which were unlikely to realise their values as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.
- (b) At the date of this report, the directors are not aware of any circumstances which would render:
- (i) the amount written off for bad debts or the amount of the provision for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; and

(ii) the values attributed to the current assets in the financial statements of the Group and of the Company misleading.
- (c) At the date of this report, the directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (d) At the date of this report, the directors are not aware of any circumstances not otherwise dealt with in this report or financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.
- (e) At the date of this report, there does not exist:
- (i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or

(ii) any contingent liability in respect of the Group or of the Company which has arisen since the end of the financial year.
- (f) In the opinion of the directors:
- (i) no contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group or of the Company to meet their obligations when they fall due; and

(ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Company for the financial year in which this report is made.

DIRECTORS’ REPORT

SIGNIFICANT EVENTS

Significant events are disclosed in Note 44 to the financial statements.

SUBSEQUENT EVENT

Subsequent event is disclosed in Note 45 to the financial statements.

AUDITORS

The auditors, Ernst & Young PLT, have expressed their willingness to continue in office.

Auditors’ remuneration is as follows:

	Group RM’000	Company RM’000
Ernst & Young PLT	1,016	234
Other member firms of Ernst & Young Global	333	-
Other auditors	268	-
	1,617	234

To the extent permitted by law, the Company has agreed to indemnify its auditors, Ernst & Young PLT, as part of the terms of its audit engagement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made to indemnify Ernst & Young PLT for the financial year ended 31 December 2023.

Signed on behalf of the Board in accordance with a resolution of the directors dated 22 March 2024.

Tan Sri Dr. Azmil Khalili bin Dato’ Khalid

Syahrunicam bin Samsudin

STATEMENT BY DIRECTORS
PURSUANT TO SECTION 251(2) OF THE COMPANIES ACT 2016

We, Tan Sri Dr. Azmil Khalili bin Dato’ Khalid and Syahrunicam bin Samsudin, being two of the directors of UEM Edgenta Berhad, do hereby state that, in the opinion of the directors, the accompanying financial statements set out on pages 268 to 393 are drawn up in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia so as to give a true and fair view of the financial position of the Group and of the Company as at 31 December 2023 and of their financial performance and cash flows for the financial year then ended.

Signed on behalf of the Board in accordance with a resolution of the directors dated 22 March 2024.

Tan Sri Dr. Azmil Khalili bin Dato’ Khalid

Syahrunicam bin Samsudin

STATUTORY DECLARATION
PURSUANT TO SECTION 251(1)(B) OF THE COMPANIES ACT 2016

I, Syahrunicam bin Samsudin, being the Director primarily responsible for the financial management of UEM Edgenta Berhad, do solemnly and sincerely declare that the accompanying financial statements set out on pages 268 to 393 are in my opinion correct, and I make this solemn declaration conscientiously believing the same to be true and by virtue of the provisions of the Statutory Declarations Act, 1960.

Subscribed and solemnly declared by
the abovenamed
Syahrunicam bin Samsudin
at Kuala Lumpur in the Federal Territory
on 22 March 2024.

Syahrunicam bin Samsudin

Before me,

Abdul Shukor Md Noor (No: W725)
Commissioner of Oaths
Kuala Lumpur

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF UEM EDGENTA BERHAD
(INCORPORATED IN MALAYSIA)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of UEM Edgenta Berhad, which comprise the statements of financial position as at 31 December 2023 of the Group and of the Company, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and notes to the financial statements, including a summary of material accounting policy information, as set out on pages 268 to 393.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2023, and of their financial performance and their cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence and other ethical responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditors' responsibilities for the audit of the financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis of our audit opinion on the accompanying financial statements.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF UEM EDGENTA BERHAD
(INCORPORATED IN MALAYSIA)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTD.)

Key audit matters (contd.)

Key audit matters in respect of the audit of the financial statements of the Group

(a) Impairment assessment of goodwill

(Refer to Note 17 – Intangible assets, Note 2.4 (c)(i) and (f) – Summary of material accounting policy information: Intangibles assets - Goodwill and Impairment of non-financial assets and Note 2.5 (b)(ii) - Key sources of estimation uncertainty: Impairment of goodwill)

As at 31 December 2023, the carrying amount of goodwill amounted to RM587.6 million, representing 52% and 20% of the Group's total non-current assets and total assets respectively. The Group is required to perform annual impairment assessment on the goodwill by comparing the recoverable amounts of the related cash generating units ("CGUs") or groups of CGUs to its carrying amount.

The Group estimated the recoverable amounts of the CGUs based on value-in-use ("VIU"). Estimating VIU involves the discounting of the estimated future cash inflows and outflows expected to be derived from the CGUs using appropriate discount rates to their present values.

This was our area of focus as the impairment assessment was complex and highly judgemental. The estimation of VIU involved the assessment of possible variations in the amounts and timing of future cash flows, particularly the forecasted revenue, profit margins and long-term growth rate, based on assumptions affected by future market and economic conditions in the respective geographical regions. Judgement was also applied in determining the appropriate discount rate.

Our audit response

In addressing this area of audit focus, we performed, amongst others, the following procedures:

- We obtained an understanding of the methodology adopted by management in estimating the VIU and assessed whether such methodology is consistent with those used in the industry;
- We assessed the reasonableness of key assumptions used for each CGU, focusing on forecasted revenue, profit margins and long-term growth rate, taking into consideration the current and expected future economic conditions of the respective business segments, industries and geographical regions of the CGUs;
- We compared the key assumptions against past actual outcomes and where relevant, evaluated the probability of securing significant future contracts by making enquiries with project teams to obtain an understanding of the status of negotiations and the likelihood that such cash flows will materialise;
- We involved our internal valuation experts in assessing the reasonableness of the discount rate used and whether the rate used reflects the current market assessments of the time value of money and the risks specific to the asset which is the return that investors would require if they were to choose an investment that would generate cash flows of amounts, timing and risk profile equivalent to those that the entity expects to derive from the CGU;
- We performed sensitivity analysis on key assumptions that will significantly affect the VIU of each CGU; and
- We evaluated the adequacy of disclosures of key assumptions to which the outcome of the impairment test is most sensitive.

INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF UEM EDGENTA BERHAD
(INCORPORATED IN MALAYSIA)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTD.)

Key audit matters (contd.)

Key audit matters in respect of the audit of the financial statements of the Company

(b) Impairment assessment of investment in subsidiaries

(Refer to Note 18 – Investment in subsidiaries, Note 2.4 (f) – Summary of material accounting policy information: Impairment of non-financial assets and Note 2.5 (b)(iii) – Key sources of estimation uncertainty: Impairment of investment in subsidiaries)

As at 31 December 2023, the carrying amount of the investment in subsidiaries of the Company amounted to RM1.7 billion, representing 98% and 88% of the Company's total non-current assets and total assets respectively.

At the reporting date, the Company reviewed its investment in subsidiaries for indications of impairment and where such indications exist, the Company performed an impairment assessment to determine the recoverable amounts of such investments. The Company estimated the recoverable amount of the respective CGUs based on the estimated VIU.

We identified the impairment review as an area of focus as the amounts involved are significant and the impairment assessment was complex and highly judgemental. The estimation of VIU involved the assessment of possible variations in the amounts and timing of future cash flows, particularly the forecasted revenue, profit margins and long-term growth rate, based on assumptions affected by future market and economic conditions. Judgement was also applied in determining the appropriate discount rate.

Our audit response

In addressing this area of audit focus, we performed, amongst others, the following procedures:

- We obtained an understanding of the methodology adopted by management in estimating the VIU and assessed whether such methodology is consistent with those used in the industry;
- We assessed the reasonableness of key assumptions, focusing on forecasted revenue, profit margins and long-term growth rate, taking into consideration the current and expected future economic conditions of the respective subsidiaries;
- We compared the key assumptions against past actual outcomes and where relevant, evaluated the probability of securing significant future contracts by making enquiries with project teams to obtain an understanding of the status of negotiations and the likelihood that such cash flows will materialise;
- We involved our internal valuation experts in assessing the reasonableness of the discount rate used and whether the rate used reflects the current market assessments of the time value of money and the risks specific to the asset which is the return that investors would require if they were to choose an investment that would generate cash flows of amounts, timing and risk profile equivalent to those that the entity expects to derive from the subsidiaries; and
- We performed sensitivity analysis on key assumptions that will significantly affect the recoverable amounts of the investment in the subsidiaries.

INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF UEM EDGENTA BERHAD
(INCORPORATED IN MALAYSIA)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTD.)

Information other than the financial statements and auditors' report thereon

The directors of the Company are responsible for the other information. The other information comprises the Directors' Report and annual report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial statements

The directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF UEM EDGENTA BERHAD
(INCORPORATED IN MALAYSIA)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTD.)

Auditors' responsibilities for the audit of the financial statements (contd.)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguard applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF UEM EDGENTA BERHAD
(INCORPORATED IN MALAYSIA)

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report that the subsidiaries of which we have not acted as auditors, are disclosed in Note 47 to the financial statements.

OTHER MATTERS

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

(b) In the previous financial year, included in the purchase of intangible assets of the Group and the Company amounted to RM0.9 million relates to amounts paid for intangible assets that had been capitalised in prior years.

The accompanying accounting policies and explanatory information form an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

1. CORPORATE INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad. The registered office of the Company is located at Level 17, Menara UEM, Tower 1, Avenue 7, The Horizon, Bangsar South City, No. 8 Jalan Kerinchi, 59200 Kuala Lumpur.

The Company regards UEM Group and Khazanah Nasional Berhad, both incorporated in Malaysia, as its immediate and ultimate holding companies respectively. Related companies in these financial statements refer to member companies within the UEM Group of companies.

The principal activity of the Company are investment holding and provision of management services to its subsidiaries. The principal activities of the subsidiaries, joint ventures and associates are described in Note 47.

There have been no significant changes in the nature of the principal activities during the financial year.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the directors on 22 March 2024.

2. ACCOUNTING POLICIES

2.1 Basis of preparation

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRS”), International Financial Reporting Standards (“IFRS”) and the requirements of the Companies Act 2016 in Malaysia.

The financial statements of the Group and of the Company have been prepared on a historical cost basis except as disclosed in the accounting policies below.

The financial statements are presented in Ringgit Malaysia (“RM”) and all values are rounded to the nearest thousand (RM’000) except when otherwise indicated.

2.2 Changes in accounting policies

The accounting policies adopted are consistent with those of the previous financial year, except as follows:

On 1 January 2023, the Group and the Company adopted the following amendments to MFRS mandatory for financial period beginning on or after 1 January 2023:

	Effective for annual period beginning on or after
Amendments to MFRS 101: Presentation of Financial Statements and MFRS Practice Statement 2 (Disclosure of Accounting Policies)	1 January 2023
MFRS 17: Insurance Contracts	1 January 2023
Amendments to MFRS 17: Insurance Contracts	1 January 2023
Amendments to MFRS 17: Initial Application MFRS 17 and MFRS 9 - Comparative Information	1 January 2023
Amendments to MFRS 108: Definition of Accounting Estimates	1 January 2023
Amendments to MFRS 112: Deferred Tax related to Assets and Liabilities arising from a Single Transaction	1 January 2023
Amendments to MFRS 112: International Tax Reform - Pillar Two Model Rules	1 January 2023

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (CONTD.)

2.2 Changes in accounting policies (contd.)

Amendments to MFRS 101: Presentation of Financial Statements and MFRS Practice Statement 2 (Disclosure of Accounting Policies)

The amendments to MFRS 101 and MFRS Practice Statement 2 provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their ‘significant’ accounting policies with a requirement to disclose their ‘material’ accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Group’s and the Company’s disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Group’s and the Company’s financial statements.

Amendments to MFRS 112: International Tax Reform - Pillar Two Model Rules

On 2 June 2023, the Malaysian Accounting Standards Board has also issued the Amendments to MFRS 112 Income Taxes International Tax Reform - Pillar Two Model Rules. This pronouncement is effective from annual period beginning on or after 1 January 2023. On 29 December 2023, Pillar Two legislation has been enacted in Malaysia, which will come into effect on 1 January 2025.

The amendments had no impact on the Group’s consolidated financial statements as the Group is not in scope of Pillar Two model rules as its revenue is less than EUR750 million/year.

The adoption of the above amendments to MFRSs did not have any significant effect on the financial statements of the Group and of the Company.

2.3 Standards issued but not yet effective

The standards and interpretations that are issued but not yet effective up to the date of issuance of the Group’s and the Company’s financial statements are disclosed below. The Group and the Company intend to adopt these standards, if applicable, when they become effective:

	Effective for annual periods beginning on or after
Amendments to MFRS 101: Classification of Liabilities as Current or Non-Current	1 January 2024
Amendments to MFRS 101: Non-current Liabilities with Covenants	1 January 2024
Amendments to MFRS 16: Lease liability in a Sale and Leaseback	1 January 2024
Amendments to MFRS 107 and MFRS 7: Disclosures of Supplier Finance Arrangements	1 January 2024
Amendments to MFRS 121: Lack of exchangibility	1 January 2025
Amendments to MFRS 10 and MFRS 128: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Deferred

The Board of Directors expect that the adoption of the above amendments to MFRSs will not have a material impact on the financial statements in the period of initial application.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies

(a) Basis of consolidation and subsidiaries

(i) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the reporting date. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (i) The contractual arrangement(s) with the other vote holders of the investee;
- (ii) Rights arising from other contractual arrangements; and
- (iii) The Group’s voting rights and potential voting right

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group’s accounting policies.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree’s identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and any previous interest held over the net identifiable assets acquired and liabilities assumed). After initial recognition, goodwill is measured at cost less any accumulated impairment losses.

(ii) Subsidiaries

In the Company’s separate financial statements, investments in subsidiaries are accounted for at cost less impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(b) Investment in associates and joint venture

The Group holds interest in associates and joint venture as disclosed in Note 19 and Note 20, respectively.

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The financial statements of the associates and joint venture are prepared for the same reporting period as the Group. The accounting policies of the associates and joint venture are aligned with those of the Group. Therefore, no adjustments are made when measuring and recognising the Group’s share of profit or loss of the investees after the date of acquisition.

Under the equity method, the investment in an associate or a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group’s share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment separately.

(c) Intangible assets

(i) Goodwill

Goodwill is initially measured at cost. Following initial recognition, goodwill is measured at cost less accumulated impairment losses.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign operations and are recorded in the functional currency of the foreign operations and translated in accordance with the accounting policy set out in Note 2.4(q).

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(c) Intangible assets (contd.)

(ii) Other intangible assets

Intangible assets acquired separately are measured initially at cost. The cost of intangible assets acquired in a business combination is their fair values as at the date of acquisition. Following initial acquisition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or indefinite.

Intangible assets with finite lives are amortised on a straight-line basis over the estimated economic useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Intangible assets with indefinite useful lives are not amortised but tested for impairment annually or more frequently if the events or changes in circumstances indicate that the carrying value may be impaired either individually or at the cash-generating unit level.

Customer contracts and relationships

Customer contracts and relationships acquired through business combination are capitalised at fair value as at the date of acquisition. Following initial recognition, the cost model is applied. The finite useful live of customer contracts and customer relationships are assessed to be ranging from 4.75 to 15 years (2022: 10 to 15 years) and 3 to 10 years (2022: 5 to 10 years) respectively. Amortisation is charged on a straight line basis and the expense is recognised in profit or loss.

Software

Software that do not form an integral part of the related hardware have been reclassified as intangible assets. Software is considered to have finite useful lives, are stated at cost less any impairment losses and are amortised using the straight-line basis over the commercial lives of the underlying products between 3 and 10 years. Software-in-progress is stated at cost, net of accumulated impairment losses, if any.

Research and development costs

Research and development costs are recognised as an expense except that costs incurred on individual development project are recognised as development asset to the extent that such expenditure is expected to generate future economic benefits. Development costs are only recognised as an asset when it is probable that future economic benefits will be realised as a result of the specific expenditure and the costs can be measured reliably.

Following the initial recognition of the development expenditure, the asset is carried at cost less accumulated amortisation and accumulated impairment losses.

Development costs that have been capitalised are amortised over the period of expected future economic benefits from the related project of 15 years.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(d) Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost.

Subsequent to recognition, property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Freehold land has an unlimited useful life and therefore is not depreciated. Capital work-in-progress is not depreciated as these assets are not available for use.

Depreciation of other property, plant and equipment is provided for on a straight-line basis to write off the cost of each asset to its residual value over the estimated useful life, at the following annual rates:

Buildings	1.8% - 7.5%
Plant and equipment	5% - 50%
Furniture and fittings	10% - 20%
Motor vehicles	20%
Computers	20% - 33%
Machinery	10% - 20%
Office equipment	10% - 20%

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

(e) Land held for property development and property development costs

(i) Land held for property development

Inventory properties where no development activities have been carried out or where development activities are not expected to be completed within the normal operating cycle are referred to as land held for development and classified within non-current assets. Generally no significant development work would have been undertaken on these lands other than infrastructure work, earth work and landscape work incurred to prepare the land for development and these inventory properties are stated at cost plus incidental expenditure incurred to put the land in a condition ready for development. These inventory properties are classified to current assets at the point when active development project activities have commenced and when it can be demonstrated that the development activities can be completed within the normal operating cycle.

(ii) Property development costs

Property development costs are recognised to the extent that the Group has performed the construction services. Property development costs are initially measured at cost, which is represented by the allocated fair value of the construction services rendered.

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(f) Impairment of non-financial assets

The Group and the Company assess at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment assessment for an asset is required, the Group and the Company make an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value-in-use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows cash-generating unit ("CGU").

(g) Inventories

Inventories are stated at lower of cost and net realisable value.

Cost of consumables which is determined on the weighted average basis, comprise cost of purchase of inventories.

Cost of property held for resale is determined on the specific identification basis and include cost associated with the acquisition of land, direct costs and appropriate proportions of common costs.

(h) Financial instruments

(i) Financial assets

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income ("OCI"), and fair value through profit or loss.

For purposes of subsequent measurement, the Group and the Company have classified its financial assets into two categories:

Financial assets at amortised cost (debt instruments)

The Group's and the Company's financial assets at amortised cost includes trade and other receivables, and cash, bank balances and deposits.

Financial assets at fair value through profit or loss ("FVTPL")

FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes short term investments which the Group and the Company had not irrevocably elected to classify at fair value through OCI.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(h) Financial instruments (contd.)

(i) Financial assets (contd.)

Impairment

The Group and the Company recognise an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss.

For trade receivables and contract assets, the Group and the Company apply a simplified approach in calculating ECLs. Therefore, the Group and the Company do not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. In measuring ECLs, the Group and the Company take into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forward-looking factors specific to the debtors.

The Group and the Company consider a financial asset in default when contractual payments are 120 days past due. However, in certain cases, the Group and the Company may also consider a financial asset to be in default when internal or external information indicates that the Group and the Company are unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group and the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(ii) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings and payables.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group’s and the Company’s financial liabilities include trade and other payables, borrowings and lease liabilities.

Financial liabilities at amortised cost (loans and borrowings)

This is the category most relevant to the Group and the Company. After initial recognition, trade payables, other payables and interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method.

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(i) Cash, bank balances and deposits

Cash, bank balances and deposits in the statements of financial position comprise cash at banks and on hand and short-term liquid deposits with a maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statements of cash flows, cash and cash equivalents consist of cash, bank balances and deposits, as defined above.

(j) Leases

The Group and the Company assess at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

The Group and the Company apply a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group and the Company recognise lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i. Right-of-use assets

The Group and the Company recognise right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets are depreciated on a straight-line basis over the estimated useful lives of the assets, as follows:

Leasehold land	15 to 94 years
Office premises	2 to 10 years
Motor vehicles	2 to 3 years

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(j) Leases (contd.)

As a lessee (contd.)

i. Right-of-use assets (contd.)

If ownership of the leased asset transfers to the Group and the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in Note 2.4(f).

ii. Lease liabilities

At the commencement date of the lease, the Group and the Company recognise lease liabilities measured at the present value of lease payments to be made over the lease term.

The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and the Company and the payments of penalties for terminating the lease, if the lease term reflects the Group and the Company exercising the option to terminate.

In calculating the present value of lease payments, the Group and the Company use its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

iii. Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

As a lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(k) Investment properties

Investment properties comprise properties which are held either to earn rental income or capital appreciation or both.

Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the reporting date. Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the period in which they arise, including the corresponding tax effect. Fair values are determined based on an annual valuation performed by an accredited external independent valuer having appropriate recognised professional qualification and relevant experience.

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

(l) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(m) Taxes

(i) Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date in the countries where the Group and the Company operate and generates taxable income.

(ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be utilised.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(m) Taxes (contd.)

(ii) Deferred tax (contd.)

The Group has adopted International Tax Reform - Pillar Two Model rules upon its release on 2 June 2023. The amendments provide a temporary mandatory relief from deferred tax accounting for the top-up tax which is effective immediately and new disclosures of Pillar Two top-up taxes. The Group has applied a temporary mandatory relief from deferred tax accounting for the impacts of the top-up tax and accounts for it as a current tax when it is incurred. The application of the pronouncement is further discussed in Note 2.2.

(iii) Sales and service tax

Indirect taxes include Sales Tax, Service Tax and Goods and Services Tax (also known as Value Added Tax).

The amount of indirect taxes payable to taxation authority is included as part of payables in the statements of financial position.

Indirect taxes incurred on the purchase of assets or services which cannot be recovered from the respective tax authorities are recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable.

The difference between output and input Goods and Services Tax, being the amount payable to or receivable from the respective taxation authorities at the reporting date, is included in other payables or other receivables respectively in the statements of financial position.

(n) Government grants

Government grants are recognised when there is reasonable assurance that the grant will be received, and all attaching conditions will be complied with.

Government grant related to income

Government grants are recognised in profit or loss on a systematic basis over the periods in which the entity recognises as expenses the related costs for which the grants are intended to compensate. Grants related to income are deducted from related expenses.

(o) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(p) Employee benefits

(i) Short term benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences, and short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(ii) Long term incentives plan

Long term incentives are granted to eligible employees subject to meeting the pre-determined financial performance and value growth targets of the Group over a vesting period of 3 years.

Liability arising from long term incentives is measured and reviewed at each reporting date, based on the management's estimates on the achievement of the pre-determined targets, and it is recognised as an expense over the performance period of 3 years.

(iii) Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group and the Company pay fixed contributions into separate entities or funds and will have no legal or constructive obligation to pay further contributions if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. Such contributions are recognised as an expense in profit or loss as incurred. As required by law, companies in Malaysia make contributions to the state pension scheme, the Employees Provident Fund ("EPF").

(iv) Defined benefit plan

The Group's subsidiaries operate defined benefit pension schemes for its eligible employees. The benefit is unfunded. A liability or asset is recognised when there is a shortfall or surplus in a defined benefit pension scheme, being the difference between the fair value of the scheme assets and liabilities as determined by an independent actuary. Actuarial gains and losses are recognised in full in other comprehensive income at the time of valuation.

Such actuarial gains and losses are also immediately recognised in retained earnings and are not reclassified to profit or loss in subsequent periods.

The cost of providing benefits under this plan is determined using the projected unit credit method, which attributes entitlement to benefits to the current period (to determine the current service cost) and to the current and prior periods (to determine the present value of the defined benefit obligation) and is based on actuarial advice. The current service cost is charged to profit or loss. Past service costs are recognised in profit or loss on a straight-line basis over the vesting period or immediately if benefits have vested.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(p) Employee benefits (contd.)

(iv) Defined benefit plan (contd.)

A charge representing the unwinding of the discount on the plan liabilities during the year is included in profit or loss as administrative expenses. A credit representing the expected return of the plan assets during the year is also included within administrative expenses. This credit is based on the market value of the plan assets and expected rates of return at the beginning of the year.

(v) Termination benefit

The termination benefits are payable solely at the discretion by the Board of Directors and management. These benefits are payable when employment is terminated before the normal retirement date or where an employee accepts voluntary redundancy in exchange for these benefits when they are offered. The Group recognises termination benefits when it is demonstrably committed to either terminate the employment of current employees according to a detailed plan without possibility of withdrawal.

(q) Foreign currencies

The Group’s consolidated financial statements are presented in Malaysian Ringgit (“MYR”), which is also the parent company’s functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation, the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

(i) Transactions and balances

Transactions in foreign currencies are initially recorded by the Group’s entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recognised in OCI.

In the consolidated financial statements, currency translation differences arising from intercompany borrowing in foreign currencies and other currency instruments designated and qualifying as net investment in foreign operations are recognised in other comprehensive income and accumulated in the currency translation reserve. The repayment of borrowings which forming part of the Group’s net investment in foreign operation by a subsidiary is considers as a partial disposal and it related foreign currency exchange differences are reclassified to profit or loss.

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(q) Foreign currencies (contd.)

(i) Transactions and balances (contd.)

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of advance consideration.

(ii) Group companies

On consolidation, the assets and liabilities of foreign operations are translated into MYR at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is reclassified to profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

(r) Non-current assets held for sale and discontinued operations

The Group classifies non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset (disposal group), excluding finance costs and income tax expense.

Property, plant and equipment and intangible assets are not depreciated or amortised once classified as held for sale.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(s) Income recognition

Revenue from contracts with customers

Contracts with customers may include multiple promises to customers and therefore accounted for as separate performance obligations. In this case, the transaction price will be allocated to each performance obligation based on the stand-alone selling prices. When these are not directly observable, they are estimated based on expected cost plus margin.

In determining the transaction price for contracts with customers, the Group and the Company consider the effects of variable consideration, the existence of significant financing components, non-cash consideration, and consideration payable to the customer (if any). Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group and the Company expect to be entitled in exchange for those goods or services. The Group and the Company have generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

If control of the assets transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the asset.

(i) Asset consultancy

The Group recognises revenue from consultancy services over time when the performance obligations are performed and the Group has an enforceable right to the payment for the performance completed to date.

Revenue is recognised over time using an input method to measure progress towards complete satisfaction of the service, because customer simultaneously receives and consumes the benefits provided by the Group. Revenue is calculated as the proportion of total contract value which costs incurred to date bear to total expected costs for that contract. Revenue derived from variations on contracts are recognised only when they have been accepted by the customer whereby no significant revenue reversal will occur. Full provision is made for losses on all contracts in the year in which they are first foreseen.

(ii) Healthcare support

The Group through the Concession Agreement provides healthcare support services to the public hospital in the Northern zone of Malaysia encompassing the states of Perlis, Kedah, Pulau Pinang and Perak. The services provided are healthcare waste management, cleansing, linen and laundry, facilities engineering maintenance, biomedical engineering maintenance and facilities management services. The Group also provides healthcare facilities management, housekeeping and patient management services to various private healthcare institutions in Malaysia, Singapore and Taiwan.

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(s) Income recognition (contd.)

Revenue from contracts with customers (contd.)

(ii) Healthcare support (contd.)

The revenue from the services, which is based on fixed price under the agreement is allocated based on relative stand-alone selling price of the considerations for each of the separate performance obligations.

The Group recognises the services revenue over time when the performance obligations are performed and the Group has an enforceable right to the payment for the performance completed to date. Any variable consideration is estimated at contract inception and constrained until it is highly probable. The Group applies the most likely amount method to determine the variable consideration which will be netted against the revenue.

(iii) Infrastructure services

The Group provides maintenance service and repair of civil, mechanical and electrical works on roads, infrastructure and expressways works.

Revenue on infrastructure services are recognised over time, using an input method to measure progress towards complete satisfaction of the service, because customer simultaneously receives and consumes the benefits provided by the Group. Revenue is calculated as the proportion of total contract value which costs incurred to date to total expected costs for that contract. Revenue derived from variations on contracts are recognised only when they have been accepted by the customer. Full provision is made for losses on all contracts in the year in which they are first foreseen.

Revenue for routine maintenance is recognised based on fixed sum contract while revenue for non routine maintenance is recognised based on schedule of rates agreed with customers.

(iv) Property and facility solutions

The Group provides various facilities management including infrastructure, building and ground maintenance to commercial customers. These services are provided on a time and material basis or as a fixed-priced contract, with contract terms generally ranging from one (1) year to three (3) years.

Revenue from these services is recognised over time in the period the services are rendered.

The Group also provides green technology and sustainability services in retro-fitting works of buildings followed by a period in which the Group maintains and services the infrastructure. In such contracts, revenue from the supply of retro-fitting equipment and installation works are recognised at the point in time when:

- (i) the control of the asset is transferred to the customer upon the acceptance of physical possession of the asset and successful testing and commissioning; and
- (ii) the significant risks and rewards of ownership of the asset is borne by the customer.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(s) Income recognition (contd.)

Revenue from contracts with customers (contd.)

(iv) Property and facility solutions (contd.)

Revenue from the maintenance and servicing of the infrastructure subsequent to the retro-fitting is recognised over time in the period the services are rendered.

(v) Property development

Revenue from sale of property development is recognised over time.

Revenue from sale of completed property units is recognised at the point of time upon the control of the asset is transferred to the customer and it is probable that the Group will collect the consideration to which it entitled in exchange for the asset that will be transferred to the customer.

(vi) Management fees

Management fees for services provided to entities within the Group are recognised over time as services are rendered.

Other income recognition

(i) Dividend income

Dividend income is recognised when the Group's and the Company's right to receive payment is established.

(ii) Rental income

Rental income is recognised on a straight-line basis over the term of the lease.

(iii) Interest income

Interest income is recognised on an accrual basis using the effective interest method.

(t) Contract balances

Contract fulfillment assets

Contract fulfillment assets are divided into:

- (i) cost that give rise to an asset; and
- (ii) costs that are expensed as incurred.

2. ACCOUNTING POLICIES (CONTD.)

2.4 Summary of material accounting policies (contd.)

(t) Contract balances (contd.)

Contract fulfillment assets (contd.)

The Group utilises contract fulfilment assets over the expected contract period using a systematic basis that mirrors the pattern in which the Group transfers control of the service to the customer. The utilisation charge is included within cost of sales.

At each reporting date, the Group determines whether or not the contract fulfillment assets are impaired by comparing the carrying amount of the asset to the remaining amount of consideration that the Group expects to receive less the costs that relate to providing services under the relevant contract.

(u) Segment reporting

For management purposes, the Group is organised into operating segments based on their products and services which are independently managed by the respective segment managers responsible for the performance of the respective segments under their charge. The segment managers report directly to the management of the Company who regularly review the segment results in order to allocate resources to the segments and to assess the segment performance. Additional disclosures on each of these segments are shown in Note 43, including the factors used to identify the reportable segments and the measurement basis of segment information.

(v) Fair value measurement

The Group and the Company measure financial instruments such as short-term investments, and non-financial assets such as investment properties, at fair value at each balance sheet date.

The Group and the Company use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Group and the Company determine whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

2. ACCOUNTING POLICIES (CONTD.)

2.5 Significant accounting judgements and estimates

The preparation of the Group's and of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

(a) Judgements

There are no critical judgements made by management in the process of applying the Group's and the Company's accounting policies that may have significant effects on the amounts recognised in the financial statements.

(b) Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are as follows:

(i) Revenue recognition - Asset consultancy

The Group recognises its revenue and profit on consultancy contract services based on the percentage of completion, calculated by reference to the proportion of costs incurred to date against the total expected costs for the contracts. Full provision is made for losses on all contracts when they are first foreseen. Significant estimates are applied especially in determining the total expected costs for the contracts in order to reliably estimate the percentage of completion.

(ii) Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value-in-use of the CGU to which the goodwill is allocated. Estimating a value-in-use amount requires management to make an estimate of the expected future cash flows from the CGU and also to determine suitable discount and growth rates in order to calculate the present value of those cash flows. The carrying amounts of goodwill at 31 December 2023 was RM587.6 million (2022: RM561.0 million). Further details are disclosed in Note 17(a).

(iii) Impairment of investment in subsidiaries

The Company determines whether investment in subsidiaries is impaired when there is an indication of impairment. This requires an estimation of the VIU of the investment in subsidiaries. Estimating a VIU amount requires management to make an estimate of the expected future cash flows and also to determine suitable discount and growth rates in order to calculate the present value of those cash flows. The carrying amounts of investment in subsidiaries at 31 December 2023 was RM1,674.0 million (2022: RM1,673.3 million). Further details are disclosed in Note 18.

2. ACCOUNTING POLICIES (CONTD.)

2.5 Significant accounting judgements and estimates (contd.)

(b) Key sources of estimation uncertainty (contd.)

(iv) Allowance for ECLs of trade receivables and contract assets

The Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments in calculating ECLs for trade receivables and contract assets. The amount and timing of future cash flows are then estimated based on historical credit loss experience for assets with similar credit risk characteristics and adjusted with forward-looking information such as forecast economic conditions. The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables and contract assets is disclosed in Note 22 and Note 23 respectively.

(v) Income taxes

Significant estimation is involved in determining the provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

(vi) Deferred tax assets

Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The deferred tax assets amounting to RM23.1 million (2022: RM12.5 million) are mainly related to subsidiaries of which management is confident that it would be probable for the related subsidiaries to generate future taxable profits.

If the Group was able to recognise all unrecognised deferred tax assets, profit and equity would have increased by RM52.4 million (2022: RM53.4 million). Further details are disclosed in Note 24.

(vii) Fair value of investment properties

The Group carries its investment properties at fair value, with changes in fair value being recognised in profit or loss. The Group engaged independent professional valuers to perform value on its investment properties as at 31 December 2023. The valuation methodology commonly used is the comparison method which is based on comparable historical transactions adjusted for specific market factors such as location, size, condition, accessibility and design of the respective properties.

The details of the investment properties are disclosed in Note 14.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

3. REVENUE

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000

8. EMPLOYEE BENEFITS EXPENSE

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Wages and salaries	883,161	805,536	52	8,613
Contributions to statutory Employees Provident Fund ("EPF")	80,223	77,974	2	1,270
Social security contributions	3,250	2,961	-	89
Retirement benefit obligations (Note 32)	(600)	411	-	-
Decrease in liability for defined benefit pension plan (Note 33)	(10)	(124)	-	-
Employees' service entitlements (Note 34(a))	171	653	-	-
Staff rationalisation cost	1,596	12,672	-	-
Other benefits	204,558	186,506	44	3,982
Total employee benefits recognised in profit or loss (Note 7)	1,172,349	1,086,589	98	13,954

Included in employee benefits expense of the Group and the Company are executive directors' remuneration, excluding benefits-in-kind, amounting to RM2.1 million (2022: RM1.5 million) and nil (2022: RM0.6 million), respectively as further disclosed in Note 9.

9. DIRECTORS' REMUNERATION

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Directors of the Company				
Executive:				
Salaries and other emoluments	1,122	1,020	-	255
Bonus	680	255	-	255
Contributions to defined contribution plans	265	191	-	71
Allowances	50	50	-	13
Benefits-in-kind	26	28	-	7
	2,143	1,544	-	601
Non-Executive:				
Fees	1,052	1,144	1,052	1,144
Allowances	50	53	50	53
	1,102	1,197	1,102	1,197
Total	3,245	2,741	1,102	1,798
Total excluding benefits-in-kind	3,219	2,713	1,102	1,791

9. DIRECTORS' REMUNERATION (CONTD.)

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Analysis excluding benefits-in-kind:				
Total executive directors' remuneration excluding benefits-in-kind (Note 8)	2,117	1,516	-	594
Total non-executive directors' remuneration excluding benefits-in-kind (Note 7)	1,102	1,197	1,102	1,197
Total directors' remuneration excluding benefits-in-kind (Note 39(b))	3,219	2,713	1,102	1,791

The remuneration of the executive directors are paid for by a subsidiary of the Company during the financial year.

The number of directors of the Company whose total remunerations during the year fell within the following bands is analysed below:

	No. of Directors	
	2023	2022
Executive directors:		
RM550,001 - RM600,000	-	1
Non-executive directors:		
Below RM50,000	1	2
RM50,001 - RM100,000	2	1
RM100,001 - RM150,000	3	4
RM150,001 - RM200,000	2	2
RM200,001 - RM250,000	-	-
RM250,001 - RM300,000	1	1

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

10. INCOME TAX EXPENSE

Major components of income tax expense

Major components of income tax expense for the years ended 31 December 2023 and 2022 are:

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Current income tax:				
- Malaysian income tax	21,336	18,097	136	25
- Foreign tax	28,205	22,310	-	-
- Capital gain tax [#]	-	3,612	-	-
	49,541	44,019	136	25
(Over)/underprovision of income tax in prior years:				
- Malaysian income tax [*]	(79)	7,345	350	6,930
- Foreign tax	403	1,257	-	-
	324	8,602	350	6,930
	49,865	52,621	486	6,955
Deferred tax (Note 24):				
- Relating to origination and reversal of temporary differences	(16,386)	(6,370)	-	-
- (Over)/underprovision in prior years	(1,079)	1,098	-	-
	(17,465)	(5,272)	-	-
Income tax recognised in profit or loss	32,400	47,349	486	6,955

[#] Relates to capital gain tax paid to tax authority upon disposal of an associate in the previous financial year in India as disclosed in Note 19.

^{*} Included in the underprovision of Malaysian income tax in the previous financial year was an amount of RM5.3 million recorded resulted from out-of-court settlement with Director General of Inland Revenue Board (“DGIR”).

Domestic income tax is calculated at the Malaysian statutory tax rate of 24% (2022: 24%) of the estimated assessable profit for the year.

Taxation for other jurisdictions is calculated at the rates prevailing in the respective jurisdictions. Profits derived from overseas branch operations are not subject to Malaysian tax.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

10. INCOME TAX EXPENSE (CONTD.)

Reconciliation between tax expense and accounting profits

A reconciliation of income tax expense and the product of accounting profit multiplied by the applicable corporate tax rate for the years ended 31 December 2023 and 2022 are as follows:

Group	2023 RM'000	2022 RM'000
Profit before tax and zakat	63,654	93,773
Less: Zakat	(1,160)	(773)
	62,494	93,000
Taxation at Malaysian statutory tax rate of 24% (2022: 24%)	14,999	22,320
Tax effect on share of profit of associates	(2,056)	(3,249)
Tax effect on share of profit of a joint venture	(1)	(1)
Income not subject to tax	(914)	(526)
Foreign income not subject to tax	(2,863)	(4,347)
Non-deductible expenses	26,722	23,297
Different tax rates in other countries	(1,780)	(1,816)
Utilisation of previously unrecognised tax losses and unabsorbed capital allowances	(6,067)	(6,643)
Deferred tax assets not recognised during the year	5,115	5,002
Capital gain tax	-	3,612
(Over)/underprovision of deferred tax in prior years	(1,079)	1,098
Underprovision of income tax expense in prior years	324	8,602
Income tax expense recognised in statement of comprehensive income	32,400	47,349

The above reconciliation is prepared by aggregating separate reconciliations for each national jurisdiction.

Company	2023 RM'000	2022 RM'000
Profit before tax and zakat	24,306	45,164
Taxation at Malaysian statutory tax rate of 24% (2022: 24%)	5,833	10,839
Non-deductible expenses	9,234	12,800
Foreign income not subject to tax	(1,674)	(770)
Income not subject to tax	(13,567)	(18,384)
Utilisation of previously unrecognised tax losses and other deductible temporary differences	310	(4,460)
Underprovision of income tax expense in prior years	350	6,930
Income tax expense recognised in statement of comprehensive income	486	6,955

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

11. EARNINGS PER SHARE

Basic earnings per share amounts are calculated by dividing profit for the year attributable to owners of the parent by the weighted average number of ordinary shares in issue during the financial year held by the Company.

	Group	
	2023 RM'000	2022 RM'000
Profit attributable to owners of the parent	31,112	45,879
	Number of shares '000	Number of shares '000
Weighted average number of ordinary shares in issue	831,624	831,624
	Sen	Sen
Basic earnings per share	3.7	5.5

There are no potential ordinary shares outstanding as at 31 December 2023. As such, the diluted earnings per share of the Group is equivalent to the basic earnings per share.

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of authorisation of these financial statements.

12. DIVIDENDS

	Company			
	Amount		Net Dividends per Ordinary Share	
	2023 RM'000	2022 RM'000	2023 Sen	2022 Sen
Recognised during the financial year:				
Single tier interim dividend for the financial year ended 2022: 4.00 sen on 831,624,030 ordinary shares declared on 28 February 2023 and paid on 18 May 2023	33,265	-	4.00	-
Single tier interim dividend for the financial year ended 2021: 3.00 sen on 831,624,030 ordinary shares declared on 24 February 2022 and paid on 19 May 2022	-	24,949	-	3.00

On 28 February 2024, the Board of Directors has declared a single tier interim dividend of 2.00 sen per ordinary share on 831,624,030 ordinary shares, amounting to RM16,632,481 to be paid on 17 May 2024. The entitlement date is 25 April 2024. The financial statements for the current financial year do not reflect this dividend. This dividend will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 December 2024.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

13. PROPERTY, PLANT AND EQUIPMENT (CONTD.)

- (a) The net carrying amounts of property, plant and equipment of the Group charged to a bank for banking facilities (Note 35(a)) are as follows:

	Group	
	2023 RM'000	2022 RM'000
Plant and equipment	83,849	92,829

- (b) During the year, the Group and the Company acquired property, plant and equipment by way of:

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Cash payment	41,279	21,814	602	623
Other payables	6,960	3,651	21	-
	48,239	25,465	623	623

- (c) In the previous financial year, plant and equipment with net carrying amount of RM8,000 has been reclassified to asset held for sale as disclosed in Note 28.

14. INVESTMENT PROPERTIES

	Group	
	2023 RM'000	2022 RM'000
At 1 January	13,800	-
Transfer from land held for property development (Note 16)	-	477
Fair value adjustment (Note 5)	525	13,323
At 31 December	14,325	13,800

The Group's investment properties consist of two pieces of land in Sabah, which is held under lease term.

As at 31 December 2023 and 2022, the fair values of the properties are based on valuations performed by Raine & Horne International, an accredited independent valuer. Raine & Horne International is a specialist in valuing these types of investment properties. A valuation model in accordance with that recommended by the International Valuation Standards Committee has been applied.

For the financial year ended 31 December 2023, the expenses incurred in relation to the investment properties was RM3,000 (2022: RM15,000).

14. INVESTMENT PROPERTIES (CONTD.)

The Group has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Description of valuation techniques

Under the comparison method, a property's fair value is estimated based on comparable transactions. This approach is based upon the principle where a potential buyer will not pay more for the property than it will cost to buy a comparable substitute property and would indicate, by the known selling price of the duplicate, the price for which the subject property could be sold.

Investment properties valued using the comparison method with significant adjustments made for differences such as location, size, condition, accessibility and design ("adjustment factors") are categorised as Level 3 in the fair value hierarchy. The significant unobservable inputs for this category of investment properties, which are the adjustment factors, range generally between -25% and 20% (2022: -20% and 15%) of the property's comparable.

Sensitivity analysis

An increase in the price per square feet of comparable properties in the surrounding vicinity will result in an increase of fair value of the investment properties.

Fair value measurement hierarchy for investment properties

Group	Date of valuation	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Land	31 December 2023	-	-	14,325
Land	31 December 2022	-	-	13,800

- (i) Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- (iii) Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

14. INVESTMENT PROPERTIES (CONTD.)

Fair value measurement hierarchy for investment properties (contd.)

The following table show a reconciliation of Level 3 fair value:

	Group	
	2023 RM'000	2022 RM'000
Land		
As at 1 January	13,800	-
Transfer from land held for development	-	477
Fair value adjustment	525	13,323
As at 31 December	14,325	13,800

15. RIGHT-OF-USE ASSETS AND LEASE LIABILITIES

The Group and the Company have lease contracts for leasehold land, office premises and motor vehicles used in its operations. Leases of premises generally have lease terms between 2 and 15 years, while motor vehicles have lease terms between 2 to 3 years.

The Group and the Company have several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Group's and the Company's business needs. Management exercises judgement in determining whether these extension and termination options are reasonably certain to be exercised.

The Group and the Company also has leases with lease terms of 12 months or less and leases of office equipment with low value. The Group and the Company apply the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the year:

Group	Leasehold land RM'000	Office premises RM'000	Motor vehicles RM'000	Total RM'000
As at 1 January 2023	4,600	39,532	114	44,246

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

17. INTANGIBLE ASSETS (CONTD.)

(a) Goodwill

Impairment testing of goodwill

Goodwill is allocated and monitored by management across the following cash generating units (“CGU”):

	2023 RM’000	2022 RM’000
Asset consultancy:		
Opus Group Berhad and its subsidiaries (“Opus Group”)	38,636	38,636
Healthcare support:		
Edgenta Mediserve Sdn. Bhd. (“EMS”)	26,982	26,982
Edgenta UEMS Group:		
- Malaysia	72,802	68,518
- Singapore	307,423	289,338
- Taiwan	12,259	11,538
Property and Facility Solutions:		
Edgenta GreenTech Sdn. Bhd. and its subsidiaries (“EGT Group”)	49,600	49,600
Infrastructure services:		
Edgenta PROPEL Berhad	76,372	76,372
Others:		
MEEM for Facilities Management Company	3,516*	-
	587,590	560,984

Goodwill is tested for impairment on an annual basis by comparing the carrying amount of the CGU with their respective recoverable amounts, which is based on value-in-use. The value-in-use is determined by discounting future cash flows over a period of five to eleven years including a terminal value. The future cash flows are based on management’s future business plan, which is the best estimate of immediate future performance.

* Difference of goodwill above with goodwill recognised upon completion of transaction disclosed in Note 44 is due to the impact of translation to RM.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

17. INTANGIBLE ASSETS (CONTD.)

(a) Goodwill (contd.)

Key assumptions used in value-in-use calculation

The discount rates applied to the cash flow projections and the forecasted growth rates used to extrapolate cash flows beyond the projection period are as follows:

	Projection period Years	Pre-tax discount rate		Terminal growth rate	
		2023 %	2022 %	2023 %	2022 %
Asset consultancy:					
Opus Group	5	13.8	15.0	1.0	1.0
Healthcare support:					
EMS	11	13.2	9.5	*	*
Edgenta UEMS Group:					
- Malaysia	5	10.6	11.3	1.0	1.0
- Singapore	5	10.0	10.2	1.0	1.0
- Taiwan	5	12.2	13.2	1.0	1.0
Property and Facility Solutions:					
EGT Group	5	9.0	8.4	1.0	1.0
Infrastructure services:					
Edgenta PROPEL Berhad	5	10.0	9.0	1.0	1.0
Others:					
MEEM for Facilities Management Company	5	7.7	-	1.0	-

* For EMS, the value-in-use is determined by discounting cash flows for a period of 11 years (2022: 12 years) with no terminal value.

The calculation of the value-in-use for the CGUs are most sensitive to the following assumptions:

(i) Budgeted gross margin

The basis used to determine the value assigned to the budgeted gross margins is the average gross margins and average growth rate achieved in the years before the budgeted year, adjusted for market and economic conditions and internal resource efficiency.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

17. INTANGIBLE ASSETS (CONTD.)

(a) Goodwill (contd.)

The calculation of the value-in-use for the CGUs are most sensitive to the following assumptions: (contd.)

(ii) Pre-tax discount rate

The discount rates reflect the current market assessment of the risks specific to each CGU. This reflected the management's best estimate of return on capital employed required in the Group.

(iii) Terminal growth rate

Terminal growth rates used to extrapolate cash flows beyond the budget period is based on published industry research for each business.

Sensitivity to change in assumption

Management believes that no reasonable possible change in any of the above key assumptions would cause the recoverable amount of each of the CGUs to be materially lower than their respective carrying amounts.

(b) Customer contracts and relationships

Customer contracts and relationships arose from the acquisition of MEEM, EGT Group and Edgenta UEMS Group are amortised over the range of 3 to 15 years (2022: 5 to 15 years).

(c) Software and other development cost

Computer software represents licenses and other software assets that are not an integral part of property, plant and equipment assets. Software assets are recorded at cost and have finite useful life based on the term of the license or other contractual basis. The cost is amortised over the estimated asset's useful life of 3 to 10 years (2022: between 3 to 10 years).

Other development cost relates to the development of a framework for the application of improved processes, systems and services for servicing expressways.

18. INVESTMENT IN SUBSIDIARIES

	Company	
	2023 RM'000	2022 RM'000
Unquoted shares, at cost (Note (a)):		
- Malaysian subsidiaries	1,872,019	1,871,259

FOR THE YEAR ENDED 31 DECEMBER 2023

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

18. INVESTMENT IN SUBSIDIARIES (CONTD.)

(a) Cost of investment in subsidiary companies (contd.)

(iii) Capitalisation of amounts due from ESG

In the previous financial year, a wholly-owned subsidiary of the Company, ESG increased its share capital from SGD1 to SGD40.8 million (approximately RM131.0 million). The Company subscribed to the new shares which was settled via capitalisation of debts due to the Company amounting to RM131.0 million.

This capitalisation of amounts due from ESG has no cash flows impact to the Company.

(iv) Incorporation of EAL

In the previous financial year, EAL was incorporated in the Kingdom of Saudi Arabia as a wholly-owned subsidiary of the Company.

(b) Impairment of investment in subsidiaries

The movement in accumulated impairment loss as follows:

	Company	
	2023 RM'000	2022 RM'000
At 1 January	415,300	410,784
Impairment loss on investment in a subsidiary company	-	4,516
At 31 December	415,300	415,300

In the previous financial year, an impairment loss of RM4.5 million was recognised against the carrying amount of its investment in Edgenta Environmental & Material Testing Sdn. Bhd. (“EEMT”) of RM25.9 million to its recoverable amounts. Based on management’s assessment, the recoverable amount of its investment in EEMT was RM21.4 million which was estimated based on the net tangible asset of EEMT.

18. INVESTMENT IN SUBSIDIARIES (CONTD.)

Summarised financial information

Summarised financial information of Rimbunan Melati Sdn. Bhd. (“Rimbunan Melati”) and MEEM for Facilities Management Company (“MEEM”), which have non-controlling interests that are material to the Group, is set out below. The summarised financial information presented below is the amount before inter-company elimination. The non-controlling interests in respect of other entities within the Group are not material to the Group.

In the previous financial year, Opus Consultants (Sarawak) Sdn. Bhd. ("OCS"), an indirect wholly-owned subsidiary of the Company via Opus International (M) Berhad ("OIMB") has issued 175,000 new ordinary shares. Pursuant to the Shareholders' Agreement between OIMB and PPES Consults Sdn. Bhd. ("PPES"), 47,500 and 127,500 new ordinary shares were allotted to OIMB and PPES, respectively.

As a result, OIMB's equity interest in OCS was diluted to 49% and OCS became a joint-venture ("JV") company to OIMB.

Summarised financial information of OCS has not been disclosed as they are immaterial.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

22. TRADE AND OTHER RECEIVABLES (CONTD.)

(a) Trade receivables (contd.)

Receivables that are neither past due nor impaired

Trade receivables that are neither past due nor impaired are creditworthy debtors with good payment records with the Group. At the reporting date, approximately 11% (2022: 8%) of the Group’s trade receivables arose from current receivable balances with related companies, while approximately 18% (2022: 19%) of the Group’s trade receivables arose from current receivable balances with Ministry of Health (“MOH”).

None of the Group’s trade receivables that are neither past due nor impaired have been renegotiated during the financial year.

Receivables that are past due from the credit terms but not impaired

The Group has trade receivables amounting to RM279.5 million (2022: RM216.2 million) that are past due from the credit terms at the reporting date but not impaired.

The Group’s objectives, policies and processes of credit risk are as disclosed in Note 41(a).

(b) Other receivables

Amounts due from subsidiaries and related parties

As at 31 December 2023, amounts due from subsidiaries are non-trade related, repayable on demand and bears interest ranging between 3.83% to 4.08% per annum (2022: 3.76% to 3.83% per annum).

Amounts due from related parties are non-trade related, non-interest bearing and repayable on demand.

All related companies balances are repayable on demand, unsecured and are to be settled in cash.

Further details on related party transactions are disclosed in Note 39.

22. TRADE AND OTHER RECEIVABLES (CONTD.)

(b) Other receivables (contd.)

Other receivables that are impaired

At the reporting date, the Group and the Company have provided an allowance of RM2.8 million (2022: RM3.0 million) and RM11.8 million (2022: RM12.7 million) respectively.

(c) Concession receivable

This is in relation to a concession arrangement in which the Group provides retro-fitting works and upgrades of infrastructure to turn existing buildings into green buildings. These amounts are to be repaid over the remaining period of the concession. These amounts are also pledged as security for the borrowing obtained for this concession as disclosed in Note 35(a).

23. CONTRACT RELATED ASSETS AND LIABILITIES

	Group	
	2023 RM'000	2022 RM'000
Contract assets (a)		
Non-current	32,136	73,109
Current	441,306	357,174
	473,442	430,283
Contract liabilities (a)		
Current	(31,916)	(30,777)
Contract fulfillment asset (b)		
Non-current	-	547
Current	590	2,230
	590	2,777

(a) Contract assets and liabilities

Contract assets are initially recognised for revenue earned from services transferred which receipt of the consideration is conditional on the completion and final acceptance by customers. Upon final acceptance by the customers, the amounts recognised as contract assets becomes unconditional and are reclassified to trade receivables.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

23. CONTRACT RELATED ASSETS AND LIABILITIES (CONTD.)

(a) Contract assets and liabilities (contd.)

The increase in contract asset as at financial year ended 31 December 2023 was mainly due to the infrastructure services works performed towards the year-end.

Contract liabilities include billings made in advance which represent amounts where customers have been invoiced ahead of the satisfaction of the performance obligation by the Group.

Set out below is the amount of revenue recognised from:

	Group	
	2023 RM'000	2022 RM'000
Amounts included in contract liabilities at the beginning of the year	19,396	14,235

(b) Contract fulfillment asset

	Group	
	2023 RM'000	2022 RM'000
As at 1 January	2,777	4,711
Utilised during the year	(2,187)	(1,934)
As at 31 December	590	2,777

These costs relate to direct cost incurred to generate or enhance resources used in satisfying the contracts with customers and amortised on a straight-line basis over the period of the respective contracts. The amortisation period for these costs are between 4 to 5 years (2022: between 4 to 5 years).

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

24. DEFERRED TAX

	Group	
	2023 RM'000	2022 RM'000
At 1 January	34,615	39,251
Recognised in statement of comprehensive income (Note 10)	(17,465)	(5,272)
Exchange differences	783	636
At 31 December	17,933	34,615

At 31 December 2022	(6,470)	(6,043)	(12,513)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

24. DEFERRED TAX (CONTD.)

The components and movements of deferred tax assets and liabilities during the financial year prior to offsetting are as follows: (contd.)

Deferred tax liabilities of the Group:

	Property, plant and equipment RM'000	Intangible assets RM'000	Concession receivable and others RM'000	Total RM'000
At 1 January 2023	24,468	17,027	29,258	70,753
Recognised in profit or loss	(738)	(3,535)	1,153	(3,120)
Exchange differences	59	688	-	747
	23,789	14,180	30,411	68,380
Less: Set off with deferred tax assets	(18,339)	-	(8,998)	(27,337)
At 31 December 2023	5,450	14,180	21,413	41,043
At 1 January 2022	5,615	22,256	29,329	57,200
Recognised in profit or loss	18,761	(5,810)	(71)	12,880
Exchange differences	92	581	-	673
	24,468	17,027	29,258	70,753
Less: Set off with deferred tax assets	(19,602)	-	(4,023)	(23,625)
At 31 December 2022	4,866	17,027	25,235	47,128

The Group offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

24. DEFERRED TAX (CONTD.)

Deferred tax assets have not been recognised in respect of the following items:

Malaysian Companies

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Unutilised tax losses	169,930	167,576	23,715	23,715
Unabsorbed capital allowances	17,669	22,433	13,769	13,769
Others	30,904	32,457	11,583	10,289
	218,503	222,466	49,067	47,773
Deferred tax benefit at 24%, if recognised	52,441	53,392	11,776	11,465

Deferred tax assets have not been recognised in respect of these items for certain subsidiary companies as it is not probable that taxable profits of the subsidiary companies would be available against which the unutilised tax losses, unabsorbed capital allowances and other deductible temporary differences could be utilised.

The unabsorbed capital allowance of the Group are available indefinitely for offsetting against future taxable profits of the respective entities within the Group, subject to no substantial changes in shareholdings of those entities under the Income Tax Act, 1967 and guidelines issued by the tax authority.

Effective from Year of Assessment 2019, unused tax losses are allowed to be carried forward for a maximum period of ten years. The details of the expiry of the Group's and the Company's unutilised tax losses are as follows:

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
- Expires in 2028	36,253	39,968	-	-
- Expires in 2029	36,511	36,835	23,715	23,715
- Expires in 2030	18,848	27,069	-	-
- Expires in 2031	40,203	45,395	-	-
- Expires in 2032	22,650	18,309	-	-
- Expires in 2033	15,465	-	-	-
	169,930	167,576	23,715	23,715

The foreign unutilised losses and unabsorbed capital allowances applicable to foreign incorporated subsidiary companies, if any, are pre-determined by and subject to the tax legislations of the respective countries.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

25. INVENTORIES

	Group	
	2023 RM'000	2022 RM'000
Consumables	16,754	17,178

The amounts of inventories recognised as expenses in cost of sales of the Group is disclosed in Note 4.

In the previous financial year, inventories amounted to RM12.8 million was written off. These inventories were related to the COVID-19 business under the healthcare support segment, were purchased in the same year that they were written off.

26. SHORT TERM INVESTMENTS

	Group	
	2023 RM'000	2022 RM'000
Financial asset at fair value through profit or loss: - unquoted unit trusts (money market funds)	26,616	97,178

Unquoted unit trusts (money market funds) represent investment funds invested with licensed fund managers in the funds approved by the Securities Commission Malaysia. The portfolio of investments authorised by the Board of Directors comprises only deposits in both Islamic and conventional instruments with financial institutions.

27. CASH, BANK BALANCES AND DEPOSITS

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Cash in hand and at banks	421,716	478,242	1,746	53,289
Deposits with licensed banks	194,100	131,244	1,500	9,000
	615,816	609,486	3,246	62,289

- (a) Included in cash at bank of the Group are amounts of RM0.12 million (2022: RM0.12 million) held pursuant to Section 7A of the Housing Development (Control and Licensing) Act 1966 and Section 8A of the Housing Development Account (Control and Licensing) Sabah Act, 1978 and are restricted for use in other operations.
- (b) Deposits with licensed banks of the Group amounting to RM3.4 million (2022: RM3.2 million) are on lien for bank guarantee facilities granted to certain subsidiaries. As at 31 December 2023, the subsidiaries have utilised guarantee facilities amounting to RM1.5 million (2022: RM1.5 million).
- (c) Deposits with licensed banks amounting to RM0.5 million (2022: RM2.0 million) are pledged to secure certain facilities granted to the Group.
- (d) Deposits with licensed banks of the Group amounting to RM20.0 million (2022: RM22.9 million) are pledged as securities for bank borrowing granted to a foreign subsidiary.
- (e) Cash and fixed deposits of RM24.7 million (2022: RM21.9 million) from a foreign subsidiary are pledged as collateral for performance of service under integrated facility management contract, and are therefore restricted from use in other operation.
- (f) Cash and bank balances amounting to RM0.6 million (2022: RM0.7 million) are held in trust to maintain and deposit all security deposits received by the Company as licensed Estate Agent held on behalf of its client.
- (g) The maturities of deposits are between 1 to 365 days (2022: 1 to 365 days).

Other information on financial risks of cash, bank balances and deposits are disclosed in Note 41.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

28. NET ASSETS CLASSIFIED AS HELD FOR SALE

In the previous financial year, the Board of Directors approved the plan to dispose Faber Union Sdn. Bhd. (“FUSB”), an indirect wholly-owned subsidiary of the Company via Faber Development Holdings Sdn. Bhd. (“FDH”).

Summarised statement of financial position

The major classes of assets and liabilities of FUSB classified as held for sale are as follows:

	2023 RM'000	2022 RM'000
Assets		
Plant and equipment	-	8
Trade and other receivables	-	1,823
Inventories	46,570	49,493
Tax recoverable	2,829	2,884
Cash and short term deposit	12,046	35,840
Assets held for sale	61,445	90,048
Liabilities		
Accruals, representing liability directly associated with assets held for sale	(1,027)	(3,171)
Net assets of disposal group	60,418	86,877

The assets are measured at the lower of their carrying amount and fair value less costs to sell.

As at the date of these financial statements, the disposal is pending completion as the Group is still negotiating terms and conditions of the sale.

FUSB has not been disclosed as discontinued operation as the Group considers its operation to be immaterial.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

29. SHARE CAPITAL

	Number of ordinary shares		Amount	
	2023 '000	2022 '000	2023 RM'000	2022 RM'000
Issued and fully paid up				
At 1 January/31 December	831,624	831,624	268,074	268,074

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All ordinary shares rank equally with regard to the Company’s residual assets.

30. CAPITAL AND OTHER MERGER RESERVE

The acquisitions of Opus Group Berhad and Edgenta PROPEL Berhad in prior years, which was accounted for using the pooling of interest method, gave rise to the following:

(a) Capital reserve

This reserve represents the excess of issue price of the Company’s shares over the par value in accordance with Section 60(4)(a) of the Companies Act, 1965. This reserve had been partially set off against the merger deficit reserve in prior years for the purpose of presentation in the financial statements of the Group.

(b) Other merger reserve

This reserve represents the excess of fair value of the Company’s shares at the acquisition date over the issue price. This reserve had been fully set off against the merger deficit reserve for the purpose of presentation in the financial statements of the Group.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

31. OTHER RESERVES

Group	Statutory reserve RM'000 (Note a)	Foreign currency translation reserve RM'000 (Note b)	Other reserve RM'000 (Note c)	Total RM'000
At 1 January 2022	-	(9,279)	9,163	(116)
Foreign currency translation	-	23,182	-	23,182
At 31 December 2022	-	13,903	9,163	23,066
Foreign currency translation	-	40,247	-	40,247
Acquisition of a subsidiary	294	-	-	294
At 31 December 2023	294	54,150	9,163	63,607

(a) Statutory reserve

This reserve is maintained by the subsidiaries in Kingdom of Saudi Arabia. In accordance with the Regulation for Companies in the Kingdom of Saudi Arabia, companies are required to transfer 10% of the net income for the year to a statutory reserve until it equals to 50% of its share capital. The reserve is not available for distribution to the shareholders of the companies.

(b) Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency. It is also used to record the exchange differences arising from monetary items which form part of the Group's net investment in foreign operations, where the monetary item is denominated in either the functional currency of the reporting entity or the foreign operation.

(c) Other reserve

Other reserve arose from the redemption of redeemable preference shares in prior years by a subsidiary.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

32. RETIREMENT BENEFIT OBLIGATIONS

Retirement benefit obligations recognised by the Group is analysed into:

	Group	
	2023 RM'000	2022 RM'000
Current	268	1,036
Non-current	893	1,046
	1,161	2,082

The Group operates an unfunded, defined benefit Retirement Scheme ("the Scheme") for its eligible employees. The Scheme is closed to new employees. Under the Scheme, eligible employees are entitled to retirement benefits on attainment of the retirement age of 60 (2022: 60), on medical incapacity or on death. The present value of defined benefit obligation was based on the actuarial valuation report by independent actuaries dated 9 January 2023.

The details of the net employee benefits liability are as follows:

	Group	
	2023 RM'000	2022 RM'000
Present value of the defined benefit obligations ("PVDBO")		
At 1 January	2,082	2,690
Defined retirement benefit obligations (Note 8)	(600)	411
Actuarial gain	-	(821)
Contributions paid	(321)	(198)
At 31 December	1,161	2,082

	Group	
	2023 RM'000	2022 RM'000
Analysis of funded and unfunded PVDBO		
Analysed as:		
Current	268	1,036
Non-current:		
Later than 1 year but not later than 2 years	229	268
Later than 2 years	664	778
	893	1,046
PVDBO from plans that are wholly unfunded	1,161	2,082

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

32. RETIREMENT BENEFIT OBLIGATIONS (CONTD.)

The details of net employee benefits expense recognised in income statement are as follows:

	Group	
	2023 RM'000	2022 RM'000
Current service costs	22	21
(Gain)/loss on settlement	(715)	209
Interest cost	93	181
Net employee benefits expense (Note 8)	(600)	411

Total amount recognised in statement of comprehensive income

	Group	
	2023 RM'000	2022 RM'000
Cumulative amount of actuarial loss recognised in statement of comprehensive income:		
At 1 January	142	963
Actuarial gain recognised in other comprehensive income	-	(821)
At 31 December	142	142
Historical experience adjustments:		
PVDBO	1,161	2,082
Experience adjustment (value)	-	(821)
Experience adjustment (% of PVDBO)	0%	-39%

Principal actuarial assumptions used:

	2023 %	2022 %
Discount rate	4.50	4.50
Expected rate of salary increases	4.00	4.00

Assumptions regarding future mortality are based on published statistics and mortality tables.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

32. RETIREMENT BENEFIT OBLIGATIONS (CONTD.)

A one percentage point change in the below key assumptions would have the following effects to the retirement benefit obligations:

Sensitivity Level	Increase in one percentage		Decrease in one percentage	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Assumptions				
Discount rate	24	42	(25)	(44)
Salary increment rate	(171)	(171)	128	132

The average duration of the retirement benefit obligation at the end of the reporting period is 2 years (2022: 2 years).

33. DEFINED BENEFIT PENSION PLANS

	Funded RM'000	Unfunded RM'000	Total RM'000
As at 31 December 2023			
Non-current	735	2,491	3,226
As at 31 December 2022			
Non-current	709	-	709

As at 31 December 2023, defined benefit pension plans of the Group are operated by three subsidiaries of the Group, Edgenta UEMS Ltd. ("UEMS Taiwan"), Edgenta Arabia Limited ("EAL") and MEEM for Facilities Management Company ("MEEM").

(a) Funded defined benefit plan

UEMS Taiwan has a retirement plan covering all its regular employees who opted for defined benefits plan. Benefits under the plan are based on the length of service and estimated base pay at the time of retirement. The pension assets and liabilities are valued on annual basis by independent actuary, taking into account gains and losses.

The plan assets, comprising cash and cash equivalents, are deposited with the Bank of Taiwan and are managed by the government of Taiwan. The plan assets do not have quoted market prices in active market.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

33. DEFINED BENEFIT PENSION PLANS (CONTD.)

(a) Funded defined benefit plan (contd.)

Amount recognised in the statement of comprehensive income:

	Group	
	2023 RM'000	2022 RM'000
Interest cost on benefit obligation	17	10
Employer's contribution	(27)	(131)
Interest income	-	(3)
Total included in employee benefits expense (Note 8)	(10)	(124)
Net actuarial loss/(gain) recognised for the year	18	(121)
	8	(245)

Amount recognised in statement of financial position:

	Group	
	2023 RM'000	2022 RM'000
Present value of defined benefit obligation	1,308	1,238
Fair value of plan assets	(573)	(529)
Defined benefit obligation	735	709

Changes in present value of defined benefit obligation:

	Group	
	2023 RM'000	2022 RM'000
At 1 January	1,238	1,675
Interest cost	17	10
Benefit paid	(27)	(281)
Actuarial loss/(gain)	24	(102)
Exchange differences	56	(64)
At 31 December	1,308	1,238

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

33. DEFINED BENEFIT PENSION PLANS (CONTD.)

(a) Funded defined benefit plan (contd.)

Changes in fair value of plan assets:

	Group	
	2023 RM'000	2022 RM'000
At 1 January	(529)	(672)
Employer's contribution	(38)	(131)
Benefit paid	27	281
Actuarial gain	(6)	(19)
Interest income	(7)	(3)
Exchange differences	(20)	15
At 31 December	(573)	(529)

The principal assumptions used in determining defined benefit obligation of the Group are shown below:

	Group	
	2023	2022
Discount rate	1.27%	1.33%
Salary escalation	3.00%	3.00%

Actual return on plan assets:

	Group	
	2023 RM'000	2022 RM'000
Actual return of plan assets, representing actuarial gain recognised in the other comprehensive income	(6)	(19)

A quantitative sensitivity analysis for significant assumptions as at 31 December 2023 and 2022 are as shown below:

Sensitivity level	Increase in one percentage		Decrease in one percentage	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Assumptions				
Discount rate	(116)	(121)	122	129
Salary increase	120	126	(114)	(119)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

33. DEFINED BENEFIT PENSION PLANS (CONTD.)

(a) Funded defined benefit plan (contd.)

The sensitivity analysis above has been determined based on a method that extrapolates the impact on net defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The average duration of the defined benefit obligation at the end of the reporting period is 9 years (2022: 10 years).

(b) Unfunded defined benefit plans

EAL and MEEM operate unfunded retirement plans covering all their regular employees to comply with the requirement of the Saudi Arabian Labour Law. Benefits under the plan are based on the length of service and estimated base pay at the time of resignation, retirement, death and termination of the employees' service for reasons other than misconduct, negligence or incompetence. The pension assets and liabilities are valued on annual basis by independent actuary, taking into account gains and losses.

	Group	
	2023 RM'000	2022 RM'000
At 1 January	-	-
Acquisition of a subsidiary (Note 44(a))	1,901	-
Charge for the year	520	-
Payments for the year	(51)	-
Exchange differences	121	-
At 31 December	2,491	-

The details of net employee benefits expense recognised in income statement are as follows:

	Group	
	2023 RM'000	2022 RM'000
Current service costs	520	-

33. DEFINED BENEFIT PENSION PLANS (CONTD.)

(b) Unfunded defined benefit plans (contd.)

The principal assumptions used in determining defined benefit obligation of the Group are shown below:

	Group	
	2023 %	2022 %
Discount rate	4.55 - 4.75	-
Salary increment rate	4.75 - 5.00	-

A quantitative sensitivity analysis for significant assumptions as at 31 December 2023 and 2022 are as shown below:

Sensitivity level	Increase in one percentage		Decrease in one percentage	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Assumptions				
Discount rate	(153)	-	172	-
Salary increase	182	-	(165)	-

The average duration of the defined benefit obligation at the end of the reporting period is between 6.24 to 10.52 years.

34. PROVISIONS

	Group	
	2023 RM'000	2022 RM'000
Non-current:		
Provision for employee service entitlements (Note a)	4,132	4,280
Current:		
Provision for long term incentive plan (Note b)	-	1,620
Total	4,132	5,900

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

34. PROVISIONS (CONTD.)

(a) Provision for employee service entitlements

	Group	
	2023 RM'000	2022 RM'000
At 1 January	4,280	3,441
Charged to the statement of comprehensive income (Note 8)	171	653
Exchange differences	(319)	186
At 31 December	4,132	4,280

Provision for employee service entitlements comprises provisions for retirement leave entitlements in respect of eligible employees. The provisions are in respect of both vested and unvested entitlements, and are made by reference to independent actuarial valuations. The timing of such payments depends on when vesting occurs and the subsequent retirement date of the eligible employees.

(b) Provision for long term incentive plan ("LTIP")

	Group	
	2023 RM'000	2022 RM'000
At 1 January	1,620	1,620
Reversal of provision (Note 7)	(1,620)	-
At 31 December	-	1,620

The Group under some of its subsidiaries grant the Shadow Share Option Scheme, i.e. LTIP, to eligible employees, as part of the remuneration package, whereby the employees will be entitled to future cash payments subject to meeting the pre-determined financial performance and value growth targets of the Group over a specific performance vesting period.

During the financial year, the provision has been reversed as its realisation no longer probable.

35. BORROWINGS (CONTD.)

The maturity profile of the loans and borrowings are as follows:

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Within one year	175,519	127,111	85,000	52,000
More than 1 year and less than 2 years	51,997	26,563	-	-
More than 2 years and less than 5 years	262,347	305,076	250,000	250,000
	314,344	331,639	250,000	250,000
	489,863	458,750	335,000	302,000

(a) Term loans

- Secure term loans bear interests which range from 4.30% to 5.22% per annum (2022: 3.66% to 3.99% per annum).
- The term loans are secured by:
- (i) Assignment of rights, title, interest and benefits of the customer under the Concession Agreement in respect of the followings:
 - Project payment charges
 - Amount payable to the customer by the Government of Malaysia as a result of early termination
 - Appointment of substituted entity
 - (ii) Assignment of proceeds over revenue and other income generated from a project;
 - (iii) Assignment over designated accounts;
 - (iv) Letter of undertaking from a subsidiary to service the monthly obligation of the customer in the event of any shortfall;
 - (v) Corporate guarantee from a subsidiary;
 - (vi) Deed of assignment and charge over a bank account; and
 - (vii) Fixed and floating charge over present and future assets.

35. BORROWINGS (CONTD.)

(b) Islamic Commercial Papers (“ICPs”) and Islamic Medium Term Notes (“IMTNs”)

- The Company had established the ICPs and IMTNs under an Islamic Commercial Papers Programme and Islamic Medium Term Notes Programme respectively, which have a combined aggregate limit of up to RM1,000 million in nominal value and a sub-limit of RM300 million in nominal value for the ICP Programme under the Shariah Principle of Murabahah via a Tawarruq Arrangement. The tenure for ICPs and IMTNs are at 7 and 30 years, respectively from the date of the first issue.
- ICPs**
- Upon reaching its maturity in 2021, the Company redeemed its outstanding ICPs and did not make any reissuance.
- IMTNs**
- The Company redeemed its outstanding IMTNs amounting to RM250.0 million in nominal value upon its maturity on 26 April 2022. On the same date, the Company reissued the IMTNs with the same nominal value with a tenor of four years. The IMTNs will mature on 24 April 2026.
- The effective profit rates for IMTNs at the reporting date is 4.25% (2022: 4.25%).

(c) Revolving credit

- Unsecured revolving credit of the Group and the Company bears interest of 4.06% (2022: 3.45%).
- Secured revolving credit of the Group bears interest rate at the range between 1.74% and 4.45% (2022: 1.74%). The facility is secured by corporate guarantee from fellow subsidiaries.

Due to holding company (Note c)	1,707	1,465
Due to related companies (Note d)	3,121	4,738
Due to subsidiary companies (Note c)	3,876	3,296
Total	25,530	26,405

(a) Trade payables

Trade payables are non-interest bearing and the normal trade credit terms granted to the Group range from 30 to 90 days (2022: 30 to 90 days).

(b) Retention payables

Retention payables are unsecured, interest-free and are expected to be paid within the terms of the relevant contracts.

(c) Amounts due to holding and subsidiary companies

Amounts due to holding and subsidiary companies are non-interest bearing and repayable on demand. The amounts are unsecured and are to be settled in cash.

Further details on related party transactions are disclosed in Note 39.

(d) Amounts due to related companies

Related companies refer to companies within the UEM group of companies.

Amounts due to related companies are non-interest bearing and are repayable on demand. The amounts are unsecured and are to be settled in cash.

Further details on related party transactions are disclosed in Note 39.

37. CAPITAL COMMITMENTS

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Capital expenditure				
Approved and contracted for purchase of:				
- intangible assets	2,155	85	-	-
- property, plant and equipment	14,219	23,408	-	526
Approved but not contracted for purchase of :				
- intangible assets	20,550	19,935	-	5,770
- property, plant and equipment	78,554	72,878	-	1,558

38. PERFORMANCE BONDS AND GUARANTEES

	Group	
	2023 RM'000	2022 RM'000
Secured:		
Performance bond extended to Government of Malaysia in respect of security for the due performance of the Hospital Support Services Concession Agreement	24,634	19,655
Bank guarantee issued to authorities	3,691	6,067
Bank guarantees and performance bonds issued to others	153,337	143,349
Corporate guarantee for banking facilities utilised by fellow subsidiaries	448,766	422,902
	630,428	591,973
Unsecured:		
Bank guarantees extended to third parties - trade related	25,870	25,320

As at the reporting date, no values are ascribed on these guarantees provided by the Group for the purpose described above as the directors regard the value of the credit enhancement provided by these guarantees as minimal and the probability of default, based on historical track records of the parties receiving the guarantees are not probable.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

39. RELATED PARTY DISCLOSURES

(a) Sale and purchase of services

In addition to the transactions and balances detailed elsewhere in the financial statements, the Group and the Company had the following significant transactions at terms agreed between the related parties during the financial year:

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Income received/receivable from				
Management fees from subsidiaries	-	-	-	22,748
Asset consultancy services fees received from:				
- related companies	25,969	25,636	-	-
- associates	40,075	44,547	-	-
Infrastructure maintenance fees received from:				
- related companies	874,455	653,065	-	-
Facilities management fees received from:				
- related companies	99,912	79,895	-	-
License and commission fees received from an associate	-	1,197	-	-
Rental received from:				
- a subsidiary	-	-	9,800	9,821
- an associate	134	147	-	-
Expenses paid/payable to				
Rendering of services by:				
- immediate holding company	(10,000)	(10,000)	-	-
- a subsidiary	-	-	(18,220)	(17,138)
- related companies	(8,128)	(5,389)	-	-
- associates	(17,042)	(11,665)	-	-
Rental paid to:				
- immediate holding company	(1,044)	(1,373)	(1,032)	(1,373)
- related company	(9,142)	(9,219)	(9,142)	(9,219)
- a subsidiary	-	-	(515)	(515)

39. RELATED PARTY DISCLOSURES (CONTD.)

(a) Sale and purchase of services (contd.)

All other significant intercompany transactions have been disclosed in Note 22 and 36.

Related parties referred to:

- subsidiaries, associates and joint venture of the Company and their subsidiaries;
- Khazanah Nasional Berhad, the ultimate holding Company, its subsidiaries and associates excluding subsidiaries of the Company;
- those companies controlled, jointly controlled and significantly influenced by the Government of Malaysia, other than those mentioned above;
- directors and key management personnel having authority and representation for planning, directing and controlling the activities of the Company and their close family members;
- enterprises owned by directors and key management personnel; and
- enterprises that have a member of key management in common with the Company.

The directors are of the opinion that all the transactions above have been entered into in the normal course of the business and have been established on mutually agreed terms and conditions.

(b) Compensation of key management personnel

Key management personnel is defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly including any directors.

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Salaries and other emoluments	15,778	14,258	-	1,779
Contributions to defined contribution plans	1,417	1,419	-	237
	17,195	15,677	-	2,016

Included in total key management personnel compensation are:

	Group		Company	
	2023 RM'000	2022 RM'000	2023 RM'000	2022 RM'000
Directors' remuneration excluding benefits-in-kind (Note 9)	3,219	2,713	1,102	1,791

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

40. FINANCIAL INSTRUMENTS

Classification of financial instruments

The principal accounting policies in Note 2.4 describe how the classes of financial instruments are measured, and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the financial assets and liabilities in the statements of financial position by the class of financial instrument to which they are assigned, and therefore by the measurement basis:

Group	FVTPL RM'000	Amortised cost RM'000	Total RM'000
2023			
Assets			
Trade receivables, net (Note 22)	-	516,785	516,785
Concession receivable (Note 22)	-	112,396	112,396
Other receivables, net (Note 22)	-	64,833	64,833
Cash, bank balances and deposits (Note 27)	-	615,816	615,816
Short term investments (Note 26)	26,616	-	26,616
Total financial assets	26,616	1,309,830	1,336,446
Liabilities

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to financial risks arising from their operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, foreign currency risk, interest rate risk and market price risk.

The Group’s financial risk management policy seeks to ensure that adequate financial resources are available for the development of the Group’s businesses whilst managing its interest rate risks (both fair value and cash flow), foreign currency risk, liquidity risk and credit risk. The Board of Directors reviews and agrees policies and procedures for the management of these risks. The audit committee provides independent oversight to the effectiveness of the risk management process.

It is, and has been throughout the current and previous financial year, the Group’s policy that no derivatives shall be undertaken except for the use as hedging instruments where appropriate and cost-efficient.

The following sections provide details regarding the Group’s exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

(a) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Trade receivables and contract assets

Customer credit risk is managed by each business unit subject to the Group’s established policy, procedures and control relating to customer credit risk management. The Group minimises credit risk by dealing exclusively with high credit rating counterparties. The Group controls its credit risk by the application of credit approvals, limits and monitoring procedures. Credit evaluations are performed on all customers requiring credit over a certain amount and strictly limiting the Group’s associations to business partners with high credit worthiness. Outstanding customer receivables and contract assets are regularly monitored and the status of major receivables are reported to the Board of Directors.

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(a) Credit risk (contd.)

Trade receivables and contract assets (contd.)

The Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments in calculating ECLs for trade receivables and contract assets. The amount and timing of future cash flows are then estimated based on historical credit loss experience for assets with similar credit risk characteristics and adjusted with forward-looking information such as forecast economic conditions. The measurement of ECL take into accounts reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forward-looking factors specific to the debtors.

Exposure to credit risk

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 40. The Group does not hold collateral as security.

Credit risk concentration profile

The Group determines concentrations of credit risk by monitoring the country sector profile of its trade receivables on an ongoing basis. The credit risk concentration profile of the Group’s net trade receivables at the reporting date are as follows:

	2023		2022	
	RM'000	% of total	RM'000	% of total
By country:				
Malaysia	298,225	58	240,938	59
United Arab Emirates	34,080	7	19,168	5
Singapore	73,303	14	58,902	14
Taiwan	105,525	20	88,320	22
Saudi Arabia	5,652	1	-	-
	516,785	100	407,328	100

At the reporting date, the Group’s ten largest customers account for approximately 21% (2022: 37%) of total trade receivables. Majority of these customers are government, quasi-government agency and government linked organisations.

Financial assets that are either past due or impaired

Information regarding financial assets that are either past due or impaired is disclosed in Note 22.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(b) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group’s and the Company’s exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group’s and the Company’s objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities.

The Group manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that refinancing, repayment and funding needs are met. As part of its overall liquidity management, the Group maintains sufficient levels of cash or cash convertible investments to meet its working capital requirements. In addition, the Group strives to maintain available banking facilities at a reasonable level to its overall debt position. As far as possible, the Group raises committed funding from both capital markets and financial institutions and balances its portfolio with some short term funding so as to achieve overall cost effectiveness.

Analysis of financial instruments by remaining contractual maturities

The table below summarises the maturity profile of the Group’s and the Company’s liabilities at the reporting date based on contractual undiscounted repayment obligations.

Group	On demand or within one year RM’000	One to five years RM’000	More than five years RM’000	Total RM’000
2023				
Financial liabilities:				
Trade and other payables	689,107	6,548	-	695,655

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(b) Liquidity risk (contd.)

Analysis of financial instruments by remaining contractual maturities (contd.)

The table below summarises the maturity profile of the Group’s and the Company’s liabilities at the reporting date based on contractual undiscounted repayment obligations (contd.).

Company	On demand or within one year RM’000	One to five years RM’000	More than five years RM’000	Total RM’000
2022				
Financial liabilities:				
Other payables	26,405	-	-	26,405
Lease liabilities	9,700	20,901	-	30,601
Loans and borrowings:				
- Revolving credit	52,000	-	-	52,000
- IMTNs	-	296,970	-	296,970
Total undiscounted financial liabilities	88,105	317,871	-	405,976

(c) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group’s exposure to the risk of changes in foreign exchange rates relates primarily to the Group’s operating activities (when revenue or expense is denominated in a foreign currency) and the Group’s net investments in foreign subsidiaries.

The Group operates internationally and is exposed to various currencies, mainly Singapore Dollar (“SGD”), Taiwanese Dollar (“TWD”), Indonesian Rupiah (“IDR”), United Arab Emirates Dirham (“AED”), Saudi Arabia Riyal (“SAR”) and New Zealand Dollar (“NZD”).

The Group maintains a natural hedge, whenever possible, by borrowing in the currency of the country in which the investments are located or by borrowing in currencies that match the future revenue stream to be generated from its investments.

As and when the Group undertakes significant transactions denominated in foreign currencies, with continuing exposure over the applicable periods of settlement, the Group evaluates its exposure and the necessity to hedge such exposure, as well as the availability and cost of such hedging instruments.

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(c) Foreign currency risk (contd.)

Sensitivity analysis for foreign currency risk

The following table demonstrates the sensitivity of the Group’s profit before tax and equity to a reasonably possible change in the SGD and TWD exchange rates against the RM, with all other variables held constant.

	Change in SGD rate	Effect on profit before tax RM’000	Effect on equity RM’000
2023	6% -6%	22 (22)	35,181 (35,181)

2022	6% -6%	1,579 (1,579)	33,305 (33,305)
------	-----------	------------------	--------------------

	Change in TWD rate	Effect on profit before tax RM’000	Effect on equity RM’000
2023	5% -5%	- -	6,752 (6,752)

2022	6% -6%	- -	7,230 (7,230)
------	-----------	--------	------------------

The impact of sensitivity analysis of the rest of the foreign currencies is not material to the Group.

(d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group’s and the Company’s financial instruments will fluctuate because of changes in market interest rates.

As the Group has no significant interest-bearing financial assets, the Group’s income and operating cash flows are substantially independent of changes in market interest rates. The Group’s interest-bearing financial assets are mainly short term in nature and have been mostly placed in fixed deposits or occasionally, in short term commercial papers.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(d) Interest rate risk (contd.)

The Group’s interest rate risk arises primarily from interest-bearing borrowings. Borrowings at floating rates expose the Group to cash flow interest rate risk. Borrowings obtained at fixed rates expose the Group to fair value interest rate risk. The Group’s policy is to manage interest cost using a mix of fixed and floating rate debts.

Sensitivity analysis for interest rate risk

A sensitivity analysis had been performed to determine the sensitivity of the Group’s profit net of tax to a reasonably possible change in the interest rate at the reporting date. This analysis assumes that all other variables, in particular foreign currency rate, remain constant. Based on the analysis, there is no material impact to the Group’s profit net of tax.

The following tables set out the carrying amounts, the weighted average effective interest rates (“WAEIR”) as at the reporting date and the remaining maturities of the Group’s and of the Company’s financial instruments that are exposed to interest rate risk:

At 31 December 2023	Note	WAEIR %	Within 1 year RM'000	1-2 years RM'000	2-5 years RM'000	> 5 years RM'000	Total RM'000
Group							
Fixed rate							
Deposits with licensed banks and other financial institutions	27	2.22	194,100	-	-	-	194,100
IMTNs	35	4.25	-	-	(250,000)	-	(250,000)
Lease liabilities	15	2.91	(13,483)	(12,878)	(4,608)	(2,054)	(33,023)
Floating rate							
Revolving credit	35	3.44	(137,803)	-	-	-	(137,803)

Floating rate							
Revolving credit	35	4.06	(85,000)	-	-	-	(85,000)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(d) Interest rate risk (contd.)

The following tables set out the carrying amounts, the weighted average effective interest rates (“WAEIR”) as at the reporting date and the remaining maturities of the Group’s and of the Company’s financial instruments that are exposed to interest rate risk: (contd.)

At 31 December 2022	Note	WAEIR %	Within 1 year RM'000	1-2 years RM'000	2-5 years RM'000	> 5 years RM'000	Total RM'000
Group							
Fixed rate							
Deposits with licensed banks and other financial institutions	27	2.16	131,244	-	-	-	131,244
IMTNs	35	4.25	-	-	(250,000)	-	(250,000)
Lease liabilities	15	2.54	(12,744)	(12,136)	(16,074)	-	(40,954)
Floating rate							
Revolving credit	35	2.61	(101,732)	-	-	-	(101,732)
Term loans	35	4.69	(25,379)	(26,563)	(55,076)	-	(107,018)
Company							
Fixed rate							
Deposits with licensed banks and other financial institutions	27	3.27	9,000	-	-	-	9,000
IMTNs	35	4.25	-	-	(250,000)	-	(250,000)
Lease liabilities	15	4.00	(9,700)	(6,934)	(13,967)	-	(30,601)
Floating rate							
Revolving credit	35	2.45	(52,000)	-	-	-	(52,000)

Interest on financial instruments subject to floating interest rates is contractually repriced at intervals of less than 12 months. Interest on financial instruments at fixed rates are fixed until the maturity of the instruments. The other financial instruments of the Group and of the Company that are not included in the above tables are not subject to interest rate risks.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(e) Market price risk

Market price risk is the risk that the fair value or future cash flows of the Group’s financial instruments will fluctuate because of changes in market prices (other than interest or exchange rates).

The Group is not exposed to equity price risk arising from its investment in quoted equity instruments.

(f) Fair value

Financial instruments that are not measured at fair value and whose carrying amounts are reasonable approximation of fair value

Included in these classes of financial instruments are certain financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value:

	Note
Trade and other receivables	22
Cash, bank balances and deposits	27
Borrowings	35
Trade and other payables	36

The carrying amounts of these financial assets and financial liabilities are reasonable approximation of fair values due either to the short term nature or insignificant impact of discounting or that they are floating rate instruments that are repriced to market interest rates on or near the reporting date.

Determination of fair value

The following table provides the fair value measurement hierarchy of the Group’s financial assets

Level 2 - significant observable input	Group	
	2023 RM ‘000	2022 RM ‘000
Assets measured at fair value:		
Short term investments	26,616	97,178

The valuation date of these financial instruments is 31 December 2023 and 2022, respectively. There have been no transfers between levels during the period.

Short term investments are valued based on currently available deposits with similar terms and maturities.

42. CAPITAL MANAGEMENT

The primary objective of the Group’s and of the Company’s capital management is to ensure that they maintain a strong credit rating and healthy capital ratios in order to support their business and maximise shareholder value. The Group and the Company also aim to maintain a capital structure that has an appropriate cost of capital available to the Group and the Company.

In order to achieve this overall objective, the Group’s capital management, among other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches of the financial covenants of any interest-bearing loans and borrowing in the current period.

The Group and the Company manage capital by reference to the debt to asset ratio. The Group’s and the Company’s debt to asset ratio is as follows:

	Group		Company	
	2023 RM’000	2022 RM’000	2023 RM’000	2022 RM’000
Term loans	102,060	107,018	-	-
Revolving credit	137,803	101,732	85,000	52,000
IMTNs	250,000	250,000	250,000	250,000
Total debt	489,863	458,750	335,000	302,000

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

43. SEGMENT INFORMATION

(a) Business unit segments

For management purposes, the Group is organised into business units based on their products and services, and reflect the Group’s offerings across different sectors as follows:

Asset Management

The asset management segment provides integrated facilities management and engineering contracting services for a range of assets and building types specialising in healthcare support and property and facility solutions.

(i) Healthcare support

The healthcare support division delivers optimal solutions in improving the non-clinical support services demanded by healthcare providers and other commercial industries.

Services range from facilities and biomedical engineering maintenance, waste management, linen and laundry, to housekeeping and portering services.

(ii) Property and facility solutions (“PFS”)

The PFS division offers integrated facilities management services complimented with technology-driven green building solutions and asset optimisation, with a focus on enhancement and energy solutions.

Infrastructure Solutions

Infrastructure solutions segment provides strategic advisory services, design, development, maintenance and management of major transport projects and infrastructure assets.

(i) Asset consultancy

The asset consultancy division provides advisory and planning, engineering design and consultancy, property and community consultancy, research and development, procurement and construction planning, project and construction management, and asset and facilities management.

(ii) Infrastructure services (“IS”)

The IS division focuses on highway network maintenance and asset management, including innovative pavement works and solutions services; with expanded capabilities beyond roads, servicing multiple industries including rail, airports, ports, oil and gas, plantation roads and other commercial and industrial sectors.

43. SEGMENT INFORMATION (CONTD.)

(a) Business unit segments (contd.)

Others

Other segment includes the business of developing residential properties and Group-level corporate services and investment holdings.

Except as indicated above, no operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which, in certain respects as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements.

(b) Geographical segments

The Group’s geographical segments are based on the location of the Group’s assets. Sales to external customers disclosed in geographical segments are based on the geographical location of its customers. The Group’s business segments operate in six geographical areas:

- (i)

Malaysia - the operations in this area are principally integrated facilities management, consultancy services, infrastructure maintenance, geotechnical investigation, instrumentation, pavement condition assessment works, township management, property development and investment holding.
- (ii)

Indonesia - the operations in this area are principally consultancy services and road infrastructure.
- (iii)

Middle East - the operations in this area are principally integrated facilities management and asset management consultancy services.
- (iv)

Singapore - the operations in this area are principally integrated facilities management.
- (v)

Taiwan - the operations in this area are principally integrated facilities management.
- (vi)

India - in the previous year, the operations in this area were principally integrated facilities management.

43. SEGMENT INFORMATION (CONTD.)

Information about major customers

Revenue from two (2022: two) major customers amounted to RM870.8 million and RM466.0 million (2022: RM635.1 million and RM450.2 million) respectively, arising from services rendered in the Infrastructure Services and Healthcare Support segment.

44. SIGNIFICANT EVENTS

- (a) On 29 September 2022, EAL, a wholly-owned subsidiary of the Company, entered into a Share Purchase Agreement and Shareholders Agreement with Mohammed Ibrahim Al-Subeaei and His Sons Investment Company for the proposed investment in MEEM, through a 60% equity interest buy-in by EAL. The transaction was completed on 21 March 2023.

The cash consideration, amounting to SAR 11 million (equivalent to approximately RM 12.9 million), is related to the acquisition of 2,644 ordinary shares. Each share was priced at SAR 4,160, comprising SAR 1,000 of nominal value and a premium of SAR 3,160. The fair value of identifiable assets and liabilities of MEEM at the date of acquisition were as follows:

	Fair value recognised on acquisition RM'000
Plant and equipment	1,191
Intangible assets - computer software	12
Rights-of-use assets	305
Trade and other receivables	5,892
Cash and bank balances	13,327
Trade and other payables	(4,319)
Lease liabilities	(330)
Defined benefit pension plan	(1,901)
Net asset acquired	14,177
Less: Non-controlling interests	(5,670)
Group's share of net assets	8,507
Identifiable intangible assets	
Customer contract	1,279
Customer relationships	524
Deferred tax liabilities	(205)
Less: Non-controlling interests	(722)
Total identified assets	9,383
Purchase consideration	12,933
Goodwill on acquisition	3,550

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2023

44. SIGNIFICANT EVENTS (CONTD.)

- (a) Arising from the business combination, the Company performed a purchase price allocation exercise resulting in the recognition of intangible assets relating to customer contract and customer relationships of RM1.3 million and RM0.5 million, respectively.

The effect of the acquisition on cash flows was as follows:

	RM'000
Purchase consideration satisfied by cash	12,933
Cash and cash equivalent of the subsidiary acquired	13,327
Net cash inflow on acquisition of the subsidiary at acquisition date	394

The effect of the acquisition on the financial results of the Group from the date of acquisition to 31 December 2023 is as follows:

	RM'000
Revenue	31,767
Profit for the year	180

- (b) On 2 December 2023, Edgenta International Investments L.L.C (“EII”), an indirect wholly-owned subsidiary of the Company, entered into a Sale and Purchase Agreement with NW Kaizen Holding Limited for the proposed acquisition of 60% equity interest in Kaizen Owner Association Management Services L.L.C (“KOA”) and Kaizen AMS Property Supervision L.L.C (“KAMS”).

As at 31 December 2023, the transaction has no financial impact to the Group and the Company.

45. SUBSEQUENT EVENTS

The transaction as described in Note 44(b) has been completed on 7 February 2024.

46. SIGNIFICANT CONTINGENT LIABILITIES

As at 31 December 2023, there are no significant contingent liabilities since the material litigation cases previously disclosed as contingent liabilities in the previous financial years have been resolved.

Bursa C7(a) Proportion of spending on local suppliers	Percentage	99.67	99.95	99.40	98.88
Bursa (Data privacy and security)					
Bursa C8(a) Number of substantiated complaints concerning breaches of customer privacy and losses of customer data	Number	-	-	-	0
Bursa (Water)					
Bursa C9(a) Total volume of water used	Megalitres	0.350000	0.400000	0.540000	0.510000
Bursa (Waste management)					
Bursa C10(a) Total waste generated	Metric tonnes	-	-	567.45	1,498.97
Bursa C10(a)(i) Total waste diverted from disposal	Metric tonnes	-	-	10.60	604.93
Bursa C10(a)(ii) Total waste directed to disposal	Metric tonnes	-	-	556.85	894.04
Disclosure of three years of hazardous waste generation (tonnes)	Metric tonnes	-	-	512.41	724.54
Disclosure of three years of non-recycled waste generation (tonnes)	Metric tonnes	-	-	567.45	1,498.34
Disclosure of three years of waste recycled (tonnes)	Metric tonnes	-	-	0.05	0.63
Bursa (Emissions management)					
Bursa C11(a) Scope 1 emissions in tonnes of CO2e	Metric tonnes	5,589.84	5,279.65	10,356.05	10,031.63
Bursa C11(b) Scope 2 emissions in tonnes of CO2e	Metric tonnes	3,092.88	2,363.15	7,220.81	6,835.08
Bursa C11(c) Scope 3 emissions in tonnes of CO2e (at least for the categories of business travel and employee commuting)	Metric tonnes	279.56	292.79	2,285.63	2,877.29

1. The scope of Internal Assurance made on selected indicators is Malaysia Operations only

2. Anti-corruption training is made compulsory for all employees. However, we are not able to disclose the actual number of hours spent on this training as these have been combined with hours spent on other risks & integrity training modules. We will take steps to track this indicator separately in the future.

GRI CONTENT INDEX

UEM Edgenta Berhad has reported the information cited in this GRI content index for the period 1 January 2023 to 31 December 2023, with reference to the GRI Standards.

GRI STANDARD	DISCLOSURE		LOCATION
GRI 2: General Disclosures	2-1	Organisational details	Overview Of UEM Edgenta, page 4-19
	2-2	Entities included in the organisation’s sustainability reporting	Sustainability At UEM Edgenta, page 109

UEM Edgenta Berhad has reported the information cited in this FTSE4Good content index for the period 1 January 2023 to 31 December 2023, with reference to FTSE4Good Bursa Malaysia (F4GBM) Indicators.

Pollution and Resource			
Indicator Code	Indicator	Indicator Question	Location
EPR02	Waste - policy or commitment statement to:	a) Address the issue	Environment Management, page 138
		b) Reduce or avoid the impact or improve efficiency	Environment Management, page 138
EPR03	Resource use - policy or commitment statement to:	a) Address the issue	Environment Management, page 138
		b) Reduce or avoid the impact or improve efficiency	Environment Management, page 139
EPR12	Independent verification of operational environmental data:	a) Independent verification by third party	Environment Management, page 138
		b) International assurance standard used and level of assurance declared	Environment Management, page 138
EPR24	Disclosure of three years of hazardous waste generation (tonnes)	Current Year	Environment Management, page 140
		T minus 1 Year	Environment Management, page 140
EPR25	Disclosure of three years of non-recycled waste generation (tonnes)	Current Year	Environment Management, page 140
		Current Year non-recycled waste generation	Environment Management, page 140
		T minus 1 Year	Environment Management, page 140
		T minus 1 Year non-recycled waste generation	Environment Management, page 140
EPR26	Disclosure of three years of waste recycled (tonnes)	Current Year	Environment Management, page 140
		Current Year waste recycled	Environment Management, page 140
		T minus 1 Year	Environment Management, page 140
		T minus 1 Year waste recycled	Environment Management, page 140
EPR28	Percentage of sites covered by recognised environmental management systems such as ISO14001 or EMAS	Year	Occupational Health and Safety, Page 145
		Name of the system (ISO14001, EMAS, OR Others)	Occupational Health and Safety, Page 145
EPR13	Disclosure of working with others to reduce pollution, waste or resource use by:	a) Participation in specific local or global initiatives	Environment Management, page 138-142
		b) Collaboration with other companies such as making use of the same waste streams as inputs (such as industrial ecology)	Environment Management, page 138

FTSE4GOOD CONTENT INDEX

Supply Chain (ENV)			
Indicator Code	Indicator	Indicator Question	Location
ESC04	Supplier/sourcing policy or commitment statement that addresses:	a) Environmental issues	Supply Chain Management, page 125 Environmental Management, page 143
ESC05	Supplier/sourcing policy or commitment statement that addresses:	b) Resource use	Supply Chain Management, page 125
ESC10	Action taken to manage the environmental impact of suppliers through encouraging:	b) Impact reduction	Supply Chain Management, page 125
ESC12	Company involvement in initiatives, or commitment to frameworks, on environmental impacts in supply chain:	a) Participation in workshops or industry or topic-specific initiatives or collaboration efforts	Supply Chain Management, page 125 and 127
Water Security			
EWT24	Water management plan (including water recycling system):	a) Company discloses and details its water management plan at the company level/site specific	Environment Management, page 141
EWT08	Works with others to reduce water use by:	a) Participation in specific local or global Initiatives	Environment Management, page 141
		b) Collaboration with other companies operating at same sites such as making use of water waste streams as inputs (industrial ecology)	Environment Management, page 141
EWT13	Policy or commitment on water use reduction which:	a) Addresses the issue	Environment Management, page 143
Anti-Corruption			
GAC01	Bribery - Policy or commitment statement:	a) Addresses countering bribery	Corporate Integrity and Ethical Business Conduct, page 249
		b) Specifies countering at least 2 different forms of bribery related activities	Corporate Integrity and Ethical Business Conduct, page 249
GAC02	Anti-corruption - Policy or commitment statement:	a) Addresses anti-corruption	Corporate Integrity and Ethical Business Conduct, page 249 Business Ethics, page 112
		b) Specifies countering relevant forms of corruption (e.g. money laundering, obstruction of justice, etc.)	Corporate Governance Overview Statement, page 216
GAC05	Confidential or anonymous whistle-blowing mechanism for staff covers:	a) Elements/types of corruption including bribery	Business Ethics, page 112 Corporate Integrity and Ethical Business Conduct, page 249
GAC07	Communication of anti-corruption policy to all employees covers:	a) Elements/types of corruption including bribery	Business Ethics, page 115 Corporate Integrity and Ethical Business Conduct, page 249
		b) Anti-corruption comprehensively	Business Ethics, page 115 Corporate Integrity and Ethical Business Conduct, page 249

FTSE4GOOD CONTENT INDEX

Anti-Corruption (Cont'd)			
Indicator Code	Indicator	Indicator Question	Location
GAC13	Disclosure of number of staff disciplined or dismissed due to non-compliance with anti-corruption policy/policies	Current Year	Business Ethics, page 114
		Staff disciplined (Number)	Business Ethics, page 114
GAC08	Training for staff on the anti-corruption policy covers:	a) Elements/types of corruption including bribery	Business Ethics, page 115
GAC09	Corruption risk assessment for company operations covers:	a) Elements/types of corruption including bribery	Corporate Integrity and Ethical Business Conduct, page 251
Corporate Governance			
GCG50	Percentage of women on the Executive committee or equivalent	Percentage of women on the Executive committee or equivalent	Employment Culture, page 164
		Year	Employment Culture, page 164
GCG46	There is a fully non-executive Audit Committee or Audit Board with:	a) At least half independent members	Corporate Governance Overview Statement, page 218
GCG47	There is a fully non-executive Remuneration Committee with:	a) At least half independent members	Corporate Governance Overview Statement, page 218
GCG03	Number of Board Directors	Number	Employment Culture, page 163 Corporate Governance Overview Statement, page 223

STATEMENT OF ASSURANCE

To enhance the credibility of our reporting, selected aspects of this Sustainability Statement have undergone an internal review by the Group's Internal Auditors and received approval from the Board Audit Committee.

The Scope and Subject Matter(s) covered by the internal review are provided below:

Material Matters	Subject Matter	Scope
Anti-corruption	Percentage of employees who have received training on anti-corruption by employee category	All of UEM Edgenta's businesses in Malaysia
	Percentage of operations assessed for corruption-related risks	
	Confirmed incidents of corruption and action taken	
Community / Society	Total amount invested in the community where the target beneficiaries are external to the listed issuer	
	Total number of beneficiaries of the investment in communities	
Diversity	Percentage of employees by gender and age group, for each employee category	
	Percentage of directors by gender and age group	
Labour practices and standards	Total hours of training by employee category	
	Percentage of employees that are contractors or temporary staff	
	Total number of employee turnover by employee category	
	Number of substantiated complaints concerning human rights violations.	

*Note: In preparing the Subject Matter mentioned above, the performance of the internal audit work is guided by, in all material respects, the International Professional Practices Framework issued by the Institute of Internal Auditors and guided by the following sustainability frameworks and guidance:

- Bursa Malaysia's Sustainability Reporting Guide (3rd edition)
- The Global Reporting Initiative ("GRI") Standards
- UEM Edgenta's relevant policies and procedures

To consider and, if thought fit, to pass the following resolutions, with or without modifications:-

7. **Proposed Renewal of Existing Shareholders' Mandate for Recurrent Related Party Transactions of a Revenue or Trading Nature**
- Ordinary Resolution 9

“**THAT** pursuant to Paragraph 10.09 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad, approval be and is hereby given for the renewal of the shareholders' mandate for the Company and/or its subsidiaries (“UEM Edgenta Group”) to enter into recurrent related party transactions of a revenue or trading nature (“Proposed Renewal of Shareholders' Mandate”), which are necessary for the day-to-day operations in the ordinary course of business of UEM Edgenta Group and are on terms not more favourable to the related parties than those generally available to the public and are not detrimental to the minority shareholders of the Company, particulars of which are set out in Part A of Appendix I of the Circular to Shareholders dated 30 April 2024 **AND THAT** such approval shall continue to be in force until:-

(a) the conclusion of the next AGM of the Company following this AGM at which such mandate is passed, at which time it will lapse, unless by a resolution passed at such general meeting whereby the authority is renewed;

(b) the expiration of the period within which the next AGM of the Company after that date is required to be held pursuant to Section 340(2) of the Companies Act 2016 (“the Act”) (but shall not extend to such extension as may be allowed pursuant to Section 340(4) of the Act); or

(c) revoked or varied by resolution passed by the shareholders in a general meeting,

whichever is the earlier,

NOTICE OF THE 61ST ANNUAL GENERAL MEETING

AND FURTHER THAT the Directors of the Company and/or any of them be and are/is (as the case may be) hereby authorised to complete and do all such acts and things (including executing all such documents under the common seal in accordance with the provisions of the Constitution of the Company, as may be required) as they may consider expedient or necessary to give full effect to the Proposed Renewal of Shareholders' Mandate.”

8. **Proposed New Shareholders' Mandate for Additional Recurrent Related Party Transactions of a Revenue or Trading Nature**

“**THAT** pursuant to Paragraph 10.09 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad, approval be and is hereby given for the shareholders' mandate for UEM Edgenta Group to enter into additional recurrent related party transactions of a revenue or trading nature (“Proposed New Shareholders' Mandate”), which are necessary for the day-to-day operations in the ordinary course of business of UEM Edgenta Group and are on terms not more favourable to the related parties than those generally available to the public and are not detrimental to the minority shareholders of the Company, particulars which are set out in Part B of Appendix I of the Circular to Shareholders dated 30 April 2024 **AND THAT** such approval shall continue to be in force until:-

- (a) the conclusion of the next AGM of the Company following this AGM at which such mandate is passed at which time it will lapse, unless by a resolution passed at such general meeting whereby the authority is renewed;
- (b) the expiration of the period within which the next AGM of the Company after that date is required to be held pursuant to Section 340(2) of the Act (but shall not extend to such extension as may be allowed pursuant to Section 340(4) of the Act); or
- (c) revoked or varied by resolution passed by the shareholders in a general meeting,

whichever is the earlier,

AND FURTHER THAT the Directors of the Company and/or any of them be and are/is (as the case may be) hereby authorised to complete and do all such acts and things (including executing all such documents under the common seal in accordance with the provisions of the Constitution of the Company, as may be required) as they may consider expedient or necessary to give full effect to the Proposed New Shareholders' Mandate.”

9. To transact any other business for which due notice shall have been given.

BY ORDER OF THE BOARD

CHIEW SIEW YUEN
Company Secretary
(SSM PC No. 201908001259)
(MAICSA 7063781)

Kuala Lumpur
30 April 2024

NOTICE OF THE 61ST ANNUAL GENERAL MEETING

NOTES:

1. The 61st AGM would be held entirely via Remote Participation and Electronic Voting (“RPEV”) facilities through ConveneAGM meeting platform at <https://conveneagm.my/edgenta-agm2024>. Kindly refer to the Administrative Notes for the 61st AGM in order to register, participate and vote remotely via the RPEV facilities.
2. The venue of the 61st AGM is strictly for the purpose of complying with Article 68 of the Constitution of the Company which requires the Chairperson of the meeting to be present at the main venue of the meeting. **No shareholders/proxy(ies)/corporate representative(s)** from the public will be physically present nor admitted at the Broadcast venue on the day of the 61st AGM.
3. A member of the Company entitled to attend and vote at the meeting, is entitled to appoint not more than two (2) proxies to attend, participate, speak and vote in his stead. A proxy may but need not be a member of the Company.
4. Where a member appoints more than one (1) proxy, the appointment shall be invalid unless he specifies the proportion of his shareholding to be represented by each proxy.
5. Where a member of the Company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one securities account (“Omnibus Account”), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each Omnibus Account it holds in the Company. An exempt authorised nominee refers to an authorised nominee defined under the Securities Industry (Central Depositories) Act 1991 which is exempted from compliance with the provisions of subsection 25A(1) of the Securities Industry (Central Depositories) Act 1991.
6. The instrument appointing a proxy shall be in writing under the hand of the Member or his attorney duly authorised in writing or, if the Member is a corporation, shall either be executed under its common seal or under the hand of two (2) authorised officers, one of whom shall be a director, or in the case of a sole director, by that director in the presence of a witness who attests the signature or of its attorney duly authorised in writing.
7. The instrument appointing a proxy must be deposited/ submitted via the following ways not less than forty-eight (48) hours before the time set for holding the AGM or any adjournment thereof:-
 - (i) By hardcopy form
The Proxy Form must be deposited at KPMG Management & Risk Consulting Sdn Bhd at Concourse, KPMG Tower, No. 8, First Avenue, Bandar Utama, 47800 Petaling Jaya, Selangor Darul Ehsan, Malaysia.
 - (ii) By electronic form
The Proxy Form can be electronically submitted through the ConveneAGM Meeting Platform at <https://conveneagm.my/edgenta-agm2024>. Please refer to the Administrative Notes for the procedures on electronic lodgement of proxy form.
8. For the purpose of determining a member who shall be entitled to attend this 61st AGM, the Company shall be requesting Bursa Malaysia Depository Sdn. Bhd. in accordance with the provisions under Article 63 of the Company's Constitution and Section 34(1) of the Securities Industry (Central Depositories) Act 1991 to issue a General Meeting Record of Depositors (“ROD”) as at 28 May 2024. Only a depositor whose name appears on the ROD as at 28 May 2024 shall be entitled to attend this 61st AGM or appoint a proxy(ies) to attend, participate, speak and vote on his behalf.

NOTICE OF THE 61ST ANNUAL GENERAL MEETING

Personal data privacy:

By submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, participate, speak and vote at the AGM and/or any adjournment thereof, a Member of the Company (i) consents to the collection, use and disclosure of the Member’s personal data by the Company (or its agents) for the purpose of the processing and administration by the Company (or its agents) of proxies and representatives appointed for the AGM (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the AGM (including any adjournment thereof), and in order for the Company (or its agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the “Purposes”), (ii) warrants that where the Member discloses the personal data of the Member’s proxy(ies) and/or representative(s) to the Company (or its agents), the Member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees that the Member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the Member’s breach of warranty.

9. Explanatory Notes on Ordinary Businesses:-

(i) To receive the Audited Financial Statements

Agenda Item No. 1 is meant for discussion only as the provisions of Sections 248(2) and 340(1) of the Act does not require a formal approval of shareholders for the Audited Financial Statements. Hence, this item of the Agenda is not put forward for voting.

(ii) Ordinary Resolutions 1 to 5: Re-election of Directors

The Nomination and Remuneration Committee (“NRC”) has considered the performance and contribution of each of the retiring Directors under Agenda Items No. 2 & 3 and has also assessed the independence of the Independent Non-Executive Directors (“INED”) seeking re-election.

Based on the results of the Board Effectiveness Assessment conducted for the financial year ended 31 December 2023, the performance of each of the retiring Directors was found to be satisfactory.

The retiring INEDs have also fulfilled the independence criteria set out in the Main Market Listing Requirements of Bursa Malaysia Securities Berhad and Malaysian Code on Corporate Governance.

The Board has endorsed the NRC’s recommendation to seek shareholders’ approval for the re-election of the retiring Directors. The retiring Directors, had abstained from deliberations and decisions on their re-election at the NRC and Board meetings.

The details and profiles of the Directors who are standing for re-election at the 61st AGM are provided in the Board of Directors’ section on pages 186 to 196 of the Company’s Annual Report 2023.

(iii) Ordinary Resolution 6: Payment of Directors’ Fees

The Directors’ fees under Agenda Item No. 4 is payable to each of the Non-Executive Directors, on a quarterly basis as follows:-

Directors’ Fees	Non-Executive Chairman		Non-Executive Director	
	Per Quarter (RM)	Per Annum (RM)	Per Quarter (RM)	Per Annum (RM)
Board	52,500	210,000	27,000	108,000
Audit Committee	12,500	50,000	7,500	30,000
Other Board Committees	6,250	25,000	3,750	15,000

NOTICE OF THE 61ST ANNUAL GENERAL MEETING

10. Explanatory Notes on Special Businesses:-

(i) Ordinary Resolution 9: Proposed Renewal of Existing Shareholders’ Mandate for Recurrent Related Party Transactions of a Revenue or Trading Nature

The proposed Ordinary Resolution 9, if passed, will allow UEM Edgenta Group to enter into recurrent related party transactions which are of a revenue or trading nature and necessary for UEM Edgenta Group’s day-to-day operations, subject to the transactions being carried out in the ordinary course of business and on terms not to the detriment of the minority shareholders of the Company.

In addition, it will eliminate the necessity to convene separate general meetings from time to time to seek shareholders’ approval as and when such recurrent related party transactions occur. This would reduce substantial administrative time and expenses associated with the convening of such meetings without compromising the corporate objectives of the Group or affecting the business opportunities available to the Group. The shareholders’ mandate is subject to renewal on an annual basis.

The details on the Proposed Renewal of Existing Shareholders’ Mandate for Recurrent Related Party Transactions of a Revenue or Trading Nature are set out in Part A of Appendix I of the Circular to Shareholders dated 30 April 2024.

(ii) Ordinary Resolution 10: Proposed New Shareholders’ Mandate for Additional Recurrent Related Party Transactions of a Revenue or Trading Nature

Ordinary Resolution 10 is to seek shareholders’ mandate in relation to additional recurrent related party transactions to be entered into by the Company and its subsidiaries.

This resolution, if passed, will enable UEM Edgenta Group to enter into recurrent related party transactions of a revenue or trading nature which are necessary for UEM Edgenta Group’s day-to-day operations, subject to the transactions being in the ordinary course of business and on normal commercial terms which are not more favourable to the related parties than those generally available to the public and are not to the detriment of the minority shareholders of the Company.

This mandate will eliminate the necessity to convene separate general meetings from time to time to seek shareholders’ approval as and when such recurrent related party transactions occur. This would reduce substantial administrative time and expenses associated with the convening of such meetings without compromising the corporate objectives of the Group or affecting the business opportunities available to the Group. The shareholders’ mandate is subject to renewal on an annual basis.

The details on the Proposed New Shareholders’ Mandate for Additional Recurrent Related Party Transactions of a Revenue or Trading Nature are set out in Part B of Appendix I of the Circular to Shareholders dated 30 April 2024.

STATEMENT ACCOMPANYING NOTICE OF 61ST ANNUAL GENERAL MEETING

(pursuant to Paragraph 8.27(2) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad)

Directors who are standing for re-election at the 61st AGM

The details of the Directors who are standing for re-election at the 61st AGM are provided in the Board of Directors’ section on pages 186 to 196 of the Company’s Annual Report 2023. None of the Directors have any interest in the securities of the Company and its subsidiaries.

1. The 61st Annual General Meeting ("AGM") would be held entirely via Remote Participation and Electronic Voting ("RPEV") facilities through ConveneAGM meeting platform at <https://conveneagm.my/edgenta-agm2024>. Kindly refer to the Administrative Notes for the 61st AGM in order to register, participate and vote remotely via the RPEV facilities.
2. The venue of the 61st AGM is strictly for the purpose of complying with Article 68 of the Constitution of the Company which requires the Chairperson of the Meeting to be present at the main venue of the meeting. **No shareholders/proxy(ies)/corporate representative(s)** from the public will be physically present nor admitted at the Broadcast venue on the day of the 61st AGM.
3. A member of the Company entitled to attend and vote at the meeting, is entitled to appoint not more than two (2) proxies to attend, participate, speak and vote in his stead. A proxy may but need not be a member of the Company.
4. Where a member appoints more than one (1) proxy, the appointment shall be invalid unless he specifies the proportion of his shareholding to be represented by each proxy.
5. Where a member of the Company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one securities account ("Omnibus Account"), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each Omnibus Account it holds in the Company. An exempt authorised nominee refers to an authorised nominee defined under the Securities Industry (Central Depositories) Act 1991 which is exempted from compliance with the provisions of subsection 25A(1) of the Securities Industry (Central Depositories) Act 1991.
6. The instrument appointing a proxy shall be in writing under the hand of the Member or his attorney duly authorised in writing or, if the Member is a corporation, shall either be executed under its common seal or under the hand of two (2) authorised officers, one of whom shall be a director, or in the case of a sole director, by that director in the presence of a witness who attests the signature or of its attorney duly authorised in writing.

By submitting an instrument appointing a proxy(ies) and/or representative(s), the member accepts and agrees to the personal data privacy terms set out in the Notice of Annual General Meeting dated 30 April 2024.
